PURCHASE OF GUN MAY CONVICT BEATTIE

DEFENSE CENTERS ITS FIGHT ON ATTEMPT TO DISPROVE THE COUSIN'S STORY.

ITS VERACITY IS QUESTIONED

IN EXAMINATION OF WITNESSES, MATERIAL CONTRADICTIONS ARE MADE.

WILL NOT PLEAD INSANITY

COUNSEL FOR ACCUSED YOUNG MAN DENY RUMORS OF SUCH MOVE AS LAST RESORT.

Chesterfield Court House, Va., Aug. 31.—Continued attacks on the veracity of Paul Beattie as to his story of the purchase of the shotgun for his cousin, Henry Clay Beattie, Jr., brought out at the trial today a statement from E. H. Nebitt, that he saw Paul with a shotgun a day after he claimed to have delivered the weapon to Henry. On cross-examination Nebitt said that he had only yesterday given this information to counsel for the defense.

"Did you tell any one else about it?"

"Not until a few days ago, when I told my wife and J. G. Saunders."

"Why did you not tell of it before?" asked Mr. Wendenberg.

"Did not think it was of much importance until Paul Beattie denied it on the stand."

"Did you not tell Mr. Smith yesterday morning and did not Mr. Smith base his question, told of in the paper, on information you gave him?"

"Yes."

The witness was excused and several other character witnesses told of Henry Clay Beattie's good reputation in his community.

Counsel for Beattie put an end to rumors that ultimately insanity would be offered as a defense for the prisoner, by making a definite announcement that under no circumstances would such a plea be entered.

David Weinstein, son of the pawnbroker from whom Paul Beattie purchased the gun, was the first witness today. He denied Paul's statement that he had taken the gun apart and testified that Beattie told him at the time he purchased the gun, between 10 and 12 o'clock on a Saturday morning, that he wanted it for use on Mayos bridge, where he worked as a watchman. The witness said he became acquainted with Paul Beattie about a week before when the latter came into the shop to buy a revolver.

Under cross-examination Weinstein admitted that on the Saturday following the homicide he told Prosecutor Wendenberg he sold the gun to Paul Beattie at 10 o'clock.

Jacob Weinstein, a brother, testified that he remembered Paul Beattie buying the gun, but fixed the time at about 12 o'clock. He said he heard Beattie talking with his brother and wanted the gun laid aside. Jacob Weinstein on cross-examination contradicted his brother as to the hour of sale of the gun, saying it must have been around 4 or 5 o'clock.

E. H. Nebitt, superintendent of a paper making plant, next testified.

"Did you ever see Paul Beattie, with a shotgun and where?"

"Yes, I saw him on Sunday, July 16. I had to go down to the bank on Sunday and after breakfast I drove across the bridge. I saw Paul Beattie standing in the doorway of a cement house with a single barreled gun. It was broke. He talked with my brother."

Seven men, neighbors of the prisoner, most of whom have known him since early boyhood, testified that Beattie's character and reputation for peace and order were good.

Sam Talley, who said he heard a shot fired and a woman scream the night of the murder, followed the character witnesses on the stand. Counsel for the defense asked Talley if he did not say to F. E. Lutz, and others on the day after the homicide that he knew nothing of the murder. Talley denied it but Lutz, when put on the stand, affirmed it.

Court recessed at 1:24 o'clock for lunch.

ITALIAN MINER MURDERED

Trinidad, Colo., Aug. 31.—Salvatore Colantonio, an Italian miner, was killed shortly after midnight today by a shot fired through the window of his room in Valdez, a Colorado Fuel and Iron company camp 12 miles west of here. Guiseppe Maesi, a countryman with whom he had quarrelled earlier in the evening, is missing from the camp and is believed to have fired the shot. Six shots were fired, but one taking effect.

LAY OFF TRAIN AUDITORS

Fresno, Calif., Aug. 31.—The reduction in the force of train auditors on the Louisiana and Texas lines of the Southern Pacific is being followed by a similar move on the Pacific divisions, according to the belief of railroad men here. No train arriving here from San Francisco in the last thirty-six hours carried an auditor. Conductors say they received orders Tuesday to lay off their auditors.

REHABILITATING CHARLESTON.

Charleston, S. C., Aug. 31.—Mayor Rhett is directing the work of rehabilitating storm-swept Charleston. A campaign of repairing and disinfecting is on. Today the death toll was seventeen and the property damage estimated at a million dollars.

TRACHOMA NOW UNDER CONTROL

IT IS LESS PREVALENT AMONG THE INDIANS THAN IS TUBERCULOSIS

Santa Fe, N. M., Aug. 31.—Clinton J. Crandall of Santa Fe, was elected permanent chairman of the trachoma conference of Indian educators and physicians here.

Dr. Joseph A. Murphy, in charge of the Indian medical service in the United States, declared that trachoma is less serious today than it was a year ago, because now the danger of the spread of the disease has been recognized and it is under control. Thirty-three per cent of the Pueblo Indians have trachoma, he declared, but there are several Indian villages without a single case, while in others the percentage runs above fifty. Cures have resulted in thirty per cent of the cases treated and trachoma no longer is as serious a menace to the Indians as is tuberculosis.

The abolishing of school wash basins, combs and towels, correct lighting, better ventilation as well as careful medical inspection are advocated not only in the Indian schools but also in the schools for the whites in the southwest.

The conference will adjourn tonight.

EXPRESS OFFICIAL VISITS CITY.

On his first trip of inspection since assuming his office, Andrew T. Paine, the new superintendent of the Denver division of the Wells Fargo Express company, was in Las Vegas today. Mr. Paine succeeded C. L. McKenzie, the former superintendent, who has been assigned to service in Texas. He formerly was superintendent at Oklahoma City, Okla. Mr. Paine was accompanied by Captain Dodge, chief of detectives for the Wells Fargo, whose headquarters is in Kansas City. G. L. Kahle, traveling auditor for the company, has decided to remove to Las Vegas where he will make his headquarters in the future.

KIDNAPED OWN CHILDREN

Fresno, Calif., Aug. 31.—Sylvester Menzes, who disappeared three days ago with his two little children, leaving his wife under the impression that they had gone for a short walk, was arrested last night at Raton, N. M., at the request of Sheriff McSwaine of Fresno. Menzes was traced by railway men. Mrs. Menzes can give no reason for his hasty departure.

TOPEKA HAS BIG FIRE.

Topeka, Kan., Aug. 31.—One man was burned to death, another was seriously injured and property loss exceeding \$100,000 resulted from an early morning fire in the business district of Topeka today. The J. C. Greaser Furniture company and the Gibbs Clothing company are the heaviest losers. E. V. Evans, a photographer who lived in his studio, lost his life.

SUPREME COURT HOLDS PETITION ILLEGAL

ROSWELL MUNICIPAL SQUABBLE SETTLED BY HIGHEST TERRITORY TRIBUNAL

SIGNAL PROHIBITION VICTORY

WETS SOUGHT A CHANGE TO THE COMMISSION FORM OF GOVERNMENT

SECOND DECISION ADVERSE

JUSTICE OF PEACE FRIENDLY TO LIQUOR INTERESTS RETAINED IN OFFICE

Santa Fe, N. M., Aug. 31.—The New Mexico supreme court today handed down two important decisions affecting the prohibition fight in Roswell. The anti-prohibitionists of that city in order to oust the dry municipal government, presented a petition asking for an election for a change to the commission form of government, the petition being signed by 554 persons. The city authorities refused to grant the petition because many petitioners withdrew their names and others were not legal residents, thus cutting down the petition below the required five hundred.

The district court issued a writ of mandamus to compel the granting of the petition, but the supreme court today reverses the prohibition and declares that the names were legally taken from the petition and that the writ of mandamus to compel the city authorities to grant the petition shall be dismissed. This is a victory for the prohibitionists.

But in the second decision, the other side wins, for the court rules that justices of the peace are precinct officers and not county officers and therefore not kept in office by the enabling act which extended, until the state officers take charge, the terms of all territorial and county officials.

The case was that of A. J. Welter vs. M. W. Witt. The latter is the present justice of the peace at Roswell and is unfriendly to the prohibitionists. He succeeded Welter, a dry advocate, who brought suit against Witt to oust him, claiming that the enabling act continued justices of the peace in office and that Witt's election last January was therefore illegal.

ROOSEVELT IS OPPOSED TO CHARTER

VOICES HIS OBJECTIONS TO NEW CONSTITUTION FOR NEW YORK CITY

GIVES MAYOR FREE HAND

BESIDES IT TAKES AWAY GOVERNOR'S POWER TO REMOVE HIM ON CHARGES

REFERS TO THE TERRITORIES

CONTRASTS PRESENT FIGHT WITH THAT PRECEDING STATEHOOD BATTLE

New York, Aug. 31.—The proposed new charter for New York City, especially that part which increases the powers of the mayor, is attacked by Theodore Roosevelt, in an editorial published today in The Outlook. "The methods of imposing a charter upon the people of New York—it would be a rank absurdity to speak of the process as granting a charter to the people of New York—by those in power at Albany is unfortunate. The events of the past session have made most men feel that this is merely a round-about way of saying those in control of Tammany hall shall be given an almost ideal illustration of how not to act in the matter of self-government."

The former president objects particularly to the provision for increasing the mayor's authority over the financial and educational systems of the city and to taking away the governor's power to remove the mayor upon charges. He also finds fault with what he terms "the method of thrusting a charter upon the city," and contrasts these methods with the wide agitation and publicity that preceded the adoption of a constitution by Arizona and New Mexico which "contain together not much more than one-tenth the population of New York."

ELKS CONSIDER BIDS FOR PROPOSED HOME

SIX CONTRACTORS SUBMIT FIGURES—TUCUMCARI MAN MAY GET CONTRACT.

In all probability the contract for the construction of the new home for the Las Vegas lodge of Elks will be awarded to A. M. Horn, of Tucumcari. The building committee of the lodge held a meeting last night in the offices of Veeder and Veeder on the Plaza and considered the bids presented by six contractors. The bid of Mr. Horn was found to be several thousand dollars less than that of the other bidders. The bids ranged from \$31,950 down to \$25,111. Mr. Horn's figure was for the construction of a building of brown flashed brick. J. W. Harlan and Son of Albuquerque bid \$27,900 for a building of stone.

The building committee did not make a definite decision last night, preferring to take some time for the purpose of carefully considering the most advantageous bids before letting the contract. A meeting of the committee likely will be held the latter part of this week at which time the contract will be awarded. Vogt and Lewis of this city were the lowest bidders for the installation of the plumbing and heating systems and the Loudowick Celadon company's bid for the tile roofing was considered best by the committee.

Mr. Horn is the architect who constructed the new Elks' home in Tucumcari. He is at present engaged in the erection of an addition to the Miners' hospital in Raton.

Other bidders were J. A. Harlan and Son and J. W. McQuade, both of Albuquerque; Hayes and Sperry of Trinidad; M. M. Sundt and J. K. Martin, both of Las Vegas.

Architect E. W. Hart met with the committee last night when the bids were opened. Mr. Hart drew the plans for the club house, which were accepted some time ago. Numerous changes have been made in the original plans, however. A revised description of the building will be published in a short time.

The total cost of the building will be about \$30,000. It will be the finest lodge home in New Mexico.

ELECTION NOVEMBER 7

The governor's proclamation, issued yesterday, fixes the date for the first state election in New Mexico on TUESDAY, November 17, as appeared in the November 17, as appeared in the Associated Press dispatch in The Optic of yesterday. Due to a typographical error, the date appeared as the 17th instead of the 7th. The proclamation of the governor appears in full on page 2 of today's paper.

BATTLESHIP COMMISSIONED.

Philadelphia, Aug. 31.—With its crew of more than 700 men standing at "attention" the battleship Utah, one of the most powerful warships afloat, was placed in commission at the Philadelphia navy yard today with Captain W. S. Benson in command. After stores and other supplies are placed on board the battleship will sail for New York and will later join the Atlantic fleet.

RIOT ATTENDS FIGHT.

New York, Aug. 31.—Emphatic protests against the management of the big Wells-Brown fight here last night poured in today on the police, newspapers, reform organization and those state officials charged with supervision of boxing clubs. The ten round battle was the first big fight staged under the new Tammany law legalizing boxing, and it attracted a crowd unprecedented in New York fight history. The receipts were \$30,000.

Police reserves from eleven precincts had to be called out in an effort to restrain the throng which packed the streets around Madison Square Garden. With drawn night sticks, the bluecoats repeatedly charged the mob in riot formation and finally resorted to the expedient of closing up several streets.

The trouble began early in the evening with a series of protests against the manner in which the price of tickets to the fight was being raised.

Wells had the best of the fight, though no decision was given.

HOURS REDUCED; 100 LAID OFF.

Ogden, Utah, Aug. 31.—Following a reduction in hours in the local Southern Pacific shops, which reduced the working week from 60 to 40 hours, local railroad officials announced today that 100 men are to be laid off tonight. This further retrenchment means a twenty per cent reduction of the working force employed in the motive power department of the Southern Pacific at this point.

NEW RAILROADS WILL BE BUILT

NORTHERN NEW MEXICO AND SOUTHERN COLORADO REJOICE OVER NEWS.

Denver, Aug. 31.—With a line proposed by the Southern Pacific from New Mexico into the coal fields near Durango, the reported building by the Denver & Rio Grande of a standard gauge line north from Santa Fe, and the construction by a recently incorporated company of the Taos, Sierra Nevada & San Francisco, across northern New Mexico, through southwestern Colorado into Utah, a new era of prosperity is anticipated by ranchers of southwestern Colorado who are now without direct rail connections for the marketing of their products.

W. T. Bozeman of Cortez, who was in Denver yesterday, is authority for the statement that construction work by the Taos, Sierra Nevada & San Francisco will begin in the near future. The proposed line will extend from a point on the Rock Island railroad in eastern New Mexico to Farmington, north into Colorado, through the Montezuma valley to Monticello, Utah, and later will be extended on to the Pacific coast, according to his report.

H. S. Wannamaker, president of the company, and J. Wright Giddings, a Michigan capitalist, with a party of surveyors, have gone over the route and declared that no time will be lost in commencing actual construction work, Mr. Bozeman said. The Rock Island, it is reported, is behind the proposed line.

That southwestern Colorado is destined to become the scene of early railroad activity is borne out by reports of numerous surveys made recently by engineers in the employ of various railroads. The Southern Pacific line north through New Mexico into Colorado has been regarded as a certainty for several years, with every indication pointing to the carrying out of the project as soon as substantial improvement is shown in the general railroad situation over the country.

A more recent report indicative of railroad activity in that section is to the effect that the Denver & Rio Grande has secured control of the New Mexico Central, from Santa Fe to Torrance, N. M., and will extend the line both to the north and south, building southeastward into Texas and broad-gauging, over a new survey, its line north from Santa Fe into Colorado.

Negotiations for the sale of the New Mexico Central to the Denver & Rio Grande were on some time ago but were dropped. The road has been in the hands of a receiver for some months, and, according to latest reports, is now in the control of the Rio Grande.

HE FAVORS LARGER SALARIES

DECLARES JUSTICES OF U. S. SUPREME COURT SHOULD BE PAID \$25,000

RECALL OF JUDGES SCORED

AMERICAN BAR ASSOCIATION GOES ON RECORD AS UNLATERABLY OPPOSED TO IT

Boston, Aug. 31.—The announcement that President Taft would attend the closing session of the American Bar association was sufficient to crowd Huntington Hall today with some of the brightest legal lights of the country. Previous to the arrival of the president, the association debated at length a resolution denouncing the recall of judges and urging the various state bar associations to "expose the fallacy of the judicial recall."

President Taft spoke of the need of reform in judicial procedure. He declared that the initiative should be taken by the lawyers. The president said there is need for advancing judicial salaries so that "the best men of the bar" might be secured for the courts. The salaries of the supreme court justices, the president said, should be increased to \$25,000 a year. Reviewing briefly the general arbitration treaties with Great Britain and France, the president made it plain that he did not believe objections to the treaties were valid.

The resolution denouncing the principle of the recall of judges was adopted by a large majority.

JAPAN BIDS O'BRIEN ADIEU.

Tokio, Aug. 31.—Thomas J. O'Brien, for four years American ambassador to Japan, sailed from Yokohama today on board the steamer Shinyo Maru to take up his new duties as ambassador to Italy. The departing ambassador was given an unprecedented send off at Tokio. A large assembly, representing all classes, packed the vicinity of the railroad station, the gathering including representatives of the imperial household as well as members of the new Salonji and the retiring Katsura ministries.

TEN FIREMAN HURT IN \$100,000 BLAZE

FIRE IN CHICAGO'S DOWNTOWN DISTRICT THREATENED MUCH PROPERTY.

Chicago, Aug. 31.—Fighting against flames which swept through a four story building in the downtown district today, ten firemen were slightly injured by an explosion of chemicals and before the fire was extinguished \$100,000 worth of property was destroyed. The burning building was two doors from the practitioners' hospital and patients there were quelled with difficulty by the attendants. The central exchange of the Chicago Telephone company is also close to the building and there was a cessation of work among the telephone operators when the fire was at its height.

COTTON CROP 12,120,095 BALES

New Orleans, Aug. 31.—The total cotton crop for the commercial year ending today was 12,120,095 bales, according to figures compiled by Secretary Hester of the New Orleans cotton exchange.

Ted Brash left this afternoon for Oklahoma City. He had been the guest of friends in this city for a month or more.

"Article XIX of the constitution as adopted by the electors of New Mexico at an election held on the 21st day of January, Anno Domini 1911, be and the same is hereby amended so as to read as follows:

"ARTICLE XIX.  
"Amendment.

"Section 1. Any amendment or amendments to this constitution may be proposed in either house of the legislature at any regular session thereof; and if a majority of all members elected to each of the two houses voting separately shall vote in favor thereof, such proposed amendment or amendments shall be entered on their respective journals with the yeas and nays thereon.

If the same be ratified by a majority of the electors voting thereon such amendment or amendments shall become part of this constitution. If two or more amendments are proposed, they shall be so submitted as to enable the electors to vote on each of them separately: Provided, that no amendment shall apply to or affect the provisions of sections one and three of Article VII hereof, on elective franchise, and sections eight and ten of Article XII hereof, on education, unless it be proposed by vote of three-fourths of the members elected to each house and be ratified by a vote of the people of this state in an election at which at least three-fourths of the electors voting in the whole state and at least two-thirds of those voting in each county in the state shall vote for such amendment.

"Sec. 2. Such convention shall consist of at least as many delegates as there are members of the house of representatives. The constitution adopted by such convention shall have no validity until it has been submitted to and ratified by the people.

"Sec. 3. If this constitution be in any way so amended as to allow laws to be enacted by direct vote of the electors the laws which may be so enacted shall be only such as might be enacted by the legislature under the provisions of this constitution.

"Sec. 4. When the United States shall consent thereto, the legislature, by a majority vote of the members in each house, may submit to the people the question of amending any provision of Article XXI of this constitution on compact with the United States to the extent allowed by the Act of Congress permitting the same, and if a majority of the qualified electors who vote upon any such amendment shall vote in favor of the said article shall be thereby amended accordingly.

That the probate clerks of the several counties of New Mexico shall provide separate ballots for the use of the electors at said first state election for the purpose of voting upon said amendment. Said separate ballots shall be printed on paper of a blue tint, so that they may be readily distinguished from the white ballots provided for the election of county and state officers. Said separate ballots shall be delivered only to the election officers authorized by law to receive and have the custody of the ballot boxes for use at said election and shall be delivered by them only to the individual voter and only one ballot to each elector at the time he offers to vote at the said general election, and shall have the initials of two election officers of opposite political parties written by them upon the back thereof. Said separate ballot shall not be marked either for or against the said amendment at the time it is handed to the elector by the election officer, and if the elector desires to vote upon said amendment, the ballot must be marked by the voter, unless he shall request one of the election officers to mark the same for him, in which case such election officer so called upon shall mark said ballot as such voter shall request. Any elector receiving such ballot shall return the same before leaving the polls to one of the election judges, who shall immediately deposit the same in the ballot box whether such ballot be marked or not. No ballots on said amendment except those so handed to said electors and so initialed shall be deposited in the ballot box or counted or canvassed. Said separate ballots shall have printed thereon the proposed amendment in both the English and the Spanish language. There shall be placed on said ballots two blank squares with dimensions of one-half an inch and opposite one of said squares shall be printed in both the English and the Spanish language the words "For constitutional amendment," and opposite the other blank square shall be printed in both the English and Spanish language the words "Against constitutional amendment."

Any elector desiring to vote for said amendment shall mark his ballot with a cross in the blank square opposite the words "For constitutional amendment," or cause the same to be so marked by an election officer as aforesaid, and any elector desiring to vote against said amendment shall mark his ballot with a cross in the blank square opposite the words "Against constitutional amendment," or cause the same to be so marked by an election officer as aforesaid.

It is further ordered that the ballots cast at said state election and at said election upon said proposed constitutional amendment, shall be counted and canvassed by the election officers and the returns of said elections shall be made by said election officers direct to the secretary of the Territory of New Mexico at Santa Fe.

In closing this proclamation for the first state election in the State of New Mexico, issued by the last governor of the Territory of New Mexico, I cannot refrain from offering my congratulations to the people of the new state upon the realization, though long deferred, of their hopes and aspirations for admission into the union upon an equality of all other states thereof, and I express the confident hope and belief that the people of this great commonwealth will so conduct themselves in the organization and maintenance of their state government as to command the deserved admiration and respect of all sections of our great country.

POPULAR Y. M. C. A. SECRETARY RESIGNS

GEORGE FITZSIMMONS TO RESIRE OCTOBER 1—SUCCESSOR IS NOT YET CHOSEN.

At the conclusion of two years of efficient service George Fitzsimmons has presented his resignation as general secretary of the Las Vegas Y. M. C. A.

Mr. Fitzsimmons' resignation will cause general regret. Under his direction the Y. M. C. A. has grown in influence and has reached an increased number of young men...

When Mr. Fitzsimmons came here there was practically no boys' department. Seeing the need for such a work among the boys he rejuvenated and revived the department.

The work in all the departments has been equally efficient. But it is not only in the circles of its own membership that the Y. M. C. A. has been beneficial since Mr. Fitzsimmons' arrival here.

The officers and directors of the Y. M. C. A. are loath to accept Mr. Fitzsimmons' resignation, but it is likely that a meeting for that purpose will be held soon...

George H. Kinkel, president of the association, says that Mr. Fitzsimmons' resignation is regretted by him and the other members of the board of directors.

A NEW TORPEDO EFFECTIVE AT SEVEN MILES

UNITED STATES ORDNANCE BUREAU PUTS AMERICAN NAVY AHEAD OF WORLD.

Washington, Aug. 31.—The range of torpedoes will be increased from 4,500 yards to 12,000 yards by two new types which were completed this week by the Bureau of Ordnance.

Some time ago it was learned by the naval authorities that foreign torpedo companies had developed torpedoes with a range of 8,000 yards, and that some of the powers had placed orders for this class of projectiles.

At the Bureau of Ordnance it was stated that unless some new defense against torpedoes is developed the most powerful super-dreadnought would be helpless against the attack of submarine and torpedo boats.

By the plan now being prepared submarines are to be equipped with twelve of these new projectiles. It is not thought it will be necessary for submarines to fire at a longer range than two thousand yards.

Officers of the Ordnance Bureau declare that at a distance of 2,000 yards a submarine could drive its twelve monster torpedoes under the armor belt of a battleship and sink her without giving the battleship the least opportunity to reply to the attack.

One of the most difficult problems that the navy now has to solve is to develop an efficient personnel of officers and men to handle the new type of torpedo. Some difficulty has been experienced on battleships, as has been indicated in the reports from the preliminary target practice.

The new fighting machine is a complex and delicately constructed mechanism. It will require a highly trained crew of officers and men to fire these powerful engines of destruction with any degree of accuracy.

All the new torpedoes of this powerful type will be built by the navy at the torpedo testing stations. Their construction is a secret, which will be jealously guarded by the Ordnance Bureau.

"THE MAN FROM HOME" COMING ATTRACTION

MAGNIFICENT BENEFIT PRODUCTION TO BE STAGED HERE FOR ELKS

For the benefit of the local Elks, who are about to erect a magnificent clubhouse and home "The Man From Home," Booth Tarkington's great play, is to be staged at the Duncan Opera house on September 6 and 7.

The musical end of the production of "The Man From Home" is its chief feature. A chorus of six Neapolitan singers will sing real Neapolitan airs in Italian, to the accompaniment of half a dozen stringed instruments.

The young people who will compose the sextette are the Misses Baca, Miss Rose Harsch, Messrs. Egmont and Robert Arens, and Robert Sewell. The Misses Baca have participated in a score of plays at Santa Fe, usually in leading roles, and in a wide diversity of characterizations.

The young men are university boys, who combine the ability to sing with the accomplishments of playing mandolins and guitars with far more than ordinary ability.

Baby's Voice

Every woman's heart responds to the charm and sweetness of a baby's voice, because nature intended her for motherhood. But even the loving nature of a mother shrinks from the ordeal because such a time is regarded as a period of suffering and danger. Women who use Mother's Friend are saved much discomfort and suffering, and their systems, being thoroughly prepared by this great remedy, are in a healthy condition to meet the time with the least possible suffering and danger. Mother's Friend is recommended only for the relief and comfort of expectant mothers; it is in no sense a remedy for various ills, but its many years of success, and the thousands of endorsements received from women who have used it are a guarantee of the benefit to be derived from its use. This remedy does not accomplish wonders but simply assists nature to perfect its work. Mother's Friend allays nausea, prevents caking of the breasts, and in every way contributes to strong, healthy motherhood. Mother's Friend is sold at drug stores. MAKING THE BEST OF THINGS

In denying an application of a woman in San Francisco for divorce the other day the judge took occasion to criticize the plaintiff severely for bringing the action without any real grounds. Her complaint that she had not been allowed to have a sufficient number of servants was found to be unjustified, and her desire to "live her life" in her own way got little sympathy from the court.

As a matter of fact, living one's life in one's own way—which is the excuse for disregarding one's obligations that is most commonly made by men and women today—is quite impossible, unless one's own way takes account of the ways of others. One's life is what one makes it, and not a prescribed thing waiting only to be lived in accordance with its own rules.

Were the majority of persons to abdicate the discipline that goes to make up whatever is really worth while in a human being and start out in an idle quest of fancy they might choose to dignify as "life," the world would come to a sorry pass. Fortunately, such persons are fewer in numbers than those who do not usually complain, who go right on doing the day's work in cheerfulness and hope and don't try to shirk present obligations by assuming that they are not one's real life.

A philosopher of the right sort is Thomas A. Edison, the great inventor, whose comments, reported from Paris, show him to be seeing—and making—the best of things. He doesn't worry over things abroad that happen not to be like things at home. On the contrary, when he makes comparisons he picks out the things that strike him as being better there. The roads of France he considers superior to those of any country he has visited. And again: "French bread is particularly good. It seems more nutritious than any American bread. In fact, I have grown so fond of it in stopping at peasants' houses that I intend to live mostly on it while in this country."

Edison, traveling, sees the good of the land he travels in. He likes not only French roads and French bread, but French thrift and the French family. He believes in the future of France and says that its "wonderful intelligence would go far to meet superior brute force" if France has another tussle with another country. In other words, Edison is a cheerful man, who sees the bright side of whatever he comes across.

That is the most satisfactory kind of person to be. The other sort, who are full of lamentations over the badness of most things, are bores of the worst kind. They bore themselves and they bore others. Every one must see daily instances of this, of people who complain from a more habit of complaining. These persons, too, like to remain amid the objects of their vexation. That is what suits them. They ask nothing better than to sigh over their position and to remain in it.

After hearing the labored complainings of these the thought of the cheerful person is like the murmur of pleasant waters. It cools, refreshes and strengthens the jaded spirit. It reminds one that everything is far from being lost; that the world's work is still being efficiently done, that the country isn't going to the

dogs, and that somewhere the sun is shining.
"Oh, give us the man who sings at his work" wrote Carlyle, and everybody will echo the wish. Had the woman who was refused a divorce sung at her work she would have been happier and her family relations would have been pleasanter. The every-day virtue of cheerfulness would have communicated the spirit that inspired it, and the sourest temper must sweeten in an atmosphere of continuous good humor.

Smiles are but trifles, but scattered along life's pathway, the good they do is inconceivable.

MR. DARDEN IS HAVING SOME DREAMS

"REPUBLICAN POLITICIAN OF NEW MEXICO" DOES A LITTLE FORECASTING.

Kansas City, Aug. 31.—That the democrats probably will carry Arizona and a split ticket be elected in New Mexico when the new states vote November 7, is the election forecast of J. G. Darden, a republican politician of New Mexico, now at the Hotel Baltimore. The people also will vote on accepting statehood on that date and the vote will be favorable in both cases, he believes.

"In Arizona the wealthiest men are democrats and some of them could spend many thousands of dollars on campaigns," Mr. Darden said. "They represent the big corporations and I look for them to carry the state without much trouble. The republicans are less wealthy and their organization is less perfect. In New Mexico it is different. There are no very wealthy men in that state and the democrats have not the fine organization the republicans have. However, so much democratic money will flow in from other states that the republican strength may be offset by it."

Mr. Darden is an ardent republican and according to other politicians who have been here recently he has been asked to make a race for the senatorial nomination. Last night he stated that he would not be a candidate. He was to have held a conference with R. H. Cameron, delegate in congress from Arizona, and W. H. Andrews, delegate in congress from New Mexico, here last week, but Mr. Cameron was unable to be present and it was put off. A telegram received yesterday by Mr. Darden stated that Mr. Cameron would be here today and Mr. Darden remained to see him.

The election forecast, as figured by Mr. Darden, is that the republicans will nominate H. O. Bursum of Socorro, chairman of the republican territorial committee, for governor of New Mexico, with Mr. Andrews, and Thomas B. Catron, an attorney of Santa Fe, for senators. Against that the democrats will put up James G. Fitch, an attorney of Socorro, for governor, and A. A. Jones, another attorney of Las Vegas, as one of the senatorial nominees. And Mr. Darden's dope is that Bursum will be elected by a small majority, with Andrews, republican, becoming senior senator, and Jones, democrat, junior senator. He would make no predictions as to the Arizona result.

MORMONS DRIVEN OUT.

Kanawha, Ia., Aug. 31.—Two elders of the Mormon church left this city afoot today with the din of many dish pans ringing in their ears. The elders were making speeches last night, when a crowd of women, beating vigorously on kitchen tinware, created such a racket that the speakers could not be heard. Mormon sympathizers sought to repel the assault by throwing water on the women but at this point husbands and brothers took a hand and after lively fist-cuffs the meeting was broken up. A few members of the dish pan brigade were out again today beating quick step time to the departure of the missionaries.

LARRAZOLO GIVES COGENT REASONS FOR RENOUNCING ALLEGIANCE TO DEMOCRATIC PARTY AND BECOMING A REPUBLICAN

O. A. Larrazolo, announcement of whose allegiance to the republican party was made yesterday, gives cogent reasons for changing his political faith in his letter of explanation and official notification to W. C. McDonald, of Carrizozo, chairman of the democratic territorial central committee. Mr. Larrazolo's letter is so forceful that there is no doubt of its sincerity. His action, coming as it does on the eve of the first state election, is especially significant and is sure to have its effect in the approaching campaign. A verbatim copy of the letter follows:

Mr. Larrazolo's Letter.
Las Vegas, N. M., Aug. 29, 1911.
Hon. W. C. McDonald, Chairman Democratic Territorial Central Committee, Carrizozo, New Mexico.

My dear Mr. McDonald:—
It becomes my painful duty to tender to you my resignation as a member-at-large of the Democratic Territorial Central committee of New Mexico, and in doing so, a due regard to the place that I have occupied in the ranks of the Democratic Party in this territory, demands that I make known to the membership of the party, and to the public at large, the reasons that have impelled me to take this step, and which have been directly instrumental in deciding my political course for the future. It must have been apparent to you, and to the electorate of New Mexico in general, for, indeed, I have made no secret of my set purpose and determination in that regard, that in the very active part that I have taken in the political struggles in this territory during the last ten or twelve years, while earnestly striving to build up and strengthen the democratic party, I have bent all my energies and best efforts to bring together, in fraternal fellowship the various elements that make up our collective citizenship, so that, by mutually recognizing and by according the one to the other the equal rights to which we are all entitled under the law, we might all join in a combined and united effort to build up and develop the natural resources of our beloved territory, so soon now to become a sovereign state, and feel that we are all brothers, enjoying an equal measure of rights and privileges in a land that is the common heritage of us and our children. Will the democratic party fulfill those aspirations? Does its past history offer any assurance of guarantee that it will respect the rights of the various elements of our citizenship, should it obtain the control of our state government, and thus secure that harmony and good will among us all, so essential to our happiness and prosperity? We can only foretell the future by judging from the past. Let us briefly review that past. At the general elections of 1904, out of a total vote of 43,000.11 in the territory; the republican majority over the democratic delegate to congress was 8,599. In view of that crushing defeat, which was but a repetition, on a larger scale, however, of our repeated failures in the past, when the territorial democratic convention met at Santa Fe, in September, 1906, to nominate a candidate for delegate to congress, it was found that no one was willing to accept the leadership of a hopeless cause. Finally, after two days spent in fruitless efforts to find a candidate, the nomination was tendered to me; I accepted it, and the result is known to all, for I presume that no candid man, acquainted with the facts, will deny that I was legally elected. Upon my being illegally counted out, a contest was instituted before the congress of the United States for the seat of delegate from this territory. Before that contest was heard, however, the elections of 1908 were held, and again was the democratic nomination for congress conferred on me. The result of the previous election had made it almost certain that that nomination was equivalent to an election, if the democrats, in the democratic counties of New Mexico, would do their duty at the polls, and in the many political meetings in those counties, where I addressed the voters, I dwelt with insistence on that one condition essential to success, viz: That the voters should go to the polls and cast their ballots, particularly so as it was evident that the opposition would bend every energy to retain the supremacy that was fast slipping from their hands. In this I was not mistaken; in all the strong republican counties of the territory the local tickets were almost completely lost sight of in the determined and combined effort to defeat me. The result was that I lost

Miguel, that had gone for me at the previous election, but we won the counties of Colfax and Torrance, and retained Guadalupe and Rio Arriba, all of them strong republican counties; besides, the republican majorities in nearly all of the other republican counties were materially reduced; as a whole, we maintained the ground that we had gained in 1906 in the republican strongholds of the territory, and the election would have been won if the eastern democratic counties had but given the head of the ticket the same support that they gave to the balance of the ticket. But how was it there? Eddy county gave a majority of 684 for the head of the ticket, while the average majority for all other candidates was 966. The average majority for the local ticket in Roosevelt county was 1,965, while the head of the ticket carried the county by only 765. Chaves county only gave a majority of 562, as against one of 670 in the elections of 1906. In consequence of this, the election was lost by the narrow margin of 368 votes, and thus one more defeat was added to the many that we had sustained uninterruptedly since 1898. After this election, in January, 1909, the contest pending upon the election of 1906, was heard by the proper committee of congress. It is needless to say that the defeat which I had just suffered in the territory greatly weakened whatever chance I might have had of winning my fight in that contest. In this connection I wish to remark that the house committee on elections that heard my contest consisted of nine members, six republicans and three democrats; during the course of the hearings, which lasted two days, I met all the republican members of the committee, but only met one of the democratic members, the Honorable William E. Tou Velle, of Ohio, the other two gentlemen never attended any of the sittings; I never met them. The republican majority of the committee, as was very naturally to be expected, made their report, upholding the election of the republican candidate, but the democratic minority, notwithstanding the uncontradicted proof of my election, did not even file a protest against the majority report.

Following the unlooked for result of the election of 1908, and the unjustifiable conduct of the democratic minority of the congressional committee on elections that heard my case, many of our democrats went into the republican ranks, others left the territory, while several prominent and active party workers declared that they would retire from active participation in politics. But let me pursue this review of events a little farther. Pursuant to the act of congress of June 20th, 1910, providing for the admission of the territories of New Mexico and Arizona to statehood, the constitutional convention met at Santa Fe on the 2nd day of October, A. D. 1910, and what did we see there? Nine counties in New Mexico are undisputedly democratic, and had an aggregate representation of 26 members in that convention, but among them there was not one of the native element of our electorate, in spite of the fact that many thousands of them reside in those counties. What is the logical deduction to be drawn from these circumstances? And does such conduct manifest any disposition to fraternize and to do equal justice to all? The facts speak for themselves and furnish the undisputed answer to the question. On the other hand, the representation from the republican counties in the constitutional convention was made up of all elements of our mixed population. The foregoing circumstances added to many others which would be exceedingly unpleasant and vexatious to enumerate, have forced upon me the humiliating conviction that, in the democratic party of New Mexico, there exists an element of intolerance that should not be countenanced, or encouraged, because it tends directly to the destruction of that feeling of harmony and good fellowship among us all so essential to our happiness and material prosperity. That that element is not in the majority in the party, I sincerely believe, but I am afraid that it is strong enough, even now, to make its pernicious tendencies felt inside and outside of the party; it certainly makes me apprehensive for the future welfare of a very large number of the people of New Mexico, and it has marked the end of my period of usefulness to our citizenship as a member of that party.

This has been my firm conviction for some time past, but a man does not lightly abandon the ideals of a lifetime, nor does he at my day of life easily break loose from associa-

tions in which he has grown old, without snapping many heart-strings that bind him closely to set convictions which he has honestly and sincerely nourished and sustained, the separation is bitter as the last farewell of a father to his child, it is like the last look at the closing grave. Hence, it is that, although I told my friend, the Hon. H. B. Ferguson, at Santa Fe, when the territorial democratic convention that met in that city on the 17th day of December A. D. 1910, had declared against the adoption of the constitution, that my connection with the democratic party had come to an end, upon more calm and sober reflection I withheld final action, in the hope that I might see my way clear to still remain in the party. The intervening months, however, have been one of excruciating mental suffering, for the more I reasoned with myself, the stronger grew the conviction that the moment of the final separation would inevitably come; and it has come.

Duty calls on me to devote the last weak efforts of my remaining days in the support of that party which has given proofs of its willingness and disposition to respect the rights of all alike. Nor am I unmindful of the personal disadvantages that this resolve will place me under, for I fully realize that the democratic party today in New Mexico, is not the weak, almost impotent party that I had the honor to lead in 1906; today, that party is strong, robust and full of virile life, well able and amply equipped to sustain the struggle for party supremacy. I also feel that the services I have rendered that party in the past, would reasonably secure to me honorable recognition at its hands in the future. On the other hand, I have no right to demand, and I shall certainly not ask for, anything from my new political companions; but in the discharge of duty, as God has made me understand it, I leave the honored place to which I am entitled there, to join the plain ranks of the republican party.

In conclusion, allow me to say, my dear Mr. McDonald, that in severing our political relations I carry with me no malice toward any one, I shall ever cherish with fond pride my friendship for you and for those who have honored me with their friendship.

With the assurance of my high personal regard and esteem for you, I am Very respectfully and sincerely yours,

O. A. LARRAZOLO.

NATIONAL GUARD PRAISED BY YOUNG

OFFICIAL REPORT OF REGULAR ARMY INSPECTOR HIGHLY GRATIFYING.

Santa Fe, N. M., Aug. 31.—Adjutant General A. S. Brookes has received a copy of the official report made by Lieutenant Young of the U. S. A., on the National Guard's encampment at Las Vegas, July 18 to 30.

There were 36 officers and 449 men present; 3 officers and 175 men absent. The average number of officers attending all drills was 36 and men 394. The inspector finds the military bearing, physical qualifications, mental qualifications and zeal in performance of military duties of both officers and men as "very good." The professional qualifications of the officers are marked "Good."

Captain Eugene A. Lohman, the regimental adjutant, is mentioned as especially qualified for his position. Captain Lohman who is stationed at the New Mexico Military Institute at Roswell, was very popular with the officers and men at camp and especially with the enlisted men because of the courteous manner in which he instructed them to avoid making mistakes at drill.

The inspector finds the equipment of the guard good with the exception of shirts and shoes, which, however, have not been furnished the guard, as there is a tendency of the men to wear these articles on any and all occasions. The inspection of arms resulted in the note "in good condition." A few soldiers, however, allowed their guns to get a little dirty, "but they were promptly cleaned."

The inspector found sanitation and messing in fine condition and the preparation of the rations "Very good," and plenty of rations, too. This of course, is what the men know to be the exact truth and reflects credit on the adjutant general and the territory. The inspector found in drill and instruction that close and extended order was "Good" and marching "Very good," making and breaking camp and individual cooking also "Very good."

That the guard duty was good was also discovered by the inspector (as also by the men who woke up in the guard house after each violation).

Concluding the inspector says: "This organization (First regiment, National Guard, New Mexico) has the personal attention of the adjutant general of the territory who is a retired army officer and who pays the closest attention to all details. Its organization is being gradually perfected and it is being completely equipped. \* \* A maneuver ground covering about 36 square miles adjacent to the camp ground should be arranged for and an accurate topographical sketch of it made. Maneuvers should be held on it during the state camp and problems solved on the map by means of a correspondence school during the year. \* \* \* Books and records fairly well kept throughout the entire period of camp. No intoxication.

The regiment made full use of the time spent in camp in maneuvers and drills. Cover in the maneuver was promptly taken and kept and several units were kept well in hand. Good use was made of the ground.

"There were practically no complaints from fatigue on the march and but one or two fell out. The entraining and detraining was very good.

"I am of the opinion, with more in-

surrection, this regiment will be fitted properly to maneuver as a part of a brigade.

"Provision should be made for mounted orderlies and mounted scouts; also for a machine gun platoon. Sufficient mounted equipment should be kept on hand to supply each mounted officer and enlisted man.

"All social affairs should be carried on the last day of camp so as not to demoralize the men and officers in the middle of the work."

NEW YORK STOCK EXCHANGE

New York, Aug. 31.—After a period of active trading at the opening today the stock market grew dull and fluctuations were unimportant. Almost the only appearance of animation in the trading was lent by heavy transactions in Lehigh Valley. The rapid decline in this issue was reported to be due to the sale of the holdings of a large interest. A rise of two points in American Telephone was instrumental in bolstering the market before midday. In the outside market Standard Oil was traded in for cash at 62 1/2, with 310 bid for the stock of ex-subsidiaries. Bonds were steady. The market drifted about in aimless fashion, the absence of any initiative by the large speculative interests depriving the room traders of a lead to follow. The trend was lower. Buying by short interests kept prices sustained but there was very little business, transactions averaging only a trifle more than 30,000 shares an hour. Its early decline and the list otherwise showed a good sprinkling of advance showed a good sprinkling of advances. The market closed irregular. Toward the end of the session selling stopped and the market rallied easily and became stupid. Last sales were: Amalgamated Copper 57 1/2; American Beet Sugar, bid 114 1/2; Atchison 103 3/4; Great Northern, pfd., 123 1/2; New York Central 103 1/2; Northern Pacific 115 3/4; Reading 141 1/2; Southern Pacific 78 3/4; Union Pacific 167 3/4; United States 70 1/2; United States Steel, pfd., 114 1/2.

but Ellis winged him out at the plate.

With the score against them to the music of 2 to 1 the Maroons went to bat in their half of the eighth. B. Smith poled a two-base hit. L. Smith got a base on balls. Fisher hit a beautiful three-sacker into right center and both men scored. Fisher scored on Fisher's sacrifice fly to center. Wicks poked one of Lansing's best for two bases but ended his journey on second when Nelson made an easy out.

Dawson made a hard and almost successful attempt to score in the ninth. L. Smith retired Richter and Henry with ease. Richards was sent in to hit for Lansing. This proved a wise move as Richards hit safely. Ambos got a base on balls. Clark got his fourth hit of the game but Richards was too ambitious. He tried to score from second and Wilson threw him out with a pretty heave.

**NOTES OF THE GAME**

Baseball benefit dance at the opera house tonight.

Clark is the best hitter in this league without any doubt. In nine times at bat in the two games he has secured eight hits.

The Maroons overlooked a good chance for a triple play. With Ambos on second and Clark on first Donovan hit a fair one just in front of the plate. B. Smith tagged him with the ball. Then he threw to third, from which station the ball went to second. During the mixup Ambos managed to make third. Had B. Smith thrown the ball to third before tagging Donovan the runners would all have been forced and two or even three put outs might have been made instead of one.

Herwig made a sensational one-hand catch of B. Smith's drive in the fifth and succeeded in pulling off a double-play. The two Dawson games have produced more fancy work on the part of the outfielders of both teams than any other contests this season.

Dawson has not been without rooters at both of the games. This is due to the fact that a good many local fans have been betting on Dawson. The Las Vegas supporters of the Miners got well trimmed, which served 'em right.

Autos and buggies crowd the right field foul line too closely. This prevents the players making clever catches and makes it a hard job for the umpire to decide on whether balls are hit fair or foul if they go close to the line. If all the machines would keep back of the line from twenty to forty feet it would make it possible for all to witness the game equally well and would improve the playing.

It has been announced that after the present series of baseball games is completed a charge of twenty-five cents for single rigs and fifty cents for double rigs and automobiles will be made at Amusement park during the remainder of the season. The persons who attend the games in buggies and autos really are given a preferred position, having as good points from which to view the game

as those who occupy the grand stand. They should not object to the small additional admission fee.

An effort is being made to provide a good baseball game at Amusement park on the afternoon of Labor Day, which occurs next Monday. The baseball management is in correspondence with the San Marcial club, which is one of the strongest in southern New Mexico. The San Marcial boys are all railroaders. None of them is a professional but they put up a fast game. Recently they held the Albuquerque Grays to a mighty close score, hitting "Rube" Weeks hard. If the San Marcial game is not scheduled it is possible that a fast aggregation made up of players from the Raton and Trinidad clubs will be brought here. The bank will be closed Labor Day and there is a movement on foot to close the stores that day. This would insure a big crowd at the baseball game.

"Rube" Weeks, the star pitcher of the Albuquerque Grays, has signed up with the Pueblo club of the Western league. Weeks will report for practice next spring, and, if he makes good, will be with Pueblo during the entire season. This will not be Weeks' first attempt to catch on in league baseball. Two years ago he tried out in the Texas league, but for some reason best known to him and the manager, did not remain long. Weeks is a heady pitcher and has a world of speed. His boosters at Albuquerque are convinced he will make good in Pueblo.

ROSY AS A GIRL

Summit, N. C.—In a letter received from this place, Mr. J. W. Church, the notary public, says: "My wife had been ailing for nearly 12 years, from female ailments, and at times, was unable to leave the house. She suffered agony with her side and back. We tried physicians for years, without relief. After these treatments all failed, she took Cardui, and gained in weight at once. Now she is red and rosy as a school girl." Cardui, as a tonic for women, has brought remarkable results. It relieves pain and misery and is the ideal tonic for young and old. Try it. At druggists.

Frank Revell is putting up a large  
sign board on the lot north of Bach-  
rach's store. It will be used by the  
Placita Land company for advertis-  
ing purposes.

All the teachers of the city schools  
have been requested by Superintendent  
Rufus Meade to meet Saturday  
afternoon at 2 o'clock in the high  
school building.

Miss Alice Lamson and Miss Irene  
Hughes arrived last night from Chi-  
cago. They will be employed as mil-  
liner and maker respectively at the  
Strass millinery store.

Owing to the poles of the street car  
company rotting at the base new  
ones have been put in at Sixth and  
Center streets. Linemen were busy  
today changing the trolley wires to  
the new supports.

Yesterday while attempting to turn  
around, the wheels of J. D. Leeper's  
auto car got caught in the street car  
track and a steering knuckle was  
broken, making it necessary to haul  
the car to the shop for repairs.

A gang of laborers is at work re-  
pairing the track of the Las Vegas  
Transit company near the sanatorium.  
It was at this point that one of the  
cars left the track Tuesday morning.  
The cause of the derailment was  
spreading rails.

The third and last game of the  
series between the Dawson Miners  
and the Maroons was played this af-  
ternoon at Amusement park before the  
largest crowd of the week. Kelly was  
scheduled to start the game for the  
locals, while Richards, who was used  
as a pinch hitter yesterday, was in  
the box for Dawson.

A bunch of baseball players who  
call themselves the "Has-Beens," has  
challenged the Bankers to a game to  
be played Sunday at Amusement  
park. The "Has-Beens" have in their  
line-up Angel, Schoony, Mike Ells-  
worth, Louis Shupp, Lent, Young, Et-  
tinger and other fast players for-  
merly with the Maroons. If the  
Bankers are willing to play they they  
are requested to notify Mr. Shupp at  
the Charles Hfeld company's offices  
at once. The Maroons will be play-

park will be available on that date.

"Whar the Hand o' God is Seen,"  
a book of clever poems by Captain  
Jack Crawford, late scout in the Uni-  
ted States army, is a new publication  
which has just reached this office.  
Captain Crawford is a western man  
and he writes of the west. His verse  
is surcharged with the breezes of the  
mountains and the pines of the foot-  
hills and the plains. There is a  
strain of rugged philosophy in them,  
too, that is refreshing. Captain Craw-  
ford, is well known in Las Vegas,  
having visited here often. The Optic  
acknowledges with thanks an auto-  
graphed copy of his latest book.

Notices, printed in both Spanish and  
English, to the effect that the public  
schools of the town of Las Vegas will  
open for the fall term Monday, Sep-  
tember 4, have been distributed by  
Fidel Ortiz, chairman of the town  
board of education. The notices are  
addressed particularly to parents and  
guardians of children between the  
ages of 7 and 17 years and recite the  
provisions of the school law requir-  
ing the attendance of children at  
school during the entire session each  
year. A fine of not less than \$5 or  
more than \$25 or imprisonment of  
not more than ten days in the county  
jail is the penalty for non-compliance  
with the law. The West side schools  
will be in charge of Mrs. Lou Cobb,  
who was selected by the board of  
education to succeed Miss Anna J.  
Rieve, who resigned to take a posi-  
tion on the faculty of the Normal Uni-  
versity.

Isaac Davis is in New York pro-  
moting the sale of the egg candling  
device which he recently patented.  
Mr. Davis met in New York Dr. Wil-  
liam Curtis Bailey, formerly of this  
city. Dr. Bailey has opened an of-  
fice in New York and is enjoying a  
good practice.

Paul Wear, the young Italian labor-  
er, who was recently bound over to  
the grand jury on a charge of assault-  
ing a young native with a dangerous  
weapon, has been ordered released  
from jail on a bond of \$200 by Judge  
Roberts. Wear was arrested some  
time ago. His bond was fixed at a  
much higher figure. Wear was about  
to institute habeas corpus proceed-  
ings when he was given a hearing by  
the judge. He is employed on the con-  
struction of the Las Vegas sewer sys-  
tem.

A new bridge has been built across  
the arroyo on the Los Alamos road  
near the stock yards, under the di-  
rection of one of the territorial good  
roads engineers. The bridge was badly  
needed as the structure it replaced  
was in a dangerous condition. A  
short time ago, when the arroyo was  
running bank full, a man attempted  
to cross the bridge on horseback. The  
animal was pulled under the bridge  
by the rushing waters and was drown-  
ed. The man had a narrow escape  
from a similar fate. Convicts under  
direction of Mr. Smythe have made  
good progress with the repairing of  
the scenic highway. The road is now  
in better shape than it has been for  
several months.

It would appear that "A Midsum-  
mer Night's Dream" was to be re-  
alized, in the lawn social that is to  
be given tomorrow evening by the  
Epworth League, at the home of M.  
M. Sundt on North Eighth street. The  
weather the two evenings past has  
been ideal, and every one will want  
to get out and participate in the gay  
frivolity on the green. Unique en-  
tertainment has been provided for  
old and young and the whims of the  
most delicate appetite will be satis-  
fied with such dainty viands as ice  
cream and cake, home made candy,  
lemonade, etc. If you do not care to  
walk, a nickel car ride will take you  
there. Every one is extended a cor-  
dial invitation to enjoy the social.
