GEOxyz is a Belgian based Offshore Survey Company, specialising in Geophysical, Geotechnical and ROV survey services. The GEO Group has entities in Belgium, France, The Netherlands, Luxembourg and UK. The Group has ISO accreditations and is a member of Achilles, UVDB and IMCA.

GEOxyz's mission is to create value for our client's international projects based on our enhanced data acquisition in the "on and offshore" environments, combining state of the art equipment, people and in-house solution capability.

GEOxyz's vision is to provide innovative solutions and tools to support the increasing demand in high level data acquisition and processing for our "on and offshore" client base.
