From early retirement to working beyond retirement

Astrid de Wind

The study presented in this thesis was performed at the VU University Medical Center (Department of Public and Occupational Health, EMGO+ Institute for Health and Care Research) and the Netherlands Organisation for Applied Scientific Research TNO (Department Work, Health and Care). These institutes participate in Body@Work, Research Center on Physical Activity, Work and Health, which is a joint initiative of VU University Medical Center, VU University Amsterdam, and the Netherlands Organisation for Applied Scientific Research TNO.

The study presented in this thesis was funded by Body@Work, Research Center on Physical Activity, Work and Health. The Study on Transitions in Employment, Ability and Motivation (STREAM) was funded by the Dutch Ministry of Social Affairs and Employment.

Financial support for the printing of this thesis has kindly been provided by Body@Work, Research Center on Physical Activity, Work and Health.
