Nobel Celebrates the Neurosciences: Modulatory Signaling in the Brain

An error in this essay (*Cell* 103[6], 829–833) is corrected here: Due to an error that occurred after submission of the original text, the department in which Arvid Carlsson worked in Göteborg was inadvertently called Clinical Pharmacology rather than Pharmacology. The correct wording of the sentence should be: “In 1959, Carlsson moved to the University of Göteborg in Sweden where he served as Professor of Pharmacology.”

Pietro De Camilli and Thomas J. Carew
