European Workshop on General Equilibrium Call for papers The XVI European Workshop on General Equilibrium is being organized jointly by the Departments of Economics at Queen Mary, University of London, and at the University of Warwick. It will take place on June 9 – 10, 2007, in the campus of the University of Warwick. The European Workshop on General Equilibrium allows participants to present and be informed of the latest developments in general equilibrium theory and its applications in other areas of economics, such as macroeconomic and monetary theory, public economics, and the theory of finance. Research in related areas, such as game theory, is presented too. This year, the event will include the III Debreu Lecture and the I CRETA Lecture on Economic Theory. The workshop encourages young researchers to present their work, and (limited) funds are available to cover their expenses. Senior theorists typically attend the workshop. Participation in the workshop is not limited to researchers based in Europe. Submissions should be made either electronically, as a PDF file to Submissions@GE-Europe.org, or three copies of the paper should be sent to Doctor Nizar Allouch Department of Economics Queen Mary, University of London Mile End Road, London E1 4NS United Kingdom In either case, submitted papers must include a short abstract, along with the correspondent author's e-mail address, fax and phone numbers and mail address. Electronic submissions are highly encouraged. Papers should be submitted as soon as possible the submission deadline is MARCH 20th 2007. For more information, visit <http://ge-europe.org> or e-mail organizers@ge-europe.org
