## Many Missing Autos Found In deep Pit

Summit, Ill.--Deep sea diving for automobiles is netting an astounding return on the investment here.

In the bottom of an old quarry, in a pool forty feet deep, a great

collection of automobiles has been discovered and with the discovery has been brought to light, it is believed the activities of a desperate murder gang.

Fourteen cars have been hoisted out of the pool. Jack Blair, diver, who is exploring the bottom of the deep pit, declares that there are scores of others there. Emerging from the water on one trip Friday, Blair declared he had found three bodies in a coupe on the floor of the pool. On his next trip he emerged to report that he could not find the machine alleged to contain the bodies.

It is believed that the unraveling of the mystery of the "auto grave-yard" will lead to the solution of more than one Chicago murder mystery. Most of the cars brought to the surface have been owned by Chicagoans.

## A TEST OF CHARACTER.

The way a man uses money--makes it, saves it, spends it--is perhaps one of the best tests of character.

Money should not be regarded as the principal end of life, nor should it be regarded with contempt, for it represents to a great extent the means of mental and physical comfort.

The finest qualities of human nature are related to the right use of money--generosity, honesty, justice and self-sacrifice.

## Children in County Schools Must Buy New Text Books

There will be no chance for students in the county schools to use old text books, it was announced by the county school superintendent this morning. There has been a general belief that children would be allowed to use last year's books, but she stated that this is not so.

The courses for the year are all based on the new text books adopted by the state department of education, and it would be impossible to have special classes for children with old books. The books used in the county schools will be the same as those used in the city schools, with the single exception that county schools will use the Elson reader instead of the Classics.

Wants Kaiser Surrendered.

London.—The declaration that Holland should be called upon to surrender the former German emperor was made in the house of commons by Horatio Bottomley, Independent, who again raised the question of the recent trials in Leipzig of Germans accused of acts in violation of the rules of civilized warfare in the world war. Mr. Bottomley said that if the demand for the ex-kaiser's surrender should be refused by Holland, and the British government found itself unable to deal with the matter effectively, the government should make way for "men of sterner stuff."

Burns Succeeds Flynn.

Washington.—Appointment of William J. Burns as director of the bureau of investigation of the department of justice has been announced by Attorney General Daugherty. Mr. Burns succeeds William J. Flynn. "I have known Mr. Burns personally for thirty years and have watched him develop in his specialty," Mr. Daugherty said. "Mr. Burns has severed his connection with the Burns Detective agency and will come to Washington and devote his entire time to the service."

Washington.—Cigarettes numbering 61,850,000,000 were manufactured in the United States last year, the census bureau's annual tobacco report issued shows. Of that number 15,834,000,000 were exported, leaving about 46,000,000,000 factory-made cigarettes for consumption in the United States. Cigars manufactured numbered 8,720,754,000 and tobacco manufactured, including chewing and smoking and snuff totalled 413,891,000 pounds.

Exports Are Increasing.

Washington.—Exports of both cotton and wheat increased in volume, but declined in value during July, as compared with last year, commerce department figures disclosed. Cotton exports amounted to 527,000 bales, valued at \$32,000,000, compared with 211,000 bales, worth \$44,000,000, a year ago. Wheat exports aggregated 25,000,000 bushels at \$37,000,000, as against 24,000,000 bushels at \$70,000,000 last year.

Robbers Get Another Pay Roll.

Tarbes, France.—A tablet to commemorate the achievements of Marshal Foch, commander-in-chief of the forces which victoriously opposed the forces of the central empires in the World war, was placed in the house here where Marshal Foch was born. The tablet was placed by the 250 members of the American Legion who came to France for the dedication of the monument to the American Expeditionary Forces, presented to the United States by the inhabitants of Elfre and liberated Lorraine.

Probing "Open Shop."

Chicago.—The United States railroad labor board is understood to be probing charges that railroads were establishing the open shop plan, thus evading jurisdiction of the board. According to word from Marion, Ohio, the Railway Service Company has taken over the operation of the Erie railroad and are rehiring employees on an open shop basis. Since the Railway Service Company is not a "common carrier" it was pointed out that it would not be subject to supervision by the railroad board.

Mexicans Buy U. S. Goods.

Mexico bought nearly \$20,000,000 of goods from the United States in May, according to an official report published in The Mexican Post of Mexico City. The Mexican purchases were far ahead of those of any other Latin-American country, and led those of Cuba, Mexico's nearest competitor, for American goods, by \$8,000,000. Only four countries in the entire world, Great Britain, Canada, Italy and Germany, bought more during this month than did Mexico.

Making History.

INFANT MORTALITY in past ages has been something frightful, something almost beyond belief, and even today it occupies the time and the mind of leading physicians in all countries. The death rate among infants is being gradually reduced through new methods of hygiene, new preventatives and new remedies for infants. This reduction in the death rate has NOT been accomplished by adapting the precautions taken and remedies used by adults. Rather has it been to keep clear of the old methods, and choose after long research the precautions and remedies specifically applicable to infants.

This being so, is it necessary for us to caution mothers against trying to give her baby relief with a remedy that she would use for herself? Will she remember that Fletcher's Castoria is strictly a remedy for infants and children?

Children Cry For

Of Course You Love Your Baby.

You love it because of its very helplessness, because it can't tell you what is the matter when it feels bad. It can only cry and look to you for help. But the more you love baby, the more you want to help baby, the more you ought to realize what a wonderful remedy Fletcher's Castoria is. It has been used for babies' ailments for over thirty years.

An experienced doctor discovered Fletcher's Castoria especially for babies' use. It is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. Doctors who know what is safe and best for babies have only good to say of it.

Don't neglect your baby. Get a bottle of Fletcher's Castoria and give baby a few doses of it. See how the little one smiles at you as if trying to thank you for helping it. Soon you will learn to depend on Fletcher's Castoria, made just for Infants and Children, and of course you would not think of using anything for them that was not prepared especially for Infants and Children. So keep it in the house.

NOT UNTOUCHED BY SORROW

Teacher Entirely Mistaken if She Imagined Small Girl Had Never Experienced Suffering.

Emily Margaret, a six-year-old Columbus girl, has straight blond hair. This is a source of much distress to Emily Margaret, as she is not too young to appreciate the advantage of curly hair, and she particularly admires black hair. She was at Sunday school recently, and the teacher was telling of the terrible plight of the children of the war-stricken countries. By the way of implanting a proper appreciation of their blessings in the minds of the children, the teacher called their attention to the contrast between their own condition and that of the unfortunate youngsters overseas. "Why," she concluded, "you little ones have no idea of what sorrow means." Emily Margaret was impressed, but she could not let the statement go unchallenged. She addressed the teacher thus: "Miss Blank, I'm awfully sorry for them, but all the same I do know what sorrow means. Every time I see a little girl with dark curly hair I have to shut my eyes to keep from crying."—Indianapolis News.

Whites Outnumbered.

Taking the broadest possible view of the racial maps of the globe as it existed before the war, it will be found that out of a total number of human beings amounting to 1,700,000,000, 550,000,000 were white, 1,150,000,000 were colored. Thus the colored races outnumbered the whites more than two to one.

ALL PAID TRIBUTE TO GUEST

And by No Means Least Were the Words of Praise Uttered by Grandmother.

In New England they tell of a pastor who had boarded for so long with a certain family that when he was called to new fields of labor that family felt his loss keenly. "The best pastor we've ever had in this town," said the head of the family. "I don't expect to see his equal again." "Such good company," said the wife, "and so sympathetic if the least thing went wrong." "He was the easiest man to cook for I ever knew," said the maiden aunt. "He was always satisfied with what he had and never grumbled." "He had such a nice disposition," said one of the younger members of the family. "While grandmother in her corner by the fireplace, shook her head dolefully as she added her tribute of affection. "I'll miss him dreadfully," she observed. "He was the best hand at ketchup" moth millers that ever I did see."—Philadelphia Ledger.

Gourd of Value in Surgery.

Loofah, a sponge gourd of tropical regions, is declared by Dr. E. Juvary, a French surgeon, to be superior to brushes for surgical cleansing. Pads about four inches square can be cut and readily sterilized, and can be so packed in a box as to be automatically supplied one at a time. These sheets of vegetable sponge are stated to bear sterilization better than brushes, to cleanse better and to act in a gentler and more even manner.

**MINISTER DISCUSSES HIS WIFE'S TROUBLES**

Rev. A. H. Sykes, former pastor of the Watkins Park Presbyterian church, Nashville, Tenn., says: "After seeing what Taniae has accomplished in my wife's case, I am convinced that it is a medicine of great power and extraordinary merit. I do not think I have ever seen anything give such prompt results. Mrs. Sykes had been in delicate health for ten months, suffering from stomach trouble and nervous breakdown. "I frequently sought medical advice but Taniae is the only thing that gave her any relief. After taking the medicine only a short time, she was able to sit up and help with the household duties. I think it only a short time until her health will be fully restored."

Taniae is sold by leading druggists everywhere.—Advertisement.

Evansville, Ind.—"I am eighteen years old and have been bothered for several months with irregular periods. Every month my back would ache and I always had a cold and felt drowsy and sleepy. I work in a millinery shop and I went to work every day, but felt stupid and would have such cramps. I had seen Lydia E. Pinkham's Vegetable Compound advertised and had heard several women talk of it, so mother got me some. This Vegetable Compound is wonderful and it helped me very much, so that during my periods I am not now sick or drowsy. **Important to all Women**

Readers of this Paper

Thousands upon thousands of women have kidney or bladder trouble, or never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition. Poor health makes you nervous, irritable and may be dependent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Advertisement.

## Child Chokes to Death in Denver On Toy Balloon

DENVER, Aug. 30.—The mystery of the death yesterday of George Price, 2-year-old son of Mr. and Mrs. Nathan Price was solved today when Deputy Coroner George Bostwick announced, after an autopsy that the child had choked to death on a toy balloon. Half of the balloon was found lodged in the child's windpipe.

## President To Ask Prompt Treaty Act- ion

WASHINGTON, Aug. 30.—The treaty of peace with Germany which was signed last Thursday at Berlin will be sent to the senate September 21 the day that congress reassembles, after its 30 day recess it was stated today at the white house.

Prompt ratification of the pact is understood to be hoped for by President Harding. While the senate legislative program as outlined at the time last week's recess was taken called for enactment of revenue or tariff legislation immediately upon reassembly and then for action on the railroad delinquent bill, several senate leaders expressed the belief today an early place could be found on the program for the treaty.

Statements have been made by administration officials that it was desired that the senate and German reichstag consider the treaty simultaneously. The German legislative body is scheduled to meet September 27, five days after the time senate leaders expect the treaty to be reported by the foreign relations committee.

Now for another tax to pay for revising tax revision.

## Man Killed In Fist Fight at Society Ball

Woman's Masquerade Costume  
Leads to Fatal Clash

ALLENHURST, N. J., Aug. 29.—Official investigation was being made today of the death of Cecil Arthur of New York, son of Mrs. J. Charles Tatum of London, who was killed in a fist fight involving the belle of the annual masquerade ball, the climax of the summer for fashionable beach colony here.

Salvatore Laborde of Havana, Cuba, a student at Cornell university is under arrest.

Mrs. John S. Stephen, Jr., of New York, is expected to be the chief witness against Laborde. She was dancing with Arthur. Laborde's friends say he thought he recognized her as a friend. Her costume, including black silk knickerbockers, attracted much attention. Laborde's insistence on dancing with her led to the quarrel with Arthur and the fist fight in the grill room of the hotel where the dance was held.

Two other women at the dance wore black knickerbockers and tanshanters, which accounted for Laborde's mistake in believing he knew Mrs. Sutphen, friends of the student said.

DENVER, Aug. 30.—George W. Seit, formerly superintendent of the Colorado Lithographing company, today shot and killed his wife Anna, as she lay asleep in bed and then killed himself. I believe I would have died, had it not been for Cardui." Cardui has been found beneficial in many thousands of other cases of womanly troubles. ## Plans Are Made To Drill For Oil On Potter County Location

Drilling of an oil well be pushed to the limit, if plans evolved at two conferences of business men yesterday are pushed to a successful conclusion. About 25 men met at the Amarillo Hotel yesterday noon and a special committee met at 3:30 o'clock to consider further plans.

The development of the late session was that Colonel George E. Montgomery offered to turn over 1000 acres of valuable leases without compensation to get a \$50,000 company organized. Election of directors of the corporation will be held next week, but solicitation of subscriptions will start Monday.

The northern part of Potter County has oil, it is believed beyond a doubt. But it has been found that the big oil companies will not bring in wells. It is now held that if a local company is formed, a well can be drilled and oil brought in, with any equivocation.

## Maw--Detective

By Harold Streeter

Sometimes, when maw's gone a way t'an informal tea, I have th' queerest feelin's come a itchin' round in me, S'empty like, an' gwawin', that I just can't keep myself From meddlin' in th' bread an' jam upon th' pantry shelf. An' when it all is buttered an' th' jam is thickly spread, I wipe th' knife so nice an' clean an' put away the bread An' place th' top upon th' jar an' catch th' fallin' crumbs, But somehow maw just finds it out th' minute that she come. That's somethin' I can't understand; certainly is strange I put things back th' way they were an' just can't see th' change; But somehow, when my maw comes in I sneak off to myself An' purty soon she hollows out, 'Who's been here at th' shelf? I've heard about detectives who could catch th' slickest crooks I've read a bit about 'em an' their fights in story books— Perhaps they're good at trailin' an they're tightenin' on th' draw But at catchin' pantry prowlers, there ain't none can best my maw! ## Two AlamoGordo Girls Disappear In El Paso, Texas

Police Hunting Man Believed to Be Concealing Them

EL PASO, Texas, Aug. 29.—Two little girls from AlamoGordo, N. M., dropped from sight after they alighted from a train at the El Paso union station yesterday and combined efforts of federal agents, city detectives and police and the sheriff's department in a continuous search since, have failed to reveal trace of them, according to El Paso police.

The officers also are looking for a "middle-aged man" who, they believe, induced the children to come to El Paso and since has been hiding them, police said. Bernadette Rodgers, 12, daughter of Leo Rodgers, of AlamoGordo, and Boone McCombs, also 12, are the missing children. The Rodgers girl's mother is dead and the McCombs girl is an orphan.

The man being sought in connection with the case, police said, had been pressing his attentions on one of the little girls for some time. Police said the man gave one of the children \$10 and told her to come to El Paso.
