(Cell Reports 14, 1128–1141; February 9, 2016)

In the originally published version of this article, there was one error in Figure S3 and two errors in Figure S7D as a result of duplicated western blot panels during figure preparation. In Figure S3, the PCNA western blot panel was accidentally replaced with the H3K56Ac panel. The figure has now been corrected online. In Figure S7D, H3 in SCE and H3K56Ac in IP were accidentally replaced with figure panels from Figure 6E. Figure 6E and Figure S7D are two biological repeats. In early submissions, the authors put both the heavy (H) exposure and light (L) exposure of H3 and H3K56Ac blots in Figure 6E. When they prepared Figure S7D, they used Figure 6E as a template, but failed to replace the H3K56Ac in IP and H3 in SCE of Figure 6E with the corresponding panels of the repeat experiment (Figure S7D). The figure has now been corrected online. These errors do not affect any scientific conclusions in the manuscript. The authors regret these errors and any confusion that may have resulted.

(Cell Reports 15, 1481–1492; May 17, 2016)

In the originally published version of this article, Michaela Lang, who contributed some of the data shown in Figure 7, was mistakenly omitted from the author list. The corrected version of the article now appears online. The authors regret the error.
