Annex D – Field Notes from the Rapid Appraisal

Annex E – LAD Accomplishment and Balance, 2006

This report presents the results of the CARP impact study conducted by the Asia-Pacific Policy Center for the Department of Agrarian Reform (DAR). It is part of the second round of CARP-IA studies commissioned by the DAR to assess the impact and gains of the program and to recommend policies, mechanisms or changes to enhance program implementation, particularly for the remaining balances in land acquisition and distribution and in expanding the reach and impact of the ARC strategy.
