Abstract

Keywords: Audiovisual Media, Conversation, Development, 10th grade of SMK

English is the one of the main subject for students, should have the selection media well. The good instructional media is an interesting media because it can attract students attention and motivation to learn English, and catch the materials that will be delivered by the teacher. SMK PGRI Tulungagung has the language laboratory, but this school can not maximize the use of it. The teacher faces the problem to deliver the speaking materials especially in conversation. The 10th grade students of SMK PGRI 1 Tulungagung get the difficulty to pronounce the sentence(s), and make a meaningful dialogue. So that, the researcher develops the audiovisual media. The objectives of this developing media is help the teacher to teach English. Hopefully, the students can make the meaningful conversation after watching this media. So that, both teacher and the students can solve their problem in delivering and learning English in associated with making the conversation.

This development using Sadiman’s Model development which has nine steps of development. They are (1) need analysis, 2) learning objectives formulation, (3) developing material, (4) developing evaluation tool, (5) scenario formulation, (6) developing media, (7) developing utilization guide, (8), validation, (9) revision, and the product is ready to use.

The validation result of this conversation media for 10th grade students in SMK PGRI 1 TULUNGAGUNG using three kinds of validation. They are media expert’s validation, material expert’s validation, and students’ validation. From the three steps of validation, it can be drawn the conclusion that: (a) media expert’s validation stated that this media is valid since she gives 88,75% for validation result, (b) material expert’s validation states that this material in this media is valid since he gives 88,75% for validation result, (c) students state that this media is valid since they give 88,60% for validation result. For the result of pre and post test, there is a significance progress around 63, 94%.

From the result of those validation, it can be concluded that this conversation media is valid and can be used as English instructional media for 10th grade students of vocational high school in second semester, in term of delivering the materials about (1) describing present activities, (2) understanding memo, simple menus, time schedule, and sign, (3) understanding the sentence(s) in correct pattern, (4) telling the simple invitation. In this case, the teacher’s role is very important to explain more about the materials shown in the media, so that
it can create the effective of instructional activities and achieves the learning objectives.
Abstrak

Kata kunci: Media Audiovisual, Conversation, Pengembangan, SMK Kelas 10

Pelajaran Bahasa Inggris sebagai bahasa asing yang telah diajarkan di Indonesia dan menjadi mata pelajaran wajib bagi siswa, harus mendapatkan pemilihan media pembelajaran yang tepat. Media pembelajaran yang bagus adalah media yang dapat menarik minat para siswa, serta mampu mengungkapkan materi apa yang akan disampaikan guru kepada siswa. Di SMK PGRI 1 TULUNGAGUNG, proses belajar mengajar Bahasa Inggris belum bisa memaksimalkan sarana laboratorium bahasa. Kendala yang dialami guru dalam penyampaian materi adalah tentang percakapan. Siswa kelas 10 SMK PGRI TULUNGAGUNG merasa sangat kesulitan dalam melafalkan kalimat, apalagi untuk membuat sebuah percakapan yang runtut dan bermakna. Oleh karena itu, peneliti mengembangkan media audiovisual Tujuan dari pengembangan media pembelajaran ini adalah menghasilkan media pembelajaran yang dapat digunakan oleh guru dan siswa kelas 10 sebagai pembelajaran di dalam kelas. Sehingga siswa mampu melakukan conversation setelah menerima materi dari media pembelajaran tersebut. Sehingga diharapkan dapat memecahkan masalah pembelajaran yang terkait dengan kesulitan guru dalam menyampaikan materi percakapan.

Pengembangan media ini menggunakan model pengembangan Sadiman. Model pengembangan ini terdiri dari sembilan tahapan, yaitu (1), identifikasi kebutuhan, (2) perumusan tujuan, (3) perumusan materi, (4) perumusan alat pengukur keberhasilan, (5) penulisan sketsa media, (6) produksi, (7) validasi, (8) revisi, (9) media siap digunakan.

Hasil pengembangan media audiovisual khusus materi conversation untuk kelas 10 di SMK PGRI 1 TULUNGAGUNG ini menggunakan data dari validasi ahli media, ahli materi,dan siswa. Berdasarkan data dari validasi tersebut diperoleh hasil sebagai berikut: (a) ahli media menyatakan media ini valid dengan total presentase 88,75%, (b) ahli materi menyatakan bahwa media ini valid dengan total presentase 88,75%, (c) pada uji coba lapangan diperoleh hasil valid dengan total presentase sebesar 86,6%. Untuk hasil belajar siswa sebelum menggunakan media (pre test) dan sesudah menggunakan media (post test) dihasilkan peningkatan hasil belajar sebesar 63,94%.

Berdasarkan hasil dari validasi tersebut, dapat disimpulkan bahwa media audiovisual ini valid dan layak digunakan sebagai media pembelajaran bahasa inggris untuk siswa smk kelas 10 semester 2, dalam memberikan materi berupa (1) menjelaskan kegiatan yang sedang terjadi, (2) memahami memo dan menu sederhana, jadwal perjalanan kendaraan umum, dan rambu-rambu lalu lintas, (3)
memahami kata-kata dan istilah asing serta kalimat sederhana berdasarkan rumus, (4) menjelaskan undangan sederhana. Dalam hal ini, peran guru juga sangat diperlukan untuk dapat menjelaskan lebih lengkap tentang materi – materi tersebut, agar pembelajaran dapat berjalan dengan baik, sehingga tujuan pembelajaran dapat dicapai.
