

Copyright Transfer and Conflict of Interest Disclosure

Journal	<i>Blood</i>	Manuscript #	BLD-2019-002665R1
Date	February 24, 2020 12:35 GMT	IP Address	129.31.37.41
Title	Evolution of retrovirus-infected premalignant T-cell clones prior to Adult T-cell leukemia/lymphoma diagnosis.		
Authors	Aileen Rowan, Richard Dillon, Aviva Witkover, Anat Melamed, Maria-Antonietta Demontis, Nicolas Gillet, Liew Jun Mun, Charles Bangham, Lucy Cook, Paul Fields, and Graham Taylor		

I. COPYRIGHT TRANSFER FORM

1. I hereby transfer and assign all copyrights in and to the manuscript named above (called the Work hereafter) in all forms and media, now or hereafter known, to the American Society of Hematology (ASH) effective if and when the Work is accepted for publication in *Blood*, Journal of The American Society of Hematology. If the Work is not published in *Blood*, Journal of The American Society of Hematology, this copyright transfer agreement will not take effect.
2. I understand that if and when the manuscript is accepted for publication in *Blood*, it will be prepublished online as a First Edition paper unless it is a Letter to the Editor, an Editorial, a Blood Commentary item, or an Introduction to another article. I acknowledge that *Blood*'s First Edition papers undergo full peer review but none of the editorial preparation - such as copyediting, typesetting, and proofreading - that is performed for articles published in the final print and online edition. It will be the corresponding author's responsibility to double-check the article for accuracy prior to submitting it for prepublication as a First Edition paper.
3. I warrant that the manuscript (or its essential substance) is original and has not been published other than as an abstract in any language or format and has not been submitted elsewhere for print or electronic publication consideration.
4. I warrant that the manuscript does not contain any material the publication of which would violate any copyright or other personal or proprietary right of any person or entity.
5. I will obtain and include with the manuscript written permission from any respective copyright owners for the use of any textual, illustrative, or tabular materials that have been previously published or are otherwise copyrighted and owned by third parties. I agree that it is my responsibility to pay any fees charged for permissions.
6. As author, I retain the following nonexclusive copyrights, to be exercised only after the Work has been published in final format in the print version of *Blood*.
 - (a) Reprint the Work in print collections of my own writing.
 - (b) Present the Work orally in its entirety.
 - (c) Use the Work in theses and/or dissertations.
 - (d) Reproduce the Work for use in courses I am teaching. (If I am employed by an academic institution, that institution may also reproduce the Work for course teaching.)
 - (e) Distribute photocopies of the Work to colleagues, but only for noncommercial purposes.
 - (f) Reuse figures and tables I created in future works I write.
 - (g) Post a copy of the Work on my personal Web site, departmental Web site, and/or the university's intranet, provided a hyperlink to the Work on the *Blood* Web site is included.
 - (h) In all the instances under clause 6(a) through 6(g) above, I will give proper credit to the original publication in *Blood* as follows:
This research was originally published in *Blood*. Author(s). Title. *Blood*. Year;vol:pp-pp. © by the American Society of Hematology.

II. CONFLICT OF INTEREST DISCLOSURE

ASH and the Blood Journal are committed to ensuring the integrity of all their activities. The Conflict of Interest Policy for Blood contributors requires each author to disclose all relevant financial and other interests that might be construed as resulting in an actual, potential, or apparent conflict in one's role as contributor to Blood, regardless of amount or value.

Nothing in the disclosure statement shall be regarded as creating a presumption of impropriety in the existence of financial interests or other relationships. Blood's purpose is to inform peer reviewers and readers of the existence of financial relationships pertinent to the article in the interest of the full transparency of the peer review and publication processes.

During the peer review, the conflict(s) of interests will only be disclosed to editors and reviewers who will keep them confidential.

If the paper is accepted for publication in Blood, all disclosures will appear in the prepublished article and in the final print and online edition of the article, under the acknowledgment section.

To read the full ASH and Blood Conflict of Interest policy, click [here](#).

- I have no conflict of interest, including specific financial interests, relationships, and/or affiliations relevant to the subject matter or materials included in this manuscript.
- I certify that all conflicts of interest, as applicable to me, including specific financial interests, relationships, and/or affiliations relevant to the subject matter or materials included in this manuscript are disclosed in the manuscript, under the Acknowledgments section or in the Authorship section.

These interests may include one or more of the following: employment; consultancy within the past two years; ownership interests - including stock options - in a start-up company, the stock of which is not publicly traded; ownership interest (including stock options but excluding indirect investments through mutual funds and the like) in a publicly traded company; research funding; honoraria directly received from an entity; paid expert testimony within the past two years; any other financial relationship (e.g., receiving royalties); membership on another entity's Board of Directors or its advisory committees (whether for profit or not for profit).
