This article has been retracted at the request of the Editor-in-Chief as it duplicates significant parts of a paper that had already appeared in American Journal of Respiratory and Critical Care Medicine 2005;172,523–9, doi: 10.1164/rccm.200504-5310E. One of the conditions of submission of a paper for publication is that authors declare explicitly that their work is original and has not appeared in a publication elsewhere. Re-use of any data should be appropriately cited. As such this article represents a severe abuse of the scientific publishing system. The scientific community takes
