

## ERRATUM

Volume 245, Number 1 (2002), in the article “Ectopic Expression of AP-2 $\alpha$  Transcription Factor in the Lens Disrupts Fiber Cell Differentiation,” by Judith A. West-Mays, Brad M. Coyle, Joram Piatigorsky, Steve Papagiotas, and Derek Libby, pages 13–27 (doi:10.1006/dbio.2002.0624): On page 26, two grants, EY12651 and P30 EY13078, were inadvertently omitted from the acknowledgments section. For the reader's convenience, the corrected acknowledgments section appears below.

### ACKNOWLEDGMENTS

We thank Dr. Samuel Zigler for providing the  $\beta$ -crystallin antibody and Dr. Joseph Horwitz for providing the MIP antibody. Discussions with Drs. Trevor Williams and M. Elizabeth Fini were also greatly appreciated. The following individuals are also acknowledged for their outstanding technical assistance: Gene Choi and Lyudmila Urim. This work was supported by National Institutes of Health Project Grants EY11910 (to J.A.W.-M.) and EY12651 and a P30 EY13078 and by the Massachusetts Lions Eye Research Fund. J.A.W.-M. is a Research to Prevent Blindness Career Development Awardee.
