Retraction note: Protective and antidiabetic effects of extract from *Nigella sativa* on blood glucose concentrations against streptozotocin (STZ)-induced diabetic in rats: an experimental study with histopathological evaluation

Samad Alimohammadi^{1*}, Rahim Hobbenaghi², Javad Javanbakht³, Danial Kheradmand⁴, Reza Mortezaee⁵, Maryam Tavakoli⁶, Farshid Khadivar⁷ and Hamid Akbari⁸

Retraction

The Editor-in-Chief and Publisher have retracted this article [1] because the scientific integrity of the content cannot be guaranteed. An investigation by the Publisher found it to be one of a group of articles we have identified as showing evidence suggestive of attempts to subvert the peer review and publication system to inappropriately obtain or allocate authorship. This article showed evidence of plagiarism (most notably from the articles cited [2–5]) and peer review and authorship manipulation.
