

LINGUE E LINGUAGGIO

ANNO VI, N. 2, DICEMBRE 2007

SOMMARIO

- Psycho-Computational Issues in Morphology Learning
and Processing: An Overture
by Vito Pirrelli 131
- Computational Learning and Language Acquisition:
A View from Word Segmentation
by Timothy Gambell and Charles Yang 139
- Memory-Based Learning Models of Inflectional Morphology:
A Methodological Case-Study
by Emmanuel Keuleers and Walter Daelemans 151
- Learning Inflection: The Importance of Starting Big
by Basilio Calderone, Ivan Herreros and Vito Pirrelli 175
- Proportions in the Lexicon: (Re)Discovering Paradigms
by Francois Yvon and Nicolas Stroppa 201
- Representation and Processing of Regular and Sub-Regular
Verbal Forms in Italian
by Alessandro Laudanna 227
- Co-Occurrence and the Effect of Inflectional Paradigms
by Fermín Moscoso del Prado Martín 247
- NN Compounds in Italian: Modelling Category Induction
and Analogical Extension
by Marco Baroni, Emiliano Guevara and Vito Pirrelli 263
- Connectionist Models of Inflection Processing
by Gert Westermann and Kim Plunkett 291
