

**[RETRACTED]** Corona Virus Killed by Sound  
Vibrations Produced by Thali or Ghanti: A Potential  
Hypothesis

This article have been **RETRACTED** by publisher from all the platforms except Zenodo, we contacted them to remove but they are currently facing some trouble at their website, we are waiting for their action.

The wrong paper has been published due to some technical glitch. The information pertaining in this paper is misleading the readers and creating massive conflicts amid the scientific community.

The appropriate actions have been taken on Author, Editor and concerned staff responsible for such act.

**Apologies for the inconvenience caused**
