

Partnerski program *Gugl knjige* kao platforma otvorenog pristupa u naučnim bibliotekama

Milica Ševkušić
Institut tehničkih nauka SANU

XI međunarodna konferencija OTVOREN PRISTUP ZNANJU U BIBLIOTEKAMA
Narodna biblioteka Srbije, Beograd, 26. oktobar 2012.

Otvoreni pristup i naučne biblioteke

- **Informisanje korisnika o prednostima otvorenog pristupa**
(korelacija izmedju dostupnosti publikacije i njenog naučnog uticaja, najčešće merenog brojem citata)
- **Informisanje korisnika o modelima i kanalima otvorenog pristupa**
(**modeli**: zlatni, hibridni, zeleni; **kanali**: OA časopisi, institucionalni i tematski repozitoriji, Google Books)
- **Diseminacija rezultata naučnog rada korišćenjem različitih kanala otvorenog pristupa**
(pohranjivanje u repozitorije, održavanje repozitorija, edukacija korisnika, provera metapodataka,...)

Otvoreni pristup naučnim monografskim publikacijama

- U korpusu materijala dostupnog u otvorenom pristupu naučne monografske publikacije manje su zastupljene od naučnih radova objavljenih u časopisima
(razlozi: očekivani komercijalni efekat, postojanje izvršnog izdavača, autorska prava)
- Kod monografskih publikacija, povezanost između dostupnosti i naučnog uticaja teže se može izraziti kvantitativnim parametrima
- Zastupljeni kanali otvorenog pristupa:
 - objavljivanje na ličnom blogu, web stranici ili sajtu institucije
 - digitalni repozitorijum
 - Google Books

Google Books – Gugl knjige

Servis koji je Gugl uveo krajem 2004. godine. Omogućava pretraživanje i prikazivanje elektronskih verzija knjiga i časopisa pohranjenih u Guglovu bazu podataka. Prikaz može biti potpun ili ograničen.

Servis obuhvata dve komponente:

- Projekat Biblioteka

(**namenjen bibliotekama**; skeniranje knjiga i časopisa iz fondova biblioteka koje učestvuju u projektu, konvertovanje slika dobijenih skeniranjem uz pomoć OCR alata i indeksiranje tako dobijenog teksta; brojne diskusije o kvalitetu obrade; velika rasprava zbog kršenja autorskih prava i dva sudska spora)

- Partnerski program *Gugl knjige*

(**namenjen izdavačima**; obrada elektronskih verzija knjiga ili skeniranje i OCR obrada štampanih verzija, indeksiranje; izdavači sami šalju materijal Guglu, sami odlučuju u kojoj meri će njihove publikacije biti vidljive, zadržavaju sva autorska i srodna prava i u svakom trenutku mogu da isključe svoje knjige iz programa; publikacije dostupne u punom tekstu mogu se zaštititi Creative Commons licencama)

Partnerski program *Gugl knjige*

- registracija i podešavanje naloga
- slanje elektronske verzije publikacija
(unos osnovnih metapodataka, slanje datoteka u PDF ili ePub formatu korišćenjem web formulara ili aplikacije Google Uploader)
- podešavanja
(dopunjavanje i ispravljanje metapodataka, određivanje stepena dostupnosti prikaza, izbor licence za publikacije koje će biti dostupne u punom tekstu)
- OCR obrada i indeksiranje
- objavljivanje
- dodatna podešavanja, recenzije

Add Books

[Input Book Settings](#) > **Upload/Ship Books**

You can either upload your books in PDF/ePub format or ship them to us.

Upload PDFs & ePubs

There are 2 ways to upload PDFs and ePubs:

1. Using the new Google Uploader

Now, it's easier to upload PDFs and ePubs using the Google Uploader! [Learn more](#)

- No need to rename your files
- Batch upload files using drag and drop
- Edit book settings directly in the Uploader window

[Launch Google Uploader >>](#)

2. Using the web form

- **Name your files**
Follow [our instructions](#) for naming your files.
- **Check your file size**
For files over 10MB, use the [Google Uploader](#).
- **Add covers** (*optional*)
You can upload separate JPG images for the front and back cover ([details](#)).

1.	<input type="text"/>	<input type="button" value="Browse..."/>
2.	<input type="text"/>	<input type="button" value="Browse..."/>
3.	<input type="text"/>	<input type="button" value="Browse..."/>
4.	<input type="text"/>	<input type="button" value="Browse..."/>
5.	<input type="text"/>	<input type="button" value="Browse..."/>

[add another file](#)

Ship books

You can also send books to us by mail by following the instructions below.

Include a detailed packing slip

Your shipment should include a packing slip with the following information:

- Date
- Your company name
- Number of books included in the shipment
- Number of cartons or pallets in the shipment
- Titles & ISBNs of all books in the shipment
- Your Collection Code

Please mark each carton with your company name, collection code, and box number (e.g., Box 1 of 4)

Print a shipping label

Select one of our shipping locations:

 [Print shipping label as shown](#)

Collection Code:

KH-SF-ON-ZQ26Q9U

Mailing address:

Google
6120 Stewart Avenue
Fremont, CA 94538

Institut tehničkih nauka SANU i otvoreni pristup

- 2007: biblioteka počinje sa radom nakon pauze duže od 30 godina;
- Formiranje hronoloških pregleda materijala koji su nastali kao rezultat naučnog rada na sajtu Instituta i uvođenje obaveze ažurnog prikupljanja takvih materijala; cilj: uspostavljanje institucionalnog repozitorija;
- 2008: objavljivanje magistarskih i doktorskih teza i postera sa konferencija na sajtu Instituta u otvorenom pristupu;
- od 2009: objavljivanje odabranih monografskih publikacija na sajtu Instituta u otvorenom pristupu;
- jul 2009: uključivanje u Partnerski program *Gugl knjige*: 8 knjiga, ograničeni prikaz;
- decembar 2009: *Gugl knjige*, 7 zbornika apstrakata YUCOMAT konferencija prebačeno u režim otvorenog pristupa (potpuni prikaz sa mogućnošću preuzimanja)
- januar 2010: *Gugl knjige*, 8 zbornika apstrakata Konferencije mladih istraživača objavljeno u otvorenom pristupu
- Danas: od 22 publikacije uključene u program *Gugl knjige* 18 je u otvorenom pristupu; i dalje ne postoje finansijske i tehničke mogućnosti za uspostavljanje institucionalnog repozitorija

Jul 2012.

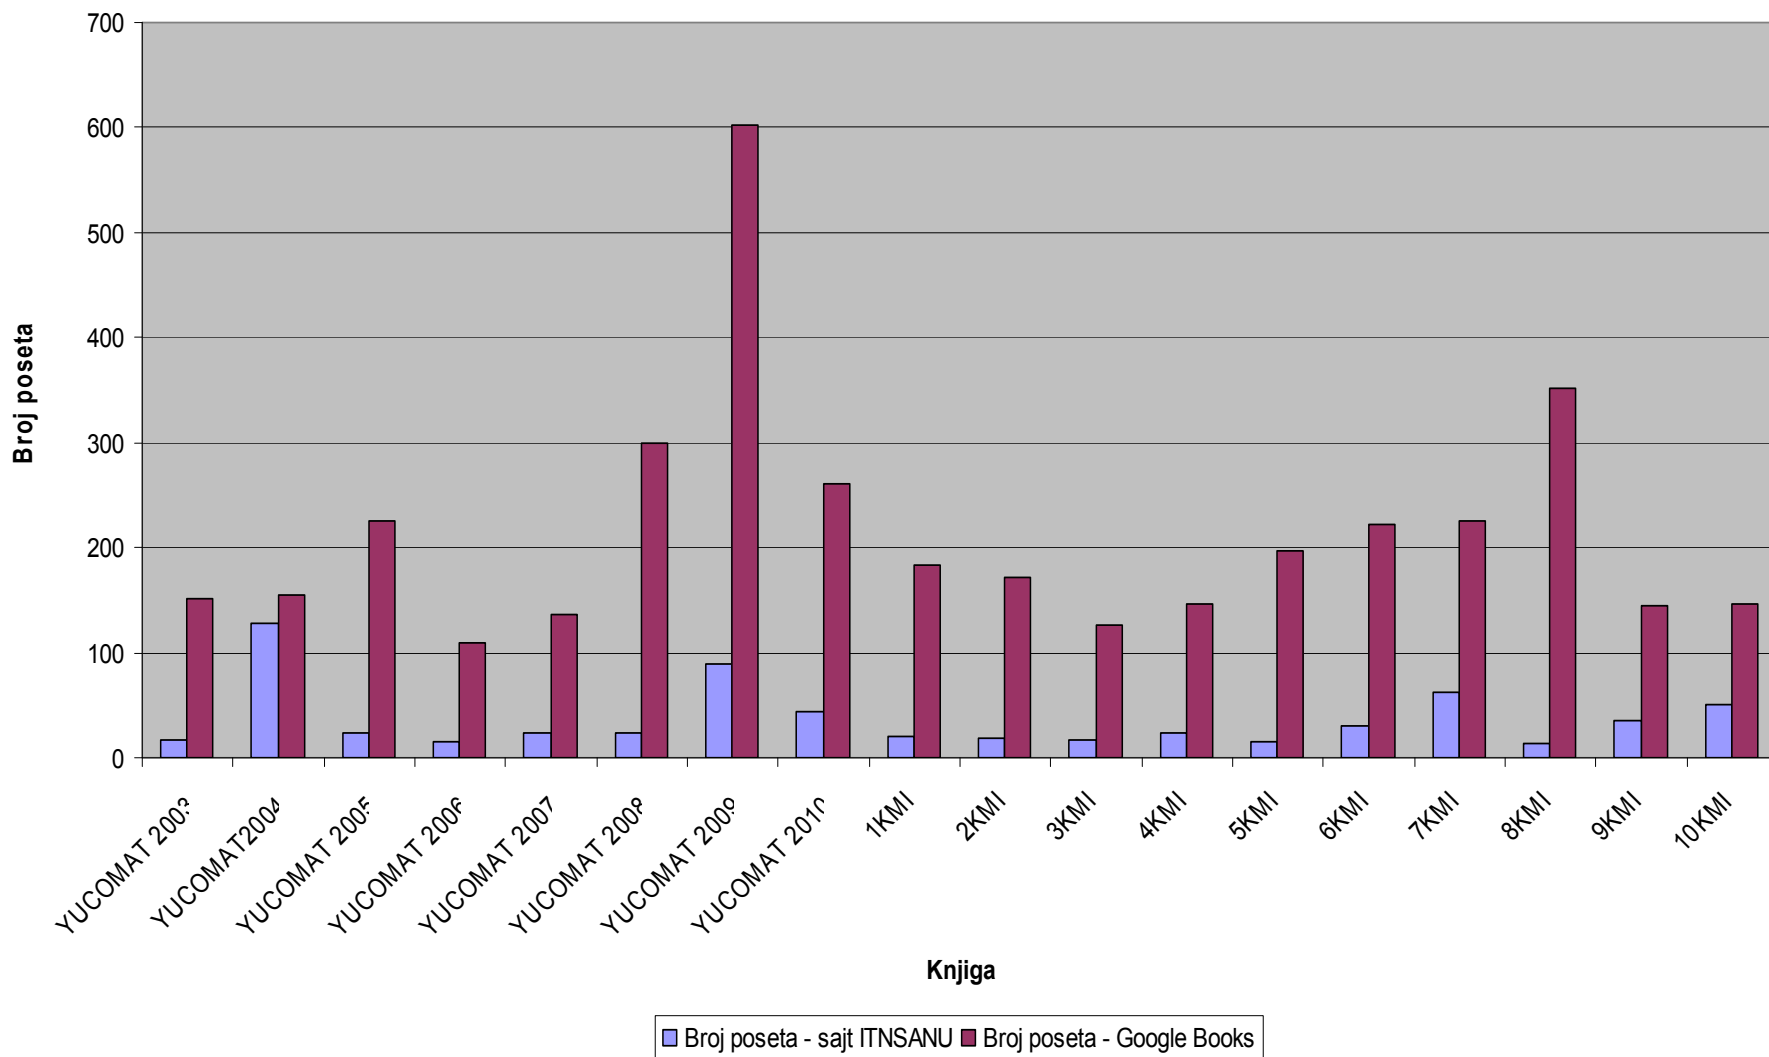

August 2012.

Broj poseta na sajtu Instituta i servisu Gugl knjige: poređenje

Januar-avgust 2012.

- Gugl knjige: ukupno 3857 poseta; u proseku 26,78 poseta po knjizi mesečno; 20820 pregledanih strana; 5,40 pregledanih strana po poseti
(treba imati u vidu da se knjige mogu preuzimati; broj pregledanih strana bi verovatno bio veći da ne mogu)
- Sajt Instituta: ukupno 649 poseta; u proseku 4,51 poseta po knjizi mesečno
- Broj poseta na Gugl knjigama je 5,94 puta veći nego na sajtu Instituta

Prednosti Partnerskog programa *Gugl knjige*

- besplatan je;
- jednostavan je za korišćenje, ne zahteva ništa više od osnovne informatičke pismenosti (tehnička podrška na četrdesetak jezika; jednostavna priprema datoteka koje se šalju na obradu);
- proces objavljivanja je relativno brz;
- omogućava pretragu punog teksta (čak i kod publikacija kod kojih nije omogućen potpuni prikaz);
- ključne reči iz publikacija integrisane su u indeks Guglovog pretraživača, pa su zato publikacije lako nalažljive;
- omogućava integrisano pretraživanje svih publikacija jednog izdavača sa njegovog sajta.

Nedostaci Partnerskog programa *Gugl knjige*

- ne postoji mogućnost da se u okviru programa *Gugl knjige* kreira profil izdavača
(mi smo ovaj nedostatak nadomestili kreiranjem biblioteke na društvenoj mreži *Gugl plus* - http://books.google.com/books?lr=&uid=109151118481674946045&as_coll=0&sa=N&start=0 i pregledom knjiga uključenih u Partnerski program na sajtu Instituta - <http://www.itn.sanu.ac.rs/ITNSANU-GoogleBooks.html>)
- tehničke poteškoće prilikom slanja i obrade knjiga
- naponi koji su tokom poslednje dve godine uloženi da se tehnička podrška maksimalno automatizuje nisu doprineli bržem rešavanju problema;
- zbog velikog broja knjiga koje se svakodnevno šalju na obradu proces objavljivanja ponekad traje znatno duže nego što bi trebalo;
- nepotpuni metapodaci o publikacijama.

Zaključak

- Mada je zamišljen kao besplatna marketinška alatka, nekomercijalnim izdavačima, kao što su naučne ustanove i muzeji, Partnerski program *Gugl knjige* može da posluži kao platforma za objavljivanje monografskih publikacija u režimu otvorenog pristupa; naročito je pogodan za objavljivanje publikacija koje se zbog malih tiraža više ne mogu nabaviti ni kod izdavača (npr. kataloga izložbi).
- Zbog mogućnosti pretraživanja punog teksta iz opšteg Guglovog pretraživača, Partnerski program *Gugl knjige* treba koristiti kao kanal za diseminaciju monografskih publikacija u režimu otvorenog pristupa čak i kada postoji institucionalni repozitorijum.
