Eleventh International Conference on Communication Networks, ICCN 2015, August 21–23, 2015, Bangalore, India

Preface
K.R. Venugopal, R. Buyya, L.M. Patnaik ................................................................. 1

A Cluster-tree Based Data Dissemination Routing Protocol
N. Bagga, S. Sharma, S. Jain, T.R. Sahoo ................................................................. 7

Cooperative Spectrum Sensing in Cognitive Radios Using Perceptron Learning for IEEE 802.22 WRAN
V. Balaji, P. Kabra, P.V.P.K. Saieesh, C. Hota, G. Rahurama ............................... 14

Performance Evaluation of Cloud Services with Profit Optimization
M. Jaiganesh, B. Ramadoss, A.V. Antony Kumar, S. Mercy .................................. 24

RFDMRP: River Formation Dynamics Based Multi-hop Routing Protocol for Data Collection in Wireless Sensor Networks
K. Guraviah, R. Leela Velusamy .............................................................................. 31

RPRDC: Reliable Proliferation Routing with Low Duty-cycle in Wireless Sensor Networks

Contransing Hybrid DESCAST Algorithm for Cloud Security
N. Singupta, R. Chimmasamy .................................................................................... 47

Mobility Aware Loose Clustering for Mobile Ad hoc Network
V.V. Neethu, A.K. Singh ........................................................................................... 57

Quantum Key Distribution Protocol with Four-state Systems – Software Implementation
G. Mogos ...................................................................................................................... 65

Implementation of Text Encryption Using Elliptic Curve Cryptography
L.D. Singh, K.M. Singh .............................................................................................. 73

Gray and Black Hole Attack Identification Using Control Packets in MANETs
A. Dhaka, A. Nandal, R.S. Dhaka ........................................................................... 83

Selfish Node Detection and Low Cost Data Transmission in MANET Using Game Theory
D. Das, K. Majumder, A. Dasgupta ......................................................................... 92

Mitigation of Storage Covert Channels in IPSec for QoS Aware Applications
A. Kundu ..................................................................................................................... 102

A Green Mechanism Design Approach to Automate Resource Procurement in Cloud
D.C. Ketankumar, G. Verma, K. Chandrasekaran .................................................... 108

Energy Analysis for Trajectory Based Sink Mobility in WSN
I. Snigdh, D. Gosain .................................................................................................. 118

Analysis of Infrastructure Monitoring Requirements for OpenStack Nova
A. Datt, A. Goel, S.C. Gupta ..................................................................................... 127

Monitoring of Riak CS Storage Infrastructure
P. Jain, A. Goel, S.C. Gupta ..................................................................................... 137

PhishShield: A Desktop Application to Detect Phishing Webpages through Heuristic Approach
R.S. Rao, S.T. Ali ........................................................................................................ 147

Prevention of Insider Attacks by Integrating Behavior Analysis with Risk Based Access Control Model to Protect Cloud
B. Mahesh Babu, M. Saira Bhanu ........................................................................... 157

Virtual Machine Migration Triggering Using Application Workload Prediction
B.R. Raghunath, B. Annappa .................................................................................... 167

Optimizing Security and Address Configuration in IPv6 SLAAC
J.L. Shah, J. Parvez ...................................................................................................... 177

Trust Calculation with Ant Colony Optimization in Online Social Networks
S. Sanadhyaa, S. Singh .............................................................................................. 186

Enhancing the Security of MANETs Using Hash Algorithms
D. Ravilla, C.S. Reddy Putta ..................................................................................... 196

Multilayer Neuro PID Controller Based on Back Propagation Algorithm
R. Patel, V. Kumar ...................................................................................................... 207

Traffic Analysis of Vehicular Ad-Hoc Networks of V2I Communication
M. Paul, G. Sanyal ...................................................................................................... 215

doi:10.1016/S1877-0509(15)01428-3
