Army Worm Plays Havoc at Vriesland

MARCHES ON IN SEVERAL OTTAWA COUNTY AREAS

C. P. Milham, Ottawa county agricultural agent, reports that army worms are quite numerous in Jamestown township. They are working mostly on barley, but are traveling to oats and corn. As many as 50 were found under a single bundle of cut barley. On one farm 28 were found on one Canada thistle. The worms are smooth and bare, from ½ to 1¼ inches long, gray in color with black, yellow and reddish stripes on the side run-

ning lengthwise.

They may be controlled by using the following poisoned bait: Mix one bushel of dry bran with one pound of white arsenic (not arsenate of lead) or paris green; add two quarts of cheap molasses and sufficient water to make a moist mash; then add half a dozen oranges or one ounce of banana oil. One bushel will treat an acre. Where fields are cut a furrow should be plowed around the field to trap insects that try to migrate to other feeding grounds. The furrow should be turned toward the

center of the field. Army worms were discovered working in a large area northwest of Vriesland the past week and were reported to the agricultural agent. Mr. Milham arranged a meeting at the John C. DeJonge farm, distributed white arsenic poison and molasses to farmers infected areas. About twenty farmers were present. In-structions for preventing the structions for preventing the spread of insects by using plowed furrows and poison bait were given. Fields were inspected to determine losses caused by the worms. Apparently the army worms started in barley, stripped the leaves and beards and cut some heads off. They then started migrating to other fields where oats, corn, onions and potatoes were growing. They completely ruined nice stands of clover and alfalfa seeded in the oats.

Farmers are advised to watch for and to report their occurrence to the agricultural agent. Poison is available for fighting insects. Over fifty pounds of white arsenic has been distributed. This amount is sufficient to kill worms onfifty

Wednesday all the former pastors of the church had congregated to join in the celebration, no deaths having been recorded in their number in the 50 years. They are in order of their pastorates: Prof. W. Haynes, Rev. J. Vanderwerp, Rev. J. W. Brink, Prof. L. Berkhof, Mr. Keengstra, Rev. J. A. Gerritsen, Rev. J. C. Schaap, Rev. A. Pliek, Rev. W. . Vanderwerp and Keegstra again. Eight charter members still are living.

The church was organized as a separate congregation in 1881 after residents there had become irked at the inability in spring to cross the river to attend services in the church at Lamont.

Singing by a chorus and speaking by the visiting pastors were on the afternoon and evening programs Wednesday, with supper prepared in the evening for 800 expected guests, including members of the congregation and others interested in the church.

Holland Pays Part Pavement To New Bridge

Lighting Matters Come Up; Drug-gists and Junk Dealers Are Given Licenses

Owing to the intense heat th City Fathers" hurried through the evening's regular council meeting and not a few jumped into their cars for a dip in Lake Michigan. Some very important matter came up among them the paving of the approaches to the new bridge over Black River on North River

Mayor Brooks, who has had great deal to do with this bridge niater, states that the new structure will be ready for traffic by October, however one of the jobs that are to be done is the paving at both ends of the bridge, which is not a part of the bridge contract. The city of Holland must pay its share at the south end which will be a little less than a third of the entire cost—the city's share being about

Holland will have to take care of the south approach only however, and the city council made a wise move to start the paving from 4th street where the brick pavement ends and from there continuing or with a whole new asphalt pavement to the bridge. This short stretch would have to be renewed soon and the job might as well be done now with the state paying the biggest share. This new stretch will also be 40 ft. wide. The state will also pave and pay for the stretch of new highway from the bridge north to Lakewood boulevard. This road will also be 40 ft. wide, however the city does not directly pay a penny on this stretch of road, but this approach is paid by the state

and county. Welfare work is also climbing since prosperity took wings. In the good old days the needy received approximately \$75 to \$95 every two weeks; today regular and tempor amounts to more than At this meeting of the council the amount asked for and allowed was \$1260.60.

for the nature lover.

The first question naturally how do the dunes get started? But swered there must be some explanation as to how the sand becomes located where it is. It seems that the great glaciers that once passed the lake shores, and that as the waves of the lake kept pounding in against the bases of the cliffs where they were sorted and worked by the water. The bowlders and course stones were left on the ticles were carried out into the waters and to churn up during a city in the world. If you love trees and plants and growing things you will certainly enjoy the dune country.—

Dmitriess is connected with the trading corporation in New York City which acts as agent in this country for Russia. His wife travels with him as his stenographer.

They visited several of the celery farms around Hamilton to see the transplanter, which is manustically and the untruth "that the oval would be unpopular" has been exploded long ago.

The thing now is to get more parking space. When the land for the oval was purchased there was considerable more than the oval would occupy. All the land from the oval to Lake Michigan beach is included. However, there is con-

them there in the celery but in cotton and even wheat as well. They are very much interested in ultural methods used here and the way the work is done. According to the manager of the Hamilton plant, their report of the Five Year Plan is much different than the impression usually given by newspapers here. Dmitriess, in his conversation, described the improvements made in the conditions of Russia's peasant class in particular. Most of them have homes now, he stated. According to Dmitriess, the land is divided into sections, then organ ized, each unit being represented in the Council of Agriculture. Schools are provided for all the

developing mines and oil wells while heretofore these products have been imported.

Oval At Ottawa Beach Must Be Made Larger

Number 29

It has been well demonstrated during the past few years that the oval at the state park at Ottawa Beach has been a "God-send" to the tired public after a hot summer's day and the mecca for picnickers at least six months in the year.

Last year there was altogether too much congestion at the Oval for comfort, but this year it is even beyond congestion and has become

a stampede.

It is rather amusing and interesting after knowing the opposition brought to bear on the building of this oval how the objectors of six years ago are now the kickers because of the congestion brot on owing to the popularity of this recreational spot. Your editor knows for he was one of the boosters for the oval together with the late Mr. Diekema, Capt. Harrington, several local supervisors and other enterprising citizens, and often the News was accused of boosting a project costing a great boosting a project costing a great deal of money and something that

It is understo have been imported into Russia and that the oval could be extended a least 200 feet north and there ground enough to the east Chairman of the Ottawa County Road Commission, Mr. Harrington, says to park 300 more cars. The thing to do now is for Holland to get busy early and bring influence to bear to have the state enlarge the oval and have the deep sand to into hard surface parking spaces and to also widen the narrow part of the oval in order that cars may be parked all around it instead of

only a part of it.

Holland was wise not only for having fostered the creation of a state park and an oval but the acquiring of the county park, better known as Tunnel Park, as well. Old "Biddy" Has Lost Her Job **Raising Chicks**

BETTER BIRDS CAN BE RAISED ECONOMICALLY IN MODERN PORTABLE BROODER HOUSES

The use of hens to hatch and raise chicks is as much out of date now as the use of an ox-cart for transportation, according to members of the poultry department at Michigan State College.

The use of a good portable prooder house is recommended. Such a house can be built for approximately 90 dollars and will last indefinitely. It can be moved to a new place each year and thus eliminate much of the danger of the chicks acquiring disease which live over from year to year in

infected soil. Insulation of the brooder house helps to maintain an even temperature for the chicks and cuts down the amount of fuel needed to heat the house. Chicks raised in such men's union, was the victim. His a house can all be hatched at the same time and all will be the same age when they are ready to go into the laying house in the fall.

A few years ago the farm flock was not expected to produce winter eggs but the modern poultryman expects his flock to produce eggs during cold weather when the prices are the best. Chicks which have had adequate feed and care are the most apt to make profitable winter layers and the easiest method for producing this type of bird is to raise them in a brooder

were assisted in preparing the girls' cards for the examination by physiians. This required three days. During September and October, Miss Koertge helped Dr. William

Westrate, health officer, in an immunization program. About 300 children were protected against diphtheria and smallpox. The report included the follow-Assisted with clinics: One psy-

chapathic clinic for 18 patients, one county-wide ortheopedic clinic for 73, five pre-school clinics for 150 and ten chest clinics for 197. Baby clinics are held each week sponsor ed by Mrs. C. Bergen and Mrs. N. Robbins, of the civic health committee, and Dr. F. Howell.

Six class periods in Junior High school were devoted to instruction in child care. Two trips were made to Ann Ann Arbor to place patients and eight were taken to Grand Rapids clinic and plans made for their care. Four trips were made to Grand Haven to confer with the probate judge, four health talks were given in addition to school talks, two nights were spent in emergency cases, two delivery cases were atended, 106 hours of the year were spent in the office, 59 conferences were held with doctors and school heads and numerous telephone calls were made and letters written in connection with the work.

Meetings attended included the Michigan Tuberculosis association meeting in Lansing, the Confer-Public Health workers in Lansing, the State Nurse's convention in Grand Rapids and a meet-Virgil DeFeyter left Sunday for a ing of the County-Health units in Spring Lake.

In her school work, Miss Koertge made 261 calls to schools for immunization, inspection and observation of contagions. A total of 2,094 children were given inspec-tions during the year. Of these in-spections, 245 have had dental care, 68 have had tonsils removed and 20 have obtained glasses.

ZEELAND HAS 28 PROSPECTIVE CONSUMPTIVES EXAMINED

Twenty-eight patients were exin the Zeeland city hall on July 9th. The clinic was conducted by the Michigan Tuberculosis Association as one of the anti-tuberculosis activities made possible by the yearly sale of Christmas seals. Of the twenty-eight cases one

was classified as active tuberculosis, two as inactive and twelve as deferred or observation cases. The symptoms of the patients in the latter group, while not sufficiently definite to make a diagnosis certain, were marked enough to have the examining physician advise the patients to follow preventive measures and report frequently to their family physician for care.

The examining physician, Dr. I H. Bartlett of Muskegon, was assisted by the County Nurses, Miss Marian Dadles and Miss Madge Bresnahan.

ZEELAND MAN GETS DESERVED PROMOTION AT HANDS OF RAILROAD

Edward J. Leenhouts, son of Mr. and Mrs. Cornelius Leenhouts of Zeeland, was advanced July 1, from the position of General Agricul-tural Agent for the New York Central Lines, west of Buffalo, to hat of General Agricultural Agent

for the entire system. Mr. Leenhouts was born in Zeeland in 1893 and after receiving his Bachelor of Science Degree at Michigan State College and serving in the World War, entered the service of the New York Central lines in 1920 as Assistant Agricultural Agent at Detroit. Two years later his jurisdiction was extended to the whole of Michigan and in 1926 he was advanced to the position he has just left.

In view of the close interdependence of the railroad and the farmer, this railroad organized an Agricultural Department, whose function it was to interpret current agricultural problems to the Board and to carry the railroad's story to the farmer. The activities of Mr. Leenhouts in this work have been of ests of the railroad.

But the robber, evidently see ing too many people on the street, escaped in his car, which he had driven up to the side of the building in which the Farm Bureau store

Mr. Lutz was a bit shaken and uffered from his tight bonds, but otherwise escaped without injury. According to his story he opened up about 7 a. m. Saturday when a stranger about 26 years old, dressed in a dark suit and cap drove to the side door and asked for a bag of bran and scratch feed. Lutz de-livered the bran into the robber's car and was turning about for the feed when the man put a steel re-volver in his ribs and demanded he open the safe. Lutz declared he did not know the combination. He was then frisked but a sum of money carried under his shirt escaped the quick search of the robber and he was securely bound and gagged and

Mr. Lutz has been employed at the Farm Bureau for the past seven years. Mr. Whistler usually comes

in at 8 a. m., but said that morning he was a little late as he had stayed home to pick cherries. This proved to be a fortunate thing for the boss, as without doubt he would have been roughly treated if he had refused to open the safe, had the burglar remained. The robber's car bore a Michigan

license plate and was a green Oldsmobile of about 1928-29, Mr. Lutz thought. State and county police were notified and the holdup put on the air a few minutes later. Thus far no arrests have been made and the robber, no doubt, has long since reached the haven of "stickup

To the Board of Supervisors of Ottawa County:

Ottawa County:
Your committee, who is in charge
of having printed the proceedings of
the board through Ottawa County
newspapers and in book form, beg
leave to bring this matter up again
at this session of the board since we

ty Clerk's will hold their Convention at Bay City, Michigan, on July 28th, 29th, and 30th, 1931.

A very good program has been prepared and the following speakers secured. Attorney General Voorhees will speak on "New Legislation effecting the Counties of the State"; Secretary of State, Frank D. Fitzgerald will speak on "State Issues;" Jay Mertz, Clerk of the Supreme Court will speak on the Supreme Court Rules; O. T. Moor, District Director of Naturalization will speak on the New Naturalization Laws, and plans are also being made to have Governor Brucker, address the Convention. I am sure that this meeting will be one of the most instructive ever held for the County Clerks.

Your Board is urged to send your County Clerk to this Convention, at the expense of the County, as I believe the County will be more than repaid if your Clerk attends.

Hoping to meet your Clerk at the Convention, I remain, Yours very truly, der that a very reasonable figure could be secured—in other words one overhead for three newspapers.

However, the proceedings were printed in these three newspapers with a circulation coverage of over 12,000 jointly. Heretofore we understand the circulation was very small compared, not over a tenth of the publicity given last year. The service, too, last year in the three newspapers mentioned was prompt, legal and up to stipulation and the proceedings in book form was completed and ready some weeks before these were required.

The gratifying feature of this wider publicity is in the fact that the centers of the largest population, namely Grand Haven, Spring Lake. Holland, Zeeland and the large townships adjacent to these large city centers where the bulk of the taxes come from, are now given an account of the proceedings of the board and what is more they have become very much interested in these published proceedings which is evident from the request for extra copies.

We are sure that the price given last year was very reasonable considering the service given and the num-

Your committee on finance to whom was referred the claim of Herman Lindley on account of error in tax history furnished him by the County Treasurer's office which tax history shows that 1927 tax was paid when in fact it was not paid beg leave to report that inasmuch as this claim was not filed with the County Clerk on or before the third day of this session of the Board of Supervisors as required by law, that said claim is not properly before the board.

Dated June 26, 1931.

WM. E. SLATER, I have thus far succeeded in find-ing the home townships of some 1500 Civil War soldiers of this County. There are still about 80 to be placed.

In the search I have found and use the following:—

1. Township Tax Rolls 1860-66.

2. —Registration Books, and for Allendale, Polkton and Zeeland, copies of registration lists found in the

Jounty files.

3. Town Records of 1860-66.

4. U. S. Government Census of Ottawa County-1860.

5. Volunteer Relief orders issued in the County 1861-66.

6. Military Census of each township 1861-65.

1861-65.

These sources cleared up matters as to those who volunteered in 1861-2-3, before the Draft—that is, some 650 men. Probably 40 more volunteers remain to be accounted to main to be accounted for.

In Sept., 1863, with the Draft, began
the County and Town Bounty system.
The townships of course demanded

enlistment and muster certificates be-fore paying the Town Bounty; and the county demanded Town certific-ates before it paid the County Boun-ty. Hundreds of these muster blanks ty. Hundreds of these muster blanks were found in the township files, and about 850 of these bond-orders were found in the Court House vault. These blanks cleared up almost everything from Sept. 1863 to the end of the War. The bond-orders from Wright, Zeeland and Polkton for February and March, 1865, are missing. In fact I could not locate the files for the April session of the Board for 1865. These files no doubt contain the missing blanks, and further search should be made, and the west vault of the Court House cleared so as to give access to all files.

WM. O. VAN EYCK. Gentlemen:—
Your communication to whom was referred the request of the Peoples State Bank of Holland, Michigan, relative to having an adjustment of interest rate, beg leave to report that conditions in reference to finances in Ottawa County as well as any other County in the State and other States at the time the bid was made for County Money which was made for County Money which was made in good faith by the Peoples State Bank of Holland, Michigan, and which conditions afterwards became abnormal. It is a well known fact that the three newspapermen who jointly published the proceedings last year were urged to do so by several members of the board for some time in order to receive wider publicity of these proceedings which concerns the entire county and the taxpayers therein.

As members of the printing committee we feel that it would do no harm to again consider this matter of printing the proceedings at the June session of the Board of Supervisors in order that the proposal can be gone into more fully. The short proceedings of March have been properly and legally taken care of. CHRISTIANITY SPREAD BY PERSECUTION. LESSON TEXT-Acts 7:54-8:4:

11:19-21; I Pet. 4:12-19. GOLDEN TEXT—Fear none of those things which thou shalt suf-fer; behold, the devil shall cast some of you into prison, that ye may be tried; and ye shall have tribulation ten days; be thou faithful unto death, and I will give thee a crown of life.
PRIMARY TOPIC—The Gospel

Spread by Persecution. JUNIOR TOPIC - Christianity Spread by Persecution. INTERMEDIATE AND SENIOR TOPIC-Martyrs of the Early

YOUNG PEOPLE AND ADULT TOPIC-The Results of Persecution.

Christianity is a life, a "way." Because it is the life of God expressing itself through men, it is indestructible. Its genius is to prosper through opposition. "The blood of the martyrs is the seed of the church." Prosperity may ruin the church, but persecution never.

I. Stephen Stoned (Acts 7:54-60). In Stephen's ministry as deacon he testified of Jesus Christ and wrought miracles in confirmation thereof. This aroused violent opposition on the part of the synagogue officials. Not being able to meet the wisdom as Stephen spoke by the Holy Spirit, they stirred up the people against him. They arrested him and brought him before the council. They accused him of blasphemy and employed false witnesses against him. They could not silence him by argument before the council so they decided to do so by violence.

1. Stephen looking into heaven (v. 55). Instead of looking about upon his murderers in their raging fury he looked up to heaven. This was the secret of his calmness. 2. He saw the glory of God (v. 55). A vision of God's glory only can be seen by those who are loyal to him even unto death.

3. He saw Jesus at the right hand of God (vv. 55, 56). The fact that Jesus was standing showed his actual interest in the sufferings of his faithful witness.

4. Cast out of the city and stoned (vv. 58, 59). 5. His prayer (v. 60). He kneeled

down and cried with a loud voice, "Lord, lay not this sin to their charge." How like the prayer of Jesus on the cross! 6. He fell asleep (v. 60). The Christian's death is only a sleep.

II. Persecution of the Church at Jerusalem (Acts 8:1-4). 1. The ringleader (vv. 1, 3). As member of the Sanhedrin Saul had

cast his vote against Stephen. He perhaps was the Sanhedrin representative to guide and direct in the execution. Saul's consenting to Stephen's death shows that he was not taking part himself, but directing the activities. The stoning of Stephen had so

aroused the passions of savage men that they proceeded to wreak upon the Christians, vengeance who, as a result, were scattered 3. Preaching the Word (v. 4)

Though forced out of Jerusalem they did not go out in a panic, but went "everywhere preaching." They systematically carried forth their evangelistic campaign. III. Preaching the Lord Jesus Antioch (Acts 11:19-21).

In the providence of God a nev missionary center was now being prepared. With the conversion of Saul and his commission as the apostle to the Gentiles, a new center was needed. Antioch was well suited as that center, for it was the natural door to the Graeco-Roman world. The persecution at Jerusalem sent the disciples as far as

1. Preaching to Jews only (v. 19). In this they followed the example of Christ. They had not yet come to realize the universality of the gospel. Even thus limited, they were used in carrying out the di vine purpose.

2. Preaching to the Grecians (v 20). The disciples who had come from Africa and Cyprus were of broader sympathy than those of Palestine, and they courageously crossed the line preaching the Lord Jesus to the Greeks also.

3. The hand of the Lord upon them (v. 21). Perhaps the Holy Spirit was poured out anew as at Pentecost. Their ministry was accompanied with the divine blessing. Many believed on the Lord through their ministry.

IV. Rejoicing in Persecutions () Peter 4:12-19). Fiery trials are to be expected by the disciples of Christ. The world hated Christ and put Him to death. To be reproached and hated for Christ's sake is a badge of honor. and those who may be called upon thus to suffer should rejoice and be exceedingly glad.

Missionary Helping Holland Travelers Out of Difficulties

Rev. John Sietsema, Reformed Church Harbor Missionary at New York and Hoboken, never knows what odd human situation he is go-ing to encounter when he starts for Hoboken to meet a Holland-American liner, containing people who have broken off the thread of their lives in Holland, to take it up again in America. Not long ago he had a story of a young man from Newark, N. J., who went back to the old country to claim his promised bride. Unexpectedly, the lady an-nounced that she had no intention of crossing the ocean and that she

expected him to remain in Holland. Rev. L. E. Foudy, pastor of the Church of God of Allegan the last tention, but the young man had neither side would give in, and the engagement was presently broken. Then the man from America looked up another girl, an old school friend, and wooed her so effectively that before the end of his three months, stay in Holland he was again engaged.

The second lady was quite willing to go to America, but she had affairs to settle. She was, in fact, a trained nurse and had patients under her care, whom she could not desert so abruptly, just because a new interest had come into her life. Therefore the young man went ahead, and when she was ready to follow he asked Mr. Sietsema to go with him to Hoboken and take charge of the preliminaries which must be settled with the immigration authorities. Thus the wedding party was escorted to City Hall where the two were married and departed with Mr. Sietsema's bless-

They then drop down on the juicy last night, will be held Monday at the intense heat and dryness of the inte fruits of the ranchers in such numbers that it is necessary to shoot them. Game protectors and wardens suggest that dishes of water be placed at convenient points where pheasants and other feathered invaders are found. Those ranches which have followed this practice find they are not bothered by the depredations of the birds.

Cheboygan's Fish Story

Leonard McDonald, member of the Board of Education, Cheboygan County, was speaking as he plied his barber trade in a patron's chair.

"Bill Forman, of Clinton, Mich. caught a five-pound whitefish in Mullet Lake with his bare hands the other day," he said. "He and a pal chased it three fourths of the way across the lake before they

caught it. "Muskellunge or something was chasing the fish, and in trying to get away it would break water. In this way the fellows were able to follow it, and finally young Forman

grabbed it. "I wouldn't have believed the story, but about 10 other fellows told me it was the truth. They had seen the fish, and it was injured as if some enemy had been trying to

make a meal off it." BLACK LAKE MAY GET TURNING BASIN IN '32

City Clerk Oscar Petersen has been advised by A. F. Everett, associate engineer of Grand Rapids, that funds may be available next year for the construction of a turning basin and deepening of the inner channel in Black lake. Petersen received the reply in response to a resolution adopted by the council and transmitted to Everett.
