A nation-wide E-portfolio: reflections on ambitions and experiences in the Netherlands

José Janssen, Francis Brouns, Harry Vaessen, Gerard Weijnen, Ellen Huveneers & Rinaldo Hodzelmans

### Outline:

- E-portfolio NL
- 10 principles

Theory

- Adoption
- Service centre (SC4L)
- Providers

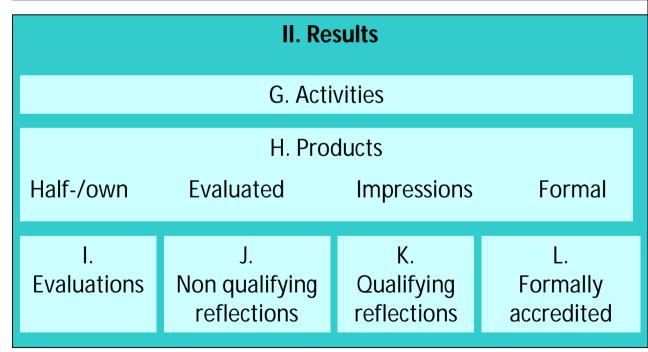

Praxis

### **E-portfolio NL**

Set of purposefully assembled digital artefacts describing a person's efforts, development and achievements in learning and/or work.

- National Technical Agreement NTA 2035
- Application profile based on IMS ePortfolio/IMS LIP

Information results

Extraction

## 10 Principles

1. Individual = owner

2. Organisation = chain partner

3. E-portfolio transcends domains formal/informal education/work

### 10 Principles

4. Owner chooses evidence (official / unofficial)

5. E-portfolio enables referencing to external sources

6. E-portfolios can be imported and exported

## 10 Principles

7. Exchange takes place based on a standard (NTA 2035)

8. Chain partners must store information and make it available for transport or sharing on request of the owner

Image: Ambro/FreeDigitalPhotos.net

### 10 Principles

9. Chain partners guarantee privacy and integrity both in storage and transport

10. Chain partners stick to regulation concerning retention of personal data

#### ePortfolio — Adoptie in versnelling

Met het adoptie-instrument van INTEGRATE

Marc Lankhorst (Novay) Dennis Krukkert (TNO)

17 november 2010

Lankhorst & Krukkert (2010)

INTEGRATE applied to E-portfolio NL standard

### Conclusion

Address most influential parties – government role:

a. Stimulate large companies: financial incentives

b. Require adoption by public employment agencies

## Service Centre Life Long Learning Limburg

Support employers, employment agencies, employees and unemployed people in bridging the gap between labour market supply and demand through competence development.

Not a traditional expertise centre providing services and consultancy, but a network of experts and professionals facilitating knowledge exchange and competence development.

## Service Centre for Lifelong Learning Limburg

WP5 E-portfolio exchange:

- a. Investigate current practice in institutions
- b. Investigate current software (Plugfest)
- c. Investigate e-portfolio export functionality LMS

### Ad a: Current practice

- E-portfolios widely used
- Integrated in LMS
- Mapping on NTA fairly straightforward\*
- Ways to structure numerous

### Ad b: Current software

- Plugfest (7 of 20)

- Integrated in LMS (1)

- Covering all categories of E-portfolio NL (0)

Image: ntwowe / FreeDigitalPhotos.net

## Ad c: Export functionality

Considering the many ways LMS e-portfolios can be modelled: how does this affect the transportability / mapping of the export to E-portfolio NL?

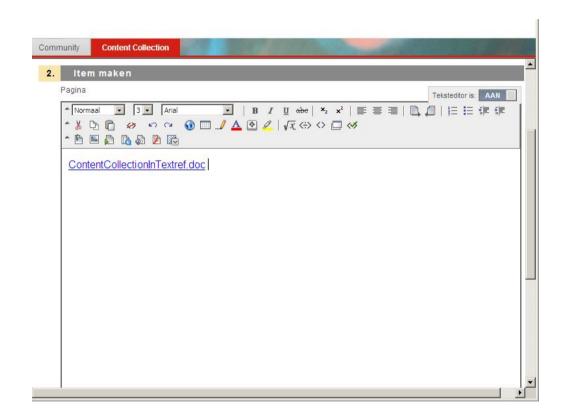

- Blackboard 9.1 (SP4)
- Basic Portfolio vs. Personal Portfolio
- Content Collection vs. local storage

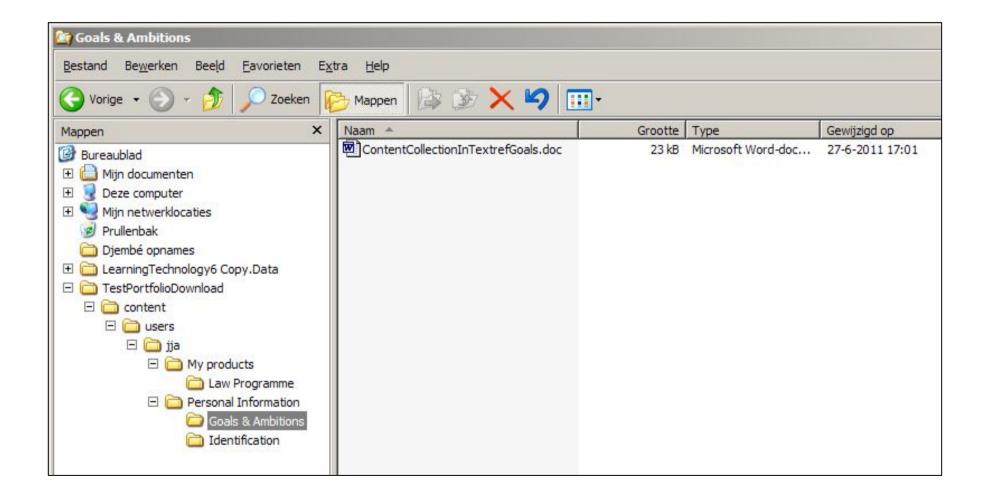

|                    | Scenario        |                 |                    |  |  |
|--------------------|-----------------|-----------------|--------------------|--|--|
| Reference          | BP / CC<br>item | PP / CC<br>item | PP / Local<br>item |  |  |
| In text field      | S+N             | <br>public      |                    |  |  |
| Sub text field     |                 | S+N             | N                  |  |  |
| Content collection | S+N             |                 |                    |  |  |

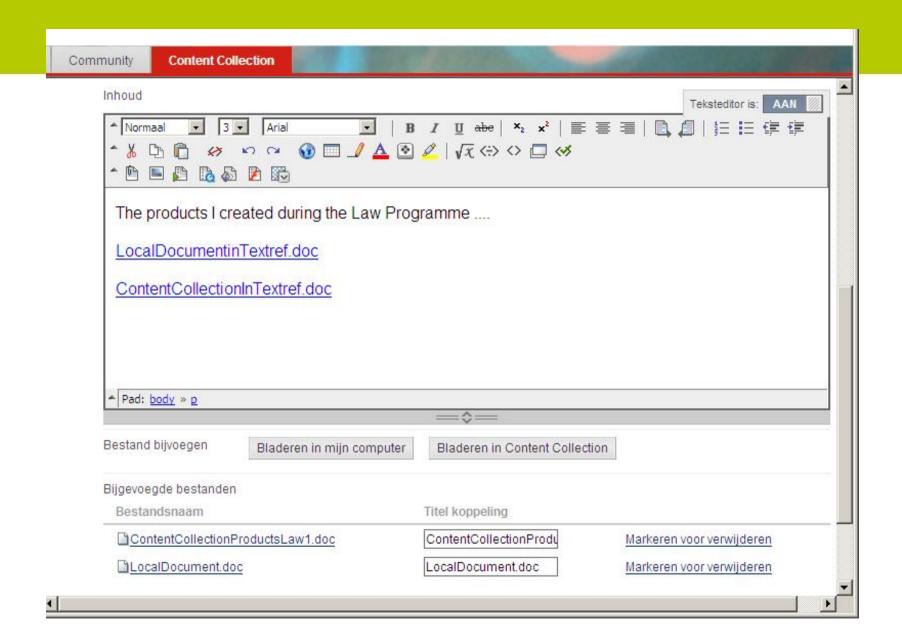

S = original structure

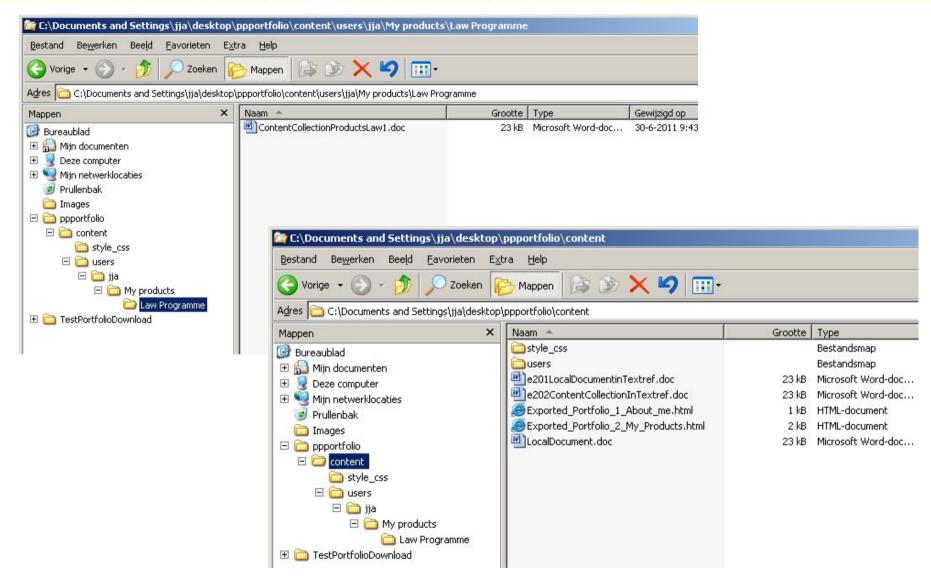

N = original name

Blackboard Basic Portfolio Item

Grand goals through piecemeal engineering
