### Westminster Played Out Says Miss Lee

Courageous Labor Government, a New Foreign Policy, and Tariff Solution Needed

#### MUST MOVE FORWARD

"Westminster, its glory, its heroism, belong to the past, and will not be revived if it is left in Conservative hands," said Miss Jennie Lee, former Labor M. P., in her talk in Goodhart, Wednesday night. This glorious paat must serve as a guide, though not a model for the future. In the seventeenth century, the House of Commons rose to the national importance which it has today through its vital struggle with Charles I, during which its speaker denied the king's arbitrary power in these historic words: "Your Malesty, I have neither eyes to see, nor ears to hear, but as the House commands." Today different things are being strug- Drama Presents Moments in gled for, but the abstract forces are the same.

Labor Leaders have just as earnest convictions as the Opposition of SETS 1642, and are as ready to risk their worldly goods. In the seventeenth century the selfish economic interests of merchants plus the religious factor formed a terrific national force which lead to the supremacy of the British Empire and the House of Commons. We have now reached a erisis when we cannot muddle along; but once again we will see whether Great Britain can produce the type of person who will hazard all, and produce a like meeting of the economic, the body, and conviction, the

"We feel," said Miss Lee, "that we have these two elements: the torment of economic insecurity, not of a small middle class, but of the broad masses plus the spirit of the Labor movement, which has grown because people felt they were not getting a square deal, and saw an opportunity in the Labor and Socialist movement." The Labor Government of 1921 was formed on a wave of popular feeling, and destroyed in 1926 by its own limidity in economic issues. This failure of the Labor Party threw the people of Great Britain into the arms of the Conservatives, with whom they saw a chance of regaining former\_prosperity; but "that is not brave, as we should look ahead to solve new economic problems."

Westminster is played out," said Miss Lee, "unless Great Britain can send up a Labor Government more courage us than those of the past." It cannot run back to the past not when other countries are going ahead, nor can it use its former tacties in India, Manchuria, and Geneva. "I see no future for Westminster as a vital force, if we do not change our foreign policy. Tariff also requires bold solutions, but party leaders simply quarrel about it. A tariff wall will not cure unemployment any more than it has in America, and is just another attempt to muddle along." Attempts to change in minor way are doomed to fai ure, for only public control of the main industries, imports, and exports would he a basis for employment.

"The present struggle at Westminster is just as keen if not keener than in the sevent enth century. The pow-(Continued on Page Two)

Monager. Eleanor Yeakel, '33, Subscription Manager.

### CALENDAR

Thurs., Mar. 24, 4.30-A meeting of the Undergraduate Association will be held in the Common Room. Ten will be

Fri., Mar. 25, 12 45-Spring vacation begins.

Mon., Apr. 4, 9 A. M.—Spring vacation ends.

Sun., Apr. 10, 7.30—Rev. Dr. James Gordon Gilkey, minister of South Congregational Church, Springfield, Mass., will speak in Chapel.

Mon., Apr., 11, 8,20-Mr. Stuart Chase, economist and author, will speak in Goodhart Auditorium. His subject will be "The End of an Epoch."

### R. E. Jones Tells His Theories on Theatre

Life Ordered, Clarified, and Intensified

### FIT

To our own humble thoughts about the theatre Robert Edmond Jones added some vital inspiration in what he has discovered for himself about the drama. As a stage designer Mr. Jones has seen our theatre it its rawest state and found in it little form, but tremendous life and energy.

Drama does not imitate life; it picks out its significance and presents it in an intensified form, Life is never clear for longer than n moment at a time, but goes on without order, having neither a beginning, a middle m an end. A play selects some moment, holds its clarity, begins, develops and ends it in order, so that the function realize that it had something to face. Fire seems too great for the man of of the theatre is "fixing our attention Although Semman made two long, today to overcome. Telephone, tele on each moment of life us it basses."

### Self-Government Meeting Makes New Amendments

At the meeting of the Self-Govern ment Association Thur day. March 17, it was voted that for an overnight absence a student shall have notified her hostess of her intended arrival. The resolution against climbing in or out of windows was omitted. A res olution was passed to the effect that students must be in by 10:30 and that entering or leaving the hall after ers that be in Great Britain will not 10.30 by any means other than the front door shows flagrant disregard of this regulation. Article XIII was amended to stipulate that if a student, after leaving the halls, finds out before 10,30 that she wishes special permission, she must itelephone for a member of the Board and have herself signed out; if a student after 10.30 finds that she is unavoidably delayed, she must notify the Warden. A motion that the hours for informal dancing be changed from 12.15 to 2.00 was carried. To make the resolutions conform more closely to the purpose of the organization it was resolved that each member of the asso-

### Season's Biggest Game Is Won by Bryn Mawr

First and Second Varsities Beat Swarthmore Teams to End Season

#### HAVE FULFILLED HOPES

In the Saturday morning game against Swarthmore the Bryn Mawr tenm proved that speed and accuracy in shooting can overcome an advantage in height. It took a whole quarter for Bryn Mawr to come out of Its daze and for Longacre to get the jump fromthe huge Swarthmore center.

The game started off with a rush with a series of quick passes by Swarthmore, but they soon lost the ball when McCully intercepted a pass from Sterling and sent it down to Contain. Boyd feinted a run to the line, but doubled back to receive the pass from Collier over Longshore's head. Boyd's easy shot was followed by a pretty banked shot by Stubbs for Swarthmore on a quick dribble through Moore. The highlight of the first quarter was the passwork of the ANALYZES IMPARTIALLY CHARACTERS Swarthmore forwards. One of their best was from one of the centers to a forward who, running back, reversed it again to the center, only to receive it beneath the basket for un easy overhand shot.

In the second quarter the Bryn Mawr guards seemed unable to get their passes through, but continued their excellent work of blocking long passes and breaking up dribbles. Although Longacre was unable to get the tip-off, her passwork and that of Remington, who practically ran eircles around her tall but slower oppo-

steady shooting game, but did some future. The more strongly an artist, wheth- excellent passing. Longshore's splen biggest game of the season had then authority.

### Miss Park Announces Foreign Fellowships Different Atmosphere Will Open Up New Possibilities to Students Chosen to Go

"Change in the most useful spur to study that we have at our disposal," said Miss Park at chapel Friday morning. Most of us are reluctant scholars but manage somehow to finish the assigned reading and write our reports. The desire for a prize whips many students toward the goal, as well as a strong inherent instinct to advance. The most important timulus to learning, however, is change, as provided for by the Foreign Fellowship. Although it is of-American Economics ten difficult to study under shifting conditions, a different atmosphere opens up new possibilities. As Dr. Flexter said, "For igt universities make us use our wits.' They awaken us to fresh values and knock all shallowness and immaturity out of us. We are treated as independent and learned scholars and come in contact with foreign people, diets, and cus-

33 CUM LAUDES IN '32

It was for the purpose of providing this broader intellectual outlook that the Delaware Foreign Student Plan was evolved. The sophomores who are to study at the Sorbonne next year are: Jean L. Anderegg, Mary K. Boyd, Halla Brown, Mary E. Charlton, Margaret G. Dannenbhum, Elizabeth Fain, Helen G. Gill, Marguret 1., Haskell, Marion G. Mitchell. Myra Little, of the Class of 1933, will join the group and take her junior year with them.

Although it is not until graduation day that the name of the senior chosen as the Bryn Mayer European Fellow is amounced, here is the list, comprising one-third of the class, of clean shots which never even touched graph, radio, wireless, are at our those who now possess cum laude avcrages: Amelia Margaret Alexanderson. Looking Back

The surface accumulations of a year of editorial experience area bout to be laid aside with the passing of another Editorial Board. There-is a continuity of aims, however, which is not disturbed by superficial changes Now in the above sentency each letand which binds together The News of the past, present and future, regardless of its leader.

There has always been the customary journalistic desire to present information of interest to News subscribers--students, faculty, alumnae and fond parents. On this basis alone The News was founded. There has grown inevitably from this the function of interpreting college news and relevant affairs outside the community. Since interpretation of affairs necessarily implies convictions about their relative importance and their missing watermelons from out of their general significance, one ia led imperceptibly into the editorial policy of attempting to mould public opinion as well as to inform it. The News watch, and armed with shotguns has taken over this privilege, but, realizing that it is a grave responsibility waited for results. One night the as well, the Board has adopted its programs only after careful consideration of their probable consequences and complete agreement among the in the patch and shot. When the members to follow the affair to its logical conclusion.

Finally The News has, in the last few years, been free of any official He and his father and brother transcensorship. It has, therefore, followed a general policy of using material ported the corpse to a nearby river, which it judges is worthy of the mature consideration of its readers. If cut a hole in the ice and deposited there are criticisms of this material The News is anxious to take all responsible the body. Much later a search was

bility for its mistakes and to stand behind its beliefs.

The News Board, regardless of its changing composition, is conscious tramp who had been missing for an as a body of these guiding principles and tries to carry them out. It has undetermined period of time. Ice always been anxious to hear the criticisms of those who feel that it is not cutters were used on the river in an doing this successfully. On the other hand, hard experience has shown that effort to find his body, as it was no one element of its policy is pleasing to everyone. It can, therefore, only thought he might have committed sulattempt to point out that which is part of its foundations and leave its superstructure to the changes brought about by circumstances and person- erage intelligence, we were told, sees ·alities.

### Letters

(The NEWS is not responsible for any opinions expressed in this columil.)

The following letter from the Belov Quartet has been received by Denise Gallaudet, '32, President of the Glee Club:

My dear Miss Gallaudet:

It is a pleasure for me to tell you how much my Quartet enjoyed assisting you on the program of last Saturday evening.

The Glee Club rendered the program with such precision and good taste, that it was quite obvious that you had been trained by a fine muaician and excellent conductor. Mr. Willoughby certainly deserves a great deal of praise for this splendid work, of which he should be very proud.

I have heard many Glee Clubs and have played with quite a few; but seldom have I been more pleased with a program, particularly the difficult "Hallelujah Chorus, and the fine ahadings of Brahms. Your director, Mr. Willoughby, is not only a musician of aincerity, but a master in training for the most desired results. With best wishes for your continued success, believe me to be

Very truly yours, JOEL BELOV.

### Plans Progressing Well for May Day on May 7th

(Continued from Page One)

7 o'clock, daylight-saving time. This performance is necessary in order to get the girls from the schools and also on account of the arrangements for the special train.

If Friday, May 6, is rainy the performance will be postponed until Monday May 9, rain or shine. Postponement posters will be held at all the railway stations for use if needed, and the newspapers will co-operate by carrying in their last-minute news the statement of postponement. In case of postponement the plays will be scheduled in Goodhart Hall, the Pembroke Dining Boom and the Gymna

sium and schedules posted on the campus. Very often, I am told, spring rains break at about 5 o'clock, in which case the pageant would be given after the plays.

many alumnae may ask you how fore; the costumes are taking shape and promise to be an beautiful as ever before, and the dances, especially for the Masque of Flowers, promise to be an outstanding feature of the 1932 May Day.

The most exciting single development is the running of the special train from New York to Bryn Mawr without change, the round trip for a singlefare. This train will leave New York City some time after 10 o'clock and returning will leave Bryn Mawr some time after & There will be coaches, Pullman and dining cars, and the charge will be \$3.65 FOR THE ROUND TRIP. Special excursion rates are also being arranged for from Washington and Baltimore and from the Middle West and the Southwest and Boston.

The first release about May Day with the May Queen's photograph is scheduled for Sunday, April 4.

Please take every opportunity to tell everyone about May Day .- Caroline Chadwick-Collins.

General Pershing: "Military preparedness is not an incentive to make war — it is a national insurance against war."

Margaret Collier, 33; has been elected President of the Self-Government Association, to

succeed Alice Lee Hardenbergh. Josephine Bronson, '33, has been re-elected captain of the swimming team, and Susan Daniels, '34, has been elected manager.

### The Pillar of Salt

As this is the last appearance of this column under the old regime, we would like to have ended in a burst of flame. We feel that given time, we could have been screamingly funny, but time is something we never have, least of all just now. With the return of several alumnae to direct May-Day plays a new and dlstinctive atmosphere has pervaded our smoking-room. It would seem that once out of college, the graduate is driven to use all her ingenuity, knowledge and reference books to devise something to occupy the time once filled by quizzes and reports. Some of our friends have been remarkably successful in a amall way; the only rub is that our time is already well filled and their pastimes are just too intriguing. For instance, there is this little gem.

### News of the New York Theatres

A few of the gray-haired and aged theatre-goers will remember a play which visited Philadelphia under the title of "Zoom." It was not so good. so it disappeared—but not for long, unfortunately. The producers took the play up in the wilds of Connecticut, gave it a new paint job, thought up some new wise-cracka, and this week a brand-new play, "Happy Landings," ia billed for New York. If The paint sticks, it will be all right. but if it ever cracks, Mr. Sirovich will be needed to preserve peace between the critics and their victims.

Pauline Frederick's next undertaking will be the direction of "Housewarming," a comedy by Gilbert Emery. Miss Frederick appeared earlier in the acason in "When the Bough Breaks," which was received moderately well by the critics, but not by the depression.

More news about "Birth." Last week the publicity on the opening began to fall off, so they changed it to "Life Begins." The general iden seems to be the same, but there seems to be an element of spring in the latter which may be of some valueand after all, even Broadway has it first robin.

Rose McClendon, who will be remembered as Serena in "Porgy" and as one of the Negro servanta of the Old Gaard in "The House of Connelly," will be starred in "Black Souls," a drama due in New York in two

The theatrical horizon brightens somewhat with the announcement that Donothy Gish, Henry Hull and Osgood Perkins are due to appear in a play entitled "Foreign Affairs." After watching Mr. Hull as the dashing atances.

It is interesting to note that in the notices of "Polly of the Circus" the Hearst papers bill Marion Davies in large print and Clark Gable in small in direct opposition to all screen ranking, etc. This old world isn't the subtle place it used to be.

## Annual Hectic Struggle

A crowd of madly cheering people watched the Varsity win an hilarious victory over the Faculty team, by a score of 37-30, on Tuesday afternoon After a relatively uninteresting half under girls' rules, the fun began in the second half, when men's rules were played. Boyd, Collier and Hardenbergh were high scorers for the Varsity, while Mr. Carlson and Dr. Blanchard shone for the Faculty.

Dr. Nahm's quaint poatures, especially his side handstand, were met with howling approval by the on lookers. Dr. Watson's ambling gait and periodic flights into mid-air wreaked great damage on several of his opponents who were trying vainly to block his floor-length dribbles. Mr. King's lofty thoughts were lost in the knowledge, and if, in our disillusion, humor was sorely tried. After many catchings of breath, Dr. Turner, beset with sundry difficulties, managed to remain safely in the game to the lot of territory and attempted several baskets. Dr. Richtmeyer'a more peaceful playing was much appreciated by his worn-out opponents. We missed Dr. Wells and Mr. Warburg.

#### Season's Biggest Game is Won by Bryn Mawr

## Remains of Medieval World

"It is in the Near East, where progress has left fewer traces than in Europe, that one gains a true con-Macdonald, when he showed his moving pictures of the Odyssey Cruise in frequented by the average tourist,

The cruise starts from Venice early ited so that the Temple of Jupiter the church. and the Field of Mars beneath the hundred yards of the shore. Some twenty monasteries housing four thousand jolly monks cling to the sides of the cliff, twelve thousand feet above the sea. No women have set foot on that slender strip of land for many centuries. However, at Patinos there is a very similar monastery, where the female sex is not forbidden entrance. Fine specimens of Byzantine art and illuminated manuscripts are preserved here. After Mt. Athos, a trip is made to the city of Priam and Hector, thirty miles inland, and thence on to Istanbul, with its "minaretted" mosques and its Orlental bazaars. Small motor-boats are used on the Black Sea at Helles. pont and the expert swimmers are given an opportunity to prove their mettle. The Praga continues to the island Thera and anehors in the crater of the volcano. The towns on the "shore" are built on volcanic rock and lava, and the water in the crater is turbulent and a sulphur-yellow. On the return to Venice visits are made to Rhodes, most colorful of the Aegean Islands; to Knossos, in Crete, site of the ancient Minoan capital, and to Brioni, a popular resort.

WHITESTAR-RED STAR

# Keep a Regular TELEPHONE Date with Home

ERE'S A TIP for Freshman! Now you're at college, you can always "go home by telephone."

Regularly, or whenever you like, give Mother and Dad a call.

Tonight, for instance, pay them a "voice visit." Tell them how you're settling down. What a thrill they'll have to hear your voice-and maybe you won't enjoy it, too!

But, best of all, arrange to call home each week. That's a joy they'll look forward to as much as you.

### FOR THE LOWEST COST AND GREATEST EASE

Set your "date" for after 8.30 P. M. and take advantage of the low Night Rates. (A dollar call is 60c at night; a 50c call is 35c.)

By making a date the folks will be at home. Thus you can make a Station to Station call rather than a more expensive Person to Person call.

Jungive the operator your home telephone number. If you like, the charges can be reversed!

W-No. 1

#### F. P. A. Decides Russia Did Not Cause Depression

The Foreign Policy Association came to verbal blows over "Russia and the Depression" on Saturday. March 19th. The discussion opened with a speech by Mrs. Eve Garrette Grady, author of "Seeing Red," to the effect that Communism in Russia was starving itself to dump cheap goods on the Capitalist world, and that she had written a letter to the Soviets demanding that their atrocities be stopped.

The next speaker was Calvin B. Hoover, Professor of Economics and Political Science at Duke University, and author of "Economic Life of Sovlet Russia." According to Mr. Hoover, this depression, which is the worst one we have ever gone through, was not in any way caused by Russia, although she benefits by it. Our wheat has been hurt by low prices, and the greatest increase has occurred in Canada and Australia, so that although Russian exports have added to the surplus, it would have existed even without them. There is surprisingly little social unrest, and all of it abroad, but our self-satisfied attitude of "oh, well, we'll get through somehow," is not helping us to get ourselves out of the economic depression. The importance of the success of Communism is inestimable now, but one eannot overlook the absence of unemployment in Russia. and their 15 per cent. increase in production compared to our 4 per cent. rate in normal times, not to mention a 40 per cent. drop in the last two years. The Soviets believe Communism will become international, but they will have to reckon with Fascism in every country. The two unanswerable questions are, can Natianallsm defeat Communism, and since Nationalism only makes international conflicts sharper, is there no happy medium? The one evident thing is that we must throw off this depression if we expect to keep society, democracy, and parliamentary institutions.

Louis Fischer, author of "The Soviets in World Affairs," "Why Recognize Russia?" and "Machines and Men in Russia.' opened his address with an attack on Mrs. Grady's misstatements about Russia, due to her insufficient information. The real matter of Mr. Fiacher's speech was that the Soviet Union is the only country free from depression, and the reason is an inexhaustible market. By reducing the margin between cost of production and solling price to zero, Russia has eliminated profit and her labor can buy back what it produces. With no profit there is nothing to stop production or introduce unemployment; Russia's potentialities are unlimited; she is building constructively. Under international Bolshevism overproduction would be inevitable, and following that, depression, therefore capitalism must be international. The Socialist system could be used nationally and the best argument for

it is the possibility of a world revolution. The success of socialism could do what revolt has formerly been needed to accomplish.

"The ideal student is always in revolt. A comforming student is a Bourbon to start on, who never learns anything new and never forgets anything old. Conformity is death to youth. Later in life youth will learn to conform with wisdom; but at the home plate, with the bat in its hand, before the bases are run, youth should be in revolt-free, on its toes, rarin' to go," said William Allen White, in a recent interview with a Dally Kansan reporter.—NSFA.

"If all the people who daily come into Manhattan from the North could be placed into a single line, that line would stretch from 59th street to the waters of Hudson Bay in Canada," declared Harold M. Lewis, Executive Engineer for the Regional Plan of New York City.—NSFA.
