Abstract: This document describes the laboratory tests performed on the Subsurface Telemetry Unit (STU) which was developed for the Underwater Acoustic Network EU-FP7 Project. The tests are separated into mechanical, energy, cable, electronics, acoustic acquisition, STU computer and the base station.

ACKNOWLEDGMENT: this work was supported by project UAN (Underwater Acoustic Network) from the European Community's Seventh Framework Programme (FP7/2007-2013) under Grant Agreement # 225669.
