## Educational Conference in Paducah August 26

Frankfort, Ky., Aug. 13.—Nine educational conferences to be held over the state were announced by the Department of Education, today.

The conference which will begin Monday, Aug. 22, will extend through Friday, September 2, and will be held at Paducah, Henderson, Bowling Green, Elizabethtown, Lexington, Ashland, Hazard, Dry Ridge and Corbin.

McHenry Rhoads, state superintendent of public instruction, in announcing the conferences said they were to be attended by county superintendents, principals and teachers. Round table discussions will be held and it is the hope of the education department that the conference will develop and unify the system of teaching and the policies of the secondary schools throughout the state.

The department of education will authorize county school boards to pay the traveling expenses of all principals who attend the meeting, Mr. Rhoads said.

The time, place and counties in West Kentucky to be represented, follow:  
Paducah, Monday, August 22, Tilghman High school—Ballard, Caldwell, Calloway, Carlisle, Fulton, Graves, Hickman, Livingston, Lyon, Marshall, McCracken, Muhlenberg and Trigg counties.

## METHODIST CHURCH.

9:45 Sunday School—Callie A. Hale, Supt.  
7:30 P. M., Senior and Junior League.  
Prayer meeting Wednesday evening, 7:45.  
Come and be with us.  
R. M. Walker.

## Elbert H. Gary Dead

New York, Aug. 15.—Elbert H. Gary, chairman of the board of directors of the United States Steel corporation, and as such the virtual head of the American steel industry and a figure of the greatest importance in the American scene, died in his 67th year, at his home at 3:40 o'clock this morning. He was approaching his eighty first year.

He had been in ill health for six weeks, but the seriousness of his condition had reached the public ears only in vague rumors and so his death caught the country by surprise.

Mrs. Fern M. Keller of Chicago, is a business visitor in the city. Mrs. Keller formerly operated the LaFern Beauty Salon, here.

## Noted Kentucky Attorney Dies in Louisville

Louisville, Aug. 11.—Helm Bruce, attorney and a figure in Louisville's civic activities for years, died at 11:05 o'clock last night at St. Joseph's infirmary where he had been critically ill for several days. Mr. Bruce had undergone two operations in an attempt to save his life.

Helm Bruce was born in Louisville in 1860, the son of Horatio W. Bruce and Mrs. Elizabeth Barbour Helm Bruce. His father, an attorney, served in the Kentucky general assembly and in the Confederate congress and as chancellor in the Jefferson circuit court here.

Mr. Bruce was a director of the First National bank, the Kentucky Title Trust company and the Fidelity and Columbia Trust company.

As a Presbyterian churchman he was active in a variety of interdenominational church organizations. He engaged in the campaigns in behalf of both state and national prohibition and more recently had given active support to a movement to abolish parimutuel betting in Kentucky. He appeared before a committee of the 1926 general assembly in behalf of a measure to repeal the existing parimutuel law.

## James Oliver Curwood Dies

Owosso, Mich., Aug. 13.—James Oliver Curwood, author and noted conservationist, died at his home here tonight after an illness resulting from Staphylococcus infection, which had confined him to his bed since last Saturday.

Mrs. Curwood and one daughter, Mrs. Antonio Juris, of Detroit, and the son, a schoolboy, were with him when he died. Another daughter, Miss Viola Curwood, is convalescing from an illness in Albany, N. Y.

## Building Activities

Among the buildings in the course of erection in Murray are: Training school, auditorium on Normal campus; hosiery mill, S. 4th St.; W. S. Swan tobacco house, E. Poplar St.; homes—Dr. W. H. Mason, S. 9th St.; Dr. W. H. Graves, W. Poplar St.; Stanley Futrell, W. Olive St.; Charles Hise, and Noah McDaniel, near the Normal. Ryan's dry goods store is being extensively remodeled and will be quite handsome when completed. The First Christian church is undergoing repairs.

Beautiful new Jersey dresses worth \$10.00, only \$6.95 at Reynolds, Inc.

## SOILS AND CROPS FIELD MEETING

A "Soils and Crops" field meeting will be held at the Western Kentucky Experiment Substation farm near Princeton Thursday, August 25, according to S. J. Lowry, Supt.

An all day meeting will be held, beginning at 10 a. m., with the inspection of the several hundred experimental plots which are now under way at the farm. Every person attending the meeting will be given an opportunity to make a tour of these soil and crop test plots, which consist largely of experiments with liming materials, various fertilizers, crop rotations, and various crop variety tests.

The complete program for the day is as follows:

10 to 12 a. m.—Inspection of Experimental Plots and Crops.

12 to 1 p. m.—Lunch.

1 to 1:30 p. m.—Plans and Purposes of Soil Experiments, by J. F. Freeman, Supt. Ky. Soil Experiment Fields.

1:30 to 2 p. m.—Making Soils Productive, by S. C. Jones, Soils Specialist Extension Division, College of Agr., Lexington, Ky.

2 p. m.—The Opportunities of Western Kentucky, by Dean Thomas P. Cooper, Director, Ky., Agricultural Experiment Station.

All other departments of the Substation farm will be open to the public, but special emphasis will be placed upon soils and crops at this meeting. Soil fertility and crop production form the basis of all other branches of Agriculture and every farmer in this county should be interested in such a program as is offered by the Western Kentucky Substation. There should be a large attendance from this county.

## Teacher's Meeting in McCracken County

A number of the leading educators of western Kentucky will attend a two day conference of the teachers of the McCracken county rural schools, which will open Thursday morning at nine o'clock at the court house. The session will continue through Friday afternoon.

Among the speakers will be Dr. A. C. Burton of the Bowling Green Normal; Dr. William Ross Bourne, head of the department of education of the Murray State Normal, and Rainey T. Wells, president of the Murray Normal.

The teachers will be addressed by O. J. Jones, representing the state Department of Education, and J. B. Holloway, state high school supervisor, Frankfort. Music will be furnished by the Galloway male quartet of the Murray Normal. This quartet is in charge of Norman Galloway of the Murray State Normal.—Paducah News-Democrat.

## Mule-O-Grams— A Unique Service

We take pleasure in calling your attention to Volume 1, No. 1, of Mule-O-Grams, a unique service, found on page three of the Calloway Times. Mule-O-Grams is published in the interest of the people of Murray and vicinity by the Hood-Moore Lumber Co. Inc.

Newspapers are read for the news, humor and other features they contain. The Company will capitalize this reader interest by fusing the elements of news and humor into their advertising copy, so watch this space each week.

A party composed of Bernard Whitnel, in charge, Misses Fay Wall, Mary Williams, Genevieve Wells and Mary Wade, left Tuesday by motor for Venice, Fla., and other interesting points.

Miss Maryleona Bishop is visiting in Sturgis, Ky.

Misses Marion and Ruth Waterfield are visiting in Detroit.

## F. D. E. A. Heads Out- line Autumn Program

A conference of First District Educational Association officials was held last week at the Murray Normal when the program for the meeting, which will be held in Paducah, November 25 and 26, was outlined.

The conference was called by J. B. Hardeman, superintendent of Graves county schools, and president of the F. D. E. A.

Others present were, L. N. Holland, secretary, Cadiz; Mrs. Clyde Vaughan, second vice president, Kevil; K. R. Patterson, Mayfield, treasurer, succeeding Prof. Whittenberg; L. F. Hanifan and Walter Jettou, Paducah; President Rainey T. Wells, Dr. W. R. Bourne, Dr. Hire, Prof. E. H. Smith, and Miss Mary Moss, of the Murray Normal.

The officers of the educational organization decided to have the program include speakers of national fame, and also a Talent Night program will be given by talent of the First district.

Five of the thirteen counties of the First district have enrolled 100 per cent in the F. D. E. A. organization.

Mrs. G. B. Scott and little son, Buist, left today for a visit with relatives near Clarksville, Tenn.

## ENGINEER KILLED, THIRTY EIGHT INJURED

Westport, Tenn., Aug. 15.—A Gulf, Mobile and Northern railroad engineer was fatally injured, a Nashville, Chattanooga and St. Louis engineer was seriously hurt, and more than 35 passengers on N. C. and St. L. passenger train No. 113 were slightly bruised and shaken up here tonight as the result of a head on collision between the passenger train and a G. M. and N. freight train.

Terry M. Wood of Jackson, Tenn., died enroute to Paducah; W. H. Kane of Paducah, engineer of the passenger train, suffered a dislocated left shoulder, wrenched back and bruises on the head and body.

A. K. Walls of Paducah, fireman on the passenger train, and J. T. Lidell of Jackson, Tenn., the other fireman, escaped uninjured, despite the fact both engines were thrown from the track and demolished.

The accident occurred when the passenger train which was rounding a curve, crashed into the freight train, which was attempting to negotiate a siding by backing in. The engineer of the freight train was said to have told persons attending him that he had misjudged his time and had tried to back into the siding instead of going in head first to allow the passenger train to pass.

No passengers were seriously injured.

The N. C. and St. L. passenger train No. 103 left Memphis Tenn., yesterday afternoon at 1:15 o'clock enroute for Nashville, Tenn. The G. M. and N. freight train left Paducah yesterday morning at 10:45 o'clock enroute to Jackson, Tenn.

The damage to the G. M. and N. freight train was estimated at \$10,000. The damage to the N. C. and St. L. equipment has not been estimated.

Wrecking crews reached the scene of the wreck shortly after it occurred and commenced the work of clearing the tracks.

A relief train was sent from Bruceton, thirteen miles north of Westport, to take the passengers and injured to Nashville.

The N. C. and St. L. passenger train had eight coaches of passengers, one baggage car and one mail car. The two engines were thrown from the tracks and demolished and the baggage car of the passenger train half turned over.

The G. M. and N. engine, which Mr. Wood was piloting, turned over, pinning him beneath the boiler, where he was fatally scalded by the escaping steam. The dying engineer was dug out of the wreckage of his engine by Conductor Vallending, ham and another man, whose name was not learned. He was unconscious when brought out, but recovered sufficiently to talk while being rushed to Paducah.

## Young Hardin Man Buried at Olive

The remains of Reggie W. Anderson, aged 35, of Hardin, who was killed in a railroad accident at St. Louis, Aug. 4, were laid to rest in the Olive cemetery Tuesday, Aug. 9, with one of the largest crowds in that section in many years, attending the services.

Young Mr. Anderson was a veteran of the world war and was extremely popular in that section. He is survived by one son, Hugh Martin; his parents, Mr. and Mrs. P. R. Anderson, of Hardin; three sisters, Mrs. Julia Pentecost of Detroit; Mrs. Nellie Gordon and Mrs. Viola Walters, both of Paducah; Trout and Rex Anderson, of Hardin.

Funeral services were conducted from the home of Mr. Anderson's father, by Elder J. J. Gough. Burial was in the Olive cemetery.—Benton Tribune Democrat.

## Misses Sexton and Span to Teach in Cadiz

The school board of Cadiz has completed the list of teachers for the coming term of school and are now ready for the fall term which begins the first Monday in September.

Miss Eliza Span of Murray, has been employed as teacher of Latin and History in the High School.

Miss Ruth Sexton also of Murray, has been employed as teacher of Home Economics. She succeeds Miss Mary Hulett Broadbent, who resigned some weeks ago.—Cadiz Record.

Miss Sexton is the daughter of Mr. and Mrs. J. D. Sexton of this city and recently received a degree from the University of Illinois.

Miss Span, daughter of Mr. and Mrs. J. T. Span of near Murray, holds a degree from the Murray Teachers College.

## Let Nature Help Fight

Nature will make fields fertile if the farmer gives her a chance with her clovers and her legumes. She will help him fight insects and other pests if given a chance. Here is what the Southern Agriculturist has to say about this most important farm problem:

Much has been written lately about man's continual and expensive fight against the insects, which if left alone would destroy many of his crops. The fight has already been a long one; but it must go on if the world is to have an abundance of food.

As man has brought more acres under the plow, he has upset the nice balance which Nature had developed among her birds, her insects, her plants, her animals and her reptiles. When man drained a swamp to give him lands for cultivation, he deprived many birds of nesting sites and destroyed a huge incubator for the eggs of toads and frogs. With fewer toads and frogs to devour innumerable insects and with birds driven from their natural haunts, the farmer was forced to fight the insects which had been held in check by their natural enemies.

There is a great need at this time for the help which Nature can give the farmer in his battle with insects. Thickets on strips of waste land would allow the birds to build their homes and rear a family. Each bird family devours countless thousands of insects at a time when the farmer is busy with his crops.

Times \$1.00 per year.

## Candidates to Get Certificates Aug. 20

Frankfort, Aug. 13.—Successful candidates for party nominations will be given their official certification of election by the state board of election officers here Saturday, August 20.

It is expected that many of the close contests for state races will be decided that day. Failure of many county clerks to report their election count to The Associated Press or newspapers will probably leave some of the races in doubt until the official reckoning is made here.

Should any counties fail to get their vote to the office of the secretary of state here by August 20, the officers will certify only the counties that have been received and the absentee counties will lose their votes in the official tabulation.

John A. Goodman, clerk of the court of appeals, is the ex-officio chairman of the board. The other members are Simeon S. Willis, Republican, Ashland, and Dr. John B. Stout, Democrat, Danyille.

## Stella Gossip.

Oscar Robinson, Roy Graham and Johnnie Cunningham made an overland trip to St. Louis, last week.

Bill Christenberry, who had a stroke of paralysis, is in a state of helplessness. Albert Hixon, who is affected internally, is very feeble.

John Workman and family have returned to St. Louis, on the East side of the fatal Mississippi river.

High paid money sharks and "the outsiders" ruined the tobacco pool; it would be the height of folly to even try to reorganize.

Volume 37, number 32, of the Calloway Times, was a jimdandy good one.

Great excitement at Will Kirkland's Friday; Juddy Cathey traded his horse and buggy to Marvin Magness for his tin lizzy, "Eagle."

Malone Cobb, young son of Mr. and Mrs. C. G. Cobb, of the Farmington section, won the state contest in essay writing on the subject of "Why the Kentucky Farmer Should Terrace."

The contest was conducted by the engineering department of the University of Kentucky.

Miss Calista Butterworth has returned from Blythesville, Ark., where she was the guest of Mr. and Mrs. Edgar Jones.

## "DIGGING"

Hard work means nothing to a hen. She just keeps on digging worms and laying eggs, regardless of what the business prognosticators say about the outlook for this or any other year.

If the ground is hard, she scratches harder, if it is dry she digs deeper. If it's wet she digs where it is dry, if she strikes a rock she works around it.

If she gets a few more hours of daylight she gives us a few more eggs, but always she digs up worms and turns them into hard-shelled profits as well as tender profitable broilers. Did you ever see a pessimistic hen? Did you ever hear of one starting to death waiting for worms to dig themselves to the surface?

Did you ever hear one cackle because work was hard? Not on your life. They save their breath for digging and their cackle for eggs.

Success means digging. Are you?

## We Must Save Our Soil

Your county agent has wondered how much fertility the farmers lost during the heavy rain of this spring and summer. Then he has wondered how many millions of dollars worth of soil went down the Mississippi and

out into the Gulf of Mexico from the huge watershed of the Father of Waters. Of course, some land will wash away; but the farmer should see to it that as little as possible gets away. Be slow your county agent is giving what the Southern Agriculturist has to say on this subject;

No farmer with sloping land, perhaps, can entirely prevent erosion; but certainly no farmer with sloping land can afford to let it go unchecked. We must save the soil. The individual farmer must keep the flow of muddy water from his fields down to the minimum or lose the best part of his land. The country at large must take means to check the flow of rainfall from the fields to the sea, or see a large part of its best farming land ultimately rendered unproductive. Firm the little streams that cut their way down through the plowed hillsides to the great floods that sweep from the Mississippi out to sea, all the means of controlling surplus surface water are but factors in the solution of one great problem. And this problem of water control is one of the hardest and one of the most vital this country has to solve.

Most of Calloway farms need terracing. I will begin to hold terracing demonstrations as soon as the crops are out of the way so the farmer will have plenty of time to devote to this work.

P. H. Wilson.

# BEWARE OF THE DEADLY DOTTED LINE

By W. R. MOREHOUSE  
Public Relations Commission, American Bankers Association

WITHDRAWING the family's savings account at the bank where it is safe, and losing it through speculation is a serious matter. It may bring great hardship, especially to the mistress of the home. It may force great economies in household management or amount to actual starvation. It may mean that the children will have to go to work before they complete their education. The loss of the family's accumulations may even result in physical breakdown on the part of the wife through worry over the loss of savings which she helped to accumulate at the sacrifice of home comforts, but was not consulted when it came to investing them. The making of investments by men who are heads of families and inexperienced in finance should not be undertaken without consulting her. But even if both agree the venture should be talked over with the local banker or information that it obtained from the National Better Business Bureau in New York, which serves without cost and purely in the public interest. If this is done a lot of trouble and quite likely many regrets and heartaches will be avoided.

There is one point in the activities of the inexperienced investor where he should have above all a red-light signal to cause him to pause and investigate and that is just before he signs the decision to "sign on the dotted line." Before you sign a contract placed before you by sharp promoters, stop, examine and investigate! It will pay to read the contract several times, even reading it aloud, all the while watching every term. It will pay to be on guard against the deadly fine print usually incorporated in most contracts, so small that it strains your eyes and causes you to skim over it superficially. Do not sign blindfolded. It will pay well to take plenty of time to study the

Do not sign on the dotted line while blindfolded.

contract by yourself where all is quiet and you are free from the personal influence of the persuasive promoter, for to sign without the calmest consideration may spell your Waterloo financially.

Unless dealing with a responsible firm or individual, never sign on the dotted line. If in the least doubt, don't sign. Never sign on verbal assurances that you are fully protected. Terms stated orally but not incorporated in a contract are not binding. Glowing promises, wild exaggerations and gross misstatements of fact are seldom relied on by the courts. The presence of your witnesses, your failure to read and to understand a contract before signing is not a legal excuse. When you sign a contract you proclaim that you agree with its terms and will abide by and endeavor to carry them out.

Don't sign just because some high pressure salesman tells you that your signature is a wonder, or that you show good judgment, or that you have a lot of sense. Sign only when you are fully convinced that your interests are fully protected.

Prominent Men Used as Scenery  
A number of slick promoters recently obtained in a certain city an "automobile club" with the assurance

# IT'S YOUR FAIR—BE THERE

Kentucky's best is the nation's best. The fact that Kentucky is the nation's largest in many products and manufactures is a source of pride to every citizen of the state. And Kentuckians are further delighted to know that they may view the best in Kentucky agriculture, manufacturing, mining, home-making, music, arts and crafts, Junior club activities, and amusements, all at one time, for one admission, at the annual Kentucky State Fair.

The twenty-fifth annual fair will be held in Louisville, September 12th-17th, and will be preceded by a magnificent Sacred Concert, in which the State Fair Chorus of more than 300 voices will be heard and a musical program given by Beckman's Million Dollar Band.

Premiums Over \$100,000.00  
More than \$100,000.00 will be given in premiums at the 1927 State Fair, which will undoubtedly exceed all previous fairs in the variety of department prizes and the varied merit of the exhibits. It is estimated that the twenty-two departments of the Kentucky State Fair will entitle more than 5,000 exhibitors to the honor of participating in the fair, the gigantic Merchants and Manufacturers' Building, with every inch of space occupied by the exhibitors, and the varied departments of the fair, the gigantic Kentucky State Fair, who begins preparation for the next fair the moment the curtain falls on the old one, is enthusiastic over the outlook for the 1927 fair. Mr. Fahy has devoted much time to the educational and entertaining features of the Fair, and he and the other officials of the Kentucky State Fair are confident that the 1927 fair will provide profit, entertainment, educational features, and inspiration for every member of the family.

Gigantic Fireworks  
It is also announced that the gigantic fireworks display this year will thrill every visitor, with its superb and brilliant reproduction of the early history of the state. The Gordon Fireworks Company, who provided last year's great spectacle of the "Fall of Babylon," are making every effort to have this year's pyrotechnic features set a standard in fireworks display in the United States. Other amusements of the fair will include superb vaudeville features in the Hippodrome, daily afternoon and evening concerts by Beckman's Million Dollar Band, one of the premier musical organizations of the United States, and a diversified array of Midway attractions, including the great Ruben & Cherry Midway Carnival Show.

As visitors to last year's fair will recall, the Merchants and Manufacturers' Building, with its brilliant electrical features, radio programs, food displays and distributions, music, fashion displays from the leading costumers of the state, the latest and finest products of the manufacturing industry of the state and the nation, and the Women's Department, and colorful County Exhibits Department, is one of the very pleasant places in which to spend an entire day or evening. In fact, the Merchants and Manufacturers' Building has so extended the array

of its attractions and the scope of the products it houses, that it has become a veritable exposition in itself.

Reduced R. R. Rates  
Through arrangements made with the railroads entering Louisville, it will be possible for Kentuckians to visit the Fair at a minimum price. The rate throughout the week will be a fare and a half for the round trip, while on two special days the roads will grant a half fare rate for the round trip.

This exceedingly low rate will be in effect on Tuesday, September 13, from all points in Eastern and Central Kentucky and on Wednesday, September 14 from all points in Western Kentucky. The tickets sold on these two special days will be good returning on trains leaving Louisville any time on the day after they are sold, thereby affording all visitors an opportunity of remaining in Louisville over night and taking in the wonderful HORSE SHOW and FIREWORKS, and VAUDEVILLE FEATURES at the Fair Grounds, all three of which are among the leading features at the Fair.

Tickets At Saving  
The Season Books this year will be sold for \$2.00 per book of SIX TICKETS. By buying a season book, \$1.00 is saved. These tickets are INTER-CHANGEABLE, that is, they can be used by six different persons one day, or by one person for SIX DAYS. They are good for admission to the outdoor Pavilion, Races, of Fireworks, or Horse Show.

It is the intention of the KENTUCKY STATE FAIR MANAGEMENT to have season book tickets on sale at the EARLY and the PRINCIPAL POINTS throughout the state in order to give the people in the rural sections the same opportunity to purchase tickets at Louisville in the city of Louisville.

The twenty-two departments of the Kentucky State Fair, representing approximately 5,000 exhibitors, will appeal to every member of the family, affording pleasure, recreation, instruction, amusement and thrills. Prize-winning horses from every section of the United States and Canada will vie for supremacy in the horse show ring at the fair. Stallions and broodmares will compete in the special rings the first three nights of the week, and the ribbon winners on these nights will enter the big ring the final night of the fair. The beautiful heavy harness horses will have a conspicuous part on the programs every night. More than \$40,000 of the premiums will be distributed to breeders of beef cattle, dairy cattle, sheep, swine and poultry. Other big sums will be awarded to Kentuckians who excel in the various horticultural, floral and other exhibits, and the exhibits and departments range from the Babies Health Contests to the Best Cattle display, from Boys and Girls Club Work to Culinary Exhibits, from Dairy Cattle to Dogs, from Farm Implements to Field Seeds, from the Game and Fish Department to Jack Stock, from Poultry to Plants and Flowers, from Speed Contests to Stock Judging Contests, from the Children's Work to the Old Ladies Department. Begin planning now to take your vacation at the Twenty-Fifth Annual Kentucky State Fair—Sept. 12-17. IT'S YOUR FAIR—BE THERE.

**Early Transmitter**  
Invented by Bell

He made use of two methods of producing electrical undulations, one the so-called magneto telephone, and the other the so-called liquid transmitter.

The liquid transmitter, shown in the illustration, was the one which transmitted the now famous sentence, "Mr. Watson, come here, I want you," away back in 1876 which was the first complete sentence ever spoken over the telephone.

This type of transmitter was one of those which Prof. Bell showed at his successful demonstration of the telephone at the Centennial Exposition at Philadelphia the same year.

The magneto telephone was similar to the present day receiver and there was no battery, the vibrations of the diaphragm in front of the magnet poles setting up, by inductive action, electrical undulations in the circuit. In the liquid transmitter the variable resistance was caused by a platinum head which was so adjusted as just to touch the surface of acidulated water, the vibrations in pressure between the head and the surface of the water.

Alexander Graham Bell invented a type of transmitter which was the first to transmit human speech.

**In Bankruptcy.**  
In the District Court of the United States for the Western District of Kentucky. In Bankruptcy.

In the matter of John A. Newsum, Bankrupt.  
On this the 22nd day of July A. D. 1927, on considering the petition of the aforesaid bankrupt for discharge, filed on the 22 day of July A. D. 1927, it is ordered by the Court that a hearing be had upon the same on the 22nd day of August A. D. 1927, before said Court at Louisville in said District, at 10 o'clock in the forenoon, and as near the same as is practicable and that notice thereof be published one time in the Calloway Times, a newspaper published in said District, and that all known creditors and other persons in interest may appear at said time, and place and show cause, if any they have, why the prayer of said petitioner should not be granted.

WITNESS the Hon. Chas. I. Dawson, Judge of said Court, and the seal thereof at Paducah in said District, on the 22 day of July A. D. 1927.

Lilburn Phelps, Clerk.  
By W. A. Blackburn, D. C.

**Dull Headache and Sluggish Feeling.**  
"We are a healthy family and haven't had to use much medicine," says Mr. J. H. Adams, of Bishop, Ga. "But I have found it necessary to take some medicine."

"I had headaches. My head felt dull, and like I couldn't hold it up."  
"I had a bad taste in my mouth; felt sluggish and tired."

"I brought home some Black-Draught and took a few doses, and I got good results. I felt so much better. My head cleared up. I was hungry and wanted to get out and work."

"Black-Draught has proved satisfactory and we have used it ever since."

Thousands of other families have had equally satisfactory experiences.  
Sold everywhere in 25 cent and 51 packages.

**Safe!**  
—if your roof has this protection

Nature is fighting your roof! Parching sun seeks to sap its life blood. Hurricane storms tear at it without mercy. Winter gales bite into it with sharp teeth.

But Carey Built-up Roofing is made to defy weather. Super-quality felt and specially blended asphalt make it the finest for roofing purposes that engineering skill can produce. It will not melt in the summer nor become brittle in winter. Requires no slag or gravel surface to protect it. Immune to chemical fumes—and spark-proof! Carey specifications cover every building requirement. Ask us about them!

**LOCAL HAPPENINGS**

Mr. Edgar Beaman and family returned to Paducah, Tuesday, after a brief visit with relatives here.

Dr. Francis Bell of West Baden, Ind., is visiting his mother here. He is associated with a clinic in West Baden.

Mrs. Dell Finney is home from market, where she purchased a nice line of fall hats and ready to wear.

Miss Anita Harrison left Monday for Decoven, Ky., to teach in the high school. Her mother will join her later.

Rev. L. L. Jones, assisted by Rev. W. W. Henley, has just closed a splendid week's meeting at Goshen church. There were nineteen additions.

Mrs. Olier Graham arrived home last week from Amarillo, Texas, where she was a guest in the home of her brother, Wiley Utterback and brother in law, Luther Graham.

W. T. Sledd, C. O. Beech and Dr. F. E. Crawford spent last week in Dawson.

Miss Mattie Wear has gone to LaCenter, Ky., for a visit with the family of her brother, E. Wilder Wear.

Newspaper advertising is one of the best ways possible for a merchant to invest his money.

Mr. and Mrs. Robert Jones of Princeton, Ky., spent Sunday in the city, guests of Mrs. Jones' parents, Mr. and Mrs. H. E. Wall.

R. M. Pollard and family left Sunday for a motor trip to Harrodsburg, Ky., their former home. They visited Dawson Springs enroute, guests of Mrs. Muke Overbey, Jr., of Murray, who is spending several weeks there with her mother, Mrs. Lis enby.

Mrs. G. C. Ashcraft and Miss Alice Keys left Monday for a month's visit to points in Indiana. They will visit Mr. G. C. Ashcraft who is attending Indiana University at Bloomington, and also relatives and friends at Terre Haute, Linton and Indianapolis.

A residence on N. 6th St., occupied by Festus Futrell, was destroyed by fire of unknown origin, Friday morning, three o'clock. All the household goods were consumed by the flames. The Futrells were spending the night with relatives in the country. Mr. Futrell is an employee of the Murray Wholesale Grocery Co.

Mr. F. H. Guier and daughter, Miss Artie, and son, Terry Guier, of Calloway county, and another son, Ira Guier and his family, of St. Louis, spent several days here last week visiting Mr. Guier's brother, Mr. James D. Guier and Mrs. Guier in Cadiz and other Trigg county friends and relatives.—Cadiz Record.

Mr. and Mrs. Vernon Hale with their son, Selon Gibson, Mrs. M. L. Whitnel and daughter, Miss Nell Looney, are visiting Mrs. Tom McGregor, Frankfort, Ky. They made the trip by motor and stopped at Dawson Springs enroute.

Miss Elizabeth Lovett of the Benton high school faculty, who has been teaching home economics at the Murray Teachers College this summer, has been elected a member of the Normal faculty for the year 1927-28.

Mrs. John Lovelace, Rupert and Claudius Barber, Mrs. Harry Fields, Dezonie and Felix Gosson, attended the bedside of W. L. Barber, Thursday, who is very ill at the hospital in Murray. They report him unimproved.—Fulton Leader.

Mrs. W. W. McElrath had as guests last week, her mother and sister, Mrs. Mary F. Brown and Miss Clara Brown, of Mayfield.

**WANTED!**

Will pay highest market price for your cows, calves, hogs, etc. Bring them in any day in the week.

**SHROAT BROS.**

Mrs. Rexie Raymond and daughter have returned to Corydon, Ky., following a short visit with her parents, Mr. and Mrs. A. S. Brooks.

Mr. W. W. Baker and daughter, Miss Etta Baker, left last week for Oklahoma City, Okla., to visit the former's brother.

Mrs. Buel Stroud and Mrs. Corinne Patterson are home from a two week's visit in Memphis.

Mrs. Obe Melan and daughter of Memphis, have been recent guests of Mrs. Melan's brother, Mr. Cato Wilcox, who resides north of town.

T. O. Turner and Miss Katie Martin have returned from St. Louis, where they bought fall goods for the Turner big department store.

Mrs. Herman Wolfe, formerly Miss Bessie Wells of this county, is a guest in the Alvis Outland home. Mrs. Wolfe is now residing in Chicago.

Miss Tressie Alsmann has returned from Mayfield, where she visited her mother, Mrs. Ella Alsmann. Miss Alsmann is book keeper for the Covington Bros., wholesale grocery.

Rev. W. D. Poyner of Paris, Tenn., a former widely known resident of this county, is visiting his sons here, John and Will Poyner. Rev. Poyner is 94 years of age.

Ralph Wear left Friday for Detroit, where he will be employed for several months.

Misses Martha Kelly and Mary leona Bishop were recent guests of Mrs. John T. King of Cadiz.

A. B. Miller and family visited relatives in Louisiana last week. They made a cross country trip. Herbert Wall, Jr., left Friday for Jacksonville, Fla., to reside. Mrs. Wall, who is with her parents, Mr. and Mrs. Erve Johnson, Mayfield, will join Mr. Wall a little later.

Joe T. Parker and family left Saturday by motor to visit Mrs. Parker's mother, Mrs. J. B. Knight of Tampa, Fla., and to attend a reunion of Mrs. Knight's family.

NOTICE—I am now able to file your saws and fix your guns; so look me up when you want such work done, as I am not yet strong enough to do heavy work.—Luther Williams.

Wilder Wear, editor of the LaCenter Advance, spent the week end with relatives here.

Miss Callis Wear will leave Saturday for Winfield, Ala., to resume her work as music director in the high school.

Miss Margaret Holland is visiting in the home of her uncle, Mr. Roy Holland, Lexington, Tenn.

Mr. and Mrs. P. J. Stevens of Heushaw, Ky., were week end visitors in the home of C. C. Durick. Mrs. Stevens and Mrs. Durick are sisters.

Miss Rowena Williams and niece, little Miss Hill, of Paducah, are guests in the home of Rev. H. B. Taylor. Miss Williams has been serving as a missionary in Mexico, from the Murray Baptist church, for several years. She has been in Kentucky since June but will return to Mexico in a few weeks to resume her work.

Try the Drug Store first—try Wear's.

The Times One Dollar.

**Keep Fit!**

Good Health Requires Good Elimination

To be well, you must keep the blood stream free from impurities. If the kidneys lag, allowing body poisons to accumulate, a toxic condition is created. One is apt to feel dull, languid, tired and aching. A nagging headache is sometimes a symptom, with drowsy headaches and dizzy spells. That the kidneys are not working properly is often shown by burning or scanty passage of secretions. If you have reason to suspect improper kidney functioning, try **Doan's Pills**—a tested stimulant diuretic. Users praise them throughout the United States. Ask your neighbor!

**DOAN'S PILLS** 60c  
Stimulant Diuretic to the Kidneys  
Foster-Milburn Co., Mfg. Chem., Buffalo, N. Y.

Mr. W. E. King of Memphis, arrived Saturday, by motor, to join Mrs. King and daughter, Miss Reubie Wear King, in a visit with Mrs. W. O. Wear. They returned to Memphis the first of the week.

Mr. and Mrs. Elvis Swor, who have been visiting her parents, Mr. and Mrs. B. B. Wear and also attending the summer Normal, left Saturday for Catlettsburg, Ky., where they will again teach.

Mrs. Clarence Phillips of Memphis, is in the city, due to the illness of her uncle, Mr. Lowery Allen, who is in a critical condition at the Mason Memorial hospital.

The Murray State Normal and Teachers College, in session since June 6, came to a close Saturday, except for the Tennessee students, who are required by their state law to attend twelve full weeks regardless of credit hours. The other students by reporting to classes on Saturdays completed their work in ten weeks.

Miss Roth Robertson, home demonstration agent for Callo way, has returned from a visit with her father at Columbus Junction, Iowa.

**DRAKE TEACHES INTERVIEWS BY TELEPHONE NOW**

Dependence of Large Newspapers Upon Telephoned News Is Stressed

Initiation of a new method in teaching journalism based on the dependence of the modern newspaper on the telephone is credited to Charlton G. Laird, head of the department of Journalism at Drake University, Des Moines, Ia. This practical training in talking and making interviews over the telephone, the agency by which 75 per cent of the news of the larger newspapers is gathered, Professor Laird says.

Conversation with students over the telephone in which their family acquaintance and indelicacies of speech were quite noticeable decided Professor Laird to make a surprise experiment, he relates. Arrangements for the test were made in an office where the students habitually congregated each morning to wait for the adjoining class room to be occupied.

Professor Laird arranged several typewriters near the telephone in this office and secured typists to operate them while conversations were being held over the telephone. This was to simulate the environment of an editorial room of a large newspaper, which is, in most cases, a constant bedlam of noise of typewriters and telegraph instruments.

Professor Laird, calling from his home, called each student to the telephone individually and gave instructions in the proper way to talk over the telephone and to conduct an interview. He then gave them a hypothetical assignment to interview Governor Hammill regarding his opposition to a proposed bank guaranty law.

The students were cautioned to remember several points in making a telephone interview: That the call probably would arouse some suspicion in the mind of the person being interviewed and cause him to wonder why the call was not made in person; that they must depend entirely on their voice for reflecting their personality, and that their enunciation must be perfect, their voice distinct and all superfluous words eliminated.

Much benefit was derived by students through this experiment, Professor Laird declares. He has announced plans for following up this line of training with practice in obtaining and dictating news stories over the telephone, reporting to editors by telephone and other practical phases of newspaper work in which the telephone is essential.

**YOUNG ROBBERS, TRAILED BY TELEPHONE, CAPTURED**

Three young robbers had everything their own way at Paxton and Ogalalla, Nebraska, a short time ago until the sheriff enlisted the aid of the telephone officials and by long distance put all towns within fifty miles of the scene on the lookout for the young men. The robbers entered a store at Paxton, took clothes, jewelry, cash and \$2,515 in certificates of deposit. They then rode by train to Ogalalla, where they were located in a hotel, but they succeeded in reversing roles in the capture, according to reports, and locked the marshal in his own jail. Commandeering an automobile, they tried to make their escape, but were trailed by one of the telephone to Belmar and captured.

Volume 1 August 17, 1927 Number 1

Published weekly for the entertainment and education of the home-loving folks who live in Murray and believe in the future of Murray.—HOOD-MOORE LUMBER COMPANY.

**Our Platform**

We believe its best interest is its home—because its home should come first. We believe that beautiful homes reflect a prosperous community and that the value of the town is best measured by the quality of its homes.

**Vote of Thanks**

We especially want to thank the home-folks of Murray for the splendid co-operation they gave us in helping us secure a canvass of the condition of the homes of Murray. Also we want to thank the parents of the following boys who so enthusiastically helped us complete the survey: Robert McElrath, James Di-

guid, Guthrie Churchill Ralph Yarbrough Ardell Knight, Ralph Brausau, Grover James, Marshall Walker, Paul Johnson, Curd Churchill, Toy Farmer, Jr., Pogue Outland.

This canvass or survey surely opened our eyes as to the condition of the roofs of the town. Now we know that these are leaking roofs that need fixing and with our stock of Mule Hide Shingles and a staff of competent contractors to do the job right we are prepared to give prompt service at a reasonable cost.

**How to Get the Best party-line Service**

Avoid lengthy telephone conversations over a party line. If you find the line in use by someone else hang up the receiver. Always wait until the bell stops ringing before removing the receiver.

To those who are subscribers to a party line telephone it must be evident that the quality of service they get is largely a matter of co-operation upon the part of the users themselves. For instance, subscribers should be considerate of the length of time they use the line so that other parties may derive their share of its use. Then, too, when a party line is found to be in use, the receiver should be replaced on the hook immediately; otherwise the conversation will be interfered with. If the receiver on a party line telephone is lifted while the bell is still ringing, it causes other bells on the line to ring, too. The observance of the Golden Rule among party line subscribers is certain to result in good service and friendliness.

Also have some beautiful vacant lots; pick out one and let me build a house to suit you.

All good property, and I am going to sell it. Write, call or see me.

JOHN D. HAMILTON  
MURRAY, KY.

### MULTI-COLORED PICTURES SENT BY TELEPHOTO

New Commercial Wire Service for Prints in Color May Be Boon to Fashionists

It is now possible to transmit color pictures in three or more colors across the continent by the telephoto service of the American Telephone and Telegraph Company.

The experiments that have been carried on in transmitting such pictures have proved so successful that the service is now available on a commercial basis. The principle of such transmission is the same as that employed in sending black and white photographs by wire. The picture to be sent is usually provided in the form of a negative, generally on glass, and from this a positive is made on a celluloid film five by seven inches, which is placed in the cylindrical film-holding frame at the sending end. Simultaneously, an unexposed film is placed on a cylinder at the receiving end and the two cylinders are started at the same moment by a signal from one end. The time of transmission for a black and white photograph is about seven minutes. The time required for transmitting colored pictures depends upon the number of colors, as a separate transmission must be used for each color. Thus, in a three-color print, three separate plates are used. The same method is employed in making these plates as in printing. The print is photographed through colored screens which filter out the colors not to be recorded on the photographic plate. It is expected that the transmission of colored prints by telephone will be especially useful in forwarding textile and style pictures. In this way a buyer just arriving in New York from Paris with colored photographs of the newest fashions, will be able to distribute these photographs immediately to practically every section in the United States, for in addition to the service across the continent to Chicago and San Francisco, there are also telephoto offices and receiving apparatus located at Boston, Atlanta, Cleveland, St. Louis and Los Angeles, from which places the pictures could be forwarded, so that in only a few hours practically any town in the country could be reached.

### UNIVERSITY BUILDING IS TO COMMEMORATE BELL

The memorial to Alexander Graham Bell, inventor of the telephone, which is to be established at Boston University where Bell was a professor of speech at the time he perfected his invention, is to take the form of a building which will house the college of liberal arts of the University. An endowment of \$3,500,000 for the college of liberal arts has recently been raised.

### MORTUARY

Mr. P. H. Gupton, 74 years of age, died at the Keys-Houston Clinic, Monday, after an illness of two weeks.

Since the death of his wife a few months ago, Mr. Gupton had resided at the home of his son, Lucien Gupton, of the Lynn Grove vicinity. The deceased had many friends in the county.

Aside from the son, one sister and three brothers survive. They are Mrs. P. M. Perdue, Sr., county; Bob Gupton, county; J. Gupton, Graves county; Dayton Gupton, Texas.

The body was removed from the Clinic to the Gilbert-Doran chapel, where it rested until Tuesday morning, when it was carried to the Goshen church for funeral services, in charge of Rev. L. L. Jones. Interment took place in the church graveyard.

Elmus Workman, 40, died Wednesday of last week, at the home of his father, Grant Workman, on the east side of the county. Mr. Workman was reared in Caloway, but had been residing in St. Louis, and only recently returned to the county.

WANTED—Two or three copies of the Calloway Times, dated July 13, 1927. An immediate response will be appreciated. Leave at Times office.

LOOK—I want to buy veal calves, hogs, lambs Saturday Aug. 19 and 20, of this week.

H. B. Rhodes.

### Lynn Grove School Opened Monday

Lynn Grove opened school Monday with an unusually large crowd of both patrons and pupils. The total enrollment of the student body on the first day was 247. Of this number, 95 are in high school and 152 in the grades.

A number of others who are known to be out on account of work are expected to start in a few days. Bro. Henshaw conducted the devotional exercises, and Bro. Riley, the principal speaker of the morning, delivered an inspirational address, which was enjoyed by every one present.

Try the Drug Store first—try Wear's.

Eugene Hughes left Friday for Detroit to resume his work.

### Associated Gas and Electric Company

61 Broadway, New York

Dividends  
The Board of Directors has declared the following quarterly dividends payable October 1 to holders of record August 31, 1927:

## TELEPHONE WORKERS FACE RAGING MISSISSIPPI FLOOD IN HEROIC EFFORTS TO MAINTAIN TELEPHONE SERVICE

By R. T. BARRETT

TRYING to outguess the Mississippi at full flood is next to impossible. Men who have lived upon its banks all their lives admit that, in such a flood as that through which the entire valley of the river has passed during the spring of the present year, it is almost hopeless to attempt to forecast where the swollen waters will find a weak spot in a levee, breaking through in a crevasse and flooding thousands upon thousands of acres of fertile farm lands and driving armies of people from their homes.

All that can be done is to make such predictions as are possible, and then to co-ordinate all the factors involved in the fight against the rising waters so thoroughly that there shall be no wasted effort, no loss of time or money or energy.

It has been through such co-ordination that Secretary of Commerce Hoover and the army of relief workers under his direction have been able to prevent the flood which has swept the valley from Cairo, Ill., to the Gulf of Mexico, admittedly the most widespread disaster the nation has ever experienced, from becoming far more tragic.

To this co-ordination many factors have contributed, but none more helpfully than the telephone. Just as communication systems have proved themselves invaluable in war, so they have proved themselves invaluable in this tremendous campaign of peace—a campaign directed, not toward the destruction of lives, but toward saving them. How thoroughly this

task has been accomplished, how completely co-ordinated all of the relief forces have been and how efficiently all facilities for communication have operated is apparent from the recent announcement of Secretary Hoover that 400,000 people have been removed from threatened localities to places of safety with the loss of but half a dozen lives.

In this important work of co-ordinating the flood relief forces, a unique opportunity for service was given to telephone men and women—an opportunity to which, throughout the entire flood area, they responded to the full. Direct, personal and capable of use by anyone without the intervention of trained operators to send or receive messages, telephone communication proved particularly suited to the needs of the flood workers. Without the aid of more than one of the officials in charge of this enormous task, it is declared, this remarkable record of saving human lives could never have been accomplished.

Merely to maintain telephone lines, merely to operate telephone switchboards, under such conditions as those met during the Mississippi flood, is no light task. To go beyond the demands of normal service—to make the thousands of special installations required in camps on levees, and at Red Cross Flood Relief Commission headquarters or to carry the extra burden of emergency traffic flowing through the switchboards, is a task immeasurably more difficult.

Along mile upon mile of toll line it was necessary for plant men to work in boats, raising the wires from submerged crossarms to extensions above the level of the flood waters. In scores upon scores

of central office operators worked for long stretches unrelieved, in many cases under conditions of extreme hazard. Switchboards in danger of being put out of service by the rising waters were raised to platforms or scaffolds, the operators containing calmly at their work, putting through emergency calls which swelled the traffic in many cases to three times its normal volume.

Many central offices were completely surrounded by water which flooded the streets to a depth of from eight to fifteen or twenty feet. Thus isolated, the operators stuck to their posts of duty, food and drinking water being brought to them in boats. In some cases it was necessary to chop away the siding of the buildings in which the switchboards were located, in order that access to the operating room might be effected.

When an artificial crevasse was created by exploding heavy charges of dynamite in the levee at Poydras, below New Orleans, in order to divert a portion of the flood waters from the main river channel and thus to reduce the level at the city itself, a long span of telephone lines was strung on extra tall poles in the hope of maintaining service which would otherwise have been interrupted.

Scores of telephones were installed along levees for the use of construction forces battling to turn back the flood waters, or for the use of national guard sentries on duty there. One of these emergency installations, on the levee at McCrea, La., was particularly noteworthy. The nearest point at which a connection could be made was at a small village fifteen miles away.

A plant crew began stringing this fifteen miles of wire at daybreak, their route leading through swamps and low-lying marsh lands in which it was necessary to work in water that was, at times, waist-deep. A heavy rain was falling and the road along which the route ran was almost impassable to the heavy truck in which telephone supplies were carried. On stumps, fence posts, trees and temporary poles hastily set in the soft ooze of the swamp, the line was run, foot after foot, mile after mile. By a quarter past five of the same day the work began the job was done and the telephone was in service.

During all this strenuous day, a thousand men were fighting grimly to prevent a break in the levee and a crevasse was expected at any moment—an element of hazard which made the performance of the telephone men particularly noteworthy.

So the story runs, from Cairo to the mouth of the Mississippi and far up some of the river's larger tributaries; a story of devotion to duty, of resourcefulness, of preparation so complete that not even the unexpected found telephone men and women unready for any service required of them. Men and women of the telephone service, from one end to the other of the long thousand-mile battle line in which this grim war against disaster and death was fought, proved themselves to be of the stuff of which heroes and heroines are made. They maintained a vitally important public service—made doubly important by an emergency that transformed the most matter-of-fact messages into matters of life and death. They proved themselves true to telephone tradition.
