Introduction

This document provides an index and a guide to the activities of the North American Agrifood Market Integration Consortium (NAAMIC) and its predecessor organization the Policy Disputes Information Consortium (PDIC). The first meeting of the group took place in Rio Rico, Arizona in March 1995 and the most recent in Cancun, Mexico in June 2007. Since 1995 the group has held an annual workshop where issues of importance to the three member nations of the NAFTA can be discussed in an open and frank forum. It is one of the few trilateral activities where academics, government employees and private sector agents can meet to discuss common problems. The activities of the group are predicated on the belief that unbiased information presented to public and private decision makers can lead to more efficient and better functioning North American markets for agrifood products.

This document provides a listing of the publications prepared by the PDIC and the NAAMIC as well as author, subject and participant indexes. All of the publications are available on the NAAMIC web site at: <http://naamic.tamu.edu> as well as in books published following the workshops.

The founders of this group were: Al Loyns, Ron Knutson, Jack Gellner, Bruce Kirk and Karl Meilke. The coordinating committee for the 2007 workshop is: Gloria Abraham (IICA – Mexico), Karen Huff (University of Guelph), Ron Knutson (Texas A&M University), Karl Meilke (University of Guelph), Rene Ochoa (SAGARPA - Mexico), James Rude (University of Alberta), Renee Schwartz (FAS – USDA), Tulay Yildirim (AAFC) and Steven Zahniser (ERS – USDA).
