ERRATUM

Skeletal Muscle

Erratum to: Voluntary resistance wheel exercise from mid-life prevents sarcopenia and increases markers of mitochondrial function and autophagy in muscles of old male and female C57BL/6J mice

Zoe White^{1,2}, Jessica Terrill^{1,3}, Robert B. White¹, Christopher McMahon⁴, Phillip Sheard⁵, Miranda D. Grounds^{1*} and Tea Shavlakadze¹

Erratum

F7 F6

Following publication of the original article [1] it was brought to our attention that there was a problem with the merging of the lines in Figs. 6 and 7. These figures show western blot images and each image used to have lines indicating separate groups. During production these lines merged into one single line and now the separate groups cannot be identified. Please see below for the corrected images:
