Aortic valve stenosis
Three-Year Clinical and Electrophysiologic Follow-Up After Percutaneous Edwards Aortic Support Implantation for Severe Aortic Stenosis in Compassionate Patients#994-215B

Aortocoronary bypass
Determinants of the Treatment of Saphenous Vein Graft Disease: Poor Outcome in Diffusely Diseased Grafts#916-213-43B

Arteries
Role of Stenotic Function in Vacular Access Complication Rates in Patients Undergoing Percutaneous Coronary Procedures Using Arteonetye Closure Devices#903-216B

Assisted circulation
Percutaneous Circulatory Support During High-Risk Angioplasty Procedures: A Multicenter Experience With Impella Technology#904-211-2B

Atrial fibrillation
Preliminary Experience of the MACH 2 Trial: Safety and Feasibility of Initial Mitochondrial Stent for Atrial Fibrillation in Patients With Acute ST-Segment Elevation Myocardial Infarction#914-211-29B

Atherosclerosis
Effect of Neointimal Plaque in Patients With Advanced Chronic Kidney Disease Undergoing Coronary Angiographic Procedures#904-209-7B

Atrial electromgram
Impact of Procedural Acute Coronary Syndromes on Cardiac Monitoring: A Comparison of Patients Undergoing Percutaneous Coronary Intervention With Acute Coronary Syndromes and Patients With Stable Angina Pectoris#905-209-3B

Blood
Blood Transfusion Is Independently Associated With Death in Acute Myocardial Infarction: Insights From APEX-AMI Trial#917-216-36B

Calcium
Characterization of the Intravascular Ultrasound Hyperechoic Signal Within Regions of Acoustic Shadowing Behind Calcium#914-213-29B

Cardiac surgery
Comparison of Mid-Term Results of Left Main Disease Treatment With the New Multilayer Stent System#902-214-2B

Cardiac tamponade
Coronary Artery Perforations: Incidence, Predictors and Clinical Outcomes: Multicenter Registry in Japan#999-212-10B

Cardiology practice/management
On-Your-Results of Combined Embolic Protection and Thrombectomy in Percutaneous Coronary Intervention of Acute Myocardial Infarction Using the Proxis®-Device #914-212-32B

Quality Improvement: Reducing Door-to-Balloon Times in Cardiology practice/management

Arteries
Role of Stenotic Function in Vacular Access Complication Rates in Patients Undergoing Percutaneous Coronary Procedures Using Arteonetye Closure Devices#903-216B

Cardiovascular disease
Role of Renal Function in Vacular Access Complication Rates in Patients Undergoing Percutaneous Coronary Procedures Using Arteonetye Closure Devices#903-216B

Aortic valve stenosis
Two-Year Outcomes in Real-World Experience With Taxus Paclitaxel-Eluting Stent in a Prospective, Multicenter, Consecutively Enrolled United States Registry: ARRIVE 18909-211B

Coronary stenting
Coronary Artery Stent Type Influences Duplex Ultrasound Derived Flow and Platelet Activation in Different Stent Models#910-212-21B

Efficacy and Safety of Coronary Artery Stenting in Patients Scheduled for Cardiac Surgery#918-213-37B

Octogenarian Status Is an Independent Risk Factor for Adverse Outcomes After Cardiac Stenting#916-212-29B

Safety and Efficacy of Coronary Artery Stenting in Patients With a History of Neck Irradiation#917-212-35B

Cells
Time-Dependent Inhibition of the Inflammation-Induced Mobilization of Bone Marrow Mesenchymal Stem Cells by Inflammation-Dependent wounding During Porcine Coronary Occlusion/Reperfusion#2803-3-42B

Central nervous system
Feasibility and Safety of Drug-Eluting Stent Implantation in the Treatment of Stenosis of Ventebrosal Arteries#919-212-29B

Clinical trials
A Prospective Registry to Evaluate an Implantation of Sirolimus-Eluting Stent in Bifurcation Lesions: Comparison of Four Different Stent Bifurcation Techniques: Long-Term Clinical Outcome From the 3-Cyprer Registry#901-211-10B

Should Bivalirudin be the Initial Antithrombotic Agent of Choice During Elective or Urgent Percutaneous Coronary Intervention? A Bayesian Analysis of REPLACE-2 and ACUTY Trials#918-215-37B

Contrast media
Effect of Nitrates on Kidney Function in Patients With Advanced Chronic Kidney Disease Undergoing Coronary Angiographic Procedures#904-209-7B

Preventing Contrast-Induced Nephropathy in High-Risk Patients: Does the Contrast Agent Matter?#907-209-29B

Prevention of Contrast-Induced Nephropathy Using High-Dose Statin in Patients Undergoing Coronary Angiography: The PROGRESS Trial - A Randomized Controlled Study#2805-7-46B

The Effect of Contrast-Induced Nephropathy on Long-Term Renal Function#902-209-3B

The Incidence of Contrast-Induced Nephropathy With Iopromide Is Similar to the Incidence of Contrast-Induced Nephropathy With Iopamidol#904-209-27B

Coronary artery disease
A Biomarker Fingerprint of Heightened Plaque Metabolism in Stable Angina Pectoris: A Two-Year Outcomes of Bivalirudin in Moderate-and High-Risk Patients With Chronic Total Occlusions-Multicenter Registry in Asia: Four-Year Results#914-210B

High Renostenosis Rate in Patients on Hemodialysis Treated With Either Sirolimus-Eluting Stents or Bare Metal Stents#911-209-22B

Impact of Platelet Volume on Procedural Efficacy and Safety of Coronary Artery Stenting in Patients With Chronic Total Occlusions-Multicenter Registry in Asia: Five-Year Results#914-211B

First Real-World Experience and 6-Month Clinical Outcome in Patients Treated With A Genous® Endothelial Progenitor Cell Cells/212-9B

Five-Year Outcomes in a Cohort of Coronary Artery Disease Patients Treated With Percutaneous Coronary Intervention in the National Heart Lung and Blood Institute Dynamic Registry: Initial Acute Coronary Syndrome Is a Risk Factor for Future Inhemic Events#917-210-4B

Fractional Flow Reserve Guided Sole Bypass Operation in Versus Conventional Intervention in Bifurcation Lesions: Comparison of Long-Term Clinical Outcome#2803-9-42B

Durable Clinical Benefit Following Sirolimus-Eluting Stent Deployment on the Outcome of Patients With Chronic Total Occlusions-Multicenter Registry in Asia: Four-Year Results#914-211B

Radiofrequency Signal Within Regions of Acoustic Shadowing In Patients With Stable Angina? Results of the ACUITY Substudy#902-216B

Optimal Platelet Inhibition in Patients Undergoing Percutaneous Coronary Intervention: Data From the MR CLEAN Study#916-215-34B

Outcomes of Bivalirudin in Moderate-and High-Risk Patients With Acute Coronary Syndromes and Renal Insufficiency: An ACUTY Subanalysis#902-216B

Physiologic Evaluation of Myocardial Bridging: A New Analysis for an Old Disease#913-217-3B

Relationship Between the 3D Structure of the Left Main Coronary Artery Bifurcation and Double Stenting#2802-210B

Robust Impact of Chronic Kidney Disease on Long-Term Survival in Patients Undergoing Revascularization of Severe Unprotected Left Main Coronary Artery Stenosis#905-209-9B

Safety and Efficacy of a New GuideWire for Crossing Chronic Stable and Unprotected Lesions: First In Man Results#917-216-2B

SPIRIT II Study: A Clinical Evaluation of the XIENCE V Everolimus-Eluting Coronary Stent System in the Treatment of Patients with de Native Coronary Artery Lesion#914-212-29B

Supplemental Fibro-Fatty Area Detected by Virtual Histology Intravascular Ultrasound Is Associated With Thrombosis Detected by Angioscope#916-215-35B

The CROSSES Chron Total Occlusion Debridal System: Multicenter United States and European Study Results#915-209-30B

Three-Year Outcome of Intracoronary Stent-Absorbing Alone Administration of Epifibatide During Coronary Intervention#915-215-30B

KEY: Abstract Title, Session-abstract number-page number
Pharmacology
Prevalence of Aspirin and Clopidogrel Resistance in Patients Undergoing Percutaneous Coronary Intervention: Comparison of Triple Versus Dual Antiplatelet Therapy

Physiology
Physiologic Evaluation of Myocardial Bridging: A New Analysis for an Old Disease

Platelet inhibitors
Association of Antiplatelet and Antithrombin Therapy With Iliacoma on Holter Monitoring Following Percutaneous Coronary Intervention: A PROTECT-TIMI 30 Analysis

Plaque
Plaque Vascular Composition and Creatine Kinase-Myosin Fraction enzymatic Level After Percutaneous Coronary Stenting: A Virtual Histology Intravascular Ultrasound Analysis

Quantitative Analysis of Vulnerable Plaque Color Using LCH Color Space

The Plaque Detrimental of Nonculprit Lesion in Acute Myocardial Infarction: An Optical Coherence Tomography Study

Plaque markers
Imaging of Hemoglobin Decrease in the Absence of Circulating Pregnancy-Associated Plasma Protein-A Levels and Risk of Preterm Birth

Circulating Secretory Phospholipase A2 Activity and Risk of Prevention

Measures of Aspirin Resistance and Clopidogrel Resistance Do Not Correlate With Post-Percutaneous Coronary Intervention Markers of Myocareos

Optimal Platelet Inhibition in Patients Undergoing Percutaneous Coronary Intervention: Data From the MR PCI Study

Post-Coronary Intervention Recurrent Iliacoma in the Presence of Antiplatelet Inhibition by Dual Antiplatelet Therapy: What Are We Overlooking? Of 216-9B

Prevalence of Aspirin and Clopidogrel Resistance in Patients Undergoing Percutaneous Coronary Intervention: Comparison of Triple Versus Dual Antiplatelet Therapy

Should Bivalirudin be the Preferred Antiplatelet Agent of Choice During Elective or Urgent Percutaneous Coronary Intervention?

The Response to Clopidogrel Measured by a Point-of-Care Assay Following Percutaneous Coronary Intervention Is Associated With Stent Thrombosis Over 6-Month Follow-Up

Three-Year Outcome of Intracoronary Stand-Alone Bolus Administration of Epitifibatide During Over 6-Month Coronary Intervention

Platelets

Measures of Aspirin Resistance and Clopidogrel Resistance Do Not Correlate With Post-Percutaneous Coronary Intervention Markers of Myocareos

Platelet Activity in the Composition Patterns After Exposure to the Surface of Paclitaxel-Eluting Stents: An In Vitro Flow Chamber Study

The Response to Clopidogrel Measured by a Point-of-Care Assay Following Percutaneous Coronary Intervention Is Associated With Stent Thrombosis Over 6-Month Follow-Up

Prevention
Circulating Secretory Phospholipase A2 Activity and Risk of Incident Coronary Events in Healthy Men and Women: The EPIC-NORFOLK Study

Prevention of Radiocontrast Medium Induced Nephropathy Using High-Dose Statin in Patients Undergoing Coronary Angiography: The PROMISS Trial - A Randomized Controlled Study

Prognosis
A Prospective, Natural History Study of Multimodality Imaging to Characterize Vulnerable Plaque: First Report of the Baseline Findings From the PROSPECT Study

Are Paclitaxel-Eluting Stents Safe and Effective Compared to Bare Metal Stents? A Long-Term Results From the TAXUS Meta-Analysis

Circulating Pregnancy-Associated Protein A Levels and Long-Term Prognosis in Patients With Chronic Stable Angina

Implications of Hemoglobin Decrease in the Absence of Overt Bleeding During Percutaneous Coronary Intervention

Public policy
Depression Worries Survival and Major Outcomes in Elderly Patients With Chronic Heart Failure: An Analysis of 18,623 Patients in a Community Setting

Quality performance measurement and improvement
ST-Segment Analysis Using Wireless Technology in Acute Myocardial Infarction Trials Of 216-36B

Radiation
Efficacy and Safety of Absorbable Metallic Stents With Adjunct Intracoronary Beta Radiation in Porcine Coronary Arteries

Eliminating Unnecessary X-Ray Exposure During Interventional Procedures: Role of Automatic Fluoroscopy Lockout

Radiation Exposure During Flat Detector Fluoroscopy: Recognition of a Unique Hazard to Obese Patients

Safety and Efficiency of Carotid Artery Stenting With Patients With a History of Neck Radiation

X-Ray Dose-Awareness in the Interventional Laboratory: Interactive Display Improves Safety

Renal circulation
Renal Frame Count Can Identify the Good Responders of Stent Placement in Patients With Atherosclerotic Renal Artery Stenosis Which Induced Renal Dysfunction

Renal function
Chronic Kidney Disease Is Associated With Increased Mortality, Blinding, and Invasive Events in Moderate and High-Risk Acute Coronary Syndromes: An Analysis From the ACUITY Trial

Clinical Outcomes in Chronic Hemodialysis Patients: Initial and 1-Year Follow-Up Results of the J-Cure Registry

Effect of Novel Sidestream Dark Field Function in Patients With Advanced Chronic Kidney Disease Undergoing Contrast Angiographic Procedures

High Restenosis Rate in Patients on Hemodialysis Treated With Either Sirolimus-Eluting Stents or Bare Metal Stents

Impact of Gliclazide Fillation Rate on the Outcomes of Primary Percutaneous Coronary Intervention in ST-Elevation Myocardial Infarction

Impact of Renal Function on Coronary Plaque Characteristics in Patients With Acute Myocardial Infarction: An Intravascular Ultrasound Analysis

Impact of Renal Insufficiency on Clinical Outcomes Following Drug-Eluting Stent Implantation

Is Contrast Medium Dose a Risk Factor for the Development of Contrast-Induced Nephropathy in Patients With Chronic Kidney Disease

Outcomes of Bivalirudin in Moderate and High-Risk Patients With Acute Coronary Syndromes and Renal Insufficiency: An ACUITY Substudy

Preventing Contrast-Induced Nephropathy in High-Risk Patients: Does the Contrast Agent Matter?

Prevention of Radiocontrast Medium Induced Nephropathy Using High-Dose Statin in Patients Undergoing Coronary Angiography: The PROMISS Trial - A Randomized Controlled Study

Primary Percutaneous Coronary Intervention May Improve Survival Compared to Balloon Thrombolysis in End-Stage Renal Dialysis Patients With Prior Invasive Heart Disease

Stent Frame Count Can Identify the Good Responders of Stent Placement in Patients With Atherosclerotic Renal Artery Stenosis Which Induced Renal Dysfunction

Robust Impact of Chronic Kidney Disease on Long-Term Survival in Patients Undergoing Revascularization of Severe Unprotected Left Main Coronary Artery Stenosis

Statin Pretreatment Prevents Contrast-Induced Nephropathy and Improves Long-Term Outcome in Patients Undergoing Percutaneous Coronary Intervention: Results of the ARMYDA-Regular

The Effect of Contrast-Induced Nephropathy on Long-Term Renal Functionality

The Incidence of Contrast-Induced Nephropathy With Iodinated Is Similar to the Incidence of Contrast-Induced Nephropathy With Non-Iodinated Contrast Media

What Is the Optimal Definition of Renal Failure After Percutaneous Coronary Intervention? Findings From the GUSTO IV Coronary Artery Intervention Registry

Reperfusion
Blood Transfusion is Independently Associated With Death in Acute Myocardial Infarction: Insights From the APEX-AMII Trial

Faster Times to Primary Percutaneous Coronary Intervention Are Associated With Better Survival: Insights From the Assessment of Platelet/Thrombus in Acute Myocardial Infarction Trials

Restenosis
A Prospective Randomized Antiplatelet Trial of Clopidogrel Versus Clopidogrel in Patients With Diabetes Patients Who Underwent Drug-Eluting Stent Implantation

Abnormal Neutrophilosis Evaluated by CD105 Expression of Endothelial Precursor Cells Is Associated With Restenosis After Percutaneous Coronary Intervention

Are Angiographic Restenosis Criteria Functionally Relevant in Evaluation of Failed Side Branch Lesions? Follow-Up Angiogram

Clinical Correlates of Restenosis Following Coronary Implantation of Drug-Eluting Stents

Detection of In-Stent Restenosis by 64-Detector Computed Tomographic Coronary Angiography: Comparison With Quantitative Selective Coronary Angiography

Drug-Eluting Stents Are No Better Than Bare Metal in Vein Grafts: Results From the Strategic Transcatheter Evaluation of New Therapies Group

Drug-Eluting Stents for the Treatment of Left Main Coronary Arteries: A Comparison of Serial Angiographic Follow-Up in Patients With Ticlopidine-eluting Stents, Ticlodipine, Zotarolimus, and Tiacropil-Eluting Stent: Multicenter Registry in Asia

Drug-Eluting Stents in the Treatment of Severe Unprotected Left Main Unstable Disease: Initial Results From the THEROS Registry

Durable Clinical Benefit Following Sirolimus-Eluting Stent Deployment on the Outcome of Patients With Chronic Total Occlusion-Multicenter Registry in Asia: Four-Year Results

Efficacy and Safety of Absorbable Metallic Stents With Adjunct Intracoronary Beta Radiation in Porcine Coronary Arteries

Efficacy and Safety of Pimecolimus-Eluting Stents in Porcine Coronary Arteries

First Real-World Experience and 6-Month Clinical Outcome in Patients Treated With a Genous2 Endothelial Progenitor Cell Capturing Stent

Four-Year Clinical Follow-Up of the Research

High Restenosis Rate in Patients on Hemodialysis Treated With Either Sirolimus-Eluting Stents or Bare Metal Stents

Efficacy and Safety of Pimecolimus-Eluting Stents in Porcine Coronary Arteries

Infliximab Use Is an Independent Risk Factor for Coronary In-Stent Restenosis

Impact of Sirolimus-Eluting Stent and Paclitaxel-Eluting Stent on the Outcome of Patients With Sirolimus-Eluting Stent Failure: Multicenter Registry in Asia

Inflammatory Delivery of Sirolimus With Two Biodegradable Polymers Using Novel Electro-Grafting Technology
