Abstract

Nowadays, it has become more important to strengthen the education, management and training work of the party members of college students. Our school has carried out the party members of college students. “recognizing position and taking responsibility for a model” activity for two years. And obtained some experience. The party members of college students “recognizing position and taking responsibility for a model” activity should set up scientific positions, define their responsibilities clearly and strengthen the management and assessment.

Keywords: Party members of college students, recognizing position and taking responsibility, for a model

1. Introduction

In order to enhance the education and management of party members of college students, give full play to their vanguard and exemplary role in thinking, learning life and campus culture. our school, since 2008, has launched party members of college students “recognizing position and taking responsibility for a model” activities. We actively organize party members of college students “knowing the job, being responsible” to find their coordinates, so that all students have their own jobs and everyone is responsible, strengthen the sense of responsibility as party members, explore and practice party members’ personal responsibility, and carry out some useful exploration on education and management of party members of college students under the new situation.

2. The meaning of party members of college students “recognizing position and taking responsibility for a model”.

Party members of college students “recognizing position and taking responsibility for a model” are a series of activities carried out by the school party committee based on the requirements in 《constitution》 on the party members “in the production, work, study and social life in the vanguard and exemplary role”, organizing all the party members in school to make the campus and college students as main target, establishing positions for party members of college students to play a role, clearing responsibilities and objectives and giving full play to the exemplary vanguard role.

Posts in the main region are related to all aspects of learning life close to the college students. Through organizing and choosing, we can establish a post providing service to society, school, department, class and others, clear responsibilities. Under the scientific organizations and unified coordination, positions and responsibilities will be implemented according to the organization system to the student branch and party members themselves, building an effective carrier for party members to play an exemplary vanguard role.

3. The specific measures for implementation of party members of college students “recognizing position and taking responsibility” activities.

The activities are guided and coordinated by the school department of the student work of party committees and implemented by the institution (department) party committees and party branch organization. By carefully setting position, we clear responsibilities and conduct stringent tests to ensure the implementation of the results, through a variety of assessment activities, to establish the operating mechanism of self-monitoring departments.

3.1 Positions carefully set

1) Selecting places related to students' learning life closely, existing many problems and making the instructors headache to set up positions.

First, post dormitory. Dormitory is an important place for college students to study, love and rest, but also a problematic position. It's necessary to arrange for at least a party or a key person to be trained in each dormitory, and ask them to lead by example do a good job for their own health, while driving to urge other students to create a good atmosphere quarts. Second, post for class attendance, for the current phenomenon of student's absence and late, It's good to arrange party members and key person to be trained not learning early and being absent. They also are responsible for the class attendance. The party members' class attendance is responsible for every students directly and report work to the counselor every week. Third, long light supervision posts. Against the existence of the phenomenon of energy waste, we call up party members to turn off the lights, and packet-electric charge of a school building management. When encountering the lights turning without people, party members should close them in time, to the body responsible for a model to others. Fourth, posts for bike putting, bike parking everywhere is a dazzling campus landscape. The students branches select places where are more bikes as positions some party members are responsible for placing bikes and educating others to develop good habits.

2) Setting up position for those hot problems that the students concern about.

First, the exchange and help position for taking part in the entrance exams for postgraduate schools. Entering college, many students regard taking part in the entrance exams for postgraduate schools as their goal. Our college has provided special classroom for those students. This post is to ask party members to organize those students and share experience with each other to help each other, encourage each other, aiming at enhancing learning efficiency and building a learning platform. Second, employability training

post, it is primary for party members to lead others to practice job interview skills consciously, develop appropriate vocational training literacy and learn job search etiquette and so on.

3) *Expanding students members' understanding of other group members to establish positions.*

First, post for the retired party members' service. Each student branch organize the party members to make a contact with those retired old party members, talk with them, and help do some cleaning with its power or organize some fun activities .through contacting with those old party members, students know the ideas and beliefs in that ear ,thus educating the young party members. Second, post survey of rural party members .The branch organize party members to make an investigation for the rural branch in their hometowns, to know the members' beliefs and the development of the rural organization.

3.2 Clearing job responsibilities.

Each party member has his own positions identified, with clear responsibilities and sign a corresponding letter of responsibility. In order to facilitate the supervision of the masses, party members paste written the name, position, class, where the hostel, contact phone cards and other information in the student dormitory door, It's useful to publish the conditioning of setting positions about all the party members and focus on training students in the place where students frequently get in or out such as the students working office, meeting room or campus network's homepage.

At the end of each semester, party members of students perform their duties to conduct assessment. Assessment is divided into three aspects, The first is self-evaluation. The party members and key training students write self-assessment report object to their duties. The second is arranged by the branch and branch members consult the publish widely, listen to the evaluation of the masses, The masses give the views of evaluation or give quantitative scores. The third is party peer review. The branch hold meetings. After having heard the work report, all party members evacuee each other. The assessment results are divided into qualified, unqualified and excellent three grades.

3.3Use of evaluation results

Party members evaluation. Examination of more than qualified party members can articulate in star assessment. star party members can divided into three levels, one-star members, three-star members and five-star members. The three level promote step by step, a probationary member of up to three stars. The party members whose assessments are excellent have qualification for participating in the evaluation of out standing communist party members.

Organizational development. The probationary members whose examinations are unqualified should be extended the probationary period. Those who are still unqualified in the extending probationary period will be cancelled preparatory qualifications. The key training students who are unqualified cannot be absorbed a probationary member of the CPC.

4. The preliminary results of the party members of college students”recognizing position and taking responsibility for a model acticitie”

4.1The role of student branch has been given fully play to

Only the party's grassroots organizations continue to strengthen its services.can it obtain the true cohesion and combat effectiveness, By organizing the party members of college students recognizing position and taking responsibility for a model activities, student's branch's role has been fully exploited. It has changed the previous branch to educate party members simply and oversight them, but to make branches

more attention to in-depth classroom, in-dept quarters, in-dept all aspects of students' life, targeted and effective manner. In order to make batter use of student's branch's activity, life science and technology committees party branches carry out this event as an opportunity, to change the party members are in charge of the branch secretary of the students, create new organization and management of the student branch and better mobilize the enthusiasm of party members of college students.

By establishing the post for dormitory, student hostels in the demonstration activities of party members have influenced directly and led to the ethical quality of student residential students to the overall increase. Hostel members can maintain the dormitories clean under the conscious following the party members. Students with poor personal hygiene, has also been of a big change under the influence. In attendance of party members and monitor, students have to maintain a high level of class attendance. The enthusiasm of students has been improved significantly.

4.2 The awareness of student's party member has been increased obviously.

Being launched more than one year ,”recognizing position and responsibility for a model” activities have plated an exemplary vanguard role of party members and have achieved good results in improving the sense of responsibility of party members, exercising their ability and mobilizing the enthusiasm of responsibility of party members, exercising their ability and mobilizing the enthusiasm of party members. Party members are the party tissue cells, if the party members lose consciousness, the party organization will lose its vitality and combat effectiveness. Through setting up study section of the exchange of mutual kong, we build a learning platform for students, so that each want to student section students have benefited from sharing experiences and different learning methods, also they can see their own short comings. The acceptance rate of 2009 graduates who took part in entrance exams for postgraduate school was up to 41%, through the long light of the monitoring, first of all, every party member has realized the importance of energy conservation. People around at the same time consciously promote resource conservation. The little things in daily life and work, add up, water into the river, quite a lot. Conserving resources and combating waste truly become a conscious action for each students. They make a positive contribution to achieve Institutions 'energy efficiency goals, in front of the office, the bike placing has been improved, the campus environment has been beautified and it is well praised by leaders at all levels, teachers and students, student party members are also aware of the importance of exemplary vanguard role of party members in the activities, and the awareness of party members significantly increased.

4.3 Forming a long-term mechanism for the education of party member of college students.

Through carrying out party members of college students “recognizing position and taking responsibility for a model “activities, it has strengthened the party members' targeted and effective education, and in practice, it has also trained the student party members' concept of purpose and the masses, improved the party members' self-discipline awareness, model awareness, and enhanced the student member's organization concept and discipline. Such as retired personnel services post, we have launched a healthy services. Student members and cadres chess together play balls together and make friends with each. They sit down to talk, communicate feelings and exchange ideas. The young party member has received the revolutionary tradition, and they have a deeper understanding and experience about the party's revolutionary history. By the investigation and understand the outstanding problems in the development of rural party organizations, so than they can learn more about the importance and urgency of enhancing, the building of the primary party .these positions' establishment and the activities' carrying out enable party members of college students' educational activities to achieve targeted purpose, forming a long-term mechanism for the education of party members of college students.

5. Further reflection towards carrying out party members of college students' "recognizing position and taking responsibility for a model" activities

5.1 Taking party members of college students' "recognizing position and taking responsibility for a model" activities into the students' overall ideological and political work, manage work and life service.

In the course of carrying out the activities, a members of student branches and party members regard "recognizing position and taking responsibility" activities simply as "organizing party members to do something good, helping others" even as "a stage" and "an event". So, in the activities, we should really implement the party's focus to improve the quality and enhance the party sprit and play a role, continuously establish and improve the party of graduate under the new long-term education and always retain a long-term nature working mechanism and solid to do the education, management and training work for the student party members. We should regard student party members as a key party members and reliable power to arrange jobs and responsibilities, guiding them to play a political role model for the role learning, the exemplary role of work and cooperation of link and role model in life, and strive to build a more mature college students party members.

5.2 Setting up scientific position, clearing responsibilities and strict assessment.

Setting jobs should be convenient for students party members to be models, and closely related to students' study and life, so as to be welcomed by students. cleaning party members' position and detailing members' responsibilities are the key whether the activity can be upheld and the role of party members can give full play to. With under position and unclear responsibilities, activities will be a formality. It is difficult to play its due role. We must be strict to the management and assessment. In the daily management, we should strengthen inspection and supervision and improve the assessment and the program. Take the role of party members' play and the situation of taking responsibility as a An important part of grass-roots party organizations party building assessment and the democratic council members ,and combining with the "being excellent and being pioneer" activity carried out by the grass-roots party organizations and party members ,and as an important condition rating of " being excellent and being pioneer", in order to urge party members to perform their duties effectively and play a role.

5.3 Students party members do get exercise and should not be a burden.

"Recognizing position and taking responsibility" activities should be close to the actual students, preferably with the students of professional practice, social practice and students' employment .students should learn not only by the spirit of education , they would have to get the appropriate professional knowledge and improve their professional skills. This will be welcomed by the student. If we disregard the actual situation of students, far from students' learning life , only just by the student members' enthusiasm of the moment, this will not persist long.
