A Maxim gun was brought into action carly in the day. The fire was too hot, and the men were finally forced to retire. A sergeant, aided by seven volunteers, saved the gun. There was a continuous fire all along the line, the Lincolnshire regiment's men vigorously replying. About 3 o'clock in the afternoon the Boers appeared to the left of the position occupied by the British An officer and 15 men attempted to charge them. Fourteen were killed or wounded as the result of the charge.

BANGOR WILL HAVE A MUSTER.

(Bangor Commercial.)

(Banger Commercial.)

It is an ill wind that blows nobody good. Portland's Old Home week firemen's muster, which up to now has seemed selfish on the part of the Forest City in that it has spoiled the chances for the state firemen's muster in Gardiner, is going to turn out an excellent thing for Bangor after all

As soon as this was settled, (calling the Gardiner muster off), Chief Mason decided that there was no reason why Portland should have all the entertainment in this line, and set to work to form a plan whereby Bangor could be amused as well. Bangor's Old Home week day is to be August 9, and the chief saw no reason why a muster could not be held on the following day, while the visitors are still in the city. He accordingly went at once to Mayor Chapin with the plan, and talked it over. The mayor heartly approved of the idea, and promised his earnest support.

At a city government meeting probably to be held on Monday of next week, concerning another matter, the plan for a firemen's muster in Bangor.

A PITIFUL TRAGEDY.

Story of the Death of Miss Lillian Foye at Newport.

Newport, R. I., July 13.-C. I. Foye of Chelsea, Mass., arrived here this morning and at once recognized the body of the girl found yesterday off Jamestown as that of his daughter, Lillian M. Foye The body will be prepared for burial here and Mr. Foye will take it to his home in Chelsea, leaving here on the 3 p.m. train. n Chelsea Wednesday noon. Wm. C. Rich, with whom she seemed to be infatuated had not been seen there for several days until this morning. The lead girl was so large and well developed that she was readily taken to be twenty five years of age, but her father stated she was but seventeen. As soon as the identification was completed the body was turned over to Mr. Foye by the Jamestown authorities who has charge of the case. No autopsy was held here as one was not deemed necessary it being evident that death was caused by drowning.

Chelsea Mass July 13 — Wm. C. Rich Chelsea, Mass., July 13.—Wm. C. Rich of Chelsea, whose name has been con-nected with the death of Miss Lillian M. of Chelsea, whose name has been connected with the death of Miss Lillian M. Foye of Chelsea, whose body was found in the water off Newport, R. I., yester day, and who has been away from home several weeks, returned today. He refused to discuss the case. The death of Miss Foye has caused wide regret here, as she was well known and very popular. She was a member of the graduating class of the high school and was held in high esteem by all of her acquaintances. Her mother died when she was an infant and since that time, with her father, she had lived with her grandmother. Those who were well acquainted with the young woman, when they heard that Rich was not at his home, were inclined to believe that he had committed suicide. The relations of the young couple have been known to be very intimate, and their attentions to each other have been the subject of considerable comment. A short time ago both the parents of the young man and the relatives of the girl tried to interfere in the matter, but they continued to see each other until Rich went away. It is believed that Miss Foye was on her way to meet Rich in New York and inform him of a matter of vital importance to both, when she decided to commit suicide.

B. L. Rich, father of Wm. C. Rich, stated today that, the young couple range of the graduating class and the state of the graduating class in the Kennebec river this after noon two young girls, Lora Fournier, age 14 and Florida Latlippe, aged 19, were drowned. The boat contained beside those mentioned Daniel Day and Miss Nellie Burgess, aged 25. The party was near the Benton shore and Miss Burgess. The Fournier girl moved in such a manner as to upset the boat.

Day went under the craft but succeeded in getting out and rescuing Miss Burgess. The Fournier girl did not appear at the surface and as the water runs swift at the point where the accident occurred, Day found it impossible to go to the aid of the Latlippe of Gold street, Waterville. importance to both, when she decided to commit suicide.

R. L. Rich, father of Wm. C. Rich, stated today that the young couple ran away to New York together just before the fourth of July, because Miss Foye was in a condition which made marriage advisable and the young man thought that if they went to New York he could get work there and in some way earn enough to wed the girl. Their plan was not to communicate with their folks until they had been married. But the money which he took with him soon gave out and young Rich was faced by the problem of what he should do. He then decided to return home. Miss Foye came home a few days ago and apparently did not know of Kich's plan to come back.

Councilman Woodside's Proposition
To Build Vaughan's Bridge.

A new proposition will be submitted at the next meeting of the city council. It will come, so it is said, from Councilman Woodside. He proposes that the city shall sell its Portland and Ogdensburg stock of which the city has about a million of dollars worth and take up the \$778,000 worth of bonds which come due in two years. Then he proposes that the city shall issue new bonds to build Vaughan's bridge so that the generations which are coming along in the next twenty-five years may have an opportunity to pay for their share of the structure and in the Phillies Made it Warm for Pittsburg shall issue new bolds to that the generations which are years may have an opportunity to pay for their share of the structure and in the meantime the city shall have the use of the new bridge. Some of the rest of the money Mr. Woodside, so it is understood, lead. In the first half of the first inning, money Mr. Woodside, so it is understood, proposes to devote to building the Back Bay sewer which shall be bonded as will other needed and necessary improve-

WAITING FOR NEELY.

Havana, July 13.—The Fiscal says that Former Director General of Posts E. G. Rathbone will not be arrested until all the papers in the Neely case shall have been received from Washington, and that the only absolute criminal charge certain is that of the misappropriation of \$1000. He also says that a civil suit for more than \$25,000 will be instituted against Rathbone's bondsmen; but as Rathbone is already held as a witness, the Fiscal thinks it better to await the developments of the Neely case in order to see if the claim of Deputy Auditor Reeves that Rathbone received \$15,000 can be substantiated.

Omega Oil For Bicyclists

A bicycle rider ought to take as good care of his body as he does of his wheel, but or his wheel, but usually he does not. He cleans his machine, rubs all the dust off, and carefully oils the bearings. He puts it away in a dry place, and keeps a jealous eye upon it day afterday. Hisown body needs more attention. It is a machine of far reater delicacy than his wheel. It is full of joints, muscles, tendons and bones. These become sore from constant use. They need oil to limber them up and to take out the soreness. Omega Oil is exactly the thing required. It should well rubbed

Frank H. Ingraham, of Rockport, has been nominated by the Republicans of the classed towns of Rockport and Camden to represent them in the Legislature. There was no opposition, but Howard Gardiner of Camden filed a written protest, in which he alleges that sufficient notice was not given by the caucus notice. He also demanded that Mr. Ingraham declare himself on the subject of an independent water system for Camden, an issue in which Mr. Gardiner himself is taking a very prominent stand Mr. Ingranam replied that he should give both sides of the question careful consideration before voting.

In Kennebunk Sidney T. Fuller has been nominated by the Republicans to represent the classed towns of Kennebunk and Dayton in the legislature. He won after a close contest with Lendall W.

FOR SUMMER VISITORS.

Pleasure resorts are growing in number each year, but with all their attractions the summer visitor should not forget the many pleasant places round about the city which have not been adorned with Queen Anne casinos, and where the shore dinner is not one of the main sources of enjoyment. The Portland Sunday Times will help the summer visitor to find some of these places and what is printed for the benefit of the stranger within the gates will be found of interest to Portland people. Read in tomorrow's issue of the Times the handsomely illustrated article on Picturesque Stroudwater, a village in the midst of a city and one which strikingly suggests the days when Maine was a part of the colony of Massachusetts Bay.

THE NEW WOMAN

Is Making Her Appearance in All Parts of the Land.

Mrs. Clara Makemer, housekeeper for the Florence Crittenden Anchorage Mission, of Chicago writes from 802 Chestnut street, Chicago: "Peruna is the best tonic I have ever known for general debility-a sure cure for liver complaint, and a never-failing adjuster in cases of dyspepsia. I have also used it in cases of female irregularities and weak nerves common to the sex, and have found it most satisfac-

Dr. Rachel A. Magaw, 67 W. Jefferson street, Springfield, O., says: "Your Peruna is worth its weight in gold. I feel like a new woman. I can't praise it enough. I spent a great deal of money on doctors, but nothing ever did me any good until I sent to you and tried your Peruna."

The coming of what is known as the "new woman" in our country is not greeted by everyone as if she were a great blessing. But there is another new woman whom everybody is glad to see. Every day some invalid woman is ex-claiming "I have been made a new woman by Dr. Hartman's home treatment." After years of bitter disappointment and suffering they have found medical relief at last. The more new women we have of this kind the better it will be for the future of our country. It is only necessary to send name, address, symptoms, duration of sickness and treatment already received to Dr. Hartman, Columbus, O., and directions for one month's treatment will be promptly forwarded. The medicines can be

obtained at the nearest drug store. Address Dr. Hartman, Columbus, Ohlo, for a free copy of "Health and Beauty," a book written especially for women, treating of diseases peculiar to their sex.

Health Assurance In Dentistry

WE have lately added to our equipment a Formalin sterllizer, also a duplicate set of Operating Instruments. In the future all instruments will be thoroughly sterilized and made antiseptically clean after each and every operation.

The benefits to the patient of this method cannot be overestimated, as it absolutely prevents the transmission of disease from one patient to another.

It is doubtful if many people in Portland realize the work there is in making plans for such a celebration. Take the morning parade on August 7th, for example. It is a pageant which lasts but an hour or so and not in the town of westport, Connemarra province, Ireland. The principal characters are a young Irish gentleman, whose for tune has all but gone through the proverbland generosity of the Irish people and a young English girl whose beauty and kindness have won for her the title of "The English Rose," from the peasants of the neighborhood. OT WEATHER loses half its terrors when you're properly and comfortably clad. The right sort of clothing has much to do with physical comfort and mental poise.

There are many helps to warm weather endurance in a store like this, more things than can be enumerated. You wouldn't be interested to read a list of them, perhaps you'll serve you're own welfare best by a leisurely look through the departments, not forgeting the Basement, which at this season abounds in useful merchandise of special fitness for the needs of the present time.

Fans for instance, Japanese paper ones, the kind that do not shut up but are always ready to raise a breeze. Hammocks, those made by Palmer and the other best makers. Plaited straw cushions and piazza seats. Ice water jugs, punch bowls and a hundred kinds of glass tumblers. All kinds of pienic baskets are here, from the small individual size to a large stout hamper big enough to hold a lunch for a considerable party. Paper napkins, plated knives and forks, chafing dishes, portable alcohol stoves for heating soups, drinking cups. The Ralston Club Cocoa in 25c tins. Vantines preserved ginger. Chocolate Bon-bons.

The Basement also sells kites and sail boats, pails and shovels for the children. Golf, Tennis and Croquet.

The Basement also sells the "Bramhall" Sewing Machine,—the best low-priced sewing machine in the world.

Again in the early spring of this year Mr. Small sent a second notice, directed to the selectmen of the town and the mayor of the city. Mayor Reynolds received the communication, and read it to the aldermen at a city meeting. The emmunication was referred; but has not been heard from in any way visible

Third Season Promises To Be th

The Portland branch of the Pine Tree Kindergarten association is now wel filled and this season, which is the third since the association was organized, promises to be the best in its history When the officers of the association began not disposed to be captious or exacting; to look about for accommodations in the summer of '98, Ray Francis Southworth the pastor of the Bethel church on Fore street, offered the free use of the church This offer was a most timely one and the kindness of Mr. Southworth has ever since been much appreclated.

The association in Portland is organized for the special purpose of looking af er the children in the Jewish section. Th. mission is located right in the heart of Chief Consul Small is in touch with the Jewish quarter and has thus been members of the L. A. W., all over the found to be very convenient. The object the Jewish quarter and has thus been is to take the little ones off the street and to interest them in affairs that will late. on be to their advantage. The work tha has thus been accomplished is something that the members and friends of the or ganization feel proud of.

In the first summer there were about fifty children who were given instruction Last year there were over one hundred. This year a great deal of interest has been manifested and the demand for accomodations has been so great that many children have been, and are still, continually turned away. The church has been found to be all too small and the teachers Miss Jane Proctor and Miss Eleanor Smith, have been able to look after not more than fifty pupils. Miss Proctor is one of the teachers in the New Hampshire state normal school at Concord, N. H., and Miss Smith comes from Chelsea. Mass. The ages of the children who at-

tend range from four to seven years Boys and girls of eleven and twelve years also go to the kindergarten every morning, but they are not allowed to remain after the morning talk has been given and the singing has taken place. The sessions continue from nine o'clock to twelve o'clock in the morning and are held every day in the week except Saturday and Sunday. The term began-July 5 and will continue until the first of September. One of the first lessons which the scholars learn is that of obedience. All of the pupils file into school every morn-

ing and sometimes as many as lifteen

minutes are taken until this little detail is given in as perfect style as possible. The singing is very pretty and the children are accompanied in this by the plano. The most of the songs are of the patriotic order. There is no teaching by text books but the children are strictly taught the letters of the alphabet so that they may learn to read. Moulding and drawing exercises are also a branch of the studies and in this connection the boys and girls make paper ornaments of many kinds. Last year a department of manual training was in vogue and excellent progress was made. But this year this has been found to be impracticable and will probably not be adopted as a part of the course. It is the intention to soon arrange an afternoon session in order that the mothers of the children may be inyited to attend. Then lessons in sewing and in other useful lines will be given.

"We feel well encouraged in our undertaking," sald Miss O'Donnell, the chairman of the committee of the association which has the work in charge, yesterday afternoon. "The children have shown a fine degree or enthusiasm in the kindergarten and we are every day turning away many who would like to be enrolled on the list. Boys of twelve years old and thereabouts come every morning and but they cannot be accommodated and have to be turned away. Here in this city the association is not very large, but the citizens have been very kind to us and ing has been done in this direction. I think that the city ought to take hold of

In Bangor there is also a branch of the association which is about as large as the one in Portland.

as follows:

BAPTIST YOUNG PEOPLE'S UNION.

The Kev. H. L. Morsehouse, D. D., field secretary of the American Baptist Home Mission Society, delivered an address on "America as a Field of Opportunity" He said in part:

"Here is the opportunity of Christian centuries for Christianity to be at its best and do its best. Among effete peoples of Egypt, Greece and Rome, encountering a glittering paganism, with its seductive philosophies, encompassed by hostile influences and besting a pestilential atmosphere, though Christianity wrought wonders, it had not a fair chance on a lurge scale to show its capabilities. Neither in many modern European countries have confulitions been favorable. But here, in this continental preserve, in an absolutely free field, with ample scope, and they seemed to be like grass in its path. When it struck the west end of the barn, both doors being closed, it blew the door off. Then it lifted about 63 feet of the northerly roof from the rafters, leaving about 20 feet in the centre of the barn unmoved. Part of this roof has not been found yet. Other parts of it were carried over the nouse, which is two story and over 100 feet from the barn, and smashed into splinters.

A board 15 inches wide was blown through the walls of the house. The foundations and their doors being opened, were unroofed and left ruined. The house which was built of hewn lumber, seems to be worthless.

A FEARFUL RACE.

Street Car Run Away Down Main Street Hill, Lewiston,

ESPECIAL TO THE PRESS.] Lewiston, July 13.-A most thrilling

incident and what narrowly escaped being a horrible disaster occurred on Main street in this city at a little after 7 o'clock tonight. The palace car Merrymeeting, loaded with a pleasure party, going to Merrymeeting park to a dance was coming down the street, and when about opposite the hospital a fuse burned out and the brake refused to work From this point to Auburn bridge is a steep down grade. The heavily loaded car gained momentum as it came down the hill and, passed the head of Lisbon street like a flash, going at a speed of 50 or 60 miles an hour. Down it went over the hill to the bridge at a fearful rate, peo-ple on the sidewalks standing half paralyzed with fear, expecting every moment to see it leave the track and be dashed

to pieces.

As the track leaves the bridge on the Auburn side, it divides, there being a double track as far as Main street. The forward trucks of the runaway took the left track, while the rear remained on the right. This reduced its speed so suddenly that the terror-stricken passengers were thrown into a heap on the floor, but no one was injured.

but no one was injured.

The car dragged along in this way for some time until it stopped. Coming down Court street at this time was another heavily loaded car and had it been two minutes ahead of time it must have met the runaway on the single track on met the runaway on the single track on the bridge. Bew York Stock, Money and Grain Market Review

New York, July 13.-Today's stock ing affair and marked the further relapse from the manipulated rise of the earlier part of the week which came into evidence yesterday. Selling to take profits was the order of the day and the bears put some fresh short lines. The sympa- Sept thetic depression from foreign markets was allowed its full effect. The pressure of profit making which met the advance when last night's level of prices was approached, discouraged the attempt an almost lifeless state. The sharp break in the wheat market which might be fairly as the offerings were they were sufficient to drive prices sharply below last night's Sept......

Call loans fell to 1 per cent this afternoon and the probability is in favor of an increase in surplus reserves. The July..... bond market continued dull and the changes were mixed. Total sales par value, \$1,585,000. U. S. bonds were unchanged in bid quotations.
