Current Status

A portion of Frame 83-150 of S190B photography taken during the SL3 mission has been reproduced and printed at an enlarged scale of approximately 1:200,000. Copies of this enlargement covering a large cloud-free section of Oakland County have been sent to Mr. Larry Peterson at the Lake Central Regional Office of the Bureau of Outdoor Recreation and to Mr. George Skrubb, Director of the Oakland County Planning Commission to examine and evaluate.

Future Plans

During the next reporting period we will complete the examination and evaluation of the S190B photography with particular reference to its utility for analysis of recreational land.
