

AUCO Czech Economic Review

The 660-year-old Charles University in Prague is now undertaking a new publication venture by re-launching a journal *AUCO Czech Economic Review*.

AUCO Czech Economic Review (ISSN 1802-4696) presents original, rigorously peer-reviewed research in economics with solid microeconomic grounds. Coverage includes both theoretical and methodological articles (game theory, mathematical methods in economics) as well as empirical articles (political economy, institutional economics, public economics). *AUCO* encourages also short communications (usually limited to 2,000 words) that provide an instrument of rapid and efficient dissemination of new results, models and methods in the above mentioned fields of economic research. One of the primary purposes is to serve as a common ground for economists and political scientists who explore political economy from a formal perspective (positive political economy, public choice and social choice, political economics). Another goal is to attract key contributions of gifted European junior economists.

AUCO Czech Economic Review is published by Charles University in Prague. The journal has been established in year 2007 as a descendant of a traditional Czech-written outlet, *Acta Universitatis Carolinae Oeconomica*. Three issues are published per volume. All

articles and communications are available online for free. Printed issues can be ordered at a cost. The editors maintain classic **double blind peer review** procedure at high academic standards but at the same time emphasize **dynamic referee process** so that the journal tracks scientific progress in real time.
