

KNOWLEDGE MANAGEMENT WITHIN ITIL

Dan Constantin TOFAN

Ph.D., candidate, Academy of Economic Studies, Bucharest
tofandan@yahoo.com

Abstract: How people work requires knowledge and knowledge management is the fundamental glue that binds an IT organization and transitions it from good to great. ITIL, in its third version, has adopted a new process, related to knowledge management, and became even more business oriented service management standard.

Keywords: knowledge, management, information, technology, infrastructure, library
