CONTRIBUTORS

IAN DAVIS graduated with high honors from Lehigh University in 2018 with a B.S. in finance. During his time at Lehigh, Ian took on a leadership role in the Thompson International Investment Portfolio, driving reform of the portfolio's structure and operations. Additionally, Ian was actively engaged in Lehigh's Greek community. A member of Alpha Epsilon Pi, he served as the fraternity president during his junior year and then served as the president of the Interfraternity Council during his senior year. The Office of Fraternity and Sorority Affairs recognized Ian as Greek Leader of the Year for two consecutive years. He also received the Contribution to Student Life Award, James J. Duane III Student Life Leadership Award, and Bosey Reiter Leadership Cup for his efforts in helping advance the Greek community. This past summer, Ian began his professional career with KPMG in their Economic and Valuation Services practice in New York City.

DAVID EBHOMIELEN graduated with honors from Lehigh University in 2018 with a B.S. in behavioral neuroscience and a minor in health, medicine, and society. His passion for science led him to join his professor's laboratory where they conducted research on the behavioral neuroendocrinology of hamsters. During his college years, David served as an orientation leader, responsible for integrating new students into the Lehigh community and assisting with staff training. He was also heavily involved with several organizations, including Lehigh Cru and Off the Record, an a cappella group, taking on leadership roles in both. David is currently pursuing his love for medicine by taking courses to be a certified emergency medical technician before applying to medical school.

NADINE ELSAYED graduated with high honors from Lehigh University in 2018 with a B.A. in global studies and journalism. Her passion for international affairs and multimedia storytelling led her to travel to Cambodia as part of the Global Citizenship Program, to represent a Netherlands-based NGO at the United Nations, to publish multimedia research on Libyan refugees, to intern for a global luxury magazine in Milan, and to begin the process of learning her fourth language. While at Lehigh, she was a Technology, Research, and Communications Writing Fellow; an admissions fellow; an orientation coordinator; a Global Union vice president; and an editor for the *Brown and White*. Nadine has begun her professional career in Silicon Valley as a marketing communications specialist at Adobe Systems.

GUSTAVO GRINSTEINS graduated with highest honors from Lehigh University in 2018 with a B.S. in mechanical engineering and minors in aerospace engineering and computer science. At Lehigh, he worked as a computer science tutor and as a ropes course facilitator. He was also deeply involved with the Engineers Without Borders chapter, serving as a lead translator for three different travel trips leading to a successful water distribution system for a small Nicaraguan town. Gustavo is currently working as a test engineer for the Collaborative Human Immersive Laboratory at Lockheed Martin space systems headquarters in Denver, Colorado.

TRISTAN HEFFLER graduated with high honors from Lehigh University in 2018 with a B.S. in accounting and minors in Spanish and graphic design. Tristan served as a resident assistant in the Lehigh Gryphon Society, was a member of the College of Business and Economics Senior Board, and held the position of building manager at the Lehigh University Center. She was also a member of Beta Gamma Sigma, an honor society for international business. Tristan currently works for KPMG in its financial services audit sector in New York City while pursuing her Certified Public Accountant license.

LOGAN HERR graduated from Lehigh University as a President's Scholar with highest honors in 2018. He achieved dual degrees, a B.S. in industrial and systems engineering and a B.S. in the Integrated Business and Engineering honors program with a concentration in finance. While at Lehigh, Logan served as a Rossin Junior Fellow, one of a group of mentors working with prospective and first-year engineering students, and a resident assistant. As a senior, he received the MIT Supply Chain Excellence Award to attend the MIT supply chain management master's program in the future. In his free time during college, he loved adventuring outdoors as well as competing on the men's club rugby and volleyball teams. Logan interned with and currently works for PricewaterhouseCoopers as a technology consultant in Philadelphia. He looks forward to attending graduate school after gaining a few years of work experience.

MINA KHAN graduated with honors from Lehigh University in 2018 with a B.S. in finance. At Lehigh, Mina served as the president of the National Society of Collegiate Scholars, Lehigh University chapter, as well as an organic chemistry teaching assistant. Her passion for travel and international experiences led her to intern for two months at the US-based medical devices company Becton Dickinson Shanghai branch, working on projects involving health care technology assessment and digital media marketing. Mina has recently begun her professional career as part of the marketing rotational program at Sanofi Pasteur.

COURTNEY LENZO graduated from Lehigh University in 2018 with a B.S. in chemical engineering and a minor in environmental engineering. While at Lehigh she was committed to the Engineers Without Borders chapter, serving as secretary and then president and leading a team through the completion of a water distribution system in Nicaragua. This passion for the environment and underprivileged communities also prompted her to volunteer in Guatemala with the NGO Operation Groundswell and on an Italian permaculture farm through World Wide Opportunities on Organic Farms. Courtney now works at Arcadis US as an engineering consultant on industrial wastewater and environmental remediation projects.

VERONICA McKINNY graduated with highest honors from Lehigh University in 2018 with a B.S. in physics, a B.A. in cognitive science, and a minor in computer science. She is a member of Phi Beta Kappa academic honor society and Lehigh's Eckardt Scholars honors program. While at Lehigh, Veronica served two terms as president of the Society of Physics Students and performed as a saxophonist in Lehigh's marching band. She also served for more than two years as youth representative to the United Nations for the American Association of University Women. For this position, she created and organized the Students Seeking Solutions for the Sustainable Development Goals conference, held at UN headquarters in April 2018, to connect undergraduate scientists around the world with UN initiatives. Veronica is currently pursuing a Ph.D. in condensed matter physics at the University of Edinburgh.

DAVID S. MORENCY graduated with highest honors from Lehigh University with degrees in industrial systems engineering and finance through the Integrated Business and Engineering honors program. At Lehigh, David was the president of an international professional development organization, TAMID; the cofounder of Lehigh's flagship student-led entrepreneurship group, CREATE; and a portfolio manager for the Thompson International Investment Portfolio. David has previously worked at Philips Lighting's global R&D center in Shanghai, China; at early-stage venture capital fund, Grove Ventures, in Tel Aviv, Israel; and at investment banks Goldman Sachs and Stifel Nicolaus in New York. David continues to pursue opportunities that unite his passions in business, technology, globalization, and entrepreneurship.

LINDSAY WILSON graduated with high honors from Lehigh University in 2018 with a B.S. in political science and global studies. At Lehigh, Lindsay was an active member of the Student Senate, serving as a committee chair during her freshman year and as the vice president during her senior year. She also was an orientation leader for two first-year classes. Lindsay was awarded the James J. Duane III Student Life Leadership Award, the Allegiance Award, and the Bosey Reiter Leadership Cup for her dedication and leadership roles in the Lehigh community. Lindsay is working as a law clerk at The Wonderful Company in Los Angeles, California.

KATHERINE WU graduated with highest honors from Lehigh University in 2018 with a B.S. in statistics and a minor in computer science. She was awarded the Founder's Scholarship and the Performing Arts Scholarship on admittance to Lehigh, and, while at Lehigh, she received the Mathematics Faculty Award and the C.C. Hsiung Award for excellence in mathematics. Katherine was involved in musical ensembles on campus, including the Lehigh Philharmonic Orchestra and the Lehigh Wind Ensemble. She was a member of the Eckardt Scholars Program and presented a thesis on statistical analysis of tibial fracture patients. This research was recently published in the *Journal of Orthopaedic Trauma*. Katherine spent the summer after graduation working at the Johns Hopkins University Applied Physics Laboratory and is currently pursuing her master's degree in statistics at Lehigh as a President's Scholar.
