

ELSEVIER
URBAN & FISCHER

**Bartels E, Bartels S, Poppert H (Editors):
New Trends in Neurosonology and Cerebral Hemodynamics – an Update.
Perspectives in Medicine (2012) 1, 1–12**

journal homepage: www.elsevier.com/locate/permed

Subject index of volume 1

- Acetazolamide vasoreactivity
Brain tissue perfusion monitoring using Sonopod for transcranial color duplex sonography, 34
- Acute cerebral ischemia
Early ultrasound imaging of carotid arteries in the acute ischemic cerebrovascular patients, 108
Cerebral autoregulation in acute ischemic stroke, 194
- Acute ischemic stroke
Sonothrombolysis for treatment of acute ischemic stroke: Current evidence and new developments, 14
Hemodynamic causes of deterioration in acute ischemic stroke, 177
Transcranial Doppler in acute stroke management - A “real-time” bed-side guide to reperfusion and collateral flow, 185
Evaluation of very early recanalization after tPA administration monitoring by transcranial color-coded sonography, 331
- Acute stroke
Imaging of plaque perfusion using contrast-enhanced ultrasound - Clinical significance, 44
- Acute stroke care
“A horse, a horse, my kingdom for a horse” - Saddle thrombosis of carotid bifurcation in acute stroke, 435
- Acute stroke treatment
Mechanical recanalization in acute stroke treatment, 54
- Alternating flow
Pitfall of vertebral artery insonation: Bidirectional flow without subclavian artery pathology, 449
- Angiogenesis
Imaging of plaque perfusion using contrast-enhanced ultrasound - Clinical significance, 44
- Angioplasty
Predictors of carotid artery in-stent restenosis, 122
- Angle-independent Doppler technique by QuantixND system
Volume flow rate, 203
- Ankle
An overview of musculoskeletal ultrasound - A thirteen years experience in Pakistan, 427
- Ankle-brachial index
Optimized prevention of stroke: What is the role of ultrasound?, 100
- Aortitis
Diagnosis and management of Takayasu arteritis, 255
- Arterial occlusion
Endovascular sono-lysis using EKOS system in acute stroke patients with a main cerebral artery occlusion - A pilot study, 65
- Arterial stiffness
Breath holding index and arterial stiffness in evaluation of stroke risk in diabetic patients, 156
- Arterial wall stiffness
Arterial wall dynamics, 146
- Arteriovenous malformation
Transcranial color-coded duplex ultrasonography in routine cerebrovascular diagnostics, 325
Transient brainstem ischemia and dural arteriovenous malformation, 465
- Arteritis
Diagnosis and management of Takayasu arteritis, 255
- Artery
Exploration of a zero-tolerance regime on cerebral embolism in symptomatic carotid artery disease, 218
- Association
Are impaired endothelial function in the posterior cerebral circulation and intact endothelial function in the anterior cerebral and systemic circulation associated with migraine: A post hoc study, 297
- Asymptomatic
Medical management of asymptomatic carotid stenosis, 116
Moyamoya like arteriopathy: Neurosonological suspicion and prognosis in adult asymptomatic patients, 257
- Asymptomatic carotid stenosis
How to treat an asymptomatic carotid stenosis? The view of the neurologist, 112
- Asymptomatic hemorrhage
My worst case with sonothrombolysis, 462
- Atherosclerosis
Symptomatic intracranial stenosis: A university hospital-based ultrasound study, 211
- Atherosclerotic plaques
Plaque angiogenesis identification with Contrast Enhanced Carotid Ultrasonography: Statement of the Consensus after the 16th ESNCH Meeting - Munich, 20-23 May 2011, 51
- Atrial fibrillation
The contribution of microembolic signals (MES) detection in cardioembolic stroke, 214
- Basal ganglia
Transcranial sonography of the cerebral parenchyma: Update on clinically relevant applications, 334
Transcranial sonography in psychiatric diseases, 357
- Bidirectional flow
Pitfall of vertebral artery insonation: Bidirectional flow without subclavian artery pathology, 449
- Bifurcation
In vivo wall shear stress patterns in carotid bifurcations assessed by 4D MRI, 137
- Biopsy
Ultrasound fusion imaging, 80
- Blindness
The retrobulbar spot sign in sudden blindness - Sufficient to rule out vasculitis?, 408
- Blood-brain barrier (BBB)
Advances in neurosonology - Brain perfusion, sonothrombolysis and CNS drug delivery, 5
- Blood flow velocity
The long-term effects of hypobaric and hyperbaric conditions on brain hemodynamic: A transcranial Doppler ultrasonography of blood flow velocity of middle cerebral and basilar arteries in pilots and divers, 316
- B-mode
Arterial wall dynamics, 146

- Brain activation studies
 - Adaptation of cerebral pressure-velocity hemodynamic changes of neurovascular coupling to orthostatic challenge, 290
- Brain death
 - Oscillating transcranial Doppler patterns of brain death associated with therapeutic maneuvers, 321
 - The role of color duplex sonography in the brain death diagnostics, 362
 - Ultrasonography of the optic nerve sheath in brain death, 414
- Brain hemodynamic
 - The long-term effects of hypobaric and hyperbaric conditions on brain hemodynamic: A transcranial Doppler ultrasonography of blood flow velocity of middle cerebral and basilar arteries in pilots and divers, 316
- Brain perfusion
 - Update on ultrasound brain perfusion imaging, 30
- Brain tissue perfusion
 - Brain tissue perfusion monitoring using Sonopod for transcranial color duplex sonography, 34
- Brainstem raphe
 - Transcranial sonography in psychiatric diseases, 357
- Brasilian Guideline
 - Role of TCD in sickle cell disease: A review, 265
- Breath holding index
 - Breath holding index and arterial stiffness in evaluation of stroke risk in diabetic patients, 156
- Calf
 - An overview of musculoskeletal ultrasound - A thirteen years experience in Pakistan, 427
- Cardioembolic stroke
 - The contribution of microembolic signals (MES) detection in cardioembolic stroke, 214
- Carotid
 - Exploration of a zero-tolerance regime on cerebral embolism in symptomatic carotid artery disease, 218
- Carotid arteries imaging
 - Threedimensional imaging of carotid arteries: Advantages and pitfalls of ultrasound investigations, 82
- Carotid artery
 - In vivo wall shear stress patterns in carotid bifurcations assessed by 4D MRI, 137
 - Carotid intima-media thickness (cIMT) and plaque from risk assessment and clinical use to genetic discoveries, 139
 - Intravascular papillary endothelial hyperplasia at the origin of internal carotid artery: A rare cause of stroke, 440
- Carotid artery models
 - How local hemodynamics at the carotid bifurcation influence the development of carotid plaques, 132
- Carotid artery stenosis
 - Plaque angiogenesis identification with Contrast Enhanced Carotid Ultrasonography: Statement of the Consensus after the 16th ESNCH Meeting - Munich, 20-23 May 2011, 51
 - Predictors of carotid artery in-stent restenosis, 122
- Carotid atherosclerosis
 - Carotid atherosclerosis: Socio-demographic issues, the hidden dimensions, 167
- Carotid Doppler
 - Cerebral blood flow in the chronic heart failure patients, 304
- Carotid endarterectomy
 - How to treat an asymptomatic carotid stenosis? The view of the neurologist, 112
 - When to perform transcranial Doppler to predict cerebral hyperperfusion after carotid endarterectomy?, 119
- Carotid IMT/cIMT
 - Carotid intima-media thickness (cIMT) and plaque from risk assessment and clinical use to genetic discoveries, 139
 - The association of carotid intima-media thickness (cIMT) and stroke: A cross sectional study, 164
- Carotid stenosis
 - Imaging of plaque perfusion using contrast-enhanced ultrasound - Clinical significance, 44
 - The role of extracranial ultrasound in the prevention of stroke based on the new guidelines, 94
 - Optimized prevention of stroke: What is the role of ultrasound?, 100
 - Measuring the degree of internal carotid artery stenosis, 104
 - Threedimensional imaging of carotid arteries: Advantages and pitfalls of ultrasound investigations, 82
 - Medical management of asymptomatic carotid stenosis, 116
- Carotid stenting
 - How to treat an asymptomatic carotid stenosis? The view of the neurologist, 112
 - Post-carotid stent ultrasound provides critical data to avoid rare but serious complications, 129
- Carotid surgery
 - Early ultrasound imaging of carotid arteries in the acute ischemic cerebrovascular patients, 108
- Carotid ultrasound
 - Predictors of carotid artery in-stent restenosis, 122
 - Post-carotid stent ultrasound provides critical data to avoid rare but serious complications, 129
- CBF velocity during normal sleep and sleep disorders
 - Cerebral blood flow velocity in sleep, 275
- CCSVI
 - Fact or fiction: Chronic cerebro-spinal insufficiency, 371
 - Italian multicenter study on venous hemodynamics in multiple sclerosis: Advanced Sonological Protocol, 399
- Central retinal artery occlusion
 - The retrolubar spot sign in sudden blindness - Sufficient to rule out vasculitis?, 408
- Cerebral autoregulation
 - Cerebral autoregulation in acute ischemic stroke, 194
 - Asymmetry of cerebral autoregulation does not correspond to asymmetry of cerebrovascular pressure reactivity, 285
 - Adaptation of cerebral pressure-velocity hemodynamic changes of neurovascular coupling to orthostatic challenge, 290
 - Informativity of pulsatility index and cerebral autoregulation in hydrocephalus, 311
- Cerebral blood arrest
 - The role of color duplex sonography in the brain death diagnostics, 362
- Cerebral blood flow
 - Cerebral blood flow in the chronic heart failure patients, 304
 - Asymmetry of cerebral autoregulation does not correspond to asymmetry of cerebrovascular pressure reactivity, 285
- Cerebral blood flow velocity
 - Posttraumatic vasospasm and intracranial hypertension after wartime traumatic brain injury, 261
- Cerebral electrical activity
 - Cerebral blood flow velocity in sleep, 275
- Cerebral hemodynamics
 - Adaptation of cerebral pressure-velocity hemodynamic changes of neurovascular coupling to orthostatic challenge, 290
- Cerebral hyperperfusion syndrome
 - When to perform transcranial Doppler to predict cerebral hyperperfusion after carotid endarterectomy?, 119
- Cerebral perfusion pressure
 - Asymmetry of cerebral autoregulation does not correspond to asymmetry of cerebrovascular pressure reactivity, 285
- Cerebral veins
 - Virtual Navigator study: Subset of preliminary data about cerebral venous circulation, 385
 - Ipsilateral evaluation of the transverse sinus: Transcranial color-coded sonography approach in comparison with magnetic resonance venography, 390
- Cerebral venous hemodynamics
 - Possibilities of transcranial color-coded sonography in pathology of deep brain veins in children, 353
 - Italian multicenter study on venous hemodynamics in multiple sclerosis: Advanced Sonological Protocol, 399
- Cerebrospinal fluid
 - Informativity of pulsatility index and cerebral autoregulation in hydrocephalus, 311
- Cerebrovascular reactivity
 - Asymmetry of cerebral autoregulation does not correspond to asymmetry of cerebrovascular pressure reactivity, 285
- Cervical artery dissection
 - Ultrasound in spontaneous cervical artery dissection, 250
- Cervical manipulative therapy
 - Migraine-like presentation of vertebral artery dissection after cervical manipulative therapy, 452

- Chiari abnormalities
 - Possibilities of transcranial color-coded sonography in pathology of deep brain veins in children, 353
- Child/Children
 - Transcranial ultrasound in adults and children with movement disorders, 349
 - Possibilities of transcranial color-coded sonography in pathology of deep brain veins in children, 353
- Chronic cerebrospinal venous insufficiency (CCSVI)
 - Chronic cerebrospinal venous insufficiency in patients with multiple sclerosis: A case-control study from Iran, 375
- Chronic heart failure
 - Cerebral blood flow in the chronic heart failure patients, 304
- Chronic hyperventilation syndrome
 - An increased frequency of right-to-left shunt in patients with chronic hyperventilation syndrome, 241
- Clinical application
 - Clinical application of laser Doppler flowmetry in neurology, 89
- Cognitive impairment
 - Intellectual impairment and TCD evaluation in children with sickle cell disease and silent stroke, 272
