Using SKYLAB Imagery  
Monthly Progress Report, November 1973

Color prints have been made of parts of Oakland County from the high altitude aerial photography acquired on 11 August 1973 by the NASA/ARC Earth Resources Aircraft Project in support of this EREP project. The photography will be used in conjunction with the further analysis of EREP data. Project activity is now at a low level until SL-3 photography and scanner imagery acquired on 5 August 1973 are received.
