

Canadian Niagara Power Company Fonds

1807-2001, n.d. (non-inclusive)

RG 170
Brock University Archives

- Creator:** Canadian Niagara Power Company
- Extent:** 3.19 m textual material 9 cartons
251 architectural drawings and 231 blueprints on 13 rolls
27 maps; includes tracing of original maps
90 photographs, 3 negatives
376 blueprints within the boxed collection
176 architectural drawings within the boxed collection
- Abstract:** This fonds contains materials relating to the Canadian Niagara Power Company. The bulk of the materials contain correspondence, design, operation and maintenance records. The collection also contains photographs, blueprints, clippings, and field notebooks.
- Materials:** Typed and handwritten correspondence, photographs, blueprints, clippings, and field notebooks.
- Repository:** Brock University Archives
- Processed by:** Jen Goul
- Last updated:** June 2009

-
- Terms of Use:** The Canadian Niagara Power Company Fonds is open for research.
- Use Restrictions:** Current copyright applies. In some instances, researchers must obtain the written permission of the holder(s) of copyright and the Brock University Archives before publishing quotations from materials in the collection. Most papers may be copied in accordance with the Library's usual procedures unless otherwise specified.
- Preferred Citation:** RG 170, Canadian Niagara Power Company Fonds, 1807-2001, n.d., Brock University Archives.

-
- History:** *Power at the Falls:*
The first recorded harnessing of Niagara Falls power was in 1759 by Daniel Joncairs. On the American side of the Falls he dug a small ditch

and drew water to turn a wheel which powered a sawmill. In 1805 brothers Augustus and Peter Porter expanded on Joncairs idea. They bought the American Falls from New York State at public auction. Using Joncairs old site they built a gristmill and tannery which stayed in business for twenty years.

The next attempt at using the Falls came in 1860 when construction of the hydraulic canal began by the Niagara Falls Hydraulic Power and Manufacturing Co. The canal was complete in 1861 and brought water from the Niagara river, above the falls, to the mills below. By 1881 the Niagara Falls Hydraulic Power and Manufacturing Co. had a small generating station which provided some electricity to the village of Niagara Falls and the Mills. This lasted only four years and then the company sold its assets at public auction due to bankruptcy.

Jacob Schoellkopf arrived at the Falls in 1877 with the purchase of the hydraulic canal land and water and power rights. In 1879 Schoellkopf teamed up with Charles Brush (of Euclid Ohio) and powered Brush's generator and carbon arc lights with the power from his water turbines, to illuminate the Falls electrically for the first time.

The year 1895 marked the opening of the Adam No. 1 generating station on the American side. The station was the beginnings of modern electrical utility operations. The design and operations of the generating station came from worldwide competitions held by panels of experts. Some who were involved in the project include; George Westinghouse, J. Pierpont Morgan, Lord Kelvin and Nikoli Tesla. The plants were operated by the Niagara Falls Power Company until 1961, when the Robert Moses Plant began operation in Lewiston, NY. The Adams plants were demolished that same year and the site used as a sewage treatment plant.

The Canadian side of the Falls began generating their own power on January 1, 1905. This power came from the William Birch Rankine Power Station located 500 yards above the Horseshoe Falls. This power station provided the village of Fort Erie with its first electricity in 1907, using its two 10,000 electrical horsepower generators. Today 11 generators produce 100,000 horsepower (75 megawatts) and operate as part of the Niagara Mohawk and Fortis Incorporated Power Group.

Below is an outline of some of the milestones for the Canadian Niagara Power Company throughout its history:

1892 Canadian Niagara Power Company Limited founded by lawyer and visionary, William Birch Rankine, and Canadian and American investors.

1905 Canadian Niagara Power began generating electricity from its Rankine Generating Station, the first hydroelectric generating station to be built on the Canadian side of the Niagara River.

1907 Canadian Niagara Power entered into a franchise agreement with The Town of Fort Erie. This marked the first public use of streetlights in Fort Erie.

1924 The eleventh and final generator at Rankine Generating Station was put into operation.

1928 Canadian Niagara Power opened its first office in Fort Erie. Cooking classes were offered to introduce the public to the new concept of electric cooking.

1950 Canadian Niagara Power became a direct subsidiary of Niagara Mohawk Power Corporation.

1992 Canadian Niagara Power Company Limited celebrated its Centennial Anniversary.

1994 Canadian Niagara Power purchased the Cowley Ridge Windplant in southwest Alberta with installed generation of 18.9 MW.

1995 By a Special Act of the Ontario Legislature, Canadian Niagara Power Company Limited was incorporated under the Ontario Business Corporations Act.

1996 Fortis Inc. purchased 50% of Canadian Niagara Power Company Limited from Niagara Mohawk Power Corporation.

1997 Canadian Niagara Power celebrated 90 years of service to The Municipality of Fort Erie.

1998 Canadian Niagara Power completed a 115 kV interconnection to Niagara Mohawk's electrical system at Buffalo, to provide a back-up supply in the event of an outage at Niagara Falls.

1999 Canadian Niagara Power Company Limited formed a regulated subsidiary, Canadian Niagara Power Inc., to comply with the Ontario Electricity Act (1998).

1999 Canadian Niagara Power Company Limited received authorization by the U.S. Federal Energy Regulatory Commission (FERC) to market electricity in the United States.

1999 Canadian Niagara Power Company Limited sold its interest in the Cowley Ridge Windplant to Canadian Hydro Developers Inc.

2002 Canadian Niagara Power Company became 100% owned by Fortis Inc. and began operating as FortisOntario, the head of all Ontario holdings.

2002 Canadian Niagara Power entered into an agreement with the City of Port Colborne to lease the Port Colborne Hydro electricity distribution business. CNP holds an option to purchase the business at the end of the 10-year lease.

2002 FortisOntario acquired 100% interest in Cornwall Street Railway, Light and Power Company from Enbridge Consumers Energy Inc.

2003 FortisOntario acquired the operating subsidiaries of Granite Power. The name of the local utility in Gananoque was subsequently changed to Eastern Ontario Power.

2004 Canadian Niagara Power and the City of Port Colborne were jointly presented with the Chuck Wills Award for Innovation & Excellence in Public-Private Partnerships at the 2004 National Public-Private Partnerships award ceremony.

Scope and Content:

The fonds contain materials mainly relating to the Canadian Niagara Power Company from 1807 until 2001 (non-inclusive). The materials included are correspondence, design, operation and maintenance records, photographs, blueprints, clippings, and field notebooks.

All information in this fonds was kept in the original folder order as much as possible and nothing was removed from the collection. This accounts for the repetition of some folder headings within series. All folders were; however, arranged into the various series in order to intellectually and physically place like materials together, thus allowing for easier access of materials. All names were copied as originally spelt, even if another spelling was suspected or differed from one instance to another. Therefore, some items may appear mis-spelt from one document to another or names may be inconsistently spelt throughout the document. If the original handwriting could not be read a 'question mark' was placed

beside the word. If words were abbreviated the abbreviations were retained for the finding aid. For example Canadian = Cdn. Correspondence was noted as signed by the individual, therefore in some instances abbreviations were used for names and in other cases they were not. For example; L. Clarke Raymond could be L.C. Raymond, or L. Raymond, or Raymond, depending on how the person signed the documents.

The collection is divided into five series. Series I. Design, Operation, and Maintenance; includes correspondence, photographs, original drawings (some on linen), and trade literature. The series deals with the design, operation and maintenance of the generating units at the Rankine Generating Station in Niagara Falls, Ontario.

Series II. Administrative; includes legal and business documents involved in running the generating station; including permits, land purchases, easements, rural line extensions, power exports, Niagara Falls Park and River Railway, taxes, construction, and permissions. Some land accrual documents relate to the correspondence labeled land accruals. For example the deeds, land leases, mortgages etc. in the administrative series may have correspondence relating to documents in the correspondence series.

Series III. Field Notebooks; includes notebooks from engineers working on the Rankine Generating Station.

Series IV. Correspondence; includes letters from various authors covering multiple subjects related to power and waterworks.

Series V. Maps, Blueprints and Architectural Drawings

Series VI. Clippings; includes clippings placed in chronological order.

Series I-IV were placed into chronological order. Original order was not maintained for these series and all clippings were arranged chronologically. Original folder titles and file numbers used by the Canadian Niagara Power Company were retained for Series I-III, however the Archivist has added the dates to the folder titles. In many cases, the folder numbers within Series I, correspond with blueprint numbers also found within the same series/folders. Series IV were given folder titles based on content; however original file numbers were retained where applicable.

The term blueprint is used to describe drawings and/or drafts that represent equipment and or ideas of the draftsman. In later years this includes computer generated print-outs. Architectural drawings are

originals appearing on linen paper. All blueprints that were not in a file or have no correspondence attached to them were filed in the Blueprints section. If the blueprints were accompanied by correspondence then the blueprint was kept in original order with the original correspondence. All blueprints are noted by full title in italics. If only referred to within correspondence, they will not appear in italics.

Within Series IV, the correspondence is counted by page number and by document number. For example, if there are 7 total pages within a folder, it will be noted as 7. If there are documents that are longer than one page, the entire document receives a count of one. For example, a 5 page letter receives a count of 1 document, but the entire 5 pages are noted within the page count.

In the breakdown of correspondence, multiple copies of letters are counted. For example, if there is a handwritten letter that has been transcribed, both copies are counted. The count of the breakdown of letters is for all correspondence including memorandums and excerpts from letters. Breakdown deals with any mention of a correspondence exchange and not only signed letters. For example, "excerpt from memorandum for Mr. Grier from Mr. Barton" would be counted as a Barton to Grier correspondence. If letter is not signed and a company name is not present, then it is not included in the breakdown of correspondence.

If signatures are illegible, the name of the company or organization is used instead. All signatures are noted by a "sig." after the name. If the document does not appear to be signed in the individuals own handwriting, ie. a secretary signed for them, then it will not be noted as being signed.

The subject for the correspondence is taken from the subject headings appearing on the original correspondence. If there are no subject headings within a folder, then the letters are read and subject terms are assigned to represent the general idea behind the bulk of the correspondence.

There is no distinction between telegrams, handwritten or typed. Telegrams are also not counted in the breakdown of correspondence.

If not specified within the correspondence breakdown, each "Grier" is A.M. Grier, and each "Rankine" is W.B. Rankine.

Anything that is in italics indicates that the actual item appears in the correspondence. For example, "Agreement with His Majesty King Edward VII", if in italics, the actual agreement is present. If not, it was only made reference to within the correspondence.

Please refer to the list of abbreviations at the end of the inventory for explanation of abbreviated terms. Abbreviations were copied as they appeared on the originals; therefore, some inconsistencies may be present.

Organization: The records were arranged into five series:

Series I. Design, Operation, and Maintenance, 1903-2001 (non-inclusive)
 Sub-series A. File Number 2-R1-E4, 1904-1905, 1916, 1938, 1940, 1942, 1946-1947, 1953
 Sub-series B. File Number 2-R1-H21, 1903, 1905, 1907-1908, 1910, 1912-1913, 1915-1919, 1924, 1926, 1931, 1933. 1938-1961, 2001
 Sub-series C. No File Number, 1903, 1909-1912, 1931-1942, 1944-1952, 1955-1956, 1958, 1961, 1972, 1974, n.d.

Series II. Administrative, 1907-1977 (non-inclusive)
 Sub-series A. File Number 1, 1832, 1855, 1892, 1894-1916, 1918, 1920-1966
 Sub-series B. File Number 2, 1892, 1885, 1987-1899, 1906-1907, 1909, 1916-1918, 1922, 1924, 1935-1938, 1942-1943
 Sub-series C. No File Number, 1807, 1852, 1875, 1878, 1892-1899, 1900-1912, 1914-1915, 1917-1918, 1921-1923, 1928, 1935-1937, 1943-1947, 1949-1950, 1952, 1956-1958, 1966, 1976-1977
 Sub-series D. File Number 1 – Later Acquisitions, 1816, 1836, 1844, 1855, 1872, 1892-1894, 1896, 1899, 1901-1922, 1924-1925, 1928-1929, 1933, 1935-1937, 1939-1942, 1945-1947, 1949-1950, 1952, 1954, 1956-1957, 1959, 1961, 1965-1966, 1976-1977, 1979

Series III. Field Notebooks, 1919, 1922-1929, 1935-1936, 1939-1941, 1943-1946, 1954-1963, 1968-1970, n.d.

Series IV. Correspondence, 1876, 1889, 1892-1894, 1892-1922, 1924, 1925-1926, 1928-1931, 1934, 1938, 1945, 1956, n.d.
 Sub-series A. General Correspondence, 1892, 1897-1922, 1924
 Sub-series B. Correspondence Documents, 1898-1905, 1907, 1909-1910, 1912, 1915, 1922, 1925-1926, 1928-1931, 1934, 1938, 1945, 1956, n.d.

Sub-series C. File Number, 1876, 1889, 1893-1894, 1900-1922, 1929, 1931, 1938

Series V. Maps, Blueprints and Architectural Drawings, 1894-1913, 1915-1921, 1923-1928, 1932-1939, 1944-1945, 1952, 1959, 1966, n.d.

Sub-series A. Roll 1, 1916, n.d.
 Sub-series B. Roll 2, 1903, 1909, 1917, n.d.
 Sub-series C. Roll 3, 1904-1908, 1913, 1919, 1924
 Sub-series D. Roll 4, 1904-1907, 1909-1911, 1916, 1926, 1928, 1932, n.d.
 Sub-series E. Roll 5, 1903-1905, 1909-1911, 1913, 1915-1918, 1921, 1924, n.d.
 Sub-series F. Roll 6, 1901-1905, 1911-1913, 1916-1917, 1935-1939, n.d.
 Sub-series G. Roll 7, 1902-1905, 1907-1909, 1911, 1915-1917, 1927, n.d.
 Sub-series H. Roll 8, 1894-1904, n.d.
 Sub-series I. Roll 9, 1900, 1902-1907, 1909-1913, 1916, 1918, 1923, 1925, 1928, 1934, n.d.
 Sub-series J. Roll 10, 1910, 1912-1913, 1915-1918
 Sub-series K. Roll 11, 1902-1904, 1906-1909, 1911-1913, 1915-1918, 1925, n.d.
 Sub-series L. Roll 12, 1901, 1906-1910, 1944-1945, n.d.

Series VI. Clippings, 1895, 1898, 1903-1904, 1921, 1929-1930, 1939, 1946, 1948, 1953-1955, 1958, 1962, 1969, 1975-1976, 1982-1989, 1990, 1999, n.d.

Inventory:

Series I. Design, Operation, and Maintenance, 1903-2001, n.d. (non-inclusive)

Sub-series A. File Number 2-R1-E4, 1904-1905, 1916, 1938, 1940, 1942, 1946-1947, 1953

- 1.1 Data from Mr. Egbert's files on turbines, excitors, etc., 1904-1905, 1916; includes blueprints (signed): 1, architectural drawings (linen): 5 File no. 2-R1-E4.3
- 1.2 Power House Rotating Machines – Generators, units 6-11, 1938, 1940, 1942, 1946-1947, 1953; includes blueprints (signed): 3 File no. 2-R1-E4.2

Sub-series B. File Number 2-R1-H21, 1903, 1905, 1907-1908, 1910, 1912-1913, 1915-1919, 1924, 1926, 1931, 1933. 1938-1961, 2001

- 1.3 Power House Turbines and Governors, units 1-3, 1903, 1905, 1912, 1924, 1939, 1946, 1949, 1952, 1960; blueprints (signed): 4, architectural drawings (signed on linen): 11, file no.2-R1-H21.1
- 1.4 Power House Turbines and Governors and Exciter Turbines 1-11, 1903, 1907, 1910, 1913, 1915, 1917, n.d.; includes oversized blueprints (signed): 4, architectural drawings (signed on linen): 8, file no. 2-R1-H21.6
- 1.5 No. 6 turbine, 1907-1908, 1939, 1945, 1951, n.d.; includes blueprints (signed): 1, architectural drawings (signed on linen): 2 file no.2-R1-H21.3
- 1.6 Turbine and Governor, unit no. 7, 1912-1913, 1947-1948, 1951, 1954; includes report on inspection of upper turbine shaft for unit no.7, repairs to unit no. 7, Westinghouse catalogue blueprints (signed): 2, architectural drawings (signed on linen): 12 (4 oversize), file no. 2-R1-H21.3
- 1.7 Power House Turbines and Governors, 1915, 1918, 1933, 1938-1939, 1944-1945, 1947, 1950; blueprints (signed): 13, architectural drawings (signed on linen): 19, file no.2-R1-H21.4
- 1.8 Power House Turbines and Governors, units 8-10, 1915-1916, 1918-1919, 1938, 1941-1942, 1948, 1959-1961; photographs: 1, blueprints (signed): 5, architectural drawings (signed on linen): 19, file no. 2-R1-H21.4
- 1.9 Power House Turbines and Governors, 1926, 1938-1940, 2001, n.d.; includes computer generated printouts, photographs: 5 (scanned), Blueprints (signed): 10, architectural drawings (signed on linen): 12, file no. 2-R1-H21.4
- 1.10 Turbine and Governor, unit no. 4, 1931; includes architectural drawings (un-signed on linen): 1, file no. 2-R1-H21.2
- 1.11 Turbine and Governor, unit no. 1, 1933, 1939, 1945-1946, 1950; includes blueprints (signed): 2, architectural drawings (signed on linen): 3, file no. 2-R1-H21.1
- 1.12 Power House Turbines and Governors, 1933, 1939, 1944, 1948; includes photographs: 2, blueprints (signed): 15, architectural drawings (signed on linen): 17, file no. 2-R1-H21.4
- 1.13 No. 8 turbine, 1938, 1942-1947, 1961; includes report on "Inspection of runner no. 67", blueprints (signed): 2, file no. 2-R1-H21
- 1.14 Turbine Runner no. 10 unit, 1938-1946; includes blueprints (signed): 9, file no. 2-R1-H21.4

- 1.15 Turbine and Governor, unit no. 3, 1939; includes architectural drawings (signed on linen): 4, file no. 2-R1-H21.1
- 1.16 No. 9 turbine, 1939-1946; includes notes on repairs, "Report no. 410 Canadian Niagara Power Co., Ltd. W.M.B. Rankine Station efficiency test by Gibson method unit no.9, June 25, 1939, file 2 R1-M10", blueprints (signed): 13, file no. 2-R1-H21.4
- 1.17 Turbine and Governor, unit no. 2, 1939-1940, 1946, 1949; includes report on 'Inspection of runners and distributors' for units 1, 2, 3, 10 architectural drawings (signed on linen): 10, file no. 2-R1-H21.1
- 1.18 No. 2 unit turbine, 1939-1940, 1948; includes data, inspection reports photographs: 2, negatives: 3, blueprints (signed): 3, file no. 2-R1-H21.1
- 1.19 Power House Turbine and Governors, unit no. 11, 1940-1961; includes blueprints (signed): 25, architectural drawings (signed on linen): 14, file no. 2-R1-H21.5
- 1.20 No. 1 turbine, 1945-1946; includes reinforcing plates, discharge dome, new runners, inspection reports, "proposal and contract" from Dominion Engineering Co., "Engineering Report from proposed repairs from Metalock casting repair service photographs: 4 (1910-1913), blueprints (signed): 1, file no. 2-R1-H21.1
- 1.21 No. 9 turbine runner, 1948-1949; includes blueprints (signed): 3, file no. 2-R1-H21
- 1.22 Power House Turbines and Governor general, 1948-1951; includes blueprints (signed): 10, architectural drawings (signed on linen): 1, file no. 2 R1-H21.0
- 1.23 Turbine and Governor, unit no. 5, 1950-1952; includes report on repairs performed blueprints (signed): 2, architectural drawings (signed on linen): 9, file no. 2-R1-H21.2
- 1.24 Turbine and Governor, unit no. 6, 1950-1954, 1960; includes blueprints (signed): 3, architectural drawings (signed on linen): 5, file no. 2-R1-H21.3
- 1.25 Report, Canadian Niagara Power Co. Ltd., Rankine Station units no. 1-5, 1951; includes inspection of runners and distributors, unit no.5, file no. 2-R1-H21.1

- 1.26 Power House Turbines and Governors, units 4-5, 1951-1952; includes blueprints (signed): 1, architectural drawings (signed on linen): 1, file no. 2-R1-H21.2
- 1.27 Turbine runner record, Years of Service, 1953, n.d; file no. 2-R1-H21
- 1.28 Repairs to units nos., 2 and 4, 1954-1955; includes information booklet for Bethlehem Steel for high-strength bolting for structural joints, photographs: 9, blueprints (signed): 3, file no. 2-R1-H21.1 – 1.2
- 1.29 Repairs to no.6 unit turbine, January, 1956; includes reinstalling lower runner blueprints (signed): 4, file no. 2-R1-H21.3
- 1.30 Repairs to no. 2 unit turbine, damaged February 19, 1956; includes photographs: 12, Blueprints (signed): 6, file no. 2-R1-H21.1
- Sub-series C. No File Number, 1903, 1909-1912, 1931-1942, 1944-1952, 1955-1956, 1958, 1961, 1972, 1974, n.d.**
- 1.31 Miscellaneous Drawings, 1903, 1909-1912; includes photographs of parts and drawings, photographs: 5 (2 photographs of turbine 1910 (8-6-10)).
- 1.32 Ice Sluiceway data, 1931-1940; includes ice loss, photographs: 8, blueprints (signed): 2
- 1.33 Repairs to no.10 turbine, 1934, 1937-1940; includes “Report no. 3452 on cast iron from broken wheel case on no.10 turbine”, “Memorandum on the welding of turbine runner unit no.10”, photographs: 5
- 1.34 New Turbine Runner unit no. 11, 1939-1941, 1946-1949, 1961; includes “Report on Welding Investigation for Allis-Chalmers Ltd.”, “Inspection report on cast ‘steel’ runner for unit no. 11, Welding on upper runner unit no.2”, “Report on Welding Electrode”, photographs: 12, blueprints (signed): 3
- 2.1 Canadian Allis-Chalmers Ltd. re. unit no. 11, 1939, 1941-1942, 1944, 1947; includes blueprints (signed): 6
- 2.2 Unit no. 3, 1939, 1955-1956, 1972
- 2.3 No. 11 Runner Proposals by S. Morgan Smith, 1945
- 2.4 No.7 turbine and generator repairs, June 1947
- 2.5 Unit no. 8, 1947, 1958, 1974

- 2.6 No. 9 turbine repairs, 1948-1949; includes photographs: 1, blueprints (signed): 1, architectural drawings (signed on linen): 1
- 2.7 Unit no. 7, new runner, 1948-1951; includes photographs: 5, blueprint: 1
- 2.8 Repairs to no. 11 steel runner no. 58, 1949; includes photographs: 4, blueprint: 1
- 2.9 Turbine Shaft unit no. 5, 1949-1952; includes "Inspection of Turbine Shaft unit no. 1-5", report, "Proposal and Contract with the Dominion Engineering Co. Ltd.", blueprint: 1
- 2.10 New Upper Turbine shaft for no. 7 unit, April 1958; includes sketch/drawings (unsigned): 6, notes (typed): 7, photographs: 8, blueprints (signed): 6, notes (written): 14, correspondence: 8
- 2.11 Line Clearance Agreement, Canadian Niagara Power Co. Ltd., n.d.

Series II. Administrative, 1807-1977 (non-inclusive)

Note: Series II, sub-series A, B, and C; includes 60 folders containing approximately 2850 leaves of documents.

Sub-series D; includes 33 folders containing approximately 1400 leaves of documents

Sub-series A. File Number 1, 1832, 1855, 1892, 1894-1916, 1918, 1920-1966

- 2.12 Canadian Niagara Power Co., 1832, 1895, 1899-1901, 1906-1908, 1910, 1912, 1915; includes Macklem (J.F.) parcels 6 a-b-c-d-e-g-h-j-l-m, Johnson (Mary), King (Maurice), Lyons (J.H.), Methodist Church, Whallon (Mary). Note appearing on original folder: "These deeds are presumed to have been checked by Osler's office (per Dr. Gibson) at time N.F.P. registered with S.E.C. No record. Therefore taken for CT purposes", file no.1

Names and Companies: Canadian Niagara Power, Hamilton conference
The Methodist Church

Subjects: indentures, quit claim deed, short forms of conveyances

Documents: typed: 24 doc., 108 pp.

Documents signed (counted per document): 23 original, 0 copies

Number of blueprints: total number: 3, linen: 0, copy: 3

- 2.13 Canadian Niagara Power Co., 1832, 1898-1899, 1912, 1936; includes International Railway blueprints (signed): 4, file no.1

Names and Companies: Bell Telephone Co. of Canada, Canadian Niagara Power Co., Niagara Falls Park and River Railway, Cataract Construction Co.

Subjects: 4,400 volt line, revised drawings, adopted resolutions, price of power, machinery in power house

Documents: typed: 10 doc., 15 pp., manuscript: 2 doc., 3pp.

Documents signed (counted per document): 4 original, 0 copies

Number of blueprints: total number: 4, linen: 0, copy: 4

- 2.14 Canadian Niagara Power Co., 1855, 1894, 1901, 1905, 1908-1910, 1915, 1932, 1941; includes Macklem (J.F.) – 81 acre tract, Weightman (Ed. W.) lot 13 & 14, 19 & 21 Chippawa. Note from original folder: “The enclosed deeds etc. have been presumably included with Real Estate Opinion by Osler for N.F.P. Co. registration for S.E.C. – according to Dr. Gibson 6/28/1938. Not included with CT information”, file no.1

Names and Companies: Canadian Niagara Power Co., Village of Chippawa

Subjects: deed of land, quit claim deed, conveyance of land situate, mortgage, tax certificate, farm lease, Registrar’s abstract from deed

Documents: typed: 13 doc., 67 pp., manuscript: 3 doc., 18 pp.

Documents signed (counted per document): 14 original, 0 copies

Number of blueprints: total number: 1, linen: 0, copy: 1

- 2.15 Canadian Government, 1892, 1894, 1897-1899, 1901, 1912; includes Queen Victoria Niagara Falls Park; projects, agreements, correspondence etc., file no.1

Breakdown of correspondence (number of letters):

Grier – Macrae 1
Grier – Seixas 1
Innes – Grier 1
Kellar – Electrical Development Co. 1

Macrae – Grier 1
Porter – Williams 1

- 5.19 Correspondence, 1910; includes
Names and Companies: A.M. Grier (sig.), W.D. Robb, Michigan Central Railroad Company, E.A. Wickes (sig.), W. Nesbitt (sig.), I.M. Innes, Niagara Falls Power Company, The Bison Rock Co., A.B. Kellogg (sig.), Grand Trunk Railway, U.E. Gillen, A.H. VanCleve, The Mercantile Agency (Hamilton, ON), W.J. Seymour (sig.), E.F. Seixas.
- Subjects: Bridgeburg yards, dinner for Adam Beck, application of Ison Co. for switch, blueprint of pole line (Niagara Falls, ON, Feb. 1, 1911).
- Documents: typed: 19 doc., 23 pp., manuscripts: 2 doc., 3 pp., handwritten note: 1 doc., 1 pp, blueprint: 1 doc., 1 pp.

Breakdown of correspondence (number of letters):

Barton – Grier 1
Grier – Arnold 1
Grier – Innes 2
Grier – Robb 1
Grier – Seixas 1
Grier – Wickes 3
Kellogg – Grier 2
Nesbitt – Gillen 1
Nesbitt – Wickes 2
Seymour – Grier 1
Taylor – Grier 1
Wickes – Grier 2

- 5.20 Correspondence, 1911; includes
Names and Companies: A.M. Grier, E.A. Wickes, Niagara Falls Power Company, I.M. Innes, E.F. Seixas, Niagara St. Catharines and Toronto Railway Company.

Subjects: predominately correspondence between A.M. Grier and E.A. Wickes, license lease extension for CNP with NPC.

Documents: typed: 33 doc., 41 pp., memo.: 2 doc., 2 pp., telegram: 9 doc., 9 pp.

Breakdown of correspondence (number of letters):

Barton – Grier 1
Grier – Barton 1
Grier – Innes 1
Grier – Seixas 1

Grier – Wickes 24
Innes – Grier 1
Wickes – Grier 14

- 5.21 Correspondence, 1912; includes
Names and Companies: E.A. Wickes, Niagara Falls Power Company,
A.M. Grier, Brouse, Mitchell and Co., W.H. Brouse (sig.), Canadian
Niagara Power Company, P.P. Barton.

Subjects: submerged weir, meetings, Grand Trunk properties.

Documents: typed: 6 doc., 21 pp., handwritten note: 1 doc., 1 pp.

Breakdown of correspondence (number of letters):

Barton – Morice 1
Barton – Thomas 1
Brouse – Grier 3
Grier – Barton 3
Grier – Robb 1
Grier – Wickes 2
Morice – Grier 1
Needham – Smith 2
Robb – Grier 1
Smith – Grier 1
Smith – Needham 1

- 5.22 Correspondence, 1913; includes
Names and Companies: A.M. Grier, E.F. Seixas, Niagara St. Catharines
and Toronto Railway Company, Canadian Niagara Power Company,
National Adjustment Company, W.S. Tyler Co (Cleveland, Ohio), Dudley,
Gray and Noonan, C. Zimmerwall, A.W. Gray (sig.), I.M. Innes, Imlay.

Subjects: settling accounts, overdue accounts of the Canadian Niagara
Power company with the W.S. Tyler Co. regarding alterations in window
frames.

Documents: typed: 14 doc., 19 pp., memo.: 3 doc., 3 pp.

Breakdown of correspondence (number of letters):

Dudley, Gray and Noonan – Canadian Niagara Power Co. 1
Dudley, Gray and Noonan – Grier 1
Durdan – Imlay 1
Durdan – Innes 1
Grier – Gray 1
Grier – Imlay 1
Grier – Innes 2

Grier – Seixas 1
Grier – W.S. Tyler Co. 2
Grier – Zimmerwall 1
Imlay – Smith 1
National Adjustment Co. – Canadian Niagara Power Co. 2
W.S. Tyler Co. – Grier 3

- 5.23 Correspondence, 1914; includes
Names and Companies: E.F. Seixas, A.M. Grier, Niagara St. Catharines
and Toronto Railway Company, E.A. Wickes, Niagara Falls Power
Company, Brouse, Mitchell and Co., W.H. Brouse (sig.)

Subjects: license to export, passes.

Documents: typed: 5 doc., 6 pp.

Breakdown of correspondence (number of letters):

Brouse – Grier 1
Grier – Seixas 2
Grier – Wickes 1
Wickes – Grier 1

- 5.24 Correspondence, 1915; includes
Names and Companies: W. Nesbitt, E.A. Wickes Esq., Niagara Falls
Power Company, W.H. Brouse (sig.), A.M. Grier, A.E. Semple, C.C
Egbert.

Subjects: pass to the CNP plant, tunnel under river, meetings.

Documents: typed: 7 doc., 10 pp., telegrams: 3 docs., 3 pp.,
memorandums: 1 doc., 1 pp.

Breakdown of correspondence (number of letters):

Brouse – Grier 1
Egbert – Grier 1
Grier – Egbert 1
Grier – Semple 1
Grier – Wickes 2
Nesbitt – Wickes 2
Wickes – Grier 1
Worth Bros. – Egbert 2

- 5.25 Correspondence, 1916; includes
Names and Companies: E.F. Seixas, A.M. Grier (sig.), E.A. Wickes,
Niagara Falls Power Company, Niagara, St. Catharines and Toronto
Railway Company.

Subjects: annual pass, export of power, accident to generator no. 7

Documents: typed: 7 doc., 15 pp.

Breakdown of correspondence (number of letters):

Barton – Wickes 2

Grier – Seixas 1

Grier – Wickes 4

- 5.26 Correspondence, 1917; includes
Names and Companies: E.A. Wickes, A.M. Grier, Niagara Falls Power Company, E.F. Seixas, Niagara, St. Catharines and Toronto Railway Company.

Subjects: annual pass

Documents: typed: 4 doc., 4 pp.

Breakdown of correspondence (number of letters):

Grier – Seixas 1

Grier – Wickes 3

- 5.27 Correspondence, 1918; includes
Names and Companies: E.F. Seixas, A.M. Grier, Niagara, St. Catharines and Toronto Railway Company.

Subjects: annual pass.

Documents: typed: 1 doc., 1 pp.

Breakdown of correspondence (number of letters):

Grier – Seixas 1

- 5.28 Correspondence, 1919; includes
Names and Companies: P.A. Schoellkopf, A.M. Grier, Niagara Falls Power Company, W.R. Robertson, M. Cohn Jr. (sig.), F.L. Lovelace (sig.)

Subjects: meetings, agreement between commissioners of Queen Victoria Niagara Falls Park and William MacKenzie et.al. January 29, 1903, contracts (proposed), Canadian Victory Bonds.

Documents: typed: 5 doc., 23 pp., agreement: 1 doc., 12 pp., memo: 5 doc., 9 pp.

Breakdown of correspondence (number of letters):

A.D.R. – Grier 1
Barton – Carborundum Co. 2
Cohn – Grier 2
Grier – Cohn 1
Grier – Robb 1
Lovelace – Grier 2
Robertson – Grier 1
Schoellkoph – Grier 1

- 5.29 Correspondence, 1920; includes
Names and Companies: F.L. Lovelace (sig.), Canadian Niagara Power
Company, The Niagara Falls Power Company, A.M. Grier, Niagara
Junction Railway Company, F.C. Durdan

Subjects: pension reserves, Navy Island, meeting.

Documents: typed: 3 doc., 4 pp., Manuscripts: 1 doc., 1 pp., memo: 3 doc.,
3 pp.

Breakdown of correspondence (number of letters):

Durdan – Lovelace 1
Lovelace – Durdan 2
Lovelace – Grier 1
Lovelace – Kervin 1

- 5.30 Correspondence, 1921; includes
Names and Companies: A.M. Grier (sig.), F.L. Lovelace (sig.), F.C.
Durdan, Niagara Falls Power Company, Canadian Niagara Power
Company.

Subjects: agreements, appointments for Niagara Falls power company,

Documents: typed: 1 doc., 1 pp., manuscripts: 1 doc., 1 pp., memo.: 3
doc., 3 pp.

Breakdown of correspondence (number of letters):

Durdan – Lovelace 1
Lovelace – Grier 3

- 5.31 Correspondence, 1922; includes
Names and Companies: G.P. Graham (sig.), A.M. Grier (sig.), Department
of Militia and Defence Canada.

Subjects: Navy Island

Documents: typed: 3 doc., 10 pp., telegram: 2 doc., 1 typed, 1 manuscript.

Breakdown of correspondence (number of letters):

Graham – Grier 2

Grier – Graham 3

- 5.32 Correspondence, 1924; includes
Names and Companies: F.L. Lovelace

Subjects: meeting resolutions

Documents: typed: 1 doc., 1pp.

Breakdown of correspondence (number of letters):

Lovelace – Grier 1

Subseries B. Correspondence Documents, 1898-1905, 1907, 1909-1910, 1912, 1915, 1922, 1925-1926, 1928-1931, 1934, 1938, 1945, 1956, n.d. ;

includes documents, including maps and blueprints which were found originally filed amongst correspondence folders. They are arranged chronologically.

- 5.33 Agreements – CNP Co. ca. 1900; includes all documents and agreements of CNP Co. constantly used
Names and Companies: Queen Victoria Niagara Falls Park, F.L. Stetson, W.B. Rankine, Niagara Falls Park and River Railway Company

Subjects: Canadian government, agreements, Acts

Documents: typed: 1 doc., 44 pp.,

- 5.34 Annual Reports, 1922, 1929, 1938
Names and Companies: The Toronto hydro Electric System, Dominion Power and Transmission Company Ltd.

Subjects: 19th Annual report, Twenty-eighth Annual Report, Annual report

Documents: typed: 3 doc., 23 pp.,

- 5.35 Company Beginnings, 1898, 1901, 1903, 1915; includes correspondence, telegraphs, William B. Rankine, Wallace Nesbitt, Robert Borden, William L. Mackenzie King, A. Monro Grier, Wilfrid Laurier, E.J. Lennox, B.F. Matthews, Edward A. Wickes, G.W. Ross, Charles J. Myles, John Patterson.

Subjects: Blueprints; *Canadian Power House* Niagara Falls NY April 20, 1901 (no. 3042) x6, Canadian employment concerns, passes, meeting schedules, manufacturing designs, construction, copper-nickel co., electrical systems for the Canadian Niagara Power Co., agreements, Canadian Company estimates of power costs.

Documents: typed: 97 doc., 168 pp., Manuscripts: 9 doc., 9 pp, telegrams: 11 doc., 11 pp, Blueprints (signed): 6

Breakdown of correspondence (number of letters):

- 6.7 Company Booklets, 1912, 1928-1929, 1934, 1956, n.d; includes pamphlets and booklets distributed by various companies, CNP new rate schedules
 Names and Companies: Guest and Chrimes Ltd., Curtis Lighting Canadian Westinghouse Company, Canadian Niagara Power Company Ltd., Philadelphia Electric company, Ontario hydro, The Western Union Telegraph Company

Subjects: electric power, rates, informational packages

Documents: typed: 8 doc., 28 pp.,

- 6.8 Conference Programs, 1925-1926, 1929-1930, 1945
 Names and Companies: Second World Power Conference, World Power conference Banquet, A.M. Grier

Subjects: Power, Berlin, World

Documents: typed: 6 doc., 70 pp.,

- 6.9 Photographs, ca. 1900; includes photographs used for Daniel Dumych's writing

Names and Companies: Nikola Tesla, D. Dumych

Subjects: power, photographs

Documents: typed: 4 pp., 5 b&w photographs

- 6.10 Postcards, 1905, 1907, 1909-1910, 1931, n.d.
Names and Companies: A.M. Grier, Canadian Niagara Power Company, Beals and Company, Canadian General Electric Company Ltd., Dunn, Moody's Manual of Railroads, L.J. Holschuh, C.E. Harris,

Subjects: power, convention, business

Documents: typed: 11 doc., 11 pp.,

Sub-series C. File Number, 1876, 1889, 1893-1894, 1900-1922, 1931, 1938; ordered by file number assigned by the Canadian Niagara Power Company

- 6.11 Contract for Power, 1900, File no. 7
Names and Companies: Canadian Niagara Power Company, Niagara, St. Catharines, & Toronto Railway Co.

Subjects: *The Canadian Niagara Power Co. with Niagara, St. Catharines and Toronto Railway Company, contract for electrical power, May 1st, 1900*

Documents: typed: 2 doc., 24 pp.

- 6.12 Payment, 1906, 1910-1913, File no. 12
Names and Companies: W.H. Beatty (sig.), E.A. Wickes, A.M. Grier, P.P. Barton (sig.)

Subjects: honorarium for Mr. W.H. Beatty

Documents: typed: 4 doc., 4 pp.

Breakdown of correspondence (number of letters):
Barton – Grier 1

Beatty – Grier 1
Grier – Beatty 1
Grier – Wickes 1

- 6.13 Slip Joint, 1905, File no. 13
Names and Companies: Waterous Engine Works Co. Ltd., A.H.
VanCleve, A.M. Grier

Subjects: slip joint orders, *Waterous Engine Works Co. Ltd. Proposal for slip joint*

Documents: typed: 10 doc., 12 pp., telegram: 1 doc., 1 pp.

Breakdown of correspondence (number of letters):

D.L. Rankine – Waterous Engine Works Co. 1
Grier – Waterous Engine Works Co. 1
Waterous Engine Works Co. – CNP Co. 4
VanCleve – D.L. Rankine 1

Although the print may have contained one or more descriptors, not all were noted].

Blueprint: 109, Linen: 0

Blueprint, unless noted:

- R.8 Lombard Water Wheel Governor Type B. Detail of Bed Plate. The Lombard Water Wheel Governor Co. Boston Mass. L.O.G. del. September 28, 1895. #10691, 2-R1-H21.6
- R.8 Details of Improved Dash pot device. Lombard Water Wheel Governor Co. Boston, Mass. May 18, 1901 #10691, 2-R1-H21.6
- R.8 Details of 8" Cast Iron Pump. The Lombard Governor Co. Boston, Mass. September 25, 1903 #10691, 2-R1-H21.6
- R.8 Lombard Water Wheel Governor Type B Details of Pump crank shaft. End Cap. packing and name plate. Lombard Water Wheel Governor Co. Boston Mass. L.O.G. del. September 19, 1895 #10691, 2-R1-H21.6
- R.8 Details of Special Parts for the Canadian Niagara Power Co., Niagara Falls, Ontario. Job #1629. The Lombard Governor Co. Boston Mass. January 18, 1904. #10691, 2-R1-H21.6
- R.8 Lombard Water Wheel Governor Type B. Details of Governor top spring stand (low) and Governor top spring lever. The Lombard Water Wheel Governor Co. Boston, Mass. L.O.G. del. April 21, 1897 #10691, 2-R1-H21.6
- R.8 Lombard Water Wheel Governor Type B. Details of Oil cup and cap (large). Piston Gland cap and ring (1 5/16 piston) Piston Gauge and Holder. Rack Stop Piece and sides and Piston Gauge pointer. April 12, 1898. #10691, 2-R1-H21.6
- R.8 Lombard Water Wheel Governor Type B. Details of Governor pulley, shaft, miter gears, half balls and stud. The Lombard Water Wheel Governor Co. Boston, Mass. March 4, 1896 #10691, 2-R1-H21.6
- R.8 Lombard Water Wheel Governor Type B. Details of 1/8 vacuum and pressure gauge pipes and parts of safety valve. The Lombard Water Wheel Governor Co. Boston, Mass. December 27, 1895 #10691, 2-R1-H21.6

- R.8 Lombard Water Wheel Governor Type B. Details of extension lever stand, valve, stem, lever and parts. The Lombard Water Wheel Governor Co. Boston, Mass. February 26, 1896 #10691, 2-R1-H21.6
- R.8 Details of Cylinder head and sleeve for blocking piston for the Canadian Niagara Power Co., Niagara Falls, Ontario. Job no. 1629. The Lombard Governor Co. Boston, Mass. March 17, 1904 #10691, 2-R1-H21.6
- R.8 Lombard Water Wheel Governor Type B. Details of Governor top Standard valve stem Bushing (large). The Lombard Water Wheel Governor Co. Boston, Mass. February 29, 1896. #10691, 2-R1-H21.6
- R.8 Details of cast iron pumps. The Lombard Water Wheel Governor Co. Boston, Mass. September 25, 1903 #10691, 2-R1-H21.6
- R.8 Untitled. Showing Oval Structure #2-D-5, 10691, 26-C-4, No date.
- R.8 Type B. Clutch Pin Machine Steel fall over piece no. 347, #1-D-10, No date.
- R.8 Piping for Iron Pump for type D Governor. The Lombard Water Wheel Governor Co. Boston, Mass. September 19, 1902. #10691, 2-R1-H21.6
- R.8 Details of Special Intermediate Shaft Bearing for type B &D Governor. Lombard Water Wheel Governor Co. Boston, Mass. May 17, 1900. #10691, 2-R1-H21.6
- R.8 Untitled. Showing extension lever stands, latch post, safety lever etc. #1-B-31, #10691, 2-R1-H21.6, No date.
- R.8 Lombard Water Wheel Governor Type C. Details of Cylinder head, piston and ring. The Lombard Wheel Governor Co. Boston, Mass. July 11, 1895, #10691, 2-R1-H21.6
- R.8 Details of 30" hand wheel. The Lombard Water Wheel Governor Co. Boston, Mass. May 26, 1900 #10691, 2-R1-H21.6
- R.8 Untitled. Showing 1 bed plate # 1-B-1, #10691, 2-R1-H21.6, No date.
- R.8 Details of Improved Dash pot device. The Lombard Water Wheel Governor Co. Boston, Mass. May 18, 1901. #10691, 2-R1-H21.6
- R.8 New pump Stand Pat. And Piece no. cast Iron #6-B-27, No date.

- R.8 Untitled. Note: This table is used for no. 1 and no. 4-5&6. Governor tops only and sent out on most of the Governors to date for table no. 3. Governor top see 2-B-39, #10691, 2-R1-H21.6, No date.
- R.8 Untitled Includes 4 Governor table supports, 2-B-33 #10691, 2-R1-H21.6, No date.
- R.8 Lombard Water Wheel Governor Type F. Details of Reg. valve and sleeve, piston rod and piston and brace piece. The Lombard Water Wheel Governor Co. Boston, Mass. October 14, 1898, #10691, 2-R1-H21.6
- R.8 Lombard Water Wheel Governor Type B. Details of pump crosshead, crankshaft box and cap. Pressure stand valve – stem and spring and exhaust vacuum stand valve. The Lombard Water Wheel Governor Co. Boston, Mass. April 7, 1898 #10691, 2-R1-H21.6, 1-B-40
- R.8 Untitled. Includes 1 rack pinion shaft #2-B-30, 10691, 2-R1-H21.6, No date.
- R.8 Details of sleeved clutch gear. The Lombard Water Wheel Governor Co. Boston, Mass. August 12, 1903. 16-B-42, 10691, 2-R1-H21.6
- R.8 Untitled. Includes 1 piston, 2 tension spring levers etc. #1-B-43, 10691, 2-R1-H21.6, No date.
- R.8 Untitled. Includes 1 Governor top spring stand (low top) #2-B-50, 10691, 2-R1-H21.6, No date.
- R.8 Untitled. Includes extension lever. #2-B034, 10691, 2-R1-H21.6, No date.
- R.8 Lombard Water Wheel Governor Type C Details of cylinder heads, piston and ring. The Lombard Water Wheel Governor Co. Boston, Mass. July 11, 1895. #1-B-&, 10691, 26-C-4.0
- R.8 Details of 30” hand wheel. Lombard Water Wheel Governor Co. Boston, Mass. May 26, 1900, #10691, 2-R1-H21.6, 6-B-20
- R.8 Lombard Water Wheel Governor Type B. Details of rack, small pinion shaft and collar, piston rack gear and tie rod nuts. The Lombard Water Wheel Governor Co. Boston, Mass. April 5, 1898. #10691, 2-R1-H21.6
- R.8 Lombard Water Wheel Governor Type B. Detail of cylinder sleeve, piston and ring and piston rod nut. The Lombard Water Wheel Governor Co. Boston, Mass. April 4, 1898 #10691, 2-R1-H21.6

- R.8 Lombard Water Wheel Governor Type F. Details of reg. valve and sleeve piston rod and piston and brace piece. The Lombard Water Wheel Governor Co. Boston, Mass. October 14, 1898. #10691, 2-R1-H21.6
- R.8 Details of Regulating valve case for type L Governor. Lombard Water Wheel Governor Co. Boston, Mass. June 14, 1901 #10691, 2-R1-H21.6
- R.8 Lombard Water Wheel Governor Type B. Details of parts of extension lever. The Lombard Water Wheel Governor Co. Boston, Mass. March 23, 1898. #10691, 2-R1-H21.6 (2-B-34)
- R.8 Details of new pump stand. The Lombard Water Wheel Governor Co. Boston, Mass. August 12, 1902. #10691, 2-R1-H21.6 (6-B-27)
- R.8 Lombard Water Wheel Governor Type B. Details of rack pinion bearing, rack support role and shaft. The Lombard Water Wheel Governor Co. Boston, Mass. September 22, 1899, #10691, 2-R1-H21.6 (6-B-16)
- R.8 Lombard Water Wheel Governor Type B. Detail of pump pulley. The Lombard Water Wheel Governor Co. Boston, Mass. August 20, 1895 #10691, 2-R1-H21.6 (1-B-16)
- R.8 Lombard Water Wheel Governor Type F, F-no. 128. Details of Reg. valve case cap, rack guide, stands, guide roll and shaft. The Lombard Water Wheel Governor Co. Boston, Mass. September 10, 1898, #10691, 2-R1-H21.6
- R.8 Details of type P cylinder. The Lombard Water Wheel Governor Co. Boston Mass. #10691, 2-R1-H21.6, 18-B-30, No date.
- R.8 Lombard Water Wheel Governor Type D. Details of tie rod, piston rod, and rack. The Lombard Water Wheel Governor Co. Boston, Mass. June 21, 1898 #10691, 2-R1-H21.6, 5-B-19
- R.8 Details of sleeved clutch gear. The Lombard Water Wheel Governor Co. Boston, Mass. August 12, 1903 #10691, 2-R1-H21.6
- R.8 Details of Type B and D extension levers and connections. The Lombard Water Wheel Governor Co. Boston, Mass. July 25, 1903 #10691, 2-R1-H21.6, 17-B-2
- R.8 Lombard Water Wheel Governor Type B. Details of leg. The Lombard Water Wheel Governor Co. Boston, Mass. June 7, 1895. #10691, 2-R1-H21.6 (1-B-2)

- R.8 Lombard Water Wheel Governor Type B. Details of pump crosshead, crank shaft box and cap, pressure stand valve, stem and spring and exhaust vacuum stand valve. The Lombard Water Wheel Governor Co. Boston, Mass. April 7, 1898 #10691, 2-R1-H21.6 (1-B-40)
- R.8 Lombard Water Wheel Governor Type B. Detail of Governor top table. The Lombard Water Wheel Governor Co. Boston, Mass. January 25, 1896, #10691, 2-R1-H21.6 (1-B-30)
- R.8 Lombard Water Wheel Governor Type C no.1 Patented. July 24,1894, February 5, 1895 (1-B-18). #10691, 2-R1-H21.6
- R.8 Gauge cock. Governor top rotary sleeve and oiling device for pump and drip pan. Lombard Water Wheel Governor Co. Boston, Mass. April 12, 1900. #10691, 2-R1-H21.6, 6-B-17
- R.8 Untitled, includes 1 vacuum gage pipe etc. #10691, 2-R1-H21.6 (1-B-26), No date.
- R.8 Untitled, includes 2 legs. Pattern and piece. No. 402, #10691, 2-R1-H21.6 (1-B-2), No date.
- R.8 Untitled, includes 1 Regulating Valve case. Pattern and piece no. 3407, #10691, 2-R1-H21.6, 9-B-39, No date.
- R.8 Untitled, includes 1 pump pulley. Pattern and piece #447. #10691, 2-R1-H21.6 (1-B-16), No date.
- R.8 Untitled, includes 1 cylinder sleeve (for 6 inch size). Pattern and piece no. 251, #10691, 2-R1-H21.6 (2-B-27), No date.
- R.8 Details of type P cylinder. The Lombard Water Wheel Governor Co. Boston, Mass. July 26, 1903, #10691, 2-R1-H21.6 (18-B-30)
- R.8 Untitled, includes 1 bed plate. Pattern and piece no. 602. #10691 (1-C-46), No date.
- R.8 Untitled, includes 24 springs piece no. 567 #10691, 2-R1-H21.6, 1-B-36
- R.8 Untitled, includes 1 pump box (upper). Pattern and piece no. 434 #10691, 2-R1-H21.6 (1-B-13), No date.
- R.8 Details of Special Parts for the Canadian Niagara Power Co., Niagara Falls, Ontario. Job #1629. Lombard Water Wheel Governor Co. Boston, Mass. January 18, 1904 #10691, 2-R1-H21.6, 20-B-32

- R.8 Untitled, #10691, 2-R1-H21.6, 6-B-24, No date.
- R.8 Untitled, includes 2 tie rods piece #603, #10691, 2-R1-H21.6, 5-B-19, No date.
- R.8 Untitled, includes 1 valve stem bushing (large). Pattern and piece no. 550 #10691, 2-R1-H21.6, 1-B-33, No date.
- R.8 Untitled, includes 1 Governor pulley. Pattern and piece no. 551, #10691, 2-R1-H21.6, 1-B-34, No date.
- R.8 Untitled, includes 1 governor top rotary sleeve. Pattern and piece no. 304, #10691, 2-R1-H21.6, 6-B-17, No date.
- R.8 Untitled, includes 1 piston G land cap. Pattern and piece no. 422, #10691, 2-R1-H21.6 (2-B-31), No date.
- R.8 The Jenckes Machine Co., Sherbrooke Que. Detail of Elbow and connecting piece for flush valve for 27" Special Turbine. January 4, 1904, XXIII-395, #10688, 26-C-4.0
- R.8 The Jenckes Machine Co., Sherbrooke Que. Details dome cover and stuffing box 27" Special Turbine 334-P, #10688, No date.
- R.8 The Jenckes Machine Co., Sherbrooke Que. Detail of Thrust Stand for 27" Special Turbine. November 9, 1903, XXIII-337-P, #10688
- R.8 The Jenckes Machine Co., Sherbrooke Que. Chute Ring for 27" Special Turbine. September 15, 1903, 340-P #10688
- R.8 The Jenckes Machine Co., Sherbrooke Que. Detail of Elbow for 27" Special Turbine. September 16, 1903, 341-P, #10688
- R.8 The Jenckes Machine Co., Sherbrooke Que. Detail of Runner gate for 27" Special Turbine. September 18, 1903, 343-P, #10688
- R.8 The Jenckes Machine Co., Sherbrooke Que. Detail of shafts etc. for 27" Special Turbine. September 22, 1903, 344-P, #10688
- R.8 The Jenckes Machine Co., Sherbrooke Que. Details of gate lever etc. for 27" Special Turbine. September 23, 1903, 345-P, #10688
- R.8 The Jenckes Machine Co., Sherbrooke Que. Detail of bucket for 27" Special Turbine. September 24, 1903, 346-P, #10688

- R.8 The Jenckes Machine Co., Sherbrooke Que. Detail of bearing for 27" Special Turbine. August 27, 1903, 333-P, #10688
- R.8 The Jenckes Machine Co., Sherbrooke Que. Details oil casings and boxes for 27" Special Turbine. October 15, 1903, 347-P, #10688
- R.8 The Jenckes Machine Co., Sherbrooke Que. Details thrust seat, nut etc. for 27" Special Turbine. October 16, 1903, XXIII-354-P, #10688
- R.8 The Jenckes Machine Co., Sherbrooke Que. Governor Rod and Stands for 27" Special Turbine. December 4, 1903, 380-P, #10688

- R.12 Canadian Niagara Power Co. Bertie Hill Tower Details of Reinforcement base of Columns, Niagara Falls Ontario. May 3, 1910. Signed: C.C. Egbert, Mechanical Engineer, L.E. Imlay, Superintendent #12071, 6.1-R1-E31
- R.12 Canadian Niagara Power Co. Bertie Hill Tower. Details of Reinforcement 3rd panel, point of columns, Niagara Falls Ontario. May 3, 1910. Signed C.C. Egbert, Mechanical Engineer, L.E. Imlay, Superintendent #12073, 6.1-R1-E31

- R.12 Canadian Niagara Power Co. Details of Steel work for strain attachments at Bertie Hill Tower, Niagara Falls Ontario. August 13, 1906. Signed: A.H. VanCleve, Engineer #B-11508, 6.1-R1-E31
- R.12 Canadian Niagara Power Co. Map Showing Contours of Bertie Hill Lot, Fort Erie Ontario with location of Anchorage Tower Niagara Falls, New York. March 21, 1906. Signed: A.H. VanCleve, Resident Engineer. #11395, 6.1-R1-E37
- R.12 Canadian Niagara Power Co. Stresses in Main Members of Bertie Hill Tower Niagara Falls, Ontario. July 1, 1907. Signed: A.H. VanCleve, Engineer, #C-11643, 6.1-R1-E31
- R.12 Canadian Niagara Power Co. Bertie Hill Tower. Details of Reinforcement. Second Panel Point of Columns. Niagara Falls, Ontario. May 3, 1910. Signed: C.C. Egbert, Mechanical Engineer, L.E. Imlay, Superintendent #12072, 6.1-R1-E31
- R.12 Canadian Niagara Power Co. General Arrangement of line switches, Bertie Hill Tower, Fort Erie, Ontario. Niagara Falls. Ontario. June 1, 1901. Signed: A.H. VanCleve, Engineer. #B11633, 6.1-R1-E31
- R.12 Canadian Niagara Power Co. Details of Steelwork for Reinforcement of Struts and Diagonals of Bertie Hill Tower, Niagara Falls, Ontario. May 27, 1910. Signed C.C. Egbert, Mechanical Engineer, L.E. Imlay, Superintendent. #12081, 6.1-R1-E31
- R.12 Canadian Niagara Power Co. Details of Foundations for Anchorage Tower on Bertie Hill. Fort Erie, Ontario. Niagara Falls, Ontario. May 1, 1906. Signed: A.H. VanCleve, Resident Engineer. #11426, 6.1-R1-E31
- R.12 Canadian Niagara Power Co. Bertie Hill Tower Details of Sheave Supports. Niagara Falls, Ontario. April 29, 1910. Signed: C.C. Egbert, Mechanical Engineer. L.E. Imlay, Superintendent. #12066, 6.1-R1-E31
- R.12 Canadian Niagara Power Co. Stress Diagrams and General Dimensions of steel Anchorage Tower on Bertie Hill, Fort Erie, Ontario, for transmission line crossing Niagara River to Buffalo, N.Y. Niagara Falls, Ontario. March 13, 1906. Signed: A.H. VanCleve, Resident Engineer. #11381, 6.1-R1-E31
- R.12 Canadian Niagara Power Co. Details of Roads and Castings for Reinforcing end connections of Upper Truss. Niagara Falls, Ontario. May 19, 1910. Signed: C.C. Egbert, Mechanical Engineer, L.E. Imlay, Superintendent. #12068, 6.1-R1-E31

- R.12 Canadian Niagara Power Co. Details of Steel work for strain attachments at North bent of Bertie Hill Tower. Niagara Falls, Ontario. October 29, 1906. Signed: A.H. VanCleve, Engineer. #B-11556, 6.1-R1-E31
- R.12 Canadian Niagara Power Co. Bertie Hill Tower details of Steelwork for reinforcement of Trusses. Niagara Falls, Ontario. October 24, 1908. Signed: R.V. Rose, Engineering Assistant, L.E. Imlay, Superintendent. #11883, 6.1-R1-E31
- R.12 Canadian Niagara Power Co. Buffalo Transmission line detail of Anchorage shoe for sheave truck on Bertie Hill Tower. Niagara Falls, Ontario. August 10, 1906. Signed: A.H. VanCleve, Engineer. #C-11505, 6.1-R1-E31
- R.12 Canadian Niagara Power Co. General Arrangement and details of Guides for counter-weights at Bertie Hill tower. Fort Erie, Ontario. Niagara Falls, Ontario. September 24, 190? Signed: A.H. VanCleve, Engineer. #B-11677, 6.1-R1-E31
- R.12 Canadian Niagara Power Co. Details of Cable Reinforcement for center column on East Side of Queen St. tower. Niagara Falls, Ontario. October 25, 1909. Signed: R.V. Rose, Engineering Assistant. L.E. Imlay, Superintendent. #12009, 6.1-R1-E31
- R.12 Canadian Niagara Power Co. Bertie Hill Tower General Plan of Anchorages. Niagara Falls, Ontario. October 29, 1908. Signed: R.V. Rose, Engineering Assistant, L.E. Imlay, Superintendent. #11884, 6.1-R1-E31
- R.12 Canadian Niagara Power Co. Details of steelwork for support of line switches and bus bars on Bertie Hill Tower. Niagara Falls, Ontario. June 3, 1907. Signed: A.H. VanCleve, Engineer #A11634, 6.1-R1-E31
- Sub-series M. Roll 13, 1909, 1915, 1917, 1923, 1936, 1960, 1966, 1968-1969, 1974, 1978, 1980-1987** (includes 11 organizational charts, 1 map)
- Blueprint: 14, Linen: 0
- Blueprint, unless noted:*
- R.13 CNPC – Map and profile of transmission circuits between Fort Erie, Ontario and Buffalo, N.Y., 1 February 1909 – Engineers: Rose and Imlay (copy of original)
- R.13 Grand Trunk Railway System – Plan showing the right of way through Bertie Township, 4 August 1915 (names property owners noted along the way) (copy of original)

- R.13 CNPC – Map and Profile showing right of way for transmission line (sheet #1) from main transformer station to Chippawa Creek – VanCleve (engineer), April 11, 1917 (copy of original)
- R.13 Lake Erie shore from Fort Erie to Port Albino, April 23, 1923 – (nice details of major buildings, properties and streets) – Plan #s 9-B-5 and 11670 94.5cm x 9m 40cm
- R.13 Two preliminary plans – Rankine Generation Station Operating Diagram, originally drawn in December 1936 and revised to January 1974 (copies of original)
- R.13 CNPC – Plan showing parts of Bertie and Willoughby Townships along the Niagara River between the old Shipyard and Chippawa, 17 March 1960 (waxed linen paper) 147cm x 92cm
- R.13 Expropriation land plan (highway improvements, Township of Bertie, Gorham Road, Ridgeway – June 29, 1966 (great detail on property owners)
- R.13 Plan of the QEW through Bertie Township – Department of Highways Ontario, August 1968 – Plan No. B191-17 (W.P 163-64-03 CNPC relocation) (includes precise locations of numerous buildings, natural occurrences and infrastructure)
- R.13 Plan of the QEW Central Ave and North Street, Bertie Township – Department of Highways Ontario, August 1968 – Plan No. B191-18 (W.P 163-64-03 CNPC relocation) (includes precise locations of numerous buildings, natural occurrences and infrastructure)
- R.13 Plan of the QEW through Bertie Township – Department of Highways Ontario, October 1968 – Plan No. B191-19 (W.P 163-64-03 CNPC relocation) (includes precise locations of numerous buildings, natural occurrences and infrastructure)
- R.13 Plan of the QEW Fort Erie (at Spears Road) – Existing Conditions Plan – Department of Highways Ontario, August 1968 – Plan No. B191-15 (W.P 163-64-04 CNPC relocation) (includes precise locations of numerous buildings, natural occurrences and infrastructure)
- R.13 CNPC – plan showing part of the Township of Bertie including Point Abino, Crystal Beach and Ridgeway – June 1969 (waxed linen) 161cm x 66cm
- R.13 Proposed plan of Douglstown – 1978 and aerial photos of Fort Erie (2) – 1981

R.13 Town of Fort Erie – West Bertie Sewerage Scheme – Ministry of the Environment – Drawing # A1-79423-P47 (by Proctor & Redfern Ltd.) – c.1980 (nice detail of local businesses and infrastructure on Derby, Lincoln and Cambridge Roads) – 10 pages

R.13 CNP organization chart – 1982

R.13 CNP organization charts (10) – 1983 to 1987

R.13 Map – City of Niagara Falls, n.d.

Series VI. Clippings, 1895, 1898, 1903-1904, 1921, 1929-1930, 1939, 1946, 1948, 1953-1955, 1958, 1962, 1969, 1975-1976, 1982-1989, 1990, 1999, n.d.

4.21 Clippings, 1895, 1898, 1903-1904, 1921, 1929-1930, 1939, 1946, 1948, 1953-1955, 1958, 1962, 1969, 1975-1976, 1982-1989, 1990, 1999, n.d.

Added Entries: 600 Adams, Edward Dean, 1846-1931
 600 Ely, Hon. W. Caryl
 600 Barton, Philip P., General Manager of Cdn. Niag. Power Co. (1907)
 600 Rankine, William Birch, 1858-1905
 600 Schoellkopf, Arthur
 600 Schoellkopf, Jacob

Subject Access: 650 History - Canada
 650 Hydroelectric power plants -- Niagara Falls (N.Y. and Ont.)
 650 Niagara Falls (N.Y. and Ont.) -- Power utilization.
 650 Niagara Falls Power Company
