Design Processes for Strengthening the DoD’s Cyber Workforce / e-week short course flyer

Salem, Anita

Monterey, California. Naval Postgraduate School
Design Processes for Strengthening the DoD’s Cyber Workforce

A Design-Thinking Workshop

Using a human-centered design approach, we will explore the system factors impacting the retention and development of high value Cyber workers. You will learn/practice the design thinking process, explore the cyber problem space, and create prototypes of retention factors & processes.

eWeek
September 25-27  2014
9:00-5:00
Bring your own lunch

Registration is limited
