# UNIVERSITY OF MAINE

## SCHOOL OF EDUCATION

*Established 1930*

### *Purpose*

The School of Education offers an excellent opportunity for secondary teachers, superintendents, principals and supervisors to obtain professional training in their field of work.

### *Admission*

Students who have had the first two years of college work in a liberal arts college or normal school enter the School of Education with junior standing. Those with a different type of training may enter as special students until junior standing is attained.

### *Aim*

It is not the policy to build up a large School of Education but rather to admit a limited number of men and women of high promise and give them a program of intensive training and individual attention.

### *Degrees*

The degrees of Bachelor of Science in Education and Bachelor of Arts in Education are conferred depending upon the preparation and field covered.

STUDENTS OF THE SCHOOL OF EDUCATION, 1931-32

## Hosea Buck '93 Receives Alumni Service Emblem

**H**OSEA B. BUCK, '93, of Bangor, a member of the Board of Trustees since 1921, was awarded the Alumni Service Emblem at the alumni-faculty luncheon held in Alumni Hall Saturday noon, November 7, as a feature of the first annual Home Coming Day of the University of Maine. Raymond H. Fogler, '15, ex-president of the General Alumni Association, presented the award amid a stirring burst of enthusiasm.

Over 240 Maine men and women attended the luncheon, the program for which included the main speaker of the day, Robert H. Fernald, '92, son of the late Dr. Merritt L. Fernald, president of the University, and Dean of the Towne Scientific School at the University of Pennsylvania. Dr. Fernald took for his subject, "This Scientific Era." After President Harold S. Boardman had introduced him to the gathering, Dr. Fernald traced the major developments in invention and discovery since the first century, marvelling at the great numbers of discoveries still being made. He soon came to the main point of his interesting and instructive talk when he said: "The higher executive positions throughout the country are calling for men with a scientific or technical educational background. Should we not give, then, greater thought to the type of education that will best qualify our graduates for the positions that they are to occupy at 40 rather than giving too much emphasis to the jobs they are to hold at 23? Ultimately, this means placing our scientific and technical courses upon a graduate basis, the Bachelor of Arts degree being required as a pre-requisite."

Coaches Brice and Jenkins spoke briefly on football and track at the University, explaining the difficulties encountered during the season and the prospects for the remainder of the year.

Classes having the highest number of reservation tickets turned in at the luncheon included the following: 1905 and 1914 led with 8 apiece; 1915 and 1918 came a close second, both having 7; 1910 and 1917 were third with 6 apiece; while 1909 turned in 5 and the class of '93 four. There were more cards turned in than represented above, but many were not signed, and a total check-up thus made impossible.

A sketch of Hosea B. Buck's qualifications for the Alumni Service Emblem show very clearly why he was picked to receive the honor which last year was presented to Harry E. Sutton, '09. Among the points mentioned by Mr. Fogler are the following: He was one of the organizers of the University Store Company, and was a trustee of the company for many years; a member of the original members of the Grandstand Corporation; a member of the athletic board for many years and chairman from 1915 to 1919; a member of the Memorial Gymnasium-Armory

committee; one of the directors of the Memorial Building Committee until June, 1925; active in soliciting funds which made possible the building of Alumni Hall; has been a member of the board of trustees since 1921 and is now serving his fourth term; a member of the executive committee for the past ten years, having been chairman for the last five. He has helped many students obtain summer work and has aided students financially in completing their college course. He established the William Henry Parker Scholarship of \$1,000.

Dean Paul Cloke and the faculty of the College of Technology acted as hosts during the morning program. From ten in the morning to eleven, Tau Beta Pi members conducted parties about the campus who were interested in inspecting electrical, mechanical, chemical and civil laboratories. Many groups of alumni browsed about wherever they wished and renewed contacts with professors begun many years ago. Crosby Laboratory presented a most interesting sight, as every machine in the large shop was running during some part of the morning's program.

At eleven o'clock, brief talks were given by the heads of departments of the College of Technology in Wingate Hall, Dean Paul Cloke presiding.

The day's program ended with the Bowdoin-Maine football game, when those who attended watched Bowdoin go down to a 20-0 defeat, a fitting ending for a day long to be remembered in University history as Maine's first Home Coming.

The board of trustees at a meeting November 7 voted to have Home Coming Day supersede Maine Night as a University function. At a meeting of the Alumni Council on November 8, sentiment was also unanimously in favor of continuing Home Coming Day as an alumni activity. Thus the executive groups of both the University and the Alumni body have heartily endorsed the innovation.

## Alumni Council Meeting

At the fall meeting of the Alumni Council held November 8, a motion was passed recommending to members of the General Alumni Association that the membership of the Council be increased by two, to a total of twenty, and that the minimum number of alumnae members be three rather than one as at present. This will be acted upon at the annual meeting of the association next June.

Arthur L. Deering, '12, president of the Alumni Association, presided. The appointment of Richard E. McKown as a

Recipient of the Alumni Service Emblem

## A New Fund for Scholarships

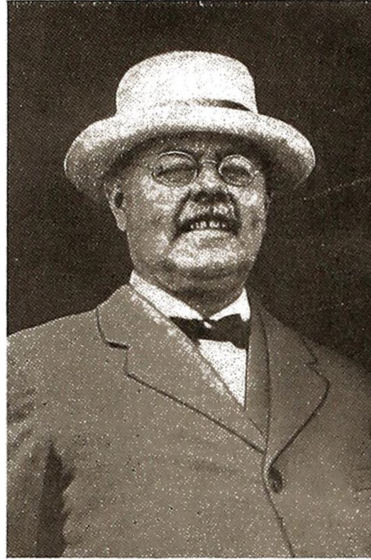

A new scholarship fund of approximately \$6,000 to be known as the Francis J. Hovey Fund, has just been announced by President Harold S Boardman as having been received by the trustees of the University.

Francis J. Hovey for 21 years a member of the organization of Stone and Webster Company of Boston, died January 30, 1931, at the age of 69 years. Born in Florence, Italy, he received his education at private schools in Switzerland and in this country, and at Harvard University in the class of 1873. Before taking a position with Stone & Webster, Mr Hovey was general manager of the Long Distance Telephone Company in New York. He was the most widely known man in the organization of Stone and Webster and was a counsellor and friend to all with whom he came in contact.

The Francis J. Hovey Fund was created in 1923 from contributions made by the firm of Stone & Webster and members of the organization in various parts of the country. A board of three trustees, one of whom was Howard Philbrook, '09, has administered the Memorial Fund for seven years and during this time two beneficiaries have graduated from the University of Maine. The securities and the fund were turned over to the trustees of the University on July 15, 1931.

The income of the \$6,000 fund is to be used for scholarships only to male students in undergraduate work in the College of Technology, and the award is to be based upon character as well as schol-

arship, as Mr Hovey would have wished. The *Stone and Webster Journal* for August, 1931, says concerning the fund: "His unflinching interest in young men

FRANCIS J HOVEY

prompted some of his associates to establish the Memorial Fund in his memory, and his especial interest in the University of Maine because so many of its graduates became connected with Stone & Webster makes the selection of the University of Maine as the recipient of the fund seem most appropriate."

### Alumni Council Meeting

(Continued from Page 47)

member of the Alumni Council was confirmed. Reports of several officers and committees were received as follows: Treasurer, Paul D Bray, '14, Finance Committee, T A Sparrow, '24, chairman, Memorial Fund Treasurer, Ralph Whittier, '02; Memorial Fund Committee, A L Deering, Memorial Fund Special Gifts Committee, H E Sutton, '09; Endowment and Donations, Charles E. Crossland, '17; Faculty Retirement Annuity Plan, R H Fogler, '15, Campus Landscaping and Planning, A L Deering, '12, and awarding of the Alumni Service Emblem, R H Fogler, '15.

Action was taken unanimously endorsing the vote of the Executive Committee which had authorized the substitution of Home Coming Day for Maine Night as an alumni activity. The Council recom-

mended to the University that another alumni directory be published in 1933.

Those who attended the meeting were A L Deering, '12, chairman, H E Sutton, '09, W R Thompson, '14, A L King, '14, H A Emery, '06, H A Cooper, '15, C Parker Crowell, '98; J L Ober, '13, R H Fogler, '15; G T Carlisle, '09, R W DeWolfe, '07, H S Buck, '93; R E McKown, '17, T A Sparrow, '24, C E Crossland, '17, F F Barrows, '31; M D Jones, '12.

Colby's beloved old professor, Dr Julian D Taylor, presented his college with a quarter million dollar gift towards the "New Campus for Old Colby" on Colby night, October 31. Dr Taylor, at the age of 85, is the dean of American professors, having taught Latin at Colby for 63 years, a record unequalled in this country. Colby College may well feel happy to claim Dr Taylor as her own.

## '26 Comes Through

H H Ayer, '24

c/o The Maine Alumnus

Dear "Hot".

Here is one answer; understand it is primarily to give you the information you requested and, as yours, a suggestion to other grads and the new ones coming.

Our group is justly proud of our "Round Robin". There are twelve of us, members of the class of 1926, and fraternity brothers. On one day in October, 1926—just a few months after we had all parted at Orono and set out in our various directions—"Ginger" Fraser wrote a letter to "Bump" Barrows, asked him to write of his doings and then send both letters to another brother and so on; the last to send all letters to "Ginger". The letters were twelve when they arrived back with "Ginger." He removed his original letter, wrote a new one, the rest of us in turn did likewise and so one of the following has just received our "Robin" and the rest are hoping he will write promptly. "Bump" Barrows, "Mossy" Burr, "Georgie" Cahill, "Zeke" Chase, "Hap" Crozier, "Baldy" Emmons, "Ginger" Fraser, Fred Holdsworth, "Mac" MacDonald, "Bill" True, "Ed" Waterhouse, and "Gid" Wing. Our "Round Robin", if hurried, can make the trip, which includes a hop to California and return, four times a year.

Three reunions have come about since our departure from Orono and the "Robin" justly deserves some credit for these successful gatherings and chances to talk of the "good old days." The first was at the summer home of Mrs Edith McColium at Deer Isle, Maine; another at the Maine-Yale football game at New Haven in 1930, and the latest at Commencement last June. Home Coming Day should be another, although plans were proposed and made for Maine Night.

We can honestly say there are absolutely no delinquent members in our group, there has never been the need of sending out a tracer. In passing, the writer one time spent the entire month of August in a Philadelphia Hospital flat on his back; at the halfway period the "Round Robin" put in its appearance—to say more is futile, you won't know the feeling and emotion until you experience it yourself. But the "Robin" was not all; separate letters came pouring in from the members of this group.

Speaking for our gang, we congratulate you, Mr Ayer, and your group and sincerely wish long life to your letters. You have it on us in years, surely, but we have the numbers. Incidentally, if you do have a challenge in mind, let us know.

William True, Jr, '26

# ATHLETICS

### Maine Champions

For the first time since 1926, the Brice-men emerged from the football season crowned with the laurels of victory and an undisputed State Series Championship.

By upsetting Bates, 9-6, the blue warriors got off to a good start. In the Colby game the following Saturday, the Bears flashed their best football of the year to whip a powerful White Mule, 19-7. Robertshaw, who replaced the injured Romansky at fullback to start the game, cracked the Colby line again and again for long gains. Favor, a new sophomore light in Maine football heavens, made long gains, several times placing the ball in scoring position. The *Bangor Daily News*, in writing up the game said, "Maine displayed one of the hardest hitting teams that ever ran on the Severns field as they blasted the vaunted attack of the Mules and attacked with a skill and precision that was beautiful to watch." The final game of the season, held on Alumni Field against Bowdoin, ended in a 20-0 victory for the Bricemen. A little out of trim and hindered by fumbles, the Bears, however, had little trouble in keeping the Polar Bears outside their 20 yard line and although 3 scores were lost at last minutes of play, the 20-0 score bears evidence of power and driving force behind the Pale Blue team.

Although Favor, Robertshaw, Roman-sky, Fickett and Aldrich have taken much of the football limelight, one cannot point too definitely to any one man, for the team as a unit played consistently good football, especially during the State Series games

Those who won letters included. Seniors, L. C. Fickett, E. W. Buzzell, W. E. Riley, A. F. Kiszona, J. M. Sims, M. A. Hincks, D. L. Lester, C. L. Arnold, W. C. Robbins, H. I. Trask, F. J. McCabe, F. S. Bagley, R. A. Smith, G. S. Hayes, O. L. Rumazza; Juniors, J. Pike, S. H. Calderwood, F. A. Craig, J. F. Wilson, G. T. Robertshaw, H. W. Lewis, M. F. Means, M. Romansky; Sophomores, K. E. Aldrich, D. E. Favor, P. S. Parsons; D. C. Blake, Mgr. M.; K. C. Foster and T. M. Hersey—aMa for Assistant Man-agership.

The January issue will contain prospects for next season.

Feb. 26	Fort Fairfield at Fort Fairfield

### Hill and Dalers

Beginning their season with wins over Conn Aggies on October 10, and Bates on October 23 to cop the State championship, Coach Jenkins' hill and dalers journeyed to Boston November 9 and placed third in the New Englands with 98 points. New Hampshire emerged victorious with a score of 52, followed by M.I.T. in second place. Harry Booth finished fourth in the pack for Maine and "Ev" Gunning fifth, the remaining Maine places being 27th, 30th, and 32nd.

By gaining a lower score than Bates, Maine retired the trophy, a large, handsome, loving cup, donated by the late Major Frank H. Briggs. Both teams had gained four legs on the cup and it had been decided beforehand that the team having the lowest score in the New Englands should have the cup permanently.

In the Intercollegiate Cross Country Meet held in New York, November 16, Maine dropped from sixth place, which she occupied last year, to tenth place. Harry Booth, the first Maine man to cross the line, placed 25th, followed by Maine men in the following places: 30, 62, 63, 75.

### Frosh Athletics

Although "Phil" Jones' squad of ball carriers got off to a bad start, losing the first two games to M.C.I. and Bridgton Academy, the frosh improved by leaps and bounds during the remainder of the season, holding a powerful Hebron eleven to a scoreless tie, and defeating Higgins 37-6 and Coburn 13-7. Coach Jones, who was assisted by "Freddie" Burk and "Art" Lufkin, deserves much credit for rounding his charges into shape.

In cross country, the freshmen showed an especially strong aggregation, winning every meet of the season within the State and running two teams, A and B, in competition.

In the New Englands, the frosh took second place, Black finishing in fourth place, Drummond in sixth place and Saunders in ninth.

In the Nationals, both Black and Drummond finished well up in the van, both breaking the previous record of the course: Black, fourth, 14:35; Drummond, fourth, 14:44. The winning time was 14:13.

## On The Campus

The month on the campus is tinged very decidedly with affairs of the stage, as far as student activities are concerned. The Masque has produced a major play, judged by the club's critics to be one of the most successful in recent years; the players in the "Little Theatre" series have put on several productions, the Spanish Club is completing its final program for the annual operetta of the year. From all reports, Senor Louis Cabrera and his Spanish enthusiasts will produce one of the most vivid and interesting productions in the history of the organization.

The *Maine Campus*, weekly publication of the student body, after having been criticised for containing too much advertising and not enough reading matter, has appeared twice during the last four weeks with a six page edition. The editor has been besieged with a host of letters, most of them from the students expressing individual ideas of existing conditions on the campus. A Herbert Stevens, '12, wrote to the editor suggesting that the sons and daughters of Maine alumni who are now attending the University form a club and endeavor to see that the trophies, won by their fathers and mothers and their classmates, be cared for in a proper manner.

Two fraternity initiates sent out one night recently on their "mission", kidnapped the University's stag stallion from the barns and tied him to the front door of Colvin Hall. As the *Campus* put it, "Being, like all persons in their condition, dumb, lucky and innocent, they succeeded in leading the ferocious beast to its destination without mishap, but the next morning when he was discovered, there was a lack of volunteers to lead the animal back to his stall. After searching in vain for brave men, the authorities finally located four huskies from the Power Plant who took old Man-o-war back to the barns. When the lads heard what they had done, it is said that they dropped on their knees in fervent prayer of thanks that they were still alive."

The first issue of the *Freshman*, a paper published by the freshman class, appeared recently and was enthusiastically received. Cecil G. Fielder, M.C.A. secretary, is adviser of the editorial staff.

Columbia University has received over \$85,000,000 in money and gifts since 1890.

Work on the annual production of the Spanish Club, *Cielito Lindo*, is progressing rapidly under the direction of Senor Louis Cabrera, who has arranged to use several new dances this year.

Miss Natalie Anderson of Bangor will assist in the production, and Miss Marcia Alkeman, Miss Tilia Bell, Miss Dorothea Green, and Miss Helen Findlay in

DOROTHY SAWYER  
who will have a leading part in the  
Spanish operetta

conjunction with John Stinchfield will have dancing specialties. Miss Ruth Hamor, Carleton Hayes, Charles Striften, Luthan Crosby, Frances Pascarelli, and Lewellyn Stearns have been chosen soloists. Miss Dorothy Sawyer will take a leading part in the dancing.

Native costumes have been ordered by Senor Cabrera for use in the entertainment, and details of dress and scenery have received more attention this year than they have in former years. In order to prevent confusion a limited amount of tickets is being ordered with approximately one hundred reserved for the faculty and parents of the participants.

University of Missouri received last year two bequests amounting to about \$200,000 the income from which will be used as loan funds for ambitious and deserving students.

F. Drummond Freese, general manager of Freese's Department Store in Bangor, was elected president of the University Store Company at the annual meeting of the stockholders held at the University of Maine recently.

A member of the class of 1915, F. Drummond Freese became a stockholder of the Company last year. Other officers elected at the meeting were: Irving Pierce, treasurer, and Harold Bruce—manager of the Book Store—clerk.

Stockholders of the University Store Company, which is run in the interests of athletics at the University of Maine, include from the General Alumni Association—Raymond H. Fogler, '15, Donald Crowell, '15, F. Drummond Freese, '15, and Charles E. Crossland, '17, from the administration—Robert R. Drummond, '05, head of the department of German, James A. Gannett, '08, Registrar, Maurice Jones, '12, professor of Agricultural Economics and Farm Management, Benjamin C. Kent, '12, professor of engineering and drafting, from the student body—Maynard A. Hincks, '32, of Portland, James A. Sims, '32, of North Andover, Mass., and Swen E. Hallgren, '32, of Portland.

Directors chosen at the annual meeting were F. Drummond Freese, Donald Crowell, Robert R. Drummond, Maurice Jones and Maynard Hincks.

At a meeting of the Maine physics teachers, held at Colby College recently, the following members of the faculty attended: Dr. Crofut, Dr. and Mrs. Fitch, Professor and Mrs. Piston, Mr. and Mrs. Lefler, and Miss Helen Moore.

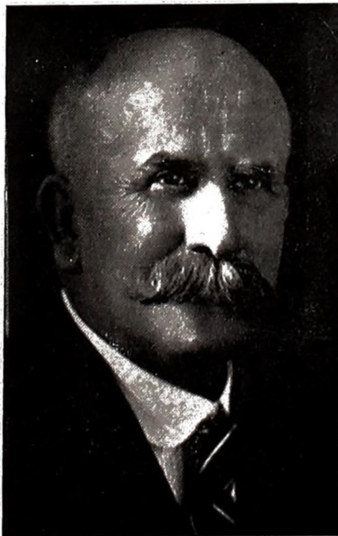

Major students and teachers in the Department of Spanish and Italian were entertained at dinner the evening of October 27 by Professor and Mrs. Roy M. Peterson.

Professor and Mrs. Stetler entertained at tea, Sunday afternoon, November 8.

Fraternity and sorority affairs during the last four weeks are listed below. Informal dances: North Hall, Tri Delta, Colvin Hall, Kappa Sigma, Delta Zeta, Delta Tau Delta, Phi Kappa Sigma, Sigma Alpha Epsilon, Sigma Nu, Lambda Chi, Phi Kappa, Phi Mu, Phi Gamma Delta, and Sigma Chi. Teas were given by Delta Delta Delta, Chi Omega, Pi Beta Phi. Sigma Chi held a banquet and showing of sound pictures, November 7.

## Three From the Class of '82

*James Herbert Patten*, a successful doctor and now living in Bar Harbor, graduated from the Maine State College in the School of Technology, having made a study of chemistry. He next entered the University of the City of New York in the Medical Department, receiving his M.D. in 1886. While at college, Dr. Patten was a member of Phi Gamma Delta. He has been very active in lodge affairs, having been Grand Patriarch of the Grand Encampment of the Maine I.O.O.F. in 1921 and at the present writing being Grand Master of the Grand Lodge I.O.O.F. of Maine. In 1897 he acted as representative in the State of Maine Legislature, and was a member of the Maine Senate from 1913 to 1914. Mr. Patten was back to attend Home Coming Day and expects to return again in June for his fiftieth.

*Charles Swan Bickford*, president of the General Alumni Association from '95 to '97, graduated from the Maine State College with a B.A. in science and literature, and now makes his home in Belfast. A member of Beta Theta Pi fraternity while in college, Mr. Bickford was also manager of the baseball nine during his last two years. Some of the public positions that he occupied up to the time of his retirement include: membership in the City Council, the School Committee—chairman for 25 years—and the trustees of Belfast Library, 1905 to 1923; trustee of the University, 1915 to 1925; corresponding secretary of the Alumni Association, 1888 to 1891; a member of the alumni council from its foundation to appointment as a trustee. He was also the first president of the Waldo County Alumni Association, organized in 1920. An alumni event held on the campus is an unusual happening if it is unattended by Mr. Bickford.

*Will Russell Howard*, the third member of the illustrious and loyal class of '82, is now a mathematics teacher and orchardist in Belfast, operating a large apple orchard of over 3,000 trees, from which he exports some of the fruit annually to England. Mr. Howard was principal of the Williamstown, Massachusetts, high school from 1911 to 1920 and in 1916 took up the duties of Superintendent of Schools. In the same year he was elected secretary-treasurer at the first meeting of the Waldo County Alumni Association. In 1922, Mr. Howard acted as the chairman of the 50th Anniversary Committee for the festivities held during Alumni Day. He introduced the seven living members of the class of 1872 and also rendered remarks of his own. Mr. Howard has been corresponding secretary of his class for many years.

Assistant Secretary, Frank F. Barrows, 1931, Orono

## Editorials

**A Fine Selection** The Alumnus can hardly add more to the genuine and enthusiastic applause which was given when Raymond H. Fogler, '15, announced at the Home Coming Day Luncheon that the Alumni Service Emblem had been awarded this year to Hosea B. Buck, '93, of Bangor.

One needs only to read the imposing list of services so well and so unselfishly rendered, to be satisfied that the recognition was merited. While the list of service is indeed an impressive one, it by no means is complete nor does it do Mr. Buck justice, for after all it has been his faith in the University and desire to see and willingness to help it make progress, that has been so much in evidence. Few, if any people, know the extent of his contributions, as measured in terms of time, thought, interest, and finance, to the welfare of the University and to her students.

Two distinguished alumni have received this honor, Harry E. Sutton, '09, having been the first recipient. May the same high standard of recognition of service to the Alumni Association and to the University be maintained in the future.

**Hovey Scholarship** Naturally, it is pleasing to the officials that the University should have been chosen to receive permanently the Hovey Memorial Fund, the income from which is to be used for scholarship purposes, thus perpetuating the name of Francis J. Hovey, who was known as a friend especially to young engineers in his organization.

The gift is in the nature of recognition of the fact that the University had trained many men who came to occupy responsible positions with Stone and Webster; and that the institution could use the fund to good advantage. Of the recognition we are proud; of the use which can be made of the fund, there can be no question, for the University is woefully in need of more scholarships and loan funds.

Alumni wish to express their appreciation to the Trustees of the Hovey Fund, for their action. We are confident their judgment will be justified and hope that as time goes on, those students who benefit from this action will perpetuate the ideals of the man whose memory is thus written into University history.

**They Came Home** If comments mean anything the first Home Coming Day was a success and will become an annual event, replacing Maine Night as an alumni activity. The program was by no means perfect, nor did all the machinery operate noiselessly and efficiently, but as an experiment, the results were encouraging.

Those who prefer enthusiasm as expressed in terms of long lusty cheers, and those who feel chief emphasis should be placed upon athletics, were probably disappointed, if there were any such who attended the events.

It may be mere optimism by those most interested, but it seemed as though there were more on the campus for hours prior to the game than heretofore. They chatted with friends, with faculty, or visited buildings. They learned more about the University.

Dr. R. H. Fernald's ('92) address at the luncheon was an outstanding feature of the day's program. The excellence of his remarks certainly was a factor in causing alumni to form a favorable opinion.

Next year changes will be made. We hope it may be a much bigger event than this year. So plan now to be on the campus November 5, 1932.

**Football Champions** After five seasons of waiting, much hard work and some disheartening breaks, we can now claim the state football championship undisputed. Congratulations to Coach Brice, his aides and to the players.

But for a couple of miscues, or call them breaks or what you will, the season would look much better. It was these same breaks which have put us out of the running the last season or two and which because of their recurrence in the early season games caused some uneasiness.

There appeared to be more team spirit and team play than for some time past. There was plenty of competition for nearly every position. When injury took a regular out, there seemed to be another almost if not quite as good to carry on. Only one or two regulars who were injured during the early or mid-season regained their position on the team. Such was the progress of the squad. They reached their zenith in the Colby game when plays were run off with unerring precision.

The series was a hard played one. The Bates and Colby contests surely were strenuous, at times distressing. Excellent sportsmanship was displayed in every game. Yes, it was a great season, with plenty to talk about when the winds whistle and the snow piles high.

## With the Local Associations

### Hall, '07, Elected President of Teachers' Association

William D. Hall, '07, principal of Castine Normal School was elected president of the Teachers Alumni Association at the annual meeting, held Oct. 29 at the Congress Square Hotel, Portland, attended by 110 teachers and alumni of Portland.

Robert Braun, prominent citizen of Portland, delivered the chief address, which was well received Arthur L. Deering, '12, president of the General Alumni Association, spoke briefly on Alumni Home Coming. Edward E. Chase, '13, and John T. Gyger, trustees, were guests.

Other officers elected besides Mr. Hall were, Joseph B. Chaplin, '18, Newport, vice-president; Sadie Thompson, '30, Old Town, treasurer; and C. E. Crossland, '17, Orono, secretary.

A plan was presented for raising a scholarship or Loan Fund but after some discussion the matter was tabled. Last year, several teachers contributed one dollar each toward the establishment of such a fund. C. A. Robbins, '00, made a further contribution this year. Other alumni, teachers especially, are invited to send gifts for this fund which will be held in a separate account.

The group joined heartily in singing under the leadership of Harry Belyea, '23, with Howard Reiche, '24, at the piano C. E. Crossland, '17 Sec.

### Monthly Meetings for Boston

The first of a series of monthly meetings by Boston alumni was held Monday evening, November 16, and its success assures the continuance of the plan.

Twenty-five Maine men gathered at the Boston City Club for dinner, and there followed an interesting discussion of Maine events and problems, past and present. Harry Sutton, '09, who among others present had attended the first Homecoming, gave a lucid report on the new plan and on many other matters as well. The sentiment expressed regarding the change from Maine Night was favorable. The evening slipped away before much bowling could be done but President McCusker announced that the latter activity, as well as faculty speakers, would feature more prominently in

*(Continued on Page 55)*

### Androscoggin Valley

Nineteen members of the Androscoggin Valley Alumni Association and eleven guests gathered at the Dewitt Hotel, Lewiston, on the evening of October 23rd, for the annual meeting. As is customary each year this meeting was held the night

HORACE J. COOK, '10

before the Bates football classic, lending a "Maine night" atmosphere to the occasion. The dinner was made especially successful by the singing of Maine songs and by musical numbers played by Gilman's orchestra.

Walter Emerson, '09, acted as toastmaster and introduced as the first item of business the election of officers for the coming year. The report of the nominating committee was accepted and the following officers elected—President, Horace J. Cook, '10, Auburn; vice-president, Charles Penney, '17, Lewiston, and secretary-treasurer, John L. Collins, '10, Auburn.

Coach Jenkins was next introduced. In a short talk he gave the group a fair picture of what Maine may hope to do in athletics this year. He said the boys would give a good account of themselves

### Chicago Alumni Hold Annual Dinner

The annual dinner and meeting of the Chicago Alumni Association of the University of Maine was held on Tuesday, November 17, 1931, in the rooms of the Interfraternity Club in the Palmer House, Chicago, Ill.

There were thirty present, including as guests, President Boardman, Dean Cloke, Dr. Griffie, Arthur L. Deering, and Prof. Pearl Greene.

The Palmer House served us a dinner that was really excellent in every way; and our President for the year treated us to cigars which made a fitting climax to the dinner. At the business meeting the following officers were elected for the coming year:

President, C. C. Whittier, '09; Vice-President, H. G. Jordan, '13; Treasurer, R. A. Seabury, '12; Secretary, G. E. La Marche, '11.

After the business meeting President Boardman gave us an informal talk on our University and its details, including the football season just ended. Prof. Greene then gave us an outline of her work on Home Economics and its purpose and described the new building in detail. Dean Cloke then gave us a talk along the lines of the relationship of engineering with liberal arts courses. Arthur L. Deering then gave a very good talk on topics in general, including Alumni, the Memorial Fund, Athletics, Homecoming, and laid stress on the needs of the University in the line of a Union Building, Chapel, scholarships, and the need for donations and endowments. He also congratulated our committee on the perfection of arrangements. Dr. Griffie then made a few remarks about the experiment station.

The following Alumni made brief remarks: Morse, Farrington, Totman, Davenport, Johnson, Weber, and Wiley.

The meeting then adjourned.

Geo. E. La Marche, '11, Sec.

against Bates—and, oh boy! they did. If all Maine games were like that, the question of gate receipts could be forgotten.

Very interesting talks were also made by Alumni Secretary Crossland on the needs of the University and by President Boardman on the position of our University in the present day field of education.

John L. Collins, '10

## Alumni Personals

### DEATHS

The Alumnus extends its most heartfelt sympathies to the friends and relatives of the following Maine men who have passed on to a better world.

'88 Notice has just reached the Alumni Office concerning the death of Harry F. Lincoln at Ariel, Washington, on September 24, 1931. Burial took place at Readfield, Maine. Mr. Lincoln was last employed as superintendent of the Phoenix Utility Company in Ariel, Washington.

'07 The Alumni Office has received a notice of the passing of Carroll C. Butterfield, a graduate of the College of Pharmacy, at his home in Skowhegan, recently.

'08 Blake McKinney passed away at his home in Wakefield, Massachusetts, Sunday, October 25. Born in 1885, he graduated from Bangor High School in 1904, worked in the drug business in Newport from 1912 to 1929, and in Bangor last winter in the State Street Pharmacy.

'31 Kenneth R. Muncy, formerly located in Plymouth, Massachusetts, died on September 7 at Franklin, New Hampshire, leaving behind him his wife, Mrs. Bernice Newton Muncy, and a three weeks old daughter, Gwendolyn.

### BY CLASSES

'82 Dr. James H. Patten of Bar Harbor was recently made Grand Master of the Maine Odd Fellows. Mr. Patten became an Odd Fellow in 1888. He received his medical education at the University of New York City, graduating with the degree of Doctor of Medicine in 1886. He has resided in Bar Harbor since 1909. Dr. Patten is a member of Unison Rebekah lodge, No. 107, and is affiliated with the Masonic fraternity.

'95 William Otis Sawtelle gave the regular weekly radio talk for the Bangor Chamber of Commerce on Monday, October 12. Mr. Sawtelle gave a very interesting talk, dealing with the early history of the State of Maine.

'98 Fred E. Burns is in the real estate business and is residing at 833 27th Avenue, No. 1, St. Petersburg, Florida.

'99 Dr. Leonard H. Ford was chairman of the Committee on Arrangements for the Armistice Day Parade of The American Legion in Bangor.

'00 Mrs. Graton, wife of Claude D. Graton, has recovered from a serious illness which kept her in the Royal Northern Hospital, London, England, for eight weeks during the past summer.

'03 Stephen E. Patrick, Director of Vocational Education, State Department of Education, gave an address on Vocational Commercial Education at the annual convention of the Aroostook County Teachers' Association, on Friday morning, October 16.

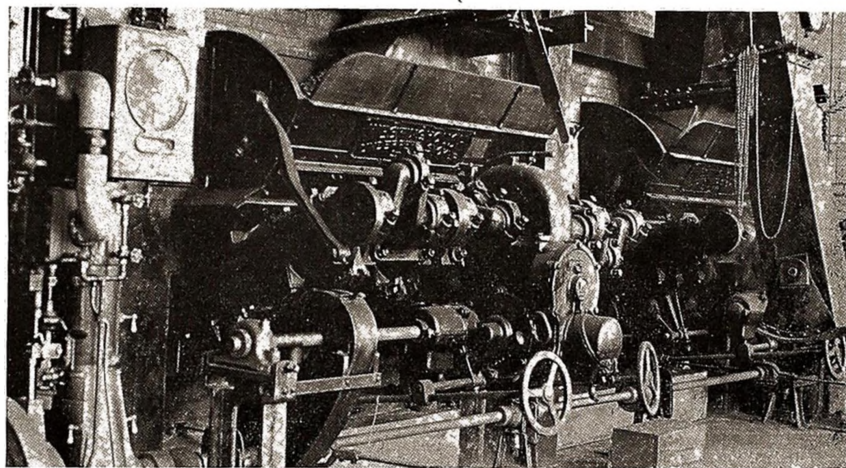

'04 Clifford G. Chase of Baring was elected president of the International Trade Council for the ensuing year at the annual meeting held at the St. Croix Hotel in Calais, recently.

## Power Plant Remodeled

Many are the stories of undergraduate days that have found their origin in the heretofore grimy environs of the University Power Plant. Class battles, fought on the coal pile and over the boilers themselves for possession of the fire whistle have created another tradition that is even now on the wane, due to improved conditions in the Plant.

As the ancient saying goes, "The old order changeth, giving place to new," for the Power Plant, under better management, has just been remodeled throughout into a thoroughly modern plant, a new chimney added, which is 7 feet in diameter and 150 feet high, and a new addition built on the old building.

Behind the new building, a coal pile fifteen feet high overshadows the rear entrance. From this seemingly endless conglomeration of nature's black rock, firemen of the plant operate the five boilers located within. In its path to the red-hot maws of the boilers, the coal takes a series of short journeys. Dug from the large pile, it is hoisted by means of an elevator to the upper regions of the building whence it enters a 20-ton bunker located over a pair of Richardson coal scales. Every few minutes, 200 pounds of coal are automatically weighed and dumped into the hoppers of the Westinghouse underfeed stokers found under the two, 290 horse power, H-type, Sterling

Allen M. Knowles is with the Bridge Department of the Erie Railroad Company. He is residing at 3166 Washington Blvd., Cleveland Heights, Ohio.

'05 W. J. Ricker of Turner was elected second vice-president of the Maine Pomological Society at their annual meeting held recently.

Walter J. Shaw is a chief electrical engineer with the Richard D. Kimball Company at 6 Beacon Street, Boston, Mass. His residence address is 16 Marion Road, Belmont, Mass.

Miss Mary N. Williams recently motored to Florida with her father to spend the winter. Her address is 810 East Lemon Street, Lakeland, Florida.

'06 George S. Owen of 240 Brighton Avenue, Portland, who is connected with the Asbestos Shingle, Slate & Sheathing Co., 604 Chapman Bldg., drops us an interesting note stating "Still located at same place, eating three a day and liking it, so no need of any personal mention."

'09 George T. Carlisle, Jr. of Bangor has been selected to serve on the executive committee of the Maine Lumberman-Landowners' Association.

A note from W. A. "Spin" Kimball of White Plains, N. Y., reads as follows:

"Same height, larger waistband, no bald spots yet. Advertising as a vocation, camping as an avocation and writing on camping and motor boating to a few of our outing magazines from time to time. Still a down easter from Maine despite the fact that I am supposed to be a New Yorker."

Dr. Charles W. Kinghorn was recently elected first vice-commander of the Henry Wallingford Post, American Legion at Kittery. Mr. Kinghorn is also a member of the new Kittery Lions Club.

Thomas A. Sanders of Portland was elected president of the Maine League of Loan and Building Associations at the annual meeting held Sept. 26 at the Poland Spring House.

'10 Horace J. Cook, Superintendent of the Auburn Water District, is a member of a State of Maine committee on unemployment, as announced by Dean Paul Cloke of the University, state chairman. This committee is cooperating with other state committees in making a study to formulate a program of relief measures.

Senator Frank Southard of Augusta spoke October 26 in Bangor City Hall in behalf of the Administrative Code Bill. Senator Southard spoke on the same subject before the Brunswick Rotary Club on Nov. 2.

The two CARLING TURBINES which drive the new stokers in the power plant were supplied by us.

We specialize in utilities that offer exceptional advantages to the user.

boilers, recently installed. These boilers, capable of 580 h.p., can be operated at a rating of 200%, compared with 750 h.p. and 150% on the five old H.R.T.'s. Two of the old boilers, by the way, were discontinued when the plant was made over. The two new boilers are also equipped with Buffalo forge fans driven by Carling turbines, and with Diamond soot blowers, which blow the soot from the tubes. Bailey boiler meters show at a glance whether or not the boilers are operating economically. The horizontal return tubers have been equipped with flow meters and the old boilers with Perfection semi-automatic stokers.

Engineer "Jack" Glover in a recent interview stated that about the only thing that had not been improved was the wheelbarrow. He had much to say concerning the class battles fought in the

Power House in years gone by and how one year especially, combatants straddled pipes filled with live steam in a valiant effort to gain possession of the coveted whistle.

Three graduated step-action damper, fan engine and pressure regulators are found among the new equipment, bought from Ruggles-Klingemann Manufacturing Company. The Fels Company of Portland and the Otto Nelson Company of Bangor were the general contractors in charge of construction.

**Monthly Meetings for Boston**

(Continued from Page 53)

future gatherings.

The monthly meeting plan is therefore off to a flying start. The next meeting will be at the same place, 6:30 Monday, December 21. Boston alumni please note

and assure yourselves of a most pleasant (and inexpensive!) evening by being present.

H. H. Ayer, '24, Secretary

**Schedule of Meetings**

- Dec. 5 Philadelphia Luncheon (first Saturday of each month) One o'clock. Benjamin Franklin Hotel.
- Dec. 7, 14, 21, 28 New York Luncheon (every Monday at 12:30) Planters Restaurant, 124 Greenwich St., Third Floor
- Dec. 14 Providence, Rhode Island—Monthly Luncheon (second Monday of each month) Dreyfus Hotel at 12 noon.
- Dec. 21 Boston—informal dinner—(third Monday each month) City Club, 6:30 P.M.

'11 Mr. William Hilton of Bangor, vice-president of the Great Northern Paper Co., is a member of the executive committee of the Maine Lumbermen-Landowners' Association, being selected at the annual meeting held recently.

Russell S. Smith is connected with the dairy and poultry products marketing activities of the Bureau of Agricultural Economics, U. S. Dept. of Agriculture. His address is 431 Railway Exchange Building, Portland, Oregon

'12 Frank C Cobb recently sent us the following information: "Mrs Cobb and I were privileged to visit the campus late in October, the first visit in 16 years. Everything about it was very pleasing. My office is located in a big Reservation given to the Boy Scouts by Arthur Brisbane, the journalist. It is the site of the famous "Deserted Village of Allaire" in the heart of N J. Any Maine folks coming this way are more than welcome. My home is in Interlaken, Asbury Park, and I'd be glad to see Maine people there, too."

Walter K Hanson of Bangor was elected vice-president of the Executive Board of the Katahdin Council, Boy Scouts of America, at the quarterly meet-

ing held in October.

'13 Edward E. Chase of Portland has been one of the prominent speakers in the campaign in connection with the Code Bill referendum in Maine.

The Blaisdell Automobile Company of Dexter has been reorganized and Frank W. Haines has been elected treasurer. This corporation is a well known establishment, having seven branches

'14 Roland E Stevens, principal of Lincoln Jr High School in Portland, addressed the meeting of the department of grammar and junior high schools at the City Hall Auditorium in Portland on Friday afternoon, October 30, as a part of the Maine Teachers' Association program

'15 Norman E Emmons is an electrical engineer with the New York Power & Light Corp., 112 State Street, Albany, N. Y. His residence address is 49 Eileen Street, Albany, N. Y.

W. W. Redman is located at Candia, N. H., eleven miles from Manchester where he has an 80 acre farm that he is operating

'16 Hon. Lewis O. Barrows of Newport, member of the Governor's Executive Council, recently spoke before

the Holden Grange and also the Brotherhood of the Hampden Congregational Church, giving an analysis of the Code Bill. Mr. Barrows has been one of the prominent speakers in the campaign in this connection.

Walter D. Emerson, associate professor at Norwich University, Northfield, Vt., has been elected a director of the Vermont State Chamber of Commerce and a vice-president of the Washington County (Vt.) Council of Religious Education. Mr. Emerson attended the meeting of the S. P. E. E. at Brown University, October 10.

'17 Harry E. Bickford, former county agricultural agent for Penobscot County, resigned to become manager of the Kenduskeag Cooperative Creamery, November 1.

Bryant L. Hopkins, secretary of the Maine Association of Engineers, Waterville, has been appointed a member of a State of Maine Committee on unemployment relief

Roger P. Merryman is a sales manager for Dennison Mfg. Company at 62 East Randolph Street, Chicago, Illinois. He is receiving mail at 4855 Hull Street, Niles Center, Ill

'18 Mr. and Mrs. R. N. Atherton announce the birth of a son, Raymon N. Jr., on October 17, 1931.

Miss Ruth Crosby of Bangor was elected a member-at-large of the executive committee of the Maine Home Economics Association at the annual meeting held in Portland, October 29, in conjunction with the meeting of the Dept. of Economics of the Maine Teachers' Association.

Frank Libby, business assistant to the General Manager of the Kalamazoo Vegetable Company, was a caller at the alumni office recently. Mr. Libby resides at 216 Riverview Drive, Parchment, Michigan

Roy Somers is now with the D Appleton Company in New York. He is receiving mail at 42 Lafayette Street, Portland

Lee Vrooman, dean of the International College, Smyrna, Turkey, who is spending a year in the United States, spoke before the New England regional conference of Congregational and Christian churches in Portland on October 17.

'20 Edward H. Brown, instructor in Agriculture at Norway High School is chairman of the Dept of Secondary School Agriculture in the Maine Teachers' Association

Dr. Harry Butler, of Bangor, spent five weeks of intensive ear, nose, and throat work at the University of Vienna this summer. Mrs. Butler accompanied him. They visited Berlin, Munich, Switzerland and Paris

Miss Flavia L. Richardson is studying at Johns Hopkins University, Baltimore, Md

'21 On Friday, October 15, 1931, at the Waldorf Astoria Hotel in New York City, Dr. Frank E. Barton, Jr., was made a fellow of the American College of Surgeons

## ELECTRICITY

puts the news on the street  
before the fans leave the arena

**A**S THE fight ends and final reports flash in, the last newspaper plate is made up and locked on the press cylinder. With the tiny click of a push button, the snap of contactors, the whirl of motors, the roar of press units, the fight edition goes to press. Each unit automatically controlled and perfectly synchronized with Selsyn elements — each section arrives at the folder at the correct instant. Sixty thousand papers an hour. To-day the dead-line is postponed — the news is red hot. The fight news is on the street before the crowd leaves the arena.

Since its beginning, the electrical industry has

worked hand in hand with the newspaper industry. To-day, the high-speed, newspaper press, with maximum outputs of 50,000 and 60,000 papers per hour, owes no small portion of its success to electricity and the skill of General Electric engineers.

For the last 30 years, college graduates in the employ of the General Electric Testing Department have played an important part in the development of newspaper equipment. Here they gain experience which enables them to apply electricity to the advancement of this and countless other industries.
