Observations

Old Kodger's Column
DO YOU CRAVE COMPLIMENTS like most people do? If so, why? For material value they cannot be cashed at any bank, and as a tonic, the pain is relieved only temporarily, and it may cause swelling in the ego area. Probably half of the doses administered do more damage than good.

COMMISSION WILL HOLD HEARING ON DISMISSAL OF TRAINS

The Nashville, Chattanooga and St. Louis Railway's Company's petition to discontinue passenger service between Paducah and Hazel will be heard on October 23 at Paducah at 9 a. m. The site of the hearing will be chosen later.

COMPLIMENTING IS A SORT OF habit. It makes lots of people feel good whether we are lying or joking. Many persons make a racket out of compliments by using them to get more business, to build one's self up and then betray those who have sincerely believed in them. This has been done hundreds of times. Why should anyone crave compliments all through life? We all know whether we are doing a good job, or at least doing our best—shouldn't that be sufficient to satisfy?

BUT THERE HAS ALWAYS

Even those who like a parade and compliments, whether true or not, keeps them in a parade through life. Take them out of the parade and death would probably be the result. Compliments to many is what is to be a tree—but a tree with diluted sap would also wither away. A salesman says that, "a real compliment is a repeat order."

A PRINTER ONCE INQUIRED

of old Kodger if it was against the rules in the shop to compliment or condemn his work. "You never say anything against or anything nice about my work, do you wonder?" The fact that he was being retained on the job should have been sufficient, and his own self satisfaction of doing his best known to him, without any added spread on his word. Somewhere in life he had become accustomed to that craving of leading the parade. Or, at least he wanted it to appear he was at least in line.

COMPLIMENTS SOMETIMES

make us feel as if there were but two persons in the world and it is divided half and half between us. We overlook the fact that if it were now equally divided, just how far back in the parade we would be, but compliments help to bring most of us up toward the front of the parade. What we do not realize is that the parade does not last forever; that the good we do as the parade passes is what counts—not a half-baked compliment made to help hurry end the parade. Compliments cannot be cashed at the Bank nor turned into other lasting things, but the knowledge that we have tried and have done our best, should satisfy anyone who is in the parade.

NEW RELIEF!
For Stuffiness,
Coughs of Colds

You know—like millions of others—how wonderfully effective Vicks VapoRub is when you rub it on.

Now... here's amazing, special relief when there's much coughing or stuffiness, that "choked-up" feeling. It's VapoRub in Steam... and it brings relief almost instantly!

Put 1 or 2 spoonfuls of VapoRub in a vaporizer or bowl of boiling water. Then—breathe in the soothing, medicated vapors. Every breath eases coughing spasms, makes breathing easier. And to prolong relief—rub VapoRub on throat, chest and back.

Use it in steam... Rub it on, too!

It's a **NEW** Southern Custom
Phenomenal PULP and PAPER Industry!

In 1949 sales of paper from Southern Mills reached \$1,603,300,000!

The new South is destined to become one of the richest pulp and paper regions in the world—already it is one of the South's most profitable and rapidly expanding industries. With one-half of the nation's entire commercial forest area, the South has a tremendous potential wealth which it is just on the threshold of realizing. Fully developed, this Southern industry can supply a major share of the pulp and paper needs of the nation—and of the world.

Another factor in the increasing growth and development of the new South, the pulp and paper industry is bringing new wealth and prosperity to this "promised land." It is proof again that the South is the nation's No. 1 land of opportunity.

the NC&StL
... New Service
for the New South!

During the days of Lincoln and Lee... throughout the Civil War... the NC&StL was bringing rail service to the old Southland. Today, it serves an inspiring new South... with new industry, new wealth and new activity. The NC&StL serves the new South with new service... with modern, efficient equipment and facilities in keeping with this progressive area.

Belle From La France

Cecile Aubry, who is the latest find from La France, sets a new style in jewelry for the style-conscious American woman. Cecile herself inspired the original of the pin named the "black rose." It is now being made available through a special offer made through grocery stores. This unusual pin is fast becoming a collector's item in costume jewelry. It gets its name from Cecile's latest motion picture.

Who Runs America?

the Congress? the President?
OR YOU AND THE MAN NEXT DOOR?

RUNNING AMERICA is the joint job of 150,000,000 people. It's the biggest job in the world today—keeping it running for liberty and for freedom. And the whole world's watching to see whether Americans can do it!

IN MUCH OF THE WORLD today, the people have resigned from running their own countries. Others have been quick to step in—first with promises of "security"—and then with whips and guns—to run things their way. The evidence is on every front page in the world, every day.

FREEDOM COMES UNDER ATTACK. The reality of war has made every American think hard about the things he's willing to work and fight for—and freedom leads the list.

But that freedom has been attacked here recently—just as it has been attacked in other parts of the world. One of the most serious threats to individual freedom has been the threat of Government-dominated Compulsory Health Insurance, falsely presented as a new guarantee of health "security" for everybody.

THE PEOPLE WEIGH THE FACTS. In the American manner, the people studied the case for Socialized Medicine—and the case against it.

They found that Government domination of the people's medical affairs under Compulsory Health Insurance means lower standards of medical care, higher payroll taxes, loss of incentive, damage to research, penalties for the provident, rewards for the improvident.

They found that no country on earth can surpass America's leadership in medical care and progress. They found that able doctors, teachers, nurses and scientists—working in laboratories where Science, not Politics, is master—are blazing dramatic new trails to health for Americans—and for the world.

THE "GRASS ROOTS" SIGNALS CONGRESS. In every community in the Nation, people stood up to be counted on this important issue. Thousands of local women's clubs, civic groups, farm, business, religious, taxpayer, medical, educational and patriotic organizations spoke out—giving the great United States Congress its unmistakable Grass Roots signal from home!

And ever watchful, ever sensitive to an alert people, The Congress saw that signal, and heard the people speak out, loud and plain. That's democracy in action. That's the American way!

Today among the 10,000 great organizations on militant public record against "Compulsory Health Insurance" are:

- General Federation of Women's Clubs
- National Association of Small Business Men
- American Farm Bureau Federation
- United States Chamber of Commerce
- National Grange
- National Association of Retail Grocers
- Veterans of Foreign Wars
- National Conference of Catholic Charities
- National Retail Dry Goods Association
- American Protestant Hospital Association
- American Legion
- National Association of Small Business Men
- United States Chamber of Commerce
- National Association of Retail Grocers
- National Retail Dry Goods Association
- American Bar Association

Doctors of this Nation are grateful that the people refused to be wooed by the fantastic promises of this un-American excursion into State Socialism. Doctors of America are dedicated to serve their fellow citizens at home and their comrades in uniform, wherever service to this Nation may take them. And the thing they stand ready to fight for—to sacrifice for—to die for—is not the alien way of life of Socialism, but the prideful security of a free and self-reliant people!

THE VOLUNTARY WAY IS THE AMERICAN WAY!
Throughout the Nation, free men and women, working together, are finding the American answer to every question of medical service, care and cost. Hundreds of Voluntary Health Insurance Plans are in healthy competition—sponsored by doctors, insurance companies, hospitals, fraternal organizations—by industry, agriculture and labor. Today in America—70 million people are protected by Voluntary Health Insurance. Throughout the Nation, families are insuring themselves against the major costs of illness—on reasonable, budget-basis prices. Voluntary Health Insurance takes the economic shock out of illness. Protect your family now. For information, ask your doctor—or your insurance man.
