Jefferson Digital Commons Quarterly Report: October-December 2013

Happy New Year!

- The last quarter of 2013 brought 396 new assets to the [Jefferson Digital Commons](#) (JDC).
- The most downloaded asset this quarter was: [Apgar score of zero at five minutes and neonatal seizures or serious neurologic dysfunction in relation to birth setting](#) by Robert Brent with currently 100 downloads.
- 2013 concluded with the JDC adding 1,973 new assets for the year (from 6,655 in December 2012 to 8,628 in December 2013).
- In addition, the full-text count from Dec 2012 to Dec 2013 increased from 1,209,115 to 1,670,568 for a total of 461,453 for 2013.
- Per month over the last year the JDC had 38,454 full-text downloads.

Those trumpets you hear signal the 8 year anniversary of the JDC, which marks a good time to see what type of materials have been archived:

Researchers continue to rave about the JDC and the valuable content it provides:

- “Thanks for the digital info, it fills in the biography gaps nicely. Indeed he did go to London after leaving Jefferson and was back in the Toronto area by 1858. We will add this valuable fact to our website.”
- “This is such a huge help! Thank you very much for the information and the digital commons links (I found Dr. McCleery listed in two of the items)”
- “Love the JDC info! Thank you very much.”
- “Thank you so much for all your help, I really appreciate; this will really add a lot to my presentation.”
- “Thanks to folks like you, we keep adding new information to our historic register.”
- “Received the information on my husband's great-great grandfather Gillespie and want to say a big thank you for it and for your promptness. My husband was amazed and pleased to learn of all the information online.”
- “Wow, I have to tell you that I really loved all of this. It filled in some questions/holes in my exploration of my family history.”

Over the past quarter the Twitter widget has been updated, so post your tweets.

The JDC also [celebrated archiving the 100th MPH capstone presentation](#).

And research in the JDC is being cited by authors. For example, **Unusual presentation of a rare cancer: Histiocytic sarcoma in the brain 16 years after treatment for acute lymphoblastic leukemia** in *Clinical Medicine and Research*, Volume 11, Issue 1, 2013, Pages 31-35 cited a work from *the Medicine Forum: Histiocytic sarcoma: A case of a 52-year old female with two synchronous primary malignancies at presentation*.

Here are some new assets added to the JDC over the past quarter:

In conclusion, [Ann Koopman](#), a Scott Memorial librarian who started the Jefferson Digital Commons 8 years ago, passed away on December 20, 2013. Her efforts helped to create an institutional repository that over time has grown and continues to have global exposure and impact. The family requests that gifts be made in her honor to the [Pulmonary Hypertension Association](#), to the [Special Libraries Association](#), or to [Save the Children](#).
