It is our great pleasure to present to you the first issue of Volume 2 of *Vietnam Journal of Computer Science (VJCS)*. This issue starts the second year of VJCS activities. During the first year (2014), VJCS published 4 issues including 22 high quality papers selected in the rigorous peer-review process. All these issues have been published in schedule time, thus the regularity is guaranteed. The published papers come from Brazil (1), Germany (2), France (3), Hungary (1), Japan (1), Korea (1), Malaysia (1), Poland (4), Taiwan (3), USA (1) and Vietnam (4).

Some words about the statistics. As of 30 Nov. 2014, we have received in total 194 papers, from which 34 papers have been accepted, 149 rejected and 11 papers are under review. According to Google Scholar, up to now papers published in VJCS have been cited 43 times. This statistics shows that VJCS has established the first step to be an international and prestigious journal in the field of Computer Science.

VJCS is now indexed by Google Scholar, Computer and Information Systems Abstracts, DBLP, OCLC and Summon by ProQuest. VJCS papers are published in both forms of open access and print. We are trying our best to keep the regularity, internationality and the quality of selected papers for the journal to be able to have such important indexes as Scopus or SCI-E as early as possible.

We cordially ask Computer Science scientists, international scientific communities and Vietnamese government for promoting and supporting VJCS to keep its proper trend for development.

On behalf of VJCS community and the Sponsor, Nguyen Tat Thanh University, we cordially thank Alfred Hofmann, Ronan Nugent and the Editorial Office from Springer for their kind supports for VJCS. Special thanks go to the members of Advisory Board, Associate Editors, Editorial Board members and Editorial Reviewer Board members for helping us in the paper selection process, journal promotion and for all advices and efforts in building VJCS to be a considerate and significant journal for the field Computer Science. Finally, we sincerely thank all authors for their valuable contributions to VJCS.

We would like to take this opportunity to wish you a Happy and Prosperous New Year!
