

POIWG #40 – July 26-28, 2016

Upgraded Concept, Agenda, Location

Forum: 49/50 ESA TIM

Date: June 2016

What Are We Doing and Why?

- ◆ For the last several POIWG face-to-face meetings, PD in-person attendance has dropped
- ◆ POIWG is supposed to be a PD-focused forum, and had unintentionally been evolving to a more program-focused forum
- ◆ After POIWG #39, formal and informal feedback was used to re-scope the agenda, content, and even the location
- ◆ What do PD teams want out of POIWG? (based on feedback)
 - ◆ Dedicated time with their POIF and POIC team members
 - ◆ Small group opportunities to learn about capabilities and processes they are interested in, at their pace
 - ◆ Opportunity to learn about other payloads
 - ◆ Dedicated time for external payload topics/issues
 - ◆ Wider scope, not just limited to the next two increments

What Are We Doing and Why?

- ◆ What do PD teams not want out of POIWG? (based on feedback)
 - ◆ Lots of “big meeting” topics
 - ◆ Presentations targeted to ISS program personnel
 - ◆ Splinter meetings with no defined purpose or agenda
- ◆ What we are doing in response to the feedback:
 - ◆ Reducing the time dedicated to main forum presentations, leaving these five focused themes:
 - ▲ Big picture ISS program direction and upcoming capabilities
 - ▲ Brief Increment and Partner statuses
 - ▲ PD feedback and lessons learned
 - ▲ Process improvements that touch PD teams, and are tangible and imminent
 - ▲ Payload overview presentations

What Are We Doing and Why?

- ◆ What we are doing in response to the feedback (cont'd):
 - ◆ Expanding the opportunities for splinters and small groups
 - ▲ Each PD team who is traveling will have the opportunity to request a dedicated splinter with their POIF and POIC team members
 - ▲ Each afternoon there will be “trade fair” booths set up with experts available for Q&A, and to provide information
 - ✧ New capabilities, intro to ops, PD training, eLabel, etc.
 - ✧ POIWG participants can feel free to browse, stop and talk, or use the time to network or have splinter meetings
 - ▲ Continue the popular Externals Splinter in a dedicated time slot
- ◆ We also have procured a new off-site facility!
 - ◆ Called “Campus 805” or “Stone Center”, it is formerly a local middle school and is close to downtown
 - ◆ It has a large main meeting room with several breakout rooms, and easy access to food and beverages

Our Requests of You

- ◆ Only holding 15 min for an ESA status
 - ◆ Would like an ESA big picture program overview, new payloads and any challenges you anticipate. Also any anomalies that will affect ESA or NASA payload ops.
 - ◆ May have to shorten what is normally presented
 - ◆ Present lessons learned or feedback to help other payloads
- ◆ Some ESA payloads can present separately during the overviews if desired
- ◆ We want to know if you are coming!
 - ◆ Contact: Leigh Weston (leigh.weston@nasa.gov)
- ◆ Any other feedback on POIWG, questions, comments, or suggestions are always welcome
