Nephrology image: quadriceps rupture

*Kidney International* (2009) **75**, 1236; doi:10.1038/ki.2009.84

**Correction to:** *Kidney International* (2009) **75**, 568; doi:10.1038/ki.2008.289

For the above referenced article, the legends for Figures 1 and 2 were transposed. Please see below the correct figure image and figure legend combination.

**Figure 1** | Lateral radiograph of our patient’s knee shows irregular-shaped calcification deposits in the suprapatellar soft tissue.

**Figure 2** | A completely torn right quadriceps tendon was noted sonographically (sagittal view), with hematoma filling the retraction gap measuring 9 cm in length.
