

Review. Bat echolocation calls: adaptation and convergent evolution G. Jones & M. W. Holderied	905
Evolution of the wave: aerodynamic and aposematic functions of butterfly wing motion R. B. Srygley	913
Phylogenetic history underlies elevational biodiversity patterns in tropical salamanders J. J. Wiens, G. Parra-Olea, M. García-París & D. B. Wake	919
Roots in space: a spatially explicit model for below-ground competition in plants E. E. O'Brien, J. S. Brown & J. D. Moll	929
Genetic isolation through time: allochronic differentiation of a phenologically atypical population of the pine processionary moth H. Santos, J. Rousselet, E. Magnoux, M.-R. Paiva, M. Branco & C. Kerdelhué	935
An empirical test of evolutionary theories for reproductive senescence and reproductive effort in the garter snake <i>Thamnophis elegans</i> A. M. Sparkman, S. J. Arnold & A. M. Bronikowski	943
Immunosenescence in some but not all immune components in a free-living vertebrate, the tree swallow M. G. Palacios, J. E. Cunnick, D. W. Winkler & C. M. Vleck	951
'Nasty neighbours' rather than 'dear enemies' in a social carnivore C. A. Müller and M. B. Manser	959
Stress hormones and sociality: integrating social and environmental stressors D. R. Rubenstein	967
Variation in growth and instar number in field and laboratory <i>Manduca sexta</i> J. G. Kingsolver	977
Conspecific sperm precedence in <i>Callosobruchus subinnotatus</i> (Coleoptera: Bruchidae): mechanisms and consequences P. F. Rugman-Jones & P. E. Eady	983
Impacts of the live reef fish trade on populations of coral reef fish off northern Borneo H. Scales, A. Balmford & A. Manica	989
Wolf reintroduction to Scotland: public attitudes and consequences for red deer management E. B. Nilsen, E. J. Milner-Gulland, L. Schofield, A. Mysterud, N. Chr. Stenseth & T. Coulson	995
Species divergence in offspring begging intensity: difference in need or manipulation of parents? A. Qvarnström, J. V. Kehlenbeck, C. Wiley, N. Svedin & S. A. Sæther	1003
Male coercion and the costs of promiscuous mating for female chimpanzees M. N. Muller, S. M. Kahlenberg, M. E. Thompson & R. W. Wrangham	1009

Founded in 1660, the Royal Society is the independent scientific academy of the UK, dedicated to promoting excellence in science
