of EGF receptor is elevated on squamous cell carcinomas. Cancer Cells 1:5 – 10, 1984

WORKSHOP ON PXE

A workshop to provide a forum for investigators from several disciplines to discuss the current status of research into pseudoxanthoma elasticum (PXE) will be held at the Jefferson Medical College, Bluemle Life Sciences Building, 233 S. 10th Street, Philadelphia, PA 19107 at 10:00 AM to 2:00 PM, June 10, 1992.

The program will cover the diagnosis and classification of PXE, the pathogenesis of the disorder and the search for candidate gene(s), including the genes coding for fibrillins, lysyl oxidase, and tropoelastin. The majority of the time will be devoted to several mini-lectures interspersed with open discussions including both scheduled and non-scheduled speakers. The Executive Director of the National Association for PXE (NAPE), Ms. Diane Clancy, will be present to provide an update on patient registration.

Registration deadline date is April 1, 1992. Organizing Committee: Mark Lebwohl, M.D., Mt. Sinai School of Medicine, New York, NY; Jouni Uttilo, M.D., Ph.D., Jefferson Medical College, Philadelphia, PA; Charles D. Boyd, Ph.D., UMDNJ-RWJMS, New Brunswick, NJ; Angela M. Christiano, Ph.D., Jefferson Medical College, Philadelphia, PA.

To register contact Dr. Angela Christiano, Jefferson Medical College, Department of Dermatology, 233 S. 10th Street, Rm. 450 BLSB, Philadelphia, PA 19107-5541. Phone: (215) 955-2176. Fax: (215) 955-5788.
