# Presentation of the 10th Otto Schott Research Award

Many former award winners also took part in the presentation of the 10th Otto Schott Research Award (from left to right): **Front row:** Prof. Don Uhlmann (Trustee Ernst Abbe Fund), Prof. Himanshu Jain, Dr. Hans-Joachim Konz (SCHOTT Board member), Prof. Akio Ikesue (Award winner 2008), Prof. Walter Kob, Prof. Gerd Müller (Trustee Ernst Abbe Fund).

**Middle row:** Dr. Dieter Fuchs, Dr. Natalia Veshcheva, Phd. David Griscom, Prof. Jianrong Qiu, Prof. Prabhat Gupta.

**Back row:** Prof. Reinhard Conradt, Prof. Andreas Tünnermann, Dr. John Campbell, Anne-Jans Faber.

"It is true that other substances, such as wood, bamboo, stone, and clay, can provide shelter and storage," "What is special about glass is that it combines these and many other practical uses with the ability to extend the most potent of our senses, sight, and the most formidable of human organs, the brain." MacFarlane and Gerry Martin in *The Glass Bathyscaphe*

The US-China Winter School on New Functionalities in Glass is the response to meet the requirement for the preparation of the next generation of scientists and engineers to be trained **in a global setting**.

We believe that the School will provide educational as well as cultural experience of a life time to the students, who will hopefully **lead the field of (glass) materials science and technology** someday.

**Thanks !**
