Control of exercise hyperpnea during hypercapnia in
humans p 7 A86-10105 Characteristics of external respiration in inhabitants of
the northeastern USSR p 9 A86-10698
Indicators of external respiration in young athletes during adaptation to high environmental temperature
p 9 A86-10699
Responses of bulbospinal and laryngeal respiratory neurons to hypercapnia and hypoxia p 3 A86-12381
Changes in antidromic latencies of medullary respiratory
neurons in hypercapnia and hypoxia p 3 A86-12382
Positive pressure respiration, a means of protecting against +Gz accelerations - A theoretical approach
p 31 A86-13568
Compatible atmospheres for a space suit, Space Station, and Shuttle based on physiological principles
p 44 A86-14311
Cardiorespiratory fitness and cognitive performance before and after confinement in a nuclear submarine
p 32 A86-14317
Comparison between the antihypoxic effectiveness of drugs and pressure-chamber training p 34 A86-15518
Decompression outcome following saturation dives with
multiple inert gases in rats
[AD-A163720] p 28 A86-16054 Hypoxic and hypercapnic sensitivity as a reflection of
individual human reactivity p 58 A86-16753
Bedrest-induced peak VO2 reduction associated with age, gender, and aerobic capacity p 87 A86-20402
age, gender, and aerobic capacity p 87 A86-20402 Effect of hyperoxic gas mixtures on oxygen mass transfer
through the hematoparenchymatous barrier
p 103 A86-23492 Mathematical models of the effect of gravitation on lung
functions Russian book p 111 A86-24135
Skeletal muscle lactate release and glycolytic intermediates during hypercapnia p 155 A86-28124
Aerosol deposition along the respiratory tract at zero
gravity - A theoretical study p 213 A86-30169
Cardiorespiratory responses to lower body negative pressure and tilt tests after exposure to simulated
weightlessness p 215 A86-30387
Oxygen consumption during cold exposure at 2.1 G in rats adapted to hypergravic fields p 199 A86-30432
Plasma lactate and ventilation thresholds in trained and
untrained cyclists p 215 A86-30678 Effect of elevated FFA on carbohydrate and lipid
oxidation during prolonged exercise in humans
Somatostatin inhibits the ventilatory response to hypoxia
Somatostatin inhibits the ventilatory response to hypoxia in humans p 216 A86-30681 Carotid bodies are required for ventilatory acclimatization
Somatostatin inhibits the ventilatory response to hypoxia in humans p 216 A86-30681 Carotid bodies are required for ventilatory acclimatization to chronic hypoxia p 206 A86-30682
Somatostatin inhibits the ventilatory response to hypoxia in humans p 216 A86-30681 Carotid bodies are required for ventilatory acclimatization to chronic hypoxia p 206 A86-30682 Ventilatory acclimatization to hypoxia is not dependent on cerebral hypocapnic alkalosis p 206 A86-30683
Somatostatin inhibits the ventilatory response to hypoxia in humans p 216 A86-30681 Carotid bodies are required for ventilatory acclimatization to chronic hypoxia p 206 A86-30682 Ventilatory acclimatization to hypoxia is not dependent on cerebral hypocapnic alkalosis p 206 A86-30683 Correlation of constant flow rate with frequency

SEPARATORS
------------

Magnetic separation device

[AD-D012163] p 249 N86-25975

### SEQUENCING

Sequence polymorphism of HLA-DR beta 1 alleles relating to T cell-recognized determinants [AD-A160237] p 107 N86-18956 New roles for computation in the life sciences

[DE85-017542] p 158 N86-21100

Acquiring procedural skills from lesson sequences [AD-A164580] p 291 N86-26829

#### SEROTONIN

Effect of cold on brain serotonin system and plasma corticosteroid level in different strains of mice

p 5 N86-10766

Functional activity of human serotoninergic and histaminergic systems during long-term antiorthostatic p 60 N86-14852

Effects of 24 h sleep deprivation on biogenic amine metabolism p 120 N86-19846

### SERUMS

Serum levels of eleven steroid hormones following motion sickness p 8 A86-10259 Detection of HBsAg in families of children with viral

p 218 N86-23232 HBeAg and its antibodies in carriers of HSsAg in various regions of USSR p 218 N86-23233

Effect of plasmids on virulence of pseudomonas aeruginosa strains in mouse experiments

p 210 N86-23237 Vaccine Proteins R and D on Salyut-7

p 220 N86-23256 Blood serum enzymes during 7-day water immersion P 287 N86-27902

### SERVICE MODULES

Zero-G simulation verifies EVA servicing of space station modules

[AIAA PAPER 86-2312] SERVOCONTROL

P 407 A86-46942

Duty-cycle analysis of a human-controlled manipulator p 137 A86-23424 SERVOMECHANISMS

Mechanical accessories for mobile teleoperators [DE85-014310] p 23 N86-11855 Advanced servomanipulator development

[DE85-017720] P 100 N86-17989 Servo operated anti-G suit pressurization system [AD-D011932] P 147 N86-18988

### SETTLING

Evaluation of radiation-induced damage in the rythrocyte membranes of rats and dogs according to changes in the erythrocyte sedimentation behavior

#### P 106 A86-24424 SEX

EFFECTS: Documentation and verification for a BEIR 3 cancer risk model based on age, sex and population dynamics for BIOTRAN [DE86-003285]

p 226 N86-24210 SEX FACTOR

Age-related augmentation of plasma catecholamines during dynamic exercise in healthy males

p 10 A86-12376 Bedrest-induced peak VO2 reduction associated with age, gender, and aerobic capacity p 87 A86-20402 Comparative cold responses of men and women to external and internal cold stimuli D 87 A86-20403 The social-psychological aspects of pilot-error - Male vs female p 228 A86-29885 Epinephrine-induced changes in muscle carbohydrate

metabolism during exercise in male subjects p 280 A86-39092 Cardiovascular responses of women to lower body negative pressure A86-41779 p 377

Less bubble formation in women divers

p 126 N86-19883 Objective investigations and subjective observations of sensitivity to weather p 165 N86-21023 SHALE OIL

USAF toxicology research on petroleum and shale-derived aviation gas turbine fuels [ASME PAPER 85-GT-34]

p 80 A86-22023 DNA analysis of epithelial cell suspensions
[DE86-002403] p 249 N86-25977

### SHALLOW WATER

Excursion limits in shallow water heliox saturation p 125 N86-19877 SHAPES

Vision test chart and method using Gaussians [AD-D011756]

p 20 N86-10778 Generating and generalizing models of visual objects [AD-A158197] p 43 N86-13894

Novel architectures for image processing based on computer simulation and psychophysical studies of human al cortex [AD-A166222]

p 404 N86-30333

#### SHEEP

Ultrasonic detection of circulating bubbles in ewes exposed to simulated dives deeper than 800 msw under isobaric conditions and with unchanged gas mixtures p 125 N86-19882

#### SHIPS

A comparison of the effects of circuit weight training on men and women [AD-A159419]

P 69 N86-15910 Electric sleep method of preventing fatigue build-up in sailors on extended cruises p 235 influence of shipboard environmental factors on conditioned reflex activity of experimental animals during a long voyage SHIVERING p 278 N86-27873

Interaction of the thermoreceptor and vestibular signals in the regulation of the activity of flexor and extensor motor nuclei during cold tremors p 103 A86-23493 Analysis of the functional structure of thermogenesis on the basis of pharmacological tests

#### p 208 A86-33074 SHOCK (PHYSIOLOGY)

Microcirculatory changes in rats with burn shock following adaptation to high-altitude hypoxia

p 81 A86-22547 The role of endorphins in the pathophysiology of hemorrhagic and endotoxic shock in the subhuman primate

[AD-A162483] p 177 N86-22100 Advanced clinical research in shock and trauma
[AD-A162730] p 177 N86 p 177 N86-22103

SHOCK TESTS

Potency of photoflash-produced retrograde amnesia in AD-A159149] p 55 N86-15859

SHOCK WAVES

Characterization of YAG lasers for ophthalmologic

applications [SNIAS-852-430-107] p 93 N86-16894 SHOULDERS

Shoulder and hip joint for hard space suits [NASA-CASE-ARC-11543-1]

p 384 N86-28620 Shoulder and hip joints for hard space suits and the like

[NASA-CASE-ARC-11534-1] p 385 N86-29507 SIEVES

Molecular sieve oxygen systems and aircraft role p 96 A86-19315

Molecular sieve oxygen generation system (MSOGS) onboard the B-1B bomber D 430 A86-47737 Test and evaluation of the B-1B molecular sieve oxygen generating system
A small oxygen concentrator P 431 A86-47751

AD-A163145

p 273 N86-25993 SIGNAL ANALYSIS

Electroencephalograms and the read-out of information in the visual cortex during image recognition D 33 A86-15512

Biophysical basis of the two-component analysis of biosignals of the pulsed filling of the blood vessels

p 34 A86-15517 Evaluation of precordial mapping before and after submaximal exercise amongst normal and asymptomatic subjects with non specific ST-T abnormalities

P 251 A86-35290 An informational assessment of changes in the physiological characteristics of an operator under different P 271 A86-36527 An automated system for ST segment and arrhythmia analysis in exercise radionuclide ventriculography p 377 A86-41400

The inverse problem in electrocardiography - A model study of the effects of geometry and conductivity parameters on the reconstruction of epicardial potentials p 394 A86-43750

Spectral-correlation characteristics of EEG in the course of short-term memory tests. I - A study of spectral-correlation parameters of the potentials in the human neocortex during correct short-term memorizing

P 419 A86-49263 On the interrelationship between different ranges of bioelectric activity of the human brain p 422 A86-49975

# SIGNAL DETECTION

Spatial-frequency model for hyperacuity

p 19 A86-11147 Use of a signal detection paradigm to assess subjective intersection points in a target location task

p 129 A86-23720 Effect of wearing chemical protective clothing in the heat on signal detection over the visual field [AD-A164945]

p 145 A86-25657 Minimum colour differences required to recognise small objects on a colour CRT p 240 A86-32316 Information processing in vigilance performance -Complexity revisited p 259 A86-33778

The use of signal detection theory in research on human-computer interaction D 266 A86-33779 Anticipatory adjustments during a warning interval -

Cortical negativity and perceptual sensitivity D 261 A86-33818

Goldstone field test activities: Sky survey p 310 N86-26912

JPL's role in the SETI program p 310 N86-26913 SIGNAL MEASUREMENT Automated anthropometric data measurement system

ND-D0122991 D 443 NR6-33017 SIGNAL PROCESSING

#### Luminance and chromaticity signal processing in the human visual system p 121 N86-19852

Simple and choice reaction time in a secondary task under varied stimulus modality probabilities [AD-A159698]

AD-A159698] p 135 N86-19896 Interactive activation models of perception and comprehension [AD-A161362] p 181 N86-21143

Stanford Hardware Development Program

p 309 N86-26910 Goldstone field test activities: Target search

D 309 N86-26911 Studies on information processing mechanisms in the central visual system of the cat [EL-861]

p 277 N86-27865 Studies on visual information processing in retinal neurons

p 288 N86-27906 Speech analysis based on a model of the auditory system

[AD-A167426] p 427 N86-32098

### SIGNAL TO NOISE RATIOS

A new application of adaptive noise cancellation --- in acoustic barriers p 99 A86-22626 Variability analysis of visually induced responses in the

midst of noise [B8564052] p 16 N86-10774 Fiber optic pressure sensors in skin-friction

measurements [NASA-CR-176294] p 16 N86-11838 SIGNAL TRANSMISSION

Power and signal transmission for mobile teleoperated systems

[DE85-013994] p 45 N86-12975 SIGNS AND SYMPTOMS

Tachygastria and motion sickness D 32 A86-14315 Clinical problems encountered by a squadron flight SUITGEOD D 112 A86-24502 Ischemic cardiopathology in pilots - The risk, the

methods of detection and prevention D 113 A86-24511

is space sickness a form of motion sickness?

p 214 A86-30382 Low acute hypoxia ventilatory response and hypoxic depression in acute altitude sickness

D 252 A86-36224 Effects of pressure on uptake and release of calcium by brain synaptosomes p 247 A86-36225 Clinico-epidemiological characteristics of Q fever in Carpathian foothills D 118 N86-19834 Evaluation of a multi-method group treatment approach

for the management of stress [AD-A160813] p 135 N86-19897 A review of the pilot backache problem in the CH113

abrador helicopter [AD-A164011] p 256 N86-25113 Acute oral toxicity (LD50) of guanidine hydrochloride in

    Forward field autotransfusion device
                                        p 37 N86-12957
VAPOR BARRIER CLOTHING
    Heat transfer in impermeable clothing: Sweat plays a
  role after all
  [IZF-1985-91
                                       p 100 N86-17992
VAPOR PHASES
  Laser kinetic spectroscopy of unimolecular and bimolecular processes in the gas phase [AD-A166998] p 394 N86-31209
                                       p 394 N86-31209
VAPOR PRESSURE
    Phase change water processing for Space Station
  [SAE PAPER 851346]
                                       p 139 A86-23532
VAPORS
    Health hazard evaluation of liquid monopropellants.
  Phase 5: Comparative inhalation toxicities of LGP 1776,
  LGP 1845, and HAN (hydroxylammonium nitrate)
 [AD-A159090]
                                       p 40 N86-13891
    A model of inhaled gas and vapor transport in the human
 [AD-A160829]
                                       p 117 N86-18976
    In vivo dermal absorption method and system for
  laboratory animals
  [AD-D012325]
                                      p 417 N86-32951
VARIABILITY
   Variability analysis of visually induced responses in the
  midst of noise
 [B8564052]
                                       p 16 N86-10774
    Variation in baseline sister chromatid exchange
 frequencies in humans
 [DE85-016084]
VASCULAR SYSTEM
   Changes in the heart rate and in the cerebral vascular
 tonus affected by alternating physical and mental loads
                                      p 89 A86-22535
   Changes in the function of skeletal muscle vessels due
 to the cardiogenic depressor reflex p 81 A86-22594
Tissue gas bubble dynamics during hypobaric
 exposures
 [SAE PAPER 851337]
   SAE PAPER 851337] p 111 A86-23525
Mechanisms of calcium permeability changes in the
 sarcolemma of vascular smooth-muscle cells during
   p 157 A86-29257
Microvascular flow adjustments with postural changes
 in humans
                                      p 215 A86-30448

January 1987

### Typical Personal Author Index Listina

Listings in this index are arranged alphabetically by personal author. The title of the document provides the user with a brief description of the subject matter. The report number helps to indicate the type of document listed (e.g., NASA report, translation, NASA contractor report). The page and accession numbers are located beneath and to the right of the title. Under any one author's name the accession numbers are arranged in sequence with the AIAA accession numbers appearing first.

### Typical Corporate Source Index Listing

Listings in this index are arranged alphabetically by corporate source. The title of the document is used to provide a brief description of the subject matter. The page number and the accession number are included in each entry to assist the user in locating the abstract in the abstract section. If applicable, a report number is also included as an aid in identifying the document.

### Δ

## Admiralty Marine Technology Establishment, Portsmouth (England).

The evaluation of copper compounds as potential fuel biocides

[AMTE(M)-84520] p 84 N86-17974

Performance comparison of thirty, two-stage demand regulators
[ARE(M6)-TM-83818] p. 99 N86-17987

Admiralty Research Establishment, Gosport (England).
Some dominant frequencies of postural tremor are lower at 31 har.

### at 31 bar p 122 N86-19859 Advanced Resource Development Corp., Columbia,

Event-related potential indices of workload in a single task paradigm p 130 A86-23733

Processing inferences derived from event-related potential measures in a monitoring task

p 262 A86-33822

# Advisory Group for Aerospace Research and Development, Neullly-Sur-Seine (France).

Visual Protection and Enhancement

[AGARD-CP-379] p 283 N86-26802

Contact lenses for pilots and aircrew in the services p 284 N86-26815

Medical Selection and Physiological Training of Future Fighter Aircrew

[AGARD-CP-396] p 398 N86-30309 Aeronautical Research Labs., Melbourne (Australia).

A graphic anthropometric aid for seating and workplace design
[AD-A156988] p 23 N86-10788

### Aerospace Medical Div., Brooks AFB, Tex.

Air Force technical objective document, Aerospace Medical Division, FY 1987 [AD-A167422] p 423 N86-32090

### Aerospace Medical Research Labs., Wright-Patterson AFB, Ohlo.

Effect of rotopositioning on the growth and maturation of mandibular bone in immobilized Rhesus monkeys

p 106 A86-25659 Team performance with large and small screen displays

[AD-A158761] p 75 N86-14899 Model evalution of spinal injury likelihood for various

ejection system paramater variations p 91 N86-16641

The effect of acceleration stress on human workload

[AD-A156770] p 180 N86-21140

Instrument lighting levels and AN/AVS-6 usage
[AD-A161538] p 187 N86-21148
The effects of ketamine on Rhesus monkey skeletal

dynamics
[AD-A162848] p 213 N86-24189
Analytical comparison of transient and steady state
visual evoked cortical potentials p 436 N86-32978
Active controllers and the time duration to learn a task

p 439 N86-32994
A collation of United States Air Force anthropometry
[AD-A168485] p 443 N86-33019
Air Command and Staff Coll., Maxwell AFB, Ala.

The helicopter to fixed wing conversion program: A critical review
[AD-A156820] p 42 N86-12968

Air Force Academy, Colo.

Proceedings of the Air Force Conference on Technology in Training and Education (TITE)

[AD-A157829] p 95 N86-16897 Behavioral considerations for space station design [AD-A163478] p 265 N86-25118

Air Force Human Resources Lab., Brooks AFB, Tex.
Pilot-oriented performance measurement
[AD-A158849] p 40 N86-13890

Theory-based cognitive assessment
[AD-A164083] p 266 N86-25991

Air Force Inst. of Tech., Wright-Patterson AFB, Ohlo.
Normalized predictive deconvolution - A time series algorithm for modeling human operator dynamics

p 44 A86-14238 Mild hypoxia and visual performance with night vision googles

[AD-A156969] p 23 N86-10787 Information requirements determination: An empirical investigation of obstacles within an individual

[AD-A158025] p 46 N86-13901 The Middle Latency Response (MLR) and Steady State Evoked Potential (SSEP) in neonates

[AD-A158007] p 67 N86-15900 Comparison of the Air Force female and male pilot grounded time in the Air Force Military Airlift Command [AD-A158093] p 68 N86-15902

A computer model of case-based reasoning in problem solving: An investigation in the domain of dispute mediation

[AD-A158097] p 73 N86-15912 Glucocorticoid antagonism by endotoxin: Biological effects during stress and basis for inhibition of phosphoenolpyruvate carboxykinase

[AD-A160740]

An experimental trial to test the efficacy of temazepam to induce sleep and improve subsequent performance during partial sleep deprivation and circadian rhythm

desynchronosis
[AD-A160795] p 116 N86-18972
A study of the flight environment component of aircrew fatigue in student navigators

[AD-A160796] p 117 N86-18973 Some nonoccupational aspects of sensorineural loss of hearing acuity: A proposed design for study

[AD-A160799] p 117 N86-18974 A proposal for a longitudinal study to assess the hazards of radiation in space flight

[AD-A160801] p 117 N86-18975 A model of inhaled gas and vapor transport in the human

[AĎ-A160829] p. 117 N86-18976 An investigation into effects of environmental changes on locus of control [AĎ-A160861] p. 135 N86-18987 A study of patient's self-image during orthodontic treatment

[AD-A160751] p. 126 N86-19888

[AD-A160751] p 126 N86-19888 In vitro comparison of zinc phosphate and glass ionomers ability to inhibit decalcification under and adjacent to orthodontic bands

[AD-A160881] p 127 N86-19889 Evaluation of a multi-method group treatment approach for the management of stress

[AD-A160813] p 135 N86-19897
An investigation into peer and supervisor differences in the observation of performance-related behaviors

[AD-A160819] p 135 N86-19898 The clinical prediction of dangerousness

[AD-A160820] p 135 N86-19899 Mesolimbic and nigrostriatal dopaminergic systems:

Behavioral neuropharmacology
[AD-A160821] p 136 N86-19900
The influence of quality circles on attitudinal outcomes

among civil engineering personnel
[AD-A161152] p 136 N86-19905
Attention allocation, distraction, and the type A/Type

B behavior pattern
[AD-A160671] p 180 N86-21141
Personality type analysis of Air Force Institute of

Technology School of Systems and Logistics graduate degree 85S class using Myers-Briggs Type-Indicator [AD-A161053] p 181 N86-22107

An examination of the life support equipment development and acquisition process [AD-A162241] p 242 N86-24221

[AD-A162241] p 242 N86-24221
The first cortical implant of a semiconductor multielectrode array. VER (Visual Evoked Responses) and propagation analysis
[AD-A164015] p 248 N86-25972

An analysis of potential predictive parameters of motion sickness using a computerized biophysical data acquisition system

[AD-A164099] p 257 N86-25981
Absolute judgment versus absolute magnitude estimation to convey information through symbol magnitude changes in CRT displays

[AD-A167059] p 434 N86-32103
Air Force Occupational and Environmental Health Lab.,

Brooks AFB, Tex.

Assessing possible damage due to radio frequency

radiation [AD-A166913] p 402 N86-3121

Air Force Systems Command, Wright-Patterson AFB, Ohio.

Space motion sickness preflight adaptation training Preliminary studies with prototype trainers
[IAF PAPER 85-311] p 35 A86-15822

The absorption of benzene through human skin

[AD-A161157]

p 35 A86-1582

[AD-A161157] p 127 N86-19894 Theoretical prerequisites for the possible use of bacteria which split organophosphates in order to increase the yield of nutrient yeast and its nitrogen and phosphorous

[AD-A161811] p 159 N86-22083 Phosphorobacterin and its effectiveness

Phosphorobacterin and its effectiveness p 248 N86-25973 Concerning barotrauma of the lungs-translation [AD-A165006] p 289 N86-27914

[AD-A165006] p 289 N86-27914 Special features of surgical intervention under conditions of weightlessness

[AD-A167916] p 423 N86-32092 Air Force Wright Aeronautical Labs., Wright-Patterson

AFB, Ohio.

Aircrew aspects of United Stated future fighter aircraft

p 398 N86-30310 Air Line Pilots Association, International, Denison, Tex.

Pilot interface with fly by wire control systems p 438 N86-32990

### Alabama Univ., Birmingham.

Rationalization of some genetic anticodonic assignments p 189 A86-28723

Chirally selective, intramolecular interaction observed in an aminoacyl adenylate anhydride p 372 A86-41046 Improvement in wear performance of surgical Ti-6Al-4V alloy by ion implantation of nitrogen or carbon

### Typical Foreign Technology Index Listina

Listings in this index are arranged alphabetically by country of intellectual origin. The title of the document is used to provide a brief description of the subject matter. The page number and the accession number are included in each entry to assist the user in locating the citation in the abstract section.

The Austrian biometeorological service

p 167 N86-21034

Environmental factors and infant mortality

p 168 N86-21041 Human bioclimatic classification methods illustrated with examples of selected countries p 169 N86-21058 Comparison between meteorological complex values and a model of man's energy budget

p 169 N86-21059

### **Typical Contract Number Index Listing**

Listings in this index are arranged alphanumerically by contract number. Under each contract number, the accession numbers denoting documents that have been produced as a result of research done under that contract are arranged in ascending order with the AIAA accession numbers appearing first. The accession number denotes the number by which the citation is identified in the abstract section. Preceding the accession number is the page number on which the citation may be found.

## **AEROSPACE MEDICINE AND BIOLOGY** / A Continuing Bibliography 1986 Cumulative Index

January 1987

### Typical Report Number Index Listing

Listings in this index are arranged alphanumerically by report number. The page number indicates the page on which the citation is located. The accession number denotes the number by which the citation is identified. An asterisk (\*) indicates that the item is a NASA report. A pound sign (#) indicates that the item is available on microfiche.

#### **Typical Accession Number Index Listing**

Listings in this index are arranged alphanumerically by accession number. The page number listed to the right indicates the page on which the citation is located. An asterisk (\*) indicates that the item is a NASA report. A pound sign (#) indicates that the item is available on microfiche.

### **SPECIAL NOTICE**

The abstract sections of the monthly supplements of *Aerospace Medicine and Biology* can be bound separately. Individual abstracts can be located readily by means of the page numbers given at each entry, e.g., p 278 N86-27878. To assist the user in binding Supplements SP-7011(281) through SP-7011(292), a title page is included in this Cumulative Index.

# AEROSPACE MEDICINE AND BIOLOGY

### A CONTINUING BIBLIOGRAPHY

## Abstracts January — December 1986
