Skylab Progress Report, March 1975

A Lake and Sea Ice Experiment with Skylab Microwave Radiometry

We have received the requested ERAP PMIS imagery for flight 36, lines 4-6, which were requested last quarter. We continue to do the preliminary work necessary for the data we have while we await receipt of the S193 data.

The proposal for extension of our EREP contract through 30 September 1975 has been approved by NASA, including financial support of \$11,000.00.
