**Summary of Research:**

The Lorain County JVS operates NASA's Central Operation of Resources For Educators (CORE). CORE was established, through a Space Act Agreement at the Lorain County JVS in September, 1987. Funding received through Grant # NAG-1557 was for the continued operation of services CORE provides to the educational community. These funds were used primarily for salary and health benefits for CORE employees.

NASA CORE has two purposes. It operates a mail order distribution center for NASA's educational materials; and it is also the central distribution point for new materials and starterkits to NASA's Educator Resource Centers located throughout the United States.

During the grant period CORE has responded to national and international questions and requests for information from educators and the general public. The breakdown is as follows:

765	Questions/requests answered Via the World Wide Web
30,038	Questions/requests answered via mail
1,156	Questions/requests answered via the telephone
<hr/>	
31, 959	Responses to requests for information

# **FINAL TECHNICAL REPORT**

**Grant #NAG3-1557**

**3/19/96-3/18/97**

Page 2

During the grant period, CORE has distributed the following types and quantities of educational materials to educators around the globe:

55,570	Slide & filmstrip programs
8180	Videotapes
18	Laserdiscs
3,176	Publications
6,710	CD-ROMS/educational software programs
3,583	NASA memorabilia items
<hr/>	
77,237	Educational materials

The above mentioned figures are also outlined on the attached NASA Form 1642.

Also attached is a comprehensive Fiscal Year Activity Report. This report is submitted annually to NASA Headquarters. It gives an item by item quantitative history of the entire NASA inventory for the grant period.
