EXECUTIVE SUMMARY

As a student of business administration, analyzing today's business world is very crucial to observe in this complex situation. It is necessary to go through all fields of knowledge, both theoretical and practical. Before passing four years BBA program, I have been given an Internship program to have practical knowledge in business life as a part of my academic program. In this report I had tried to focus my both theoretical and practical knowledge regarding HRM practices. My project topic is Overall HR Practices of Independent Television Ltd”. I have tried to identify HRM practices of this organization and how it is working in progress of the organization

This report outlines some key issues surrounding the field of human resource management in Independent Television Ltd. The study has been conducted Based on the Human Resources activity of this TV channels current Human Resources (HR) management strategies, practices and outcomes.

In HR literature, a number of various models and approaches try to demonstrate how a strategic approach to HR can be translated into a set of coherent HR processes and practices.

Independent TV has introduced an affluent HR practices that makes the organizations in-house activity easier and hassle free for the employee.

Thus, the results of this study give positive information on a general national perspective, where we see that HR strategies are “people oriented”, formalized and aligned with diversified strategies. However, on the level of the various local administrations (not tackled in this survey), HR strategies formulated on a central level might be distant from the actual HR processes and practices in Independent television Ltd.

Proper planning is ITVs strongest point; all the programs that they have launched so far are backed by wise strategies with proper market research and massive advertisement campaigns. Decisions are taken at top level with some participation from the lower levels showing that
they do comprehend the worth of Group decision-making. However, goal setting is a procedure dedicated to only the top management. Working on newer technologies is a specialty of Independent Television.

I have tried to follow the right methodology for preparing this report, which is very important to find out the truth, which is hidden behind the curtain. In this report, effort has been given to disclose about organizations system and procedure step by step. Finally, organizational overview, condition of HRM practice in the media sector of Bangladesh, findings & recommendations are also included in the report.

Before drawing any conclusion based on this report, it may be noted that the report was prepared in a very short term and there is lack in data. But still the report may be useful for designing any further study to evaluate the HR facilities provided by the Independent Television.

**VII. Pool of Suitable Candidates**

After having the written test and interviews we have got the pool of suitable candidate. Candidates are called for salary negotiation session.

Before start talking pay (and salary negotiations) with a prospective employer, we need to find out how much the job is worth. We will need to take the time for research. That way we will be prepared to get what we're worth and to get a job offer that's realistic and reasonable.
Salary negotiation is something at which hiring managers are usually a lot more proficient than the people they hire. Human Resources must be consulted to provide detailed guidance and advice on determining appropriate offer salary levels within the grade.

When deciding upon an appropriate salary to be offered, consideration will normally be given to the following objective criteria:-

- The level, breadth, depth and complexity of the individual’s knowledge and understanding of different aspects of the job and, as appropriate, expert, professional and theoretical knowledge.
- The level and breadth of existing relevant skills.
- Qualifications and length of relevant experience of the successful candidate.
- Current salary and monetary benefits (e.g. bonus) of successful candidate.
- Equal pay principles that all staff should receive equal pay for the same or broadly similar work, for work rated as equivalent and for work of equal value.

IX. Offering Candidates

The final stage in the selection procedure is to confirm the offer of employment after satisfactory references have been obtained, and the applicant has passed the medical examination required for pension and life assurance purposes or because a certain standard of physical fitness is required for the work. The contract of employment should also be prepared at this stage.

- If there are several suitable candidates, it may be appropriate to “hold” rather than reject these until the outcome of the offer to the most suitable candidate is known.
- All unsuccessful candidates should be notified of the outcome appropriately and are provided with feedback, if requested, by the Chair of the Recruitment Panel.
- If anyone accepts this job offer, the hire date will be on the day that s/he attends new-hire orientation. Plan to work for the remainder of the business day after new-hire orientation ends.
X. Recruitment paperwork

The Chair of the Recruitment Panel should complete the Recruitment Panel Chairperson’s Report and return to Human Resources, together with all associated recruitment paperwork, including:

- The original applications of all candidates;

XIV. **Selective Recruitment Using Job Boards**

Although staff turnover is not a major issue for media world and Independent Television ltd. Authority, the agency relies on selective recruitment techniques to maximize the use of limited hiring budgets. To ensure the most appropriate methods of sourcing and attracting qualified candidates are used, the agency considers the following details for each position: level of entry (junior, intermediate, and senior), level of education (degree, diploma), professional association, and technical requirements (Engineer, GIS tech). Using this information, the company determines which job boards, communication channels, and advertisement strategies are best for targeting candidates with the required skill sets.

A key component of this process is having an in-depth understanding of the variety of job boards in the market and what types of candidates they attract. Depending on the position, Independent Television will either choose to advertise using a niche job board or employ a mass recruitment strategy that utilizes a variety of job advertisement services.
Positions that require specific technical skill sets, the company often relies on niche job boards since they reduce the candidate pool by targeting a more applicable audience. So that even developer cannot decrypt password.

e. Health and safety at work

A young worker or employee must do an assessment of possible health and safety risks, before they employ in this organization. They must pay particular attention to their age, lack of experience, and other things that could be a risk to their health and safety. There are special restrictions on the following types of work:

- Work which you are not physically or mentally capable of doing.
• Work which brings you into contact with chemical agents, toxic material or radiation. (e.g. Independent television broadcast technology department)

• Work which involves a health risk because of extreme cold, heat or vibration.

You are only allowed to do the work above under the following circumstances

• Where it is necessary for employees training.

• Where an experienced person is supervising them.

• Where any risk is reduced to the lowest level that is reasonable.

These rules do not apply if employees are doing short term or occasional work in a family business or in a private household, which is not considered to be harmful to them.
f. **Night work**

There are special limits on the hours employees can work at night. Employees cannot usually work between 10pm and 6am (only for those who belong to non-news Departments like HR, Finance, Accounts, and Support Service etc.) but journalists are allowed to work on different sessions in order to their assignments.

g. **Holidays**

Employees are legally entitled to paid holiday in the same way as other workers. How much paid holiday they get depends on how many days they work and when they leave year begins.
CHAPTER 03
Chapter 3: Internship at Independent Television

I have got the opportunity to work in Independent Television Ltd. as an intern for three months from February 17 to May 16, 2013; it’s a part of my academic program. As my major is Human Resource Management, I worked in Human resource department as an intern where I had learnt several Human Resource practices of Independent Television Ltd.

3.1. Description of the job

I had the opportunity to have three months long internship at Independent Television Ltd. I have come across with different tasks that are conduct by the HR department. I was introduced to the jobs of an HR personnel, there were different types of jobs I was made acquainted with some were regular others were periodical. I was assigned to the following jobs regularly. Those were-

- Collecting Bio data
- Screening Bio data
- Setting Interview & training date
- Calling For Interview
- Making Interview Lists
- Creating Employee Profile

• Collecting Bio data

For the recruitment of Sales Associates and Store Helper the CVs are collected from outlets mostly but applicants can also drop their CVs in the CV box at head office, and for others positions the CVs are collected through the bdjobs’s website and the CV box at the head office.

As I have worked mostly in the recruitment Associates, it was my job to call the outlets and ask them to send the CVs to Human Resource Department. And also ask the Office Assistant to collect the CVs from the CV box.
• **Screening Bio data**

As ITV was taking huge number of employees, we received CVs in large quantity. There were few areas to be considered while screening the CVs, these were age, education and location. For example a candidate has to be 18 years old or above to apply for job. For Associates and responsible position the candidate has to be a graduate student and candidate for the Journalist position also has to be smart. For Store Helper candidate must have S.S.C degree.

• **Setting Interview date**

After Screening the CVs and classified them in to different categories, we were to fix the interview date for different branch’s and inform the respective resource persons about the interview. And with the interview I was to fix the training date for the selected candidates. To do this I had to consult with the Training personnel about the training batches and find out the empty slots for Training and finalize the interview and training batch for the employees.

• **Calling for Interview**

After screening the CVs and separate them based on their location, it was my job to call the candidates for interview and inform them about the interview date, time and venue. The interviews were held in the head office of Independent Television Ltd. After the interview I had to call the selected candidates.

• **Making Interview Lists**

While calling the candidates I had to give serial number to their CVs. after calling the candidates it was my job to prepare an interview list which contained name of the applicant, father’s name of the applicant, educational qualification, address and contact number, there were few columns left empty for applicants signature, selected, not selected and remarks. At the bottom of the list name of the Human resource officer and the concerned department manager who were taking the interview, were included.
• **Creating Employee Profile**

The HR department of Independent Television Ltd. keeps record of their employees both manually and in HRMS. After recruiting I learned to prepare files for new employees. Every new employee is assigned a PIN for their identification. The employee file contains employees joining letter given by ITV, employees CV, photocopy of employee’s educational certificates, reference letter.

• **Employee Joining**

When a new employee joins I performed all tasks for joining. The tasks include all necessary signatures and filling.

• **Leave Processing**

Leave processing includes receiving leave applications and inputting to software.

Apart from these specific jobs, I also observed other jobs performed by other team mates. Here I observed,

- ✓ Recruitment and selection process
- ✓ Payroll
- ✓ Policy formulation
- ✓ Training and Development
- ✓ Grievance handling etc.

CHAPTER 05
Chapter 5: Recommendations

According to my work on Independent Television, I have identified some sectors where some development can happen; here are those,

• **Training and Development issue:**

More intensive training program should be introduced to increase the employee performance to the optimum level. The HR policy could include certain provisions regarding to a reutilized and modern training.

• **HR counseling cell:**

In this system, the employer-employee relationship can increase. Here, to authorized HR personal, all employees will come and will tell their problems. HR personal will then take necessary steps.

• **Continuous modernization and revision:**

Modernization and revision of the HR policies and strategies are indispensable for any organization as the world is getting more diversified day by day. The head of HR should continuously monitor the changes happening around and adjust the policies to match the changed scenario.
CHAPTER 06
Chapter 6: Conclusion

Finally, I would looked at the extent to which Independent Television hold themselves accountable for effective HRM systems and adherence to the Merit System Principles (as appropriate) or other organizational values and policies.

In sum, the organizational performance of ITV could be explained by its effective recruitment and selection practices and performance appraisal practices. As the review of the literature showed, research has established that although the value of a company’s human resource assets may not show up directly on its balance sheet, it nevertheless, has tremendous impact on an organization’s performance. However, there was insufficient evidence to show that ITV remuneration practices as well as its training and development practices contribute positively towards its corporate performance, as perceived by the respondents.

Based on the findings of this research, it is recommended that the management of GCGL continues to ensure that the HR policy, which is a result of the corporate strategy to use human resource, among others, to achieve outstanding performance every year, is upheld. In addition, copies of the HR policy should be made available to all employees to ensure widespread dissemination and application of the policies. Management should continue to ensure that the recruitment and selection process is, and seen to be fair. There should be measures that will ensure that all recruitment and selection practices adhere to the standards and policies of the company since effective recruitment and selection practices will ensure positive financial returns for the company, either through ensuring effectiveness on the part of employees, or minimization of costs associated with training and retraining of employees.
