Global Hindu Diaspora
A bibliography of books and main articles

October 2004,
few updates June 2008

by Martin Baumann (University of Lucerne)

The bibliography lists monographs, edited books and main articles which as their main topic describe and analyse the global spread of Hindu traditions in antiquity and modern times. At times a synonymous treatment of "Indian" and "Hindu" had been unavoidable though this usage does not imply that all Indians are necessarily Hindus. The same applies for the usage of "South Asian". For convenience, at the outset a list of some main edited books on the global Hindu diaspora is given. Amendments and suggestions for completion of the bibliography are appreciated.
