Subject Index*

A
Abdominal aortic aneurysm; see Aortic aneurysm, abdominal
Abdominal injuries
Delayed manifestation of abdominal aortic stenosis in a child presenting 10 years after blunt abdominal trauma (Diaz et al). 2006;44:1103-5 (Case rep.)
Absorbable implants
Preliminary experience with tissue engineering of a venous vascular patch by using bone marrow–derived cells and a hybrid biodegradable polymer scaffold (Cho et al). 2006;44:1329-40
Abstracts
Abstracts. 2006;44:222-3, 1372-6, 429-31, 683-5, 907-11, 1128-31
Adenoviridae
Adenoviral urokinase-type plasminogen activator (uPA) gene transfer enhances venous thrombus resolution (Gossage et al). 2006;44:1084-9
Adolescence
Infrarenal aortic coarctation in a 15-year-old with claudication (Fitzpatrick et al). 2006;44:1116, 1116.e1-e2
Adrenal cortex hormones
Regarding “Giant-cell temporal arteritis in a 17-year-old male” (Morovic-Vergles). 2006;44:1132 (Letter)
Aged
Progression of atherosclerotic renovascular disease: a prospective population-based study (Pearce et al); (Lilly) (Commentary). 2006;44:955-63
Age factors
Age-related variations of varicose veins anatomy (Caggiati et al). 2006;44:1291-5
Ambulatory care
Conservative versus surgical treatment of venous leg ulcers: a prospective, randomized, multicenter trial (Van Gent et al); (Neglen) (Commentary). 2006;44:563-71
Ambulatory venous pressure; see Blood pressure monitoring, ambulatory
American Venous Forum
American Venous Forum: the future is now! (Wakefield). 2006;44:216-18 (Presidential address)
Amputation
Clinical outcomes after closed, staged, and open foot/leg amputations (Berceli et al). 2006;44:347-52, 347.e1-e7
Anastomosis, surgical
Prospective randomized study evaluating an absorbable cyanacrylate for use in vascular reconstructions (Lumsden and Heyman); (Valentine) (Commentary). 2006;44:1001-8, 1001.e1-e10
Anesthesia
The effects of the type of anesthesia on outcomes of lower extremity infrainguinal bypass (Singh et al). 2006;44:964-70
Influence of anesthesia type on outcome after endovascular aortic aneurysm repair: an analysis based on EUROSTAR data (Ruppert et al); (Verhoeven) (Commentary). 2006;44:16-21
Regarding “Carotid endarterectomy in patients with chronic renai insufficiency: a recent series of 184 cases” (Ricca) (Letter); (Ascher) (Reply). 2006;44:1136-7
Regarding “Proximalization of the arterial inflow: a new technique to treat access-related ischemia” (Gradman) (Letter); (Fillinger) (Reply); (Zanow) (Reply). 2006;44:1133-5
Aneurysm
Aneurysm of the celiac artery arising from a celiomesenteric trunk (Matsuda et al). 2006;44:660
Giant popliteal aneurysm presenting with foot drop (Selvam et al). 2006;44:882-3 (Case rep.)
Giant splenic artery aneurysm associated with arteriovenous malformation (Agrawal et al). 2006;44:1345-9 (Case rep.)
Isolated celiac artery aneurysm with splenic artery stenosis as a rare presentation of polyarteritis nodosum: a case report and review of the literature (Adajar et al). 2006;44:647-50 (Case rep.)
Large renal artery aneurysm in Takayasu arteritis (Matsubar et al). 2006;44:1106-8 (Case rep.)
Management of aneurysms involving branches of the celiac and superior mesenteric arteries: a comparison of surgical and endovascular therapy (Sachdev et al). 2006;44:718-24
Popliteal venous aneurysm (Velu et al); (Carpenter and Woo) (Commentary). 2006;44:1360-2
Regarding “Popliteal arterial aneurysm associated with Klippel-Trenaunay syndrome: case report and literature review” (Komai) (Letter); (Akagi and Miyata) (Reply). 2006;44:1377-8
Robot-assisted aortoiliac reconstruction: a review of 30 cases (Stadler et al). 2006;44:915-19
Robot-assisted laparoscopic renal artery aneurysm reconstruction (Luke et al). 2006;44:651-3 (Case rep.)
Aneurysm, dissecting
Aortic fenestration for chronic aortic dissection type B complicated by transient ischemic attacks of spinal cord (Altuwaijiri et al). 2006;44:186-93 (Case rep.)
Correction of symptomatic cerebral malperfusion due to acute type I aortic dissection by transcarotid stenting of the innominate and carotid arteries (Roseborough et al). 2006;44:1090-5 (Case rep.)
Aneurysm, false
Endovascular treatment of the descending thoracic aorta in a patient with a hydatid pseudoaneurysm (Volpe et al). 2006;44:1096-9 (Case rep.)
Tuberculous pseudoaneurysm of the femoral artery complicated by cutaneous tuberculosis of the foot: a case report (Lecese et al). 2006;44:654-7 (Case rep.)
Aneurysm, infected
Endovascular repair of Salmonella-infected abdominal aortic aneurysms: a word of caution (Forbes and Harding). 2006;44:198-200 (Case rep.)
Angiogenesis; see Neovascularization
Angiography
Aortic fenestration for chronic aortic dissection type B compli-
Angioplasty
Changing pattern of surgical revascularization for critical limb ischemia over 12 years: endovascular vs open bypass surgery (Kudo et al). 2006;44:304-13
Clinical outcomes and cost comparison of carotid artery angioplasty with stenting versus carotid endarterectomy (Park et al). 2006;44:270-6
Early and late complications of silicone patch saphenoplasty at the saphenofemoral junction (De Maeseneer et al). 2006;44:1285-90
Long-term effects of endovascular angioplasty on orhastotrophic vasocutaneous autoregulation in patients with peripheral atherosclerosis (Husmann et al). 2006;44:992-6
Peripheral angioplasty with same-day discharge in patients with intermittent claudication (Akopian and Katz). 2006;44:115-18
Preliminary results of subintimal angioplasty for limb salvage in lower extremities with severe chronic ischemia and limb-threatening ischemia (Myers et al). 2006;44:1239-46
Risk factors for restenosis after carotid artery angioplasty and stenting (Skelly et al). 2006;44:1099-14

Angioplasty, balloon
Duplex-guided endovascular treatment for occlusive and stenotic lesions of the femoral-popliteal arterial segment: a comparative study in the first 253 cases (Ascher et al); (Bandyk) (Commentary). 2006;44:1230-8
Endovascular treatment of oblitative hepatocavopathy with inferior vena cava occlusion and renal vein thrombosis (Thompson et al). 2006;44:206-9 (Case rep.)
The EXercise versus Angioplasty in Claudication Trial (EXACT): reasons for recruitment failure and the implications for research into and treatment of intermittent claudication (Hobbs and Bradbury). 2006;44:432-3 (Letter)
Intermediate results of percutaneous endovascular therapy of femoropopliteal occlusive disease: a contemporary series (Conrad et al). 2006;44:762-9, 762.e1-e9
Low-molecular-weight heparin for prevention of restenosis after femoropopliteal percutaneous transluminal angioplasty: a randomized controlled trial (Koppensteiner et al). 2006;44:1247-53
One-year prospective quality-of-life outcomes in patients treated with angioplasty for symptomatic peripheral arterial disease (Kalbaugh et al). 2006;44:296-303
Surgical revascularization of renal artery after complicated or failed percutaneous transluminal renal angioplasty (Lacombe and Ricco). 2006;44:537-44

Angiotensin II
Rapid dilation of the abdominal aorta during infusion of angiotensin II detected by noninvasive high-frequency ultrasonography (Barisone et al). 2006;44:372-6

Ankle
Clinical presentation and venous severity scoring of patients with extended deep axial venous reflux (Gillet et al). 2006;44:588-94
A modified calculation of ankle-brachial pressure index is far more sensitive in the detection of peripheral arterial disease (Schröder et al). 2006;44:531-6

Anti-bacterial agents
Use of antibiotic-loaded polymethylmethacrylate beads for the treatment of extravasatory prosthetic vascular graft infections (Stone et al). 2006;44:757-61

Antigens, CD14
Synergistic effect of toll-like receptor 4 and CD14 polymorphisms on the total atherosclerosis burden in patients with peripheral arterial disease (Vainas et al). 2006;44:326-32

Antioxidant
Imbalance between nitric oxide generation and oxidative stress in patients with peripheral arterial disease: effect of an antioxidant treatment (Loffredo et al). 2006;44:525-30

Aorta
Aortoiliac hemodynamic and morphologic adaptation to chronic spinal cord injury (Yeung et al). 2006;44:1254-65, 1254.e1
The hybrid elephant trunk procedure: a single-stage repair of an ascending, arch, and descending thoracic aortic aneurysm (Azizzadeh et al). 2006;44:404-7 (Case rep.)
The potassium channel opener levocromakalim causes expansive remodelling of experimental vein grafts (Wales et al). 2006;44:159-65

Aorta, abdominal
Bilateral obturator bypass for combined aortic and femorofemoral graft infection (Thompson et al). 2006;44:888
Delayed manifestation of abdominal aortic stenosis in a child presenting 10 years after blunt abdominal trauma (Diaz et al). 2006;44:1103-5 (Case rep.)
Infraaortic coarctation in a 15-year-old with claudication (Fitzpatrick et al). 2006;44:1116, 1116.e1-e2
Total laparoscopic suprarenal aortic coral reef removal (Di Centa et al). 2006;44:194-7 (Case rep.)

Aorta, thoracic
Correction of symptomatic cerebral malperfusion due to acute type 1 aortic dissection by transcarotid stenting of the innominate and carotid arteries (Roseborough et al). 2006;44:1090-5 (Case rep.)
Endovascular treatment of the descending thoracic aorta in a patient with a hydatid pseudoaneurysm (Volpe et al). 2006;44:1096-9 (Case rep.)

Aortic aneurysm
Comparison of renal function after endovascular aneurysm repair with different transreanly fixated endografts (Forbes et al). 2006;44:938-42

Aortic aneurysm, abdominal
Aortic fenestration for chronic aortic dissection type B complicated by transient ischemic attacks of spinal cord (Altuwaijri et al). 2006;44:186-93 (Case rep.)
Aortic necks of ruptured abdominal aneurysms dilate more than asymptomatic aneurysms after endovascular repair (Badger et al). 2006;44:244-9

Aortoiliac hemodynamic and morphologic adaptation to chronic spinal cord injury (Yeung et al). 2006;44:1254-65, 1254.e1

Decreased incidence of left common iliac vein compression in patients with abdominal aortic aneurysms (Moreland et al). 2006;44:595-600

Dynamic magnetic resonance angiography of the aneurysm neck: conformational changes during the cardiac cycle with possible consequences for endograft sizing and future design (van Herwaarden et al). 2006;44:22-8

Effect of challenging neck anatomy on mid-term migration rates in AneuRx endografts (Fulton et al); (Makaroun) (Commentary). 2006;44:932-7

Effects of tissue inhibitor of metalloproteinase 2 deficiency on aneurysm formation (Xiong et al). 2006;44:1060-5

Endovascular abdominal aortic aneurysm repair: long-term outcome measures in patients at high risk for open surgery (Sicard et al); (Buth) (Commentary). 2006;44:1148-55

Endovascular aneurysm repair at 5 years: does aneurysm diameter predict outcome? (Zarins et al); (Filling) (Commentary). 2006;44:920-31

Endovascular repair of Salmonella-infected abdominal aortic aneurysms: a word of caution (Forbes and Harding). 2006;44:198-200 (Case rep.)

Establishing a protocol for endovascular treatment of ruptured abdominal aortic aneurysms: outcomes of a prospective analysis (Melha et al); (Ohki) (Commentary). 2006;44:1-8

External validation of the Glasgow Aneurysm Score to predict outcome in elective open abdominal aortic aneurysm repair (Hirzalla et al); (Willems and Blankensteijn) (Commentary). 2006;44:712-17

Influence of anesthesia type on outcome after endovascular aortic aneurysm repair: an analysis based on EUROSTAR data (Ruppert et al); (Verhoeven) (Commentary). 2006;44:16-21

The influence of aneurysm size on perioperative cardiac outcome in elective open infrarenal aortic aneurysm repair (Schouten et al). 2006;44:435-41

An intention-to-treat by endovascular repair policy may reduce overall mortality in ruptured abdominal aortic aneurysm (Arya et al). 2006;44:467-71

Is emergency endovascular aneurysm repair associated with higher secondary intervention risk at mid-term follow-up? (Oranen et al). 2006;44:1156-61, 1156.e1-e8

Late type III endoleak from graft erosion of an Excluder stent graft: a case report (Lee et al). 2006;44:183-5 (Case rep.)

Mid-term results of endovascular aneurysm repair with branched and fenestrated endografts (Muhs et al). 2006;44:9-15

Outcome of common iliac arteries after straight aortic tube graft placement during elective repair of infrainguinal abdominal aortic aneurysms (Hassan-Khodja et al). 2006;44:943-8

Painted into a corner: unexpected complications in treating a Jehovah’s Witness (Jones et al). 2006;44:425-8

Popliteal venous aneurysm (Velu et al); (Carpenter and Woo) (Commentary). 2006;44:1360-2

Rapid dilation of the abdominal aorta during infusion of angiotensin II detected by noninvasive high-frequency ultrasonography (Barisone et al). 2006;44:372-6

Regarding “Replanting the inferior mesenteric artery during aortic neck: a word of caution” (Koemlay) (Letter); (Assadian and Assadian) (Reply). 2006;44:912

The role of aortic neck dilation and elongation in the etiology of stent graft migration after endovascular abdominal aortic aneurysm repair with a passive fixation device (Litwinski et al). 2006;44:1176-81

Sac behavior after aneurysm treatment with the Gore Excluder low-permeability aortic endoprostheses: 12-month comparison to the original Excluder device (Haider et al). 2006;44:694-700

Salvage of failed prior endovascular abdominal aortic aneurysm repair with fenestrated endovascular stent grafts (Adam et al). 2006;44:1341-4 (Case rep.)

A single-center experience in open and endovascular treatment of hemodynamically unstable and stable patients with ruptured abdominal aortic aneurysms (Coppi et al). 2006;44:1140-7

Tetraplegia after elective abdominal aortic aneurysm repair (Moore and Klimach). 2006;44:401-3 (Case rep.)

To inform or not to inform: how should the surgeon proceed when the patient refuses to discuss the surgical risks? (Corfield). 2006;44:219-21

An 8-year experience with type II endoleaks: natural history suggests selective intervention is a safe approach (Silverberg et al); (Carpenter) (Commentary). 2006;44:453-9

Aortic aneurysm, thoracic

Combined surgical and endovascular treatment of aortic arch aneurysms (Saleh and Inglese). 2006;44:460-6, 460.e1-e8

The hybrid elephant trunk procedure: a single-stage repair of an ascending, arch, and descending thoracic aortic aneurysm (Azizzadeh et al.). 2006;44:404-7 (Case rep.)

Regarding “Current results of open surgical repair of descending thoracic aortic aneurysms” (Dalainas) (Letter); (Black and Cambria) (Reply). 2006;44:226-7

Spatiotemporal expression and localization of matrix metalloproteinase-9 in a murine model of thoracic aortic aneurysm (Jones et al.). 2006;44:1314-21

Stent-graft versus open-surgical repair of the thoracic aorta: mid-term results (Stone et al.). 2006;44:1188-97

Aortic aneurysm; see Aortic aneurysm, thoracic

Aortic coarctation

Infrarenal aortic coarctation in a 15-year-old with claudication (Fitzpatrick et al.). 2006;44:1116, 1116.e1-2

Aortic diseases

Aortoenteric fistula as a late complication of thrombolyis and bare metal stenting for perioperative occlusion of aortofemoral bypass (Tshomba et al.). 2006;44:408-11 (Case rep.)

Evolving strategies for the treatment of aortoenteric fistulas (Baril et al.). 2006;44:250-7

A systematic review and meta-analysis of treatments for aortic graft infection (O’Connor et al.). 2006;44:38-45, 38.e1-e16

Total laparoscopic suprarenal aortic coral reef removal (Di Centa et al.). 2006;44:194-7 (Case rep.)

Aortic rupture

Aortic necks of ruptured abdominal aneurysms dilate more than asymptomatic aneurysms after endovascular repair (Badger et al.). 2006;44:244-9

Establishing a protocol for endovascular treatment of ruptured abdominal aneurysms: outcomes of a prospective analysis (Mehta et al.); (Ohki) (Commentary). 2006;44:1-8

The Hardman index in patients operated on for ruptured abdominal aortic aneurysm: a systematic review (Acosta et al.). 2006;44:949-54

An intention-to-treat by endovascular repair policy may reduce overall mortality in ruptured abdominal aortic aneurysm (Arya et al.). 2006;44:467-71

Popliteal venous aneurysm (Velu et al.); (Carpenter and Woo) (Commentary). 2006;44:1360-2

A single-center experience in open and endovascular treatment of hemodynamically unstable and stable patients with ruptured abdominal aortic aneurysms (Coppi et al.). 2006;44:1140-7

Aortic stenosis

Delayed manifestation of abdominal aortic stenosis in a child presenting 10 years after blunt abdominal trauma (Diaz et al.). 2006;44:1103-5 (Case rep.)

Aortitis

Arterial occlusive diseases

Common femoral artery injury secondary to tennis ball strike (Vasdekis et al.). 2006;44:1350-2 (Case rep.)

Duplex-guided endovascular treatment for occlusive and stenotic lesions of the femoral-popliteal arterial segment: a comparative study in the first 253 cases (Ascher et al.); (Bandyk) (Commentary). 2006;44:1230-8

Early biomechanical changes in lower extremity vein grafts—distinct temporal phases of remodeling and wall stiffness (Owens et al.). 2006;44:740-6

The influence of diabetes and lower limb arterial disease on cutaneous foot perfusion (Williams et al.). 2006;44:770-5

Intermediate results of percutaneous endovascular therapy of femoropopliteal occlusive disease: a contemporary series (Conrad et al.). 2006;44:762-9, 762.e1-e9

A modified calculation of ankle-brachial pressure index is far more sensitive in the detection of peripheral arterial disease (Schröder et al.). 2006;44:531-6

Natural history of carotid artery occlusion contralateral to carotid endarterectomy (AbuRahma et al.). 2006;44:62-6

Peripheral atherectomy in TransAtlantic InterSociety Consensus type C femoropopliteal lesions for limb salvage (Yancey et al.). 2006;44:503-9

Regarding “Endovascular management of iliac artery occlusions: extending treatment to TASC C and D lesions” (Dosluoglu) (Letter); (Kashyp et al) (Reply). 2006;44:433

Robot-assisted aortoaortic reconstruction: a review of 30 cases (Šta´dler et al.). 2006;44:915-19

Role of adhesion molecules in the induction of restenosis after angioplasty in the lower limb (Heider et al.). 2006;43:969-77. Correction 2006;44:686

Arteriovenous fistula

Adjunct arteriovenous fistula as means of rescue for infrapopliteal venous bypass with poor runoff (Laurila et al); (Perler) (Commentary). 2006;44:984-91

Arteriovenous malformations

Giant splenic artery aneurysm associated with arteriovenous malformation (Agrawal et al.). 2006;44:1345-9 (Case rep.)

Massive spouting bleeding from chronic stasis ulceration caused by arteriovenous communication of the lower extremity (Komai et al.). 2006;44:658-9 (Case rep.)

Risk factors for leg length discrepancy in patients with congenital vascular malformation (Kim et al.). 2006;44:545-53

Arteriovenous shunt, surgical

Endovascular occlusion of right to left arteriovenous shunt associated with persistent left superior vena cava (Kougias et al.). 2006;44:875-8 (Case rep.)

Flow reduction in high-flow arteriovenous access using intraoperative flow monitoring (Zanow et al.). 2006;44:1273-8

Gene expression changes evoked in a venous segment exposed to arterial flow (Abeles et al.). 2006;44:863-70

Prospective randomized study evaluating an absorbable cyano-
Aspirin
Low-molecular-weight heparin for prevention of restenosis after femoropopliteal percutaneous transluminal angioplasty: a randomized controlled trial (Koppensteiner et al). 2006;44:1247-53
Regarding “Giant-cell temporal arteritis in a 17-year-old male” (Morovic-Vergles). 2006;44:1132 (Letter)

Athletic injuries
Common femoral artery injury secondary to tennis ball strike (Vasdekis et al). 2006;44:1350-1 (Case rep.)

ATL-146e; see Cyclohexeneacarbonylic acids; Purines

Atherosclerosis
Long-term effects of endovascular angioplasty on orthostatic vasocutaneous autoregulation in patients with peripheral atherosclerosis (Husmann et al). 2006;44:992-6
Peripheral arterial disease versus other localizations of vascular disease: the ATTEST study (Blacher et al). 2006;44:314-18
Progression of atherosclerotic renovascular disease: a prospective population-based study (Pearce et al); (Lilly) (Commentary). 2006;44:955-63
Synergistic effect of toll-like receptor 4 and CD14 polymorphisms on the total atherosclerosis burden in patients with peripheral arterial disease (Vainas et al). 2006;44:326-32

Athletic injuries

Autonomic nervous system
Noninvasive investigation of autonomic activity after carotid stenting or carotid endarterectomy (Yakhou et al). 2006;44:472-9

Bacteria

Balloon occlusion
Comparison of embolization protection device-specific technical difficulties during carotid artery stenting (Powell et al). 2006;44:56-61

Bandages
Prevention of recurrence of venous ulceration: randomized controlled trial of class 2 and class 3 elastic compression (Nelson et al). 2006;44:803-8

Baroreflex
Noninvasive investigation of autonomic activity after carotid stenting or carotid endarterectomy (Yakhou et al). 2006;44:472-9

Blood flow velocity
Flow reduction in high-flow arteriovenous access using intraoperative flow monitoring (Zanow et al). 2006;44:1273-8
The influence of diabetes and lower limb arterial disease on cutaneous foot perfusion (Williams et al). 2006;44:770-5
Prevention of air travel–related deep venous thrombosis with mechanical devices: active foot movements produce similar hemodynamic effects (Lurie et al). 2006;44:889-91 (Tech. Note)

Blood pressure
A modified calculation of ankle-brachial pressure index is far more sensitive in the detection of peripheral arterial disease (Schröder et al). 2006;44:531-6
Noninvasive investigation of autonomic activity after carotid stenting or carotid endarterectomy (Yakhou et al). 2006;44:472-9

Blood pressure monitoring, ambulatory
Comparison of new continuous measurements of ambulatory venous pressure (AVP) with conventional tiptoe exercise ambulatory AVP in relation to the CEAP clinical classification of chronic venous disease (Eifell et al). 2006;44:794-802

Blood pressure monitors
Evaluation of the accuracy of a wireless pressure sensor in a canine model of retrograde-collateral (type II) endoleak and correlation with histologic analysis (Chaer et al). 2006;44:1306-13

Blood transfusion
Painted into a corner: unexpected complications in treating a Jehovah’s Witness (Jones et al). 2006;44:425-8

Blood vessel prosthesis
Aortic fenestration for chronic aortic dissection type B complicated by transient ischemic attacks of spinal cord (Altuwaijri et al). 2006;44:186-93 (Case rep.)
Comparison of renal function after endovascular aneurysm repair with different transrenaly fixated endografts (Forbes et al). 2006;44:938-42
Controlled release of small interfering RNA targeting midkine attenuates intimal hyperplasia in vein grafts (Banno et al). 2006;44:633-41
Critical parameter of burst pressure measurement in development of bypass grafts is highly dependent on methodology used (Sarkar et al). 2006;44:846-52
Dynamic magnetic resonance angiography of the aneurysm neck: conformational changes during the cardiac cycle with possible consequences for endograft sizing and future design (van Herwaarden et al). 2006;44:22-8
Effect of challenging neck anatomy on mid-term migration rates in AneuRx endografts (Fulton et al); (Makaroun) (Commentary). 2006;44:932-7
InterGard silver bifurcated graft: features and results of a multicenter clinical study (Ricco). 2006;44:339-46
Regarding “Preservation of infected and exposed vascular grafts using vacuum assisted closure (VAC) without muscle...
flap coverage” (Brehm). 2006;44:226. Correction 2006; 44:1138
Sustained-release vancomycin sheet may help to prevent pro-
static graft methicillin-resistant Staphylococcus aureus infec-
tion (Hirose et al). 2006;44:377-82
A systematic review and meta-analysis of treatments for aortic
graft infection (O’Connor et al). 2006;44:38-45, 38.e1- e16
Use of antibiotic-loaded polyethyleneacrylate beads for the
management of aneurysms involving branches of the celiac and
late type III endoleak from graft erosion of an Excluder stent
(Stone et al). 2006;44:757-61
Blood vessel prosthesis implantation
Bilateral obturator bypass for combined aortic and femoro-
fernal graft infection (Thompson et al). 2006;44:888
Changing pattern of surgical revascularization for critical limb
ischemia over 12 years: endovascular vs open bypass surgery
(Kudo et al). 2006;44:304-13
Clinical results of surgery for retroperitoneal sarcoma with
major blood vessel involvement (Schwarzbach et al). 2006;
44:46-55
Combined surgical and endovascular treatment of aortic arch
aneurysms (Saleh and Inglese). 2006;44:460-6, 460.e1- e8
A comparison of renal function between open and endovascu-
lar aneurysm repair in patients with baseline chronic renal
insufficiency (Parmer et al). 2006;44:706-11
Determinants of functional outcome after revascularization for
critical limb ischemia: an analysis of 1000 consecutive vas-
cular interventions (Taylor et al). 2006;44:747-56
Duplex ultrasound criteria for femorofemoral bypass revision
(Stone et al). 2006;44:496-502
Endoleaks after endovascular repair of thoracic aortic aneu-
rysms (Parmer et al). 2006;44:447-52
Endovascular management of isolated iliac artery aneurysms
(Boules et al). 2006;44:29-37
Endovascular occlusion of right to left arteriovenous shunt
associated with persistent left superior vena cava (Kougias et
al). 2006;44:875-8 (Case rep.)
Endovascular repair of Salmonella-infected abdominal aortic
aneurysms: a word of caution (Forbes and Harding). 2006;
44:198-200 (Case rep.)
Endovascular stent graft repair for infected thoracic aortic
pseudoaneurysms—a durable option? (Ting et al). 2006;
44:701-5
Endovascular treatment of the descending thoracic aorta in
a patient with a hydatid pseudoaneurysm (Volpe et al). 2006;
44:1096-9 (Case rep.)
Establishing a protocol for endovascular treatment of ruptured
abdominal aortic aneurysms: outcomes of a prospective
analysis (Mehta et al); (Ohki) (Commentary). 2006;44:1-8
Hybrid approach to complex thoracic aortic aneurysms in
high-risk patients: surgical challenges and clinical outcomes
(Zhou et al). 2006;44:688-93
An intention-to-treat by endovascular repair policy may reduce
overall mortality in ruptured abdominal aortic aneurysm
(Ara et al). 2006;44:467-71
Is emergency endovascular aneurysm repair associated with
higher secondary intervention risk at mid-term follow-up?
(Oran et al). 2006;44:1156-61, 1156.e1-e30
Late type III endoleak from graft erosion of an Excluder stent
graft: a case report (Lee et al). 2006;44:183-5 (Case rep.)
Management of aneurysms involving branches of the celiac and
superior mesenteric arteries: a comparison of surgical and
endovascular therapy (Sachdev et al). 2006;44:718-24
Mid-term results of endovascular aneurysm repair with
branched and fenestrated endografts (Muhs et al). 2006;
44:9-15
New assessment of platelet deposition in small caliber vascular
prostheses using technetium-99m apcitide scintigraphy in
rabbit model (Hasegawa et al). 2006;44:840-5
Obstructive lesions of the inferior vena cava: clinical features
and endovenous treatment (Raju et al). 2006;44:820-7
Outcome of common iliac arteries after straight aortic tube-
graft placement during elective repair of infrarenal abdom-
inal aortic aneurysms (Hassen-Khodja et al). 2006;44:
943-8
Poplevus venous aneurysm (Velu et al); (Carpenter and Woo)
(Commentary). 2006;44:1360-2
The role of aortic neck dilation and elongation in the etiology
of stent graft migration after endovascular abdominal aortic
aneurysm repair with a passive fixation device (Litwinski et
al). 2006;44:1176-81
Sac behavior after aneurysm treatment with the Gore Excluder
low-permeability aortic endoprosthesis: 12-month compar-
sion to the original Excluder device (Haider et al). 2006;
44:694-700
Salvage of failed prior endovascular abdominal aortic aneurysm
repair with fenestrated endovascular stent grafts (Adam et
al). 2006;44:1341-4 (Case rep.)
A single-center experience in open and endovascular treatment
of hemodynamically unstable and stable patients with rup-
tured abdominal aortic aneurysms (Coppi et al). 2006;44:
1140-7
Stent-graft versus open-surgical repair of the thoracic aorta:
mid-term results (Stone et al). 2006;44:1188-97
Successful endovascular management of an acute iliac venous
injury during lumbar discectomy and anterior spinal fusion
(Schneider et al). 2006;44:1353-6 (Case rep.)
Techniques in occluding the aorta during endovascular repair
of ruptured abdominal aortic aneurysms (O’Donnell et al).
2006;44:211-5 (Tech. Note)
An 8-year experience with type II endoleaks: natural history
suggests selective intervention is a safe approach (Silverberg
et al); (Carpenter) (Commentary). 2006;44:453-9
Blunt injuries; see Wounds, nonpenetrating
Bone marrow cells
Preliminary experience with tissue engineering of a venous
vascular patch by using bone marrow–derived cells and a
hybrid biodegradable polymer scaffold (Cho et al). 2006;
44:1329-40
Bone marrow transplantation
Autologous bone-marrow mononuclear cell implantation for
patients with Rutherford grade II-III thromboangiitis ob-
literans (Durdu et al). 2006;44:732-9
Book reviews
Book reviews. 2006;44:1379
Brachial artery
A modified calculation of ankle-brachial pressure index is far
more sensitive in the detection of peripheral arterial disease
(Schröder et al). 2006;44:531-6
Brachiocephalic trunk
Correction of symptomatic cerebral malperfusion due to acute
type I aortic dissection by transcatheter stenting of the
innominate and carotid arteries (Roseborough et al). 2006;
44:1090-5 (Case rep.)
Brain ischemia
Correction of symptomatic cerebral malperfusion due to acute
type I aortic dissection by transcervical stenting of the innominate and carotid arteries (Roseborough et al). 2006; 44:1090-5 (Case rep.)

C

Carbon monoxide
Inhaled carbon monoxide inhibits intimal hyperplasia and provides added benefit with nitric oxide (Raman et al). 2006; 44:151-8

Carcinoma, basal cell
Venous ulceration and basal cell carcinoma: coincident or synergistic (Patel et al). 2006;44:210

Cardiovascular diseases
Metabolic syndrome in peripheral arterial disease: relationship with severity of peripheral circulatory insufficiency, inflammatory status, and cardiovascular comorbidity (Brevetti et al); (Davies) (Commentary). 2006;44:101-7

Peripheral arterial disease versus other localizations of vascular disease: the ATTEST study (Blacher et al). 2006;44:314-18

Career choice

Carotid arteries

Appropriateness of learning curve for carotid artery stenting: an analysis of periprocedural complications (Verzini et al); (Bosiers) (Commentary). 2006;44:1205-12

Clinical outcomes and cost comparison of carotid artery angioplasty with stenting versus carotid endarterectomy (Park et al). 2006;44:270-6

Correction of symptomatic cerebral malperfusion due to acute type I aortic dissection by transcervical stenting of the innominate and carotid arteries (Roseborough et al). 2006; 44:1090-5 (Case rep.)

The impact of carotid stenting on the hemodynamic parameters and cerebrovascular reactivity of the ipsilateral middle cerebral artery (Sfyroeras et al); (Makaroun) (Commentary). 2006;44:1015-21

Patient selection for carotid stenting versus endarterectomy: a systematic review (Narins and Illig). 2006;44:661-72 (Review)

Risk factors for restenosis after carotid artery angioplasty and stenting (Skelly et al). 2006;44:1009-14

Carotid artery, internal
Combined open and endovascular treatment of a sacular aneurysm and redundant loop of the internal carotid artery (Trinidad-Hernández et al). 2006;44:642-6 (Case rep.)

Carotid artery diseases
Comparison of embolization protection device-specific technical difficulties during carotid artery stenting (Powell et al). 2006;44:56-61

Do device characteristics impact outcome in carotid artery stenting (Hart et al); (Becquemin) (Commentary). 2006; 44:725-31

Natural history of carotid artery occlusion contralateral to carotid endarterectomy (AbuRahma et al). 2006;44:62-6

Unmasking complicated atherosclerotic plaques on carotid magnetic resonance angiography: a report of three cases (Wintermark et al). 2006;44:884-7 (Case rep.)

Carotid endarterectomy; see Endarterectomy, carotid

Carotid sinus
An implantable carotid sinus stimulator for drug-resistant hypertension: surgical technique and short-term outcome from the multicenter phase II Rheos feasibility trial (Illig et al). 2006;44:1213-18, 1213.e1-e7

Carotid stenosis
The association of carotid plaque inflammation and Chlamydia pneumoniae infection with cerebrovascular symptomatology (Kaperonis et al). 2006;44:1198-1204

Clinical outcomes and cost comparison of carotid artery angioplasty with stenting versus carotid endarterectomy (Park et al). 2006;44:270-6

Combined carotid endarterectomy and coronary artery bypass grafting in patients with asymptomatic high-grade stenoses: an analysis of 758 procedures (Byrne et al). 2006;44:67-72

Combined saphenous ablation and iliac stent placement for complex severe chronic venous disease (Néglén et al). 2006;44:828-33

Endovenous ablation of the great saphenous vein may avert phlebectomy for branch varicose veins (Welch). 2006;44:601-5

Risk factors for restenosis after carotid artery angioplasty and stenting (Skelly et al). 2006;44:1009-14

Case reports
Case reports. 2006;44:176-209, 1341-59, 398-415, 642-59, 871-87, 1090-115

Catheter ablation
Combined saphenous ablation and iliac stent placement for complex severe chronic venous disease (Néglén et al). 2006;44:828-33

Endovenous ablation of the great saphenous vein may avert phlebectomy for branch varicose veins (Welch). 2006;44:601-5

Celiac artery
Aneurysm of the celiac artery arising from a celiomesenteric trunk (Matsuda et al). 2006;44:660

Gastric exercise tonometry: the key investigation in patients with suspected celiac artery compression syndrome (Mensink et al). 2006;44:277-81

Isolated celiac artery aneurysm with splenic artery stenosis as a rare presentation of polyarteritis nodosum: a case report and review of the literature (Adajar et al). 2006;44:647-50 (Case rep.)

Management of aneurysms involving branches of the celiac and superior mesenteric arteries: a comparison of surgical and endovascular therapy (Sachdev et al). 2006;44:718-24
Cell adhesion molecules

Cell transplantation
Percutaneous transplantation of genetically-modified autologous fibroblasts in the rabbit femoral artery: a novel approach for cardiovascular gene therapy (Mazighi et al). 2006;44:1066-74, 1066.e1-e11

Cerebrovascular accident
Appropriateness of learning curve for carotid artery stenting: an analysis of peri-procedural complications (Verzini et al); (Bosiers) (Commentary). 2006;44:1205-12
The association of carotid plaque inflammation and Chlamydia pneumoniae infection with cerebrovascular symptomatology (Kaperonis et al). 2006;44:1198-1204
Early carotid endarterectomy in symptomatic patients is associated with poorer perioperative outcomes (Rockman et al); (Mackey) (Commentary). 2006;44:480-7
Peripheral arterial disease versus other localizations of vascular disease: the ATTEST study (Blacher et al). 2006;44:314-18
Regarding “Stroke after varicose vein foam injection sclerotherapy” (Morrison et al) (Letter); (Forlee et al) (Reply). 2006;44:224-6
Trends in the in-hospital stroke rate following carotid endarterectomy in California and Maryland (Matsen et al). 2006;44:488-95

Child
Blunt femoropopliteal trauma in a child: is stenting a good option? (Angiletta et al) (Case rep.); (Dalsing) (Commentary). 2006;44:201-5
Delayed manifestation of abdominal aortic stenosis in a child presenting 10 years after blunt abdominal trauma (Diaz et al). 2006;44:1103-5 (Case rep.)
Vascular reconstruction using deep vein for limb length discrepancy in a child (Broker and Clagett). 2006;44:398-400 (Case rep.)

Chinese
Prevalence of peripheral arterial disease and its association with smoking in a population-based study in Beijing, China (He et al). 2006;44:333-8

Chlamydia pneumoniae infections
The association of carotid plaque inflammation and Chlamydia pneumoniae infection with cerebrovascular symptomatology (Kaperonis et al). 2006;44:1198-1204

Cholecystectomy, laparoscopic
A comparison of the changes in generic quality of life after superficial venous surgery with those after laparoscopic cholecystectomy (San et al). 2006;44:606-10

Chronic renal insufficiency; see Renal insufficiency, chronic
Claudication; see Intermittent claudication

Clinical protocols
Establishing a protocol for endovascular treatment of ruptured abdominal aortic aneurysms: outcomes of a prospective analysis (Mehta et al); (Ohki) (Commentary). 2006;44:1-8

Cloning, molecular

Colitis, ischemic
Regarding “Replanting the inferior mesenteric artery during infrarenal aortic aneurysm repair: influence on postoperative colon ischemia” (Koelemay) (Letter); (Assadian and Assadian) (Reply). 2006;44:912
Isolated celiac artery aneurysm with splenic artery stenosis as a rare presentation of polyarteritis nodosum: a case report and review of the literature (Adajar et al). 2006;44:647-50 (Case rep.)
Obstructive lesions of the inferior vena cava: clinical features and endovascular treatment (Raju et al). 2006;44:820-7
Treatment with an oral small molecule inhibitor of P selectin (PSI-697) decreases vein wall injury in a rat stenosis model of venous thrombosis (Myers et al). 2006;44:625-32

Coronary arteriosclerosis

Coronary artery bypass
Combined carotid endarterectomy and coronary artery bypass grafting in patients with asymptomatic high-grade stenoses: an analysis of 758 procedures (Byrne et al). 2006;44:67-72

Coronary disease
The influence of aneurysm size on perioperative cardiac outcome in elective open infrarenal aortic aneurysm repair (Schouten et al). 2006;44:435-41

Corrections
Regarding “Preservation of infected and exposed vascular grafts using vacuum assisted closure (VAC) without muscle flap coverage” (Brehm) (2006;44:226). 2006;44:914

Cost-benefit analysis
Clinical outcomes and cost comparison of carotid artery angioplasty with stenting versus carotid endarterectomy (Park et al). 2006;44:279-86
Peripheral angioplasty with same-day discharge in patients with intermittent claudication (Akopian and Katz). 2006;44:115-18

Cromakalim
The potassium channel opener levocromakalim causes expansive remoulding of experimental vein grafts (Wales et al). 2006;44:159-65

Cryptococcus sp.

Cutaneous tuberculosis; see Tuberculosis, cutaneous
Cyanoacrylates
  Prospective randomized study evaluating an absorbable cyanoacrylate for use in vascular reconstructions (Lumsden and Heyman); (Valentine) (Commentary). 2006;44:1001-8, 1001.e1-e10

Cyclohexanecarboxylic acids
  Functional and cytoarchitectural spinal cord protection by ATL-146c after ischemia/reperfusion is mediated by adenosine receptor agonism (Reece et al). 2006;44:392-7

Cyst
  Cystic adventitial disease of the femoral vein presenting as deep vein thrombosis: a case report and review of the literature (Dix et al). 2006;44:871-4 (Case rep.)

Cytokines
  Controlled release of small interfering RNA targeting midkine attenuates intimal hyperplasia in vein grafts (Banno et al). 2006;44:633-41

D

Deep-vein thrombosis; see Venous thrombosis

Delayed-action preparations
  Sustained-release vancomycin sheet may help to prevent prosthetic graft methicillin-resistant Staphylococcus aureus infection (Hirose et al). 2006;44:377-82

Descending aorta; see Aorta, thoracic

Diabetes mellitus, type 2
  The influence of diabetes and lower limb arterial disease on cutaneous foot perfusion (Williams et al). 2006;44:770-5

Dilatation, pathologic
  Rapid dilation of the abdominal aorta during infusion of angiotensin II detected by noninvasive high-frequency ultrasonography (Barisione et al). 2006;44:372-6

Disease models, animal

Diskectomy
  Access strategies for revision or explantation of the Charité lumbar artificial disc replacement (Wagner et al). 2006;44:1266-72
  Successful endovascular management of an acute iliac venous injury during lumbar discectomy and anterior spinal fusion (Schneider et al). 2006;44:1353-6 (Case rep.)

Diterpenes

Drug synergism
  Synergistic effect of toll-like receptor 4 and CD14 polymorphisms on the total atherosclerosis burden in patients with peripheral arterial disease (Vainas et al). 2006;44:326-32

Drug therapy
  Peripheral arterial disease versus other localizations of vascular disease: the ATTEST study (Blacher et al). 2006;44:314-18

Duplex ultrasound; see Ultrasonography, Doppler, duplex

E

Echinococcosis
  Endovascular treatment of the descending thoracic aorta in a patient with a hydatid pseudoaneurysm (Volpe et al). 2006;44:1096-9 (Case rep.)

Editorials
  Reciprocal publications of EJVES-JVS abstracts (Cronenwett et al). 2006;44:687

Electric stimulation
  An implantable carotid sinus stimulator for drug-resistant hypertension: surgical technique and short-term outcome from the multicenter phase II Rheos feasibility trial (Illig et al). 2006;44:1213-18, 1213.e1-e7

Embolism
  Complications associated with the Angioseal arterial puncture closing device: intra-arterial deployment and occlusion by dissected plaque (Dregelid et al). 2006;44:1357-9 (Case rep.)

Embolization, therapeutic
  Comparison of embolization protection device-specific technical difficulties during carotid artery stenting (Powell et al). 2006;44:56-61
  Outcome after hypogastric artery bypass and embolization during endovascular aneurysm repair (Lee et al). 2006;44:1162-9

Emergency medical services
  Is emergency endovascular aneurysm repair associated with higher secondary intervention risk at mid-term follow-up? (Oranen et al). 2006;44:1156-61, 1156.e1-e30

Emigration and immigration
  My brother’s keeper: uncompensated care for illegal immigrants (Jones et al). 2006;44:679-82

Endarterectomy, carotid
  Clinical outcomes and cost comparison of carotid artery angioplasty with stenting versus carotid endarterectomy (Park et al). 2006;44:270-6
  Combined carotid endarterectomy and coronary artery bypass grafting in patients with asymptomatic high-grade stenoses: an analysis of 758 procedures (Byrne et al). 2006;44:67-72
  Early carotid endarterectomy in symptomatic patients is associated with poorer perioperative outcomes (Rockman et al); (Mackey) (Commentary). 2006;44:480-7
  Hemodynamic effect of carotid stenting and carotid endarterectomy (van Laar et al). 2006;44:73-8
  Natural history of carotid artery occlusion contralateral to carotid endarterectomy (AbuRahma et al). 2006;44:62-6
  Noninvasive investigation of autonomic activity after carotid stenting or carotid endarterectomy (Yakhou et al). 2006;44:472-9
  Outcomes of carotid endarterectomy for asymptomatic stenosis in Sweden are improving: results from a population-based registry (Kragsterman et al). 2006;44:79-85
  Patient selection for carotid stenting versus endarterectomy: a systematic review (Narins and Illig). 2006;44:661-72 (Review)
  Protected carotid stenting in high-surgical-risk patients: the
Esophageal fistula

Equipment failure

Equipment design

Equipment and supplies

Enoxaparin

Endothelium, vascular

Endothelial growth factors

Endothelial cells

Endothelial growth factors

Platelet-derived endothelial cell growth factor gene therapy for limb ischemia (Yamada et al). 2006;44:1322-8

Endothelium, vascular

Enoxaparin

Treatment with an oral small molecule inhibitor of P selectin (PSI-697) decreases vein wall injury in a rat stenosis model of venous thrombosis (Myers et al). 2006;44:625-32

Equipment and supplies

An implantable carotid sinus stimulator for drug-resistant hypertension: surgical technique and short-term outcome from the multicenter phase II Rhoes feasibility trial (Illig et al). 2006;44:1213-18, 1213.e1-e7

Prevention of air travel–related deep venous thrombosis with mechanical devices: active foot movements produce similar hemodynamic effects (Lurie et al). 2006;44:889-91 (Tech. Note)

Equipment design

Do device characteristics impact outcome in carotid artery stenting (Hart et al); (Becquemin) (Commentary). 2006;44:725-31

Equipment failure

Complications associated with the Angioseal arterial puncture closing device: intra-arterial deployment and occlusion by dissected plaque (Dregeldt et al). 2006;44:1357-9 (Case rep.)

Esophageal fistula

Evolving strategies for the treatment of aortoenteric fistulas (Baril et al). 2006;44:250-7

Ethics, clinical

Ethics and professionalism: do we need yet another surgeons’ charter? (Jones et al). 2006;44:903-6

My brother’s keeper: uncompensated care for illegal immigrants (Jones et al). 2006;44:679-82

Ethics, medical

The ethics of postoperative responsibility: where does it end? (Rosenberg). 2006;44:1369-71

Painted into a corner: unexpected complications in treating a Jehovah’s Witness (Jones et al). 2006;44:425-8

Relationship funding of professional foundations: just a new black sheep? (Jones and McCullough). 2006;44:1125-7

To inform or not to inform: how should the surgeon proceed when the patient refuses to discuss the surgical risk? (Cordfield). 2006;44:219-21

Exercise test

Comparison of new continuous measurements of ambulatory venous pressure (AVP) with conventional tiptoe exercise ambulatory AVP in relation to the CEAP clinical classification of chronic venous disease (Eifell et al). 2006;44:794-802

Gastric exercise tonometry: the key investigation in patients with suspected celiac artery compression syndrome (Mensink et al). 2006;44:277-81

Exercise therapy

The EXercise versus Angioplasty in Claudication Trial (EXACT): reasons for recruitment failure and the implications for research into and treatment of intermittent claudication (Hobbs and Bradbury). 2006;44:432-3 (Letter)

Exercise tolerance

Short-term effects of cycle and treadmill training on exercise tolerance in peripheral arterial disease (Sanderson et al). 2006;44:119-27

Extracellular signal-regulated MAP kinases

F

Factor XIII

Influence of gene polymorphisms in ulcer healing process after superficial venous surgery (Gemmatti et al). 2006;44:554-62

Fee-for-service plans

Pay for performance: the process and its evolution (Sidaway). 2006;44:892-902 (Presidential Address)

Femoral artery

Bilateral obturator bypass for combined aortic and femoro-femoral graft infection (Thompson et al). 2006;44:888

Blunt femoropopliteal trauma in a child: is stenting a good option? (Angiletta et al) (Case rep.); (Dalsing) (Commentary). 2006;44:201-5

Clinical presentation and vascular imaging in giant cell arteritis (Bartolucci and Hoffmann). 2006;44:176-82 (Case rep.)

Complications associated with the Angioseal arterial puncture closing device: intra-arterial deployment and occlusion by
dissected plaque (Dregelid et al). 2006;44:1357-9 (Case rep.)
Duplex-guided endovascular treatment for occlusive and steno-
tic lesions of the femoral-popliteal arterial segment: a com-
parative study in the first 253 cases (Ascher et al); (Bandek) (Commentary). 2006;44:1230-8
Duplex ultrasound criteria for femorofemoral bypass revision
(Stone et al). 2006;44:496-502
Intermediate results of percutaneous endovascular therapy of
femoropopliteal occlusive disease: a contemporary series
(Conrad et al). 2006;44:762-9, 762.e1-e9
Low-molecular-weight heparin for prevention of restenosis
after femoropopliteal percutaneous transluminal angioplasty: a randomized controlled trial (Koppensteiner et al).
2006;44:1247-53
Percutaneous transplantation of genetically-modified autolo-
gous fibroblasts in the rabbit femoral artery: a novel ap-
proach for cardiovascular gene therapy (Mazighi et al).
2006;44:1066-74, 1066.e1-e11
Peripheral atherectomy in TransAtlantic InterSociety Consen-
sus type C femoropopliteal lesions for limb salvage (Yancey et al).
2006;44:503-9
Preliminary results of subintimal angioplasty for limb salvage in
lower extremities with severe chronic ischemia and limb-
threatening ischemia (Myers et al). 2006;44:1239-46
Techniques in occluding the aorta during endovascular repair
of ruptured abdominal aortic aneurysms (O’Donnell et al).
2006;44:211-5 (Tech. Note)
Tuberculous pseudoaneurysm of the femoral artery complica-
ted by cutaneous tuberculosis of the foot: a case report
(Leccese et al). 2006;44:654-7 (Case rep.)
Vascular reconstituting using deep vein for limb length dis-
crepancy in a child (Broker and Clagett). 2006;44:398-400
(Foot)

Femoral vein
Clinical presentation and venous severity scoring of patients
with extended deep axial venous reflux (Gillett et al). 2006;
44:588-94
Combined saphenous ablation and iliac stent placement for
complex severe chronic venous disease (Neglén et al).
2006;44:828-33
Cystic adventitial disease of the femoral vein presenting as deep
vein thrombosis: a case report and review of the literature
(Dix et al). 2006;44:871-4 (Case rep.)
Early and late complications of silicone patch saphenoplasty at
the saphenofemoral junction (De Maeseneer et al). 2006;
44:1285-90
Effects of external valvuoplasty of the deep vein in the treat-
ment of chronic venous insufficiency of the lower extremity
(Wang et al). 2006;44:1296-1300

Fibroblasts
Percutaneous transplantation of genetically-modified autolo-
gous fibroblasts in the rabbit femoral artery: a novel ap-
proach for cardiovascular gene therapy (Mazighi et al).
2006;44:1066-74, 1066.e1-e11

Financing, organized
Relationship funding of professional foundations: just a new
black sheep? (Jones and McCullough). 2006;44:1125-7

Foot
The influence of diabetes and lower limb arterial disease on
cutaneous foot perfusion (Williams et al). 2006;44:770-5
Prevention of air travel–related deep venous thrombosis with
mechanical devices: active foot movements produce similar
hemodynamic effects (Lurie et al). 2006;44:889-91 (Tech.
Note)
Tuberculous pseudoaneurysm of the femoral artery complica-
ted by cutaneous tuberculosis of the foot: a case report
(Leccese et al). 2006;44:654-7 (Case rep.)

Forearm
Forearm cephalic vein cross-sectional area changes at incre-
mental congestion pressures: towards a standardized and
reproducible vein mapping protocol (Planken et al). 2006;
44:353-8

Forefoot, human
Clinical outcomes after closed, staged, and open forefoot am-
putations (Berceli et al). 2006;44:347-52, 347.e1-e7

Foreign-body migration
Effect of challenging neck anatomy on mid-term migration
rates in AneuRx endografts (Fulton et al); (Makaroun)
(Commentary). 2006;44:932-7
The role of aortic neck dilation and elongation in the etiology
of stent graft migration after endovascular abdominal aortic
aneurysm repair with a passive fixation device (Litwinski et
al). 2006;44:1176-81
FXIII; see Factor XIII

G

Gait
Lack of relationship between gait parameters and physical
function in peripheral arterial disease (Scherer et al). 2006;
44:782-8

Gait disorders, neurologic
Giant popliteal aneurysm presenting with foot drop (Selvam et
al). 2006;44:882-3 (Case rep.)

Gangrene
Clinical outcomes after closed, staged, and open forefoot am-
putations (Berceli et al). 2006;44:347-52, 347.e1-e7

Gastric bypass
Experience with inferior vena cava filter placement in patients
undergoing open gastric bypass procedures (Gargiulo et

Gastric fistula
Evolving strategies for the treatment of aortoenteric fistulas
(Baril et al). 2006;44:250-7

Gastrointestinal diseases
Gastrointestinal complications after descending thoracic and
thoracoabdominal aortic repairs: a 14-year experience
(Achouh et al). 2006;44:442-6

Gastrointestinal tract
Gastric exercise tonometry: the key investigation in patients
with suspected celiac artery compression syndrome (Men-
sink et al). 2006;44:277-81

Gelatinase A
Effects of tissue inhibitor of metalloproteinase 2 deficiency on
aneurysm formation (Xiong et al). 2006;44:1060-5

Gene expression
Gene expression changes evoked in a venous segment exposed
to arterial flow (Abeles et al). 2006;44:863-70

Gene therapy
Percutaneous transplantation of genetically-modified autolo-
gous fibroblasts in the rabbit femoral artery: a novel ap-
proach for cardiovascular gene therapy (Mazighi et al).
2006;44:1066-74, 1066.e1-e11
Platelet-derived endothelial cell growth factor gene therapy for
limb ischemia (Yamada et al). 2006;44:1322-8
Gene transfer techniques
Adenoviral urokinase-type plasminogen activator (uPA) gene transfer enhances venous thrombus resolution (Gossage et al). 2006;44:1084-9

Giant cell arteritis; see Temporal arteritis

Ginkgolide A; see Diterpenes; Lactones

Graft occlusion, vascular
Adjuvant arteriovenous fistula as means of rescue for infrapopliteal venous bypass with poor runoff (Laurila et al); (Perler) (Commentary). 2006;44:984-91
Aortoenteric fistula as a late complication of thrombolysis and bare metal stenting for perioperative occlusion of aortofemoral bypass (Tshomba et al). 2006;44:408-11 (Case rep.)

Hardman index; see Severity of illness index

Health care costs
Clinical outcomes and cost comparison of carotid artery angioplasty with stenting versus carotid endarterectomy (Park et al). 2006;44:270-6

Health resources
Resource utilization in the treatment of critical limb ischemia: the effect of tissue loss, comorbidities, and graft-related events (Nguyen et al); (Lynch) (Commentary). 2006;44:971-6

Heart failure, congestive
Flow reduction in high-flow arteriovenous access using intraoperative flow monitoring (Zanow et al). 2006;44:1273-8

Heart rate
Noninvasive investigation of autonomic activity after carotid stenting or carotid endarterectomy (Yakhou et al). 2006;44:472-9

Heart septal defects
Endovascular occlusion of right to left arteriovenous shunt associated with persistent left superior vena cava (Kougias et al). 2006;44:875-8 (Case rep.)

Hemodynamics
Aortoiliac hemodynamic and morphologic adaptation to chronic spinal cord injury (Yeung et al). 2006;44:1254-65, 1254.e1
The impact of carotid stenting on the hemodynamic parameters and cerebrovascular reactivity of the ipsilateral middle cerebral artery (Sfyroeras et al); (Makaroun) (Commentary). 2006;44:1015-21
The influence of inflation rate on the hemodynamic and hemodynamic effects of intermittent pneumatic calf compression for deep vein thrombosis prophylaxis (Morris et al). 2006;44:1038-44
The nonsaphenous vein of the popliteal fossa: prevalence, patterns of reflux, hemodynamic quantification, and clinical significance (Delis et al). 2006;44:611-19
A single-center experience in open and endovascular treatment of hemodynamically unstable and stable patients with ruptured abdominal aortic aneurysms (Coppi et al). 2006;44:1140-7

Hemorrhage
Massive spouting bleeding from chronic stasis ulceration caused by arteriovenous communication of the lower extremity (Komai et al). 2006;44:658-9 (Case rep.)
Predicting adverse outcome in outpatients with acute deep vein thrombosis. Findings from the RITE Registry (Trujillo-Santos et al). 2006;44:789-93

Successful endovascular management of an acute iliac venous injury during lumbar discectomy and anterior spinal fusion (Schneider et al). 2006;44:1353-6 (Case rep.)

Hemostasis
Prospective randomized study evaluating an absorbable cyanoacrylate for use in vascular reconstructions (Lumsden and Heyman); (Valentine) (Commentary). 2006;44:1001-8, 1001.e1-e10

Heparin, low-molecular-weight
Low-molecular-weight heparin for prevention of restenosis after femoropopliteal percutaneous transluminal angioplasty: a randomized controlled trial (Koppensteiner et al). 2006;44:1247-53

Hepatic vein thrombosis
Endovascular treatment of obliterator hepatocavopathy with inferior vena cava occlusion and renal vein thrombosis (Thompson et al). 2006;44:206-9 (Case rep.)

Hindlimb
An engineered vascular endothelial growth factor-activating transcription factor induces therapeutic angiogenesis in ApoE knockout mice with hindlimb ischemia (Xie et al). 2006;44:166-75

Homocysteine

Hospitalization
Resource utilization in the treatment of critical limb ischemia: the effect of tissue loss, comorbidities, and graft-related events (Nguyen et al); (Lynch) (Commentary). 2006;44:971-6

Hospital mortality
Trends in the in-hospital stroke rate following carotid endarterectomy in California and Maryland (Matsen et al). 2006;44:488-95

Hydatidosis; see Echinococcosis

Hydroxyxymethylglutaryl-CoA reductase inhibitors
Statins for the prevention of periprocedural cardiovascular complications in vascular surgery (Schouten et al). 2006;44:419-24

Hyperplasia
Controlled release of small interfering RNA targeting midkine attenuates intimal hyperplasia in vein grafts (Banno et al). 2006;44:633-41
Inhaled carbon monoxide inhibits intimal hyperplasia and provides added benefit with nitric oxide (Raman et al). 2006;44:151-8

Hypertension
An implantable carotid sinus stimulator for drug-resistant hypertension: surgical technique and short-term outcome from the multicenter phase II Rheos feasibility trial (Ilig et al). 2006;44:1213-18, 1213.e1-e7

Hypertension, renovascular

Hypertrichosis
Trichophyia and hypertrichosis: a side effect of foam sclerotherapy (Kalodiki et al). 2006;44:1577 (Letter)
Iliac aneurysm
Endovascular management of isolated iliac artery aneurysms (Boules et al). 2006;44:29-37
Outcome after hypogastric artery bypass and embolization during endovascular aneurysm repair (Lee et al). 2006;44:1162-9

Iliac artery
Aortic fenestration for chronic aortic dissection type B complicated by transient ischemic attacks of spinal cord (Altuwaijri et al). 2006;44:186-93 (Case rep.)
Aortoiliac hemodynamic and morphologic adaptation to chronic spinal cord injury (Yeung et al). 2006;44:1254-68, 1254.e1
Endovascular management of isolated iliac artery aneurysms (Boules et al). 2006;44:29-37
Regarding “Endovascular management of iliac artery occlusions: extending treatment to TASC C and D lesions” (Dosluoglu) (Letter); (Kashyap et al) (Reply). 2006;44:433
Vascular reconstruction using deep vein for limb length discrepancy in a child (Broker and Clagett). 2006;44:398-400 (Case rep.)

Iliac vein
Combined saphenous ablation and iliac stent placement for complex severe chronic venous disease (Neglén et al). 2006;44:828-33
Decreased incidence of left common iliac vein compression in patients with abdominal aortic aneurysms (Moreland et al). 2006;44:595-600
Endovascular treatment of obliterative hepatocavopathy with inferior vena cava occlusion and renal vein thrombosis (Thompson et al). 2006;44:206-9 (Case rep.)
High prevalence of nonthrombotic iliac vein lesions in chronic venous disease: a permissive role in pathogenicity (Raju and Neglén); (Gagne) (Commentary). 2006;44:136-44
Successful endovascular management of an acute iliac venous injury during lumbar discectomy and anterior spinal fusion (Schneider et al). 2006;44:1353-6 (Case rep.)

Image interpretation, computer-assisted
Forearm cephalic vein cross-sectional area changes at incremental congestion pressures: towards a standardized and reproducible vein mapping protocol (Planken et al). 2006;44:353-8

Inferior vena cava; see Vena cava, inferior

Inflammation
The association of carotid plaque inflammation and Chlamydia pneumoniae infection with cerebrovascular symptomatology (Kaperonis et al). 2006;44:1198-204
Metabolic syndrome in peripheral arterial disease: relationship with severity of peripheral circulatory insufficiency, inflammatory status, and cardiovascular comorbidity (Brevetti et al); (Davies) (Commentary). 2006;44:101-7

Information dissemination
Reciprocal publications of EJVES-JVS abstracts (Cronenwett et al). 2006;44:687 (Editorial)

Informed consent
To inform or not to inform: how should the surgeon proceed when the patient refuses to discuss the surgical risk? (Corfield). 2006;44:219-21

Inguinal canal
The effects of the type of anesthesia on outcomes of lower extremity infringuinal bypass (Singh et al). 2006;44:964-70
Systematic review of preservation methods and clinical outcome of infringuinal vascular allografts (Fahner et al). 2006;44:518-24

Injections
Regarding “Stroke after varicose vein foam injection sclerotherapy” (Morrison et al) (Letter); (Forlee et al) (Reply). 2006;44:224-6

Innominate artery; see Brachiocephalic trunk

Interruption claudication
The EXercise versus Angioplasty in Claudication Trial (EXACT): reasons for recruitment failure and the implications for research into and treatment of intermittent claudication (Hobbs and Bradbury). 2006;44:432-3 (Letter)
Infrarenal aortic coarctation in a 15-year-old with claudication (Fitzpatrick et al). 2006;44:1116, 1116.e1-e2
Lack of relationship between gait parameters and physical function in peripheral arterial disease (Scherer et al). 2006;44:782-8
Low-molecular-weight heparin for prevention of restenosis after femoropopliteal percutaneous transluminal angioplasty: a randomized controlled trial (Koppensteiner et al). 2006;44:1247-53
Peripheral angioplasty with same-day discharge in patients with intermittent claudication (Akopian and Katz). 2006;44:115-18
Short-term effects of cycle and treadmill training on exercise tolerance in peripheral arterial disease (Sanderson et al). 2006;44:119-27

Interruption pneumatic compression devices
The influence of inflation rate on the hematologic and hemodynamic effects of intermittent pneumatic calf compression for deep vein thrombosis prophylaxis (Morris et al). 2006;44:1038-44

Internship and residency

Intervertebral disk
Access strategies for revision or explantation of the Charité lumbar artificial disc replacement (Wagner et al). 2006;44:1266-72

Intestinal fistula
Aortoenteric fistula as a late complication of thrombolysis and bare metal stenting for perioperative occlusion of aortofemoral bypass (Tshomba et al). 2006;44:408-11 (Case rep.)
Evolving strategies for the treatment of aortoenteric fistulas (Baril et al). 2006;44:250-7

Intracranial aneurysm
Combined open and endovascular treatment of a saccular
Iothalamic acid
Iodinated contrast induced renal vasoconstriction is due in part to the downregulation of renal cortical and medullary nitric oxide synthesis (Myers et al). 2006;44:383-91

Ischemia
Changing pattern of surgical revascularization for critical limb ischemia over 12 years: endovascular vs open bypass surgery (Kudo et al). 2006;44:304-13
Complications associated with the Angioseal arterial puncture closing device: intra-arterial deployment and occlusion by dissected plaque (Dregelid et al). 2006;44:1357-9 (Case rep.)
Endovascular management of acute critical ischemia secondary to blunt tibial artery injury (Alvarez-Tostado et al). 2006;44:11100-2 (Case rep.)
An engineered vascular endothelial growth factor-activating transcription factor induces therapeutic angiogenesis in ApoE knockout mice with hindlimb ischemia (Xie et al). 2006;44:166-75
Flow reduction in high-flow arteriovenous access using intraoperative flow monitoring (Zanow et al). 2006;44:1275-8
Gastric exercise tonometry: the key investigation in patients with suspected celiac artery compression syndrome (Mensink et al). 2006;44:277-81
Low-molecular-weight heparin for prevention of restenosis after femoropopliteal percutaneous transluminal angioplasty: a randomized controlled trial (Koppensteiner et al). 2006;44:1247-53
Peripheral atherectomy in TransAtlantic InterSociety Consensus type C femoropopliteal lesions for limb salvage (Yancey et al). 2006;44:503-9
Platelet-derived endothelial cell growth factor gene therapy for limb ischemia (Yamada et al). 2006;44:1322-8
Preliminary results of subintimal angioplasty for limb salvage in lower extremities with severe chronic ischemia and limb-threatening ischemia (Myers et al). 2006;44:1259-46
Prospective multicenter study of quality of life before and after lower extremity vein bypass in 1404 patients with critical limb ischemia (Nguyen et al); (Mills) (Commentary). 2006;44:977-83
Regarding “Proximalization of the arterial inflow: a new technique to treat access-related ischemia” (Gradman) (Letter); (Fillingern) (Reply); (Zanow) (Reply). 2006;44:1133-5
Resource utilization in the treatment of critical limb ischemia: the effect of tissue loss, comorbidities, and graft-related events (Nguyen et al); (Lynch) (Commentary). 2006;44:971-6

Ischemic attack, transient
Aortic fenestration for chronic aortic dissection type B complicated by transient ischemic attacks of spinal cord (Altuwaijri et al). 2006;44:186-93 (Case rep.)
The association of carotid plaque inflammation and Chlamydia pneumoniae infection with cerebrovascular symptomatology (Kaperonis et al). 2006;44:1198-204
Early carotid endarterectomy in symptomatic patients is associated with poorer perioperative outcomes (Rockman et al); (Mackey) (Commentary). 2006;44:480-7

J
Jehovah’s Witnesses
Painted into a corner: unexpected complications in treating a Jehovah’s Witness (Jones et al). 2006;44:425-8

K
Kidney cortex
Iodinated contrast induced renal vasoconstriction is due in part to the downregulation of renal cortical and medullary nitric oxide synthesis (Myers et al). 2006;44:383-91

Kidney function tests
Comparison of renal function after endovascular aneurysm repair with different transrenally fixated endografts (Forbes et al). 2006;44:938-42

Kidney medulla
Iodinated contrast induced renal vasoconstriction is due in part to the downregulation of renal cortical and medullary nitric oxide synthesis (Myers et al). 2006;44:383-91

Klippel-Trenaunay-Weber syndrome
Regarding “Popliteal arterial aneurysm associated with Klippel-Trenaunay syndrome: case report and literature review” (Koma) (Letter); (Akagi and Miyata) (Reply). 2006;44:1377-8

L
Lactones
Laparoscopic cholecystectomy; see Cholecystectomy, laparoscopic

Laparoscopy
Robot-assisted aortoiliac reconstruction: a review of 30 cases (Städler et al). 2006;44:915-19
Robot-assisted laparoscopic renal artery aneurysm reconstruction (Luke et al). 2006;44:651-3 (Case rep.)
Total laparoscopic suprarenal aortic coral reef removal (Di Centa et al). 2006;44:194-7 (Case rep.)

Lasers
Reduced recanalization rates of the great saphenous vein after endovenous laser treatment with increased energy dosing: definition of a threshold for the endovenous fluence equivalent (Probe et al). 2006;44:834-9

Laser surgery
Regarding “Diffuse phlegmonous phlebitis after endovenous laser treatment of the great saphenous vein” (Ravi and Dietrich) (Letter); (Dunst et al) (Reply). 2006;44:912-13

Leg
Endoscopic versus open saphenous vein harvest for femoral to below the knee arterial bypass using saphenous vein graft (Gazani et al). 2006;44:282-8
The influence of inflation rate on the hematologic and hemodynamic effects of intermittent pneumatic calf compression
for deep vein thrombosis prophylaxis (Morris et al). 2006;44:1038-44

A modified calculation of ankle-brachial pressure index is far more sensitive in the detection of peripheral arterial disease (Schröder et al). 2006;44:531-6

The nonsaphenous vein of the popliteal fossa: prevalence, patterns of reflux, hemodynamic quantification, and clinical significance (Declis et al). 2006;44:611-19

One-year prospective quality-of-life outcomes in patients treated with angioplasty for symptomatic peripheral arterial disease (Kalbaugh et al). 2006;44:296-303

Platelet-derived endothelial cell growth factor gene therapy for limb ischemia (Yamada et al). 2006;44:1322-8

Prospective multicenter study of quality of life before and after lower extremity vein bypass in 1404 patients with critical limb ischemia (Nguyen et al); (Mills) (Commentary). 2006;44:977-83

Residual varicose veins below the knee after varicose vein surgery are not related to incompetent perforating veins (van Neer et al). 2006;44:1050-3

Resource utilization in the treatment of critical limb ischemia: the effect of tissue loss, comorbidities, and graft-related events (Nguyen et al); (Lynch) (Commentary). 2006;44:971-6

Venous reconstruction in lower limbs associated with resection of malignancies (Nishinari et al). 2006;44:1045-9

Leg length inequality

Risk factors for leg length discrepancy in patients with congenital vascular malformation (Kim et al). 2006;44:545-53

Vascular reconstruction using deep vein for limb length discrepancy in a child (Broker and Clagett). 2006;44:398-400 (Case rep.)

Leg ulcer

Natural history of limbs with arterial insufficiency and chronic ulceration treated without revascularization (Marston et al). 2006;44:108-14, 108.e1-e8

State-of-the-art treatment of chronic leg ulcers: a randomized controlled trial comparing vacuum-assisted closure (V.A.C.) with modern wound dressings (Yuerstaek et al); (Lindsay) (Commentary). 2006;44:1028-37

Letters to the Editor

The EXercise versus Angioplasty in Claudication Trial (EXACT): reasons for recruitment failure and the implications for research into and treatment of intermittent claudication (Hobbs and Bradbury). 2006;44:432-3 (Letter)

Regarding “Carotid endarterectomy in patients with chronic renal insufficiency: a recent series of 184 cases” (Ricca) (Letter); (Ascher) (Reply). 2006;44:1136-7

Regarding “Current results of open surgical repair of descending thoracic aortic aneurysms” (Dalainas) (Letter); (Black and Cambria) (Reply). 2006;44:226-7

Regarding “Diffuse phlebogenous phlebitis after endovenous laser treatment of the great saphenous vein” (Ravi and Dietrich) (Letter); (Dunst et al) (Reply). 2006;44:912-13

Regarding “Endovascular management of iliac artery occlusions: extending treatment to TASC C and D lesions” (Dosluoglu) (Letter); (Kashyap et al) (Reply). 2006;44:433

Regarding “Giant-cell temporal arthritis in a 17-year-old male” (Morovic-Vergles). 2006;44:1132

Regarding “Popliteal arterial aneurysm associated with Klippel-Trenaunay syndrome: case report and literature review” (Komai) (Letter); (Akagi and Miyata) (Reply). 2006;44:1377-8

Regarding “Preservation of infected and exposed vascular grafts using vacuum assisted closure without muscle flap coverage” (Brehm (Letter); (Dosluoglu et al) (Reply). 2006;44:226

Regarding “Proximalization of the arterial inflow: a new technique to treat access-related ischemia” (Gradman) (Letter); (Fillinger) (Reply); (Zanow) (Reply). 2006;44:1133-5

Regarding “Replanting the inferior mesenteric artery during infrarenal aortic aneurysm repair: influence on postoperative colon ischemia” (Koelmay) (Letter); (Assadian and Assadian) (Reply). 2006;44:912

Regarding “Stroke after varicose vein foam injection sclerotherapy” (Morrison et al) (Letter); (Forlee et al) (Reply). 2006;44:224-6

Trichophyia and hypertrichosis: a side effect of foam sclerotherapy (Kalodiki et al). 2006;44:1377

Leukocytes, mononuclear

Autologous bone-marrow mononuclear cell implantation for patients with Rutherford grade II-III thromboangiitis obliterans (Durdu et al). 2006;44:732-9

Levercromakalim; see Cromakalim

Lifestyle

Association of 24-hour activity levels with the clinical severity of chronic venous disease (Eifell et al); (Forbes) (Commentary). 2006;44:580-7, 580.e1-e8

Limb salvage

Compromised bypass graft outcomes after minimal-incision vein harvest (Pallatt et al). 2006;44:289-95

Limb salvage and outcomes among patients with traumatic popliteal vascular injury: an analysis of a National Trauma Data Bank (Mullenix et al). 2006;44:94-100

Natural history of limbs with arterial insufficiency and chronic ulceration treated without revascularization (Marston et al). 2006;44:108-14, 108.e1-e8

Peripheral atherectomy in TransAtlantic InterSociety Consensus type C femoropopliteal lesions for limb salvage (Yancey et al). 2006;44:503-9

Preliminary results of subintimal angioplasty for limb salvage in lower extremities with severe chronic ischemia and limb-threatening ischemia (Myers et al). 2006;44:1239-46

Lower extremity

Agenesis of the inferior vena cava associated with lower extremities and pelvic venous thrombosis (Gil et al). 2006;44:1113-15 (Case rep.)

Changing pattern of surgical revascularization for critical limb ischemia over 12 years: endovascular vs open bypass surgery (Kudo et al). 2006;44:304-13

Compromised bypass graft outcomes after minimal-incision vein harvest (Pallatt et al). 2006;44:289-95

Early biomechanical changes in lower extremity vein grafts—distinct temporal phases of remodeling and wall stiffness (Owens et al). 2006;44:740-6

Effects of external valvuloplasty of the deep vein in the treatment of chronic venous insufficiency of the lower extremity (Wang et al). 2006;44:1296-300

The effects of the type of anesthesia on outcomes of lower extremity infrainguinal bypass (Singh et al). 2006;44:964-70

Massive spouting bleeding from chronic stasis ulceration caused by arteriovenous communication of the lower extremity (Komai et al). 2006;44:658-9 (Case rep.)
Meta-analysis of femoropopliteal bypass grafts for lower extremity arterial insufficiency (Perera et al). 2006;44:510-17, 510.e1-e11

Preliminary results of subintimal angioplasty for limb salvage in lower extremities with severe chronic ischemia and limb-threatening ischemia (Myers et al). 2006;44:1229-46

Prospective multicenter study of quality of life before and after lower extremity vein bypass in 1404 patients with critical limb ischemia (Nguyen et al); (Mills) (Commentary). 2006;44:977-83

Low-molecular-weight heparin; see Heparin, low-molecular-weight

Lumbar vertebrae

Access strategies for revision or explantation of the Charité lumbar artificial disc replacement (Wagner et al). 2006;44:1266-72

Successful endovascular management of an acute iliac venous injury during lumbar discectomy and anterior spinal fusion (Schneider et al). 2006;44:1353-6 (Case rep.)

Magnetic resonance angiography

Dynamic magnetic resonance angiography of the aneurysm neck: conformational changes during the cardiac cycle with possible consequences for endograft sizing and future design (van Herwaarden et al). 2006;44:22-8

Unmasking complicated atherosclerotic plaques on carotid magnetic resonance angiography: a report of three cases (Wintermark et al). 2006;44:884-7 (Case rep.)

Magnetic resonance imaging (MRI)

Clinical presentation and vascular imaging in giant cell arteritis of the femoropopliteal and tibioepiperal arteries. Analysis of four cases (Tato and Hoffmann). 2006;44:176-82 (Case rep.)

Manometry

Gastric exercise tonometry: the key investigation in patients with suspected celiac artery compression syndrome (Mensink et al). 2006;44:277-81

Materials testing

Matrix metalloproteinases

Spatiotemporal expression and localization of matrix metalloproteinase-9 in a murine model of thoracic aortic aneurysm (Jones et al). 2006;44:1314-21

Mesenteric artery, inferior

Regarding “Replanting the inferior mesenteric artery during infrarenal aortic aneurysm repair: influence on postoperative colon ischemia” (Koelmay) (Letter); (Assadian and Assadian) (Reply). 2006;44:912

Mesenteric artery, superior

Aneurysm of the celiac artery arising from a celiomesenteric trunk (Matsuda et al). 2006;44:660

Management of aneurysms involving branches of the celiac and superior mesenteric arteries: a comparison of surgical and endovascular therapy (Sachdev et al). 2006;44:718-24

Meta-analysis

A systematic review and meta-analysis of treatments for aortic graft infection (O’Connor et al). 2006;44:38-45, 38.e1-e16

Metabolic syndrome

Metabolic syndrome in peripheral arterial disease: relationship with severity of peripheral circulatory insufficiency, inflammatory status, and cardiovascular comorbidity (Brevetti et al); (Davies) (Commentary). 2006;44:101-7

Microspheres

Middle cerebral artery

The impact of carotid stenting on the hemodynamic parameters and cerebrovascular reactivity of the ipsilateral middle cerebral artery (Sfyroeras et al); (Makaroun) (Commentary). 2006;44:1015-21

Midkine; see Cytokines

Monitoring, intraoperative

Flow reduction in high-flow arteriovenous access using intraoperative flow monitoring (Zanow et al). 2006;44:1273-8

Motor activity

Association of 24-hour activity levels with the clinical severity of chronic venous disease (Eifell et al); (Forbes) (Commentary). 2006;44:580-7, 580.e1-e8

Lack of relationship between gait parameters and physical function in peripheral arterial disease (Scherer et al). 2006;44:782-8

Movement

Prevention of air travel–related deep venous thrombosis with mechanical devices: active foot movements produce similar hemodynamic effects (Lurie et al). 2006;44:889-91 (Tech. Note)

Myocytes, smooth muscle

Increased extracellular pressure upregulates nitric oxide synthase in cultured rat endothelial cells in a phosphorylated-extracellular regulated kinase–dependent manner (Vouyouka et al). 2006;44:1075-83

N

Neck injuries

Delayed evaluation of combat-related penetrating neck trauma (Fox et al). 2006;44:86-93

Neoplasms

Venous reconstruction in lower limbs associated with resection of malignancies (Nishinari et al). 2006;44:1045-9

Neovascularization

An engineered vascular endothelial growth factor-activating transcription factor induces therapeutic angiogenesis in ApoE knockout mice with hindlimb ischemia (Xie et al). 2006;44:166-75

Neovascularization: an “innocent bystander” in recurrent varicose veins (Egan et al). 2006;44:1279-84

Neuroprotective agents

Functional and cytoarchitectural spinal cord protection by ATL-146e after ischemia/reperfusion is mediated by adenosine receptor agonism (Reece et al). 2006;44:392-7
Nitric oxide
Imbalance between nitric oxide generation and oxidative stress in patients with peripheral arterial disease: effect of an antioxidant treatment (Loffredo et al). 2006;44:525-30
Inhaled carbon monoxide inhibits intimal hyperplasia and provides added benefit with nitric oxide (Raman et al). 2006; 44:151-8
Iodinated contrast induced renal vasoconstriction is due in part to the downregulation of renal cortical and medullary nitric oxide synthesis (Myers et al). 2006;44:383-91
Nitric oxide synthase

Oclussive dressings
State-of-the-art treatment of chronic leg ulcers: a randomized controlled trial comparing vacuum-assisted closure (V.A.C.) with modern wound dressings (Vuerstaek et al); (Lindsay) (Commentary). 2006;44:1028-37
A systematic review of randomized controlled trials of wound dressings for chronic venous ulcer (O'Donnell and Lau). 2006;44:1117-24

Organotechnetium compounds

Organ preservation
Regarding “Preservation of infected and exposed vascular grafts using vacuum assisted closure (VAC) without muscle flap coverage” (Brehm). 2006;44:226. Correction 2006; 44:1138
Systematic review of preservation methods and clinical outcome of infragastrical vascular allografts (Fahner et al). 2006;44:518-24

Osteomyelitis
Clinical outcomes after closed, staged, and open foot forefoot amputations (Bechel et al). 2006;44:347-52, 347.e1-e7

Outcome assessment (health care); see also Treatment outcome
Comparison of renal function after endovascular aneurysm repair with different transrenally fixated endografts (Forbes et al). 2006;44:938-42
Do device characteristics impact outcome in carotid artery stenting (Hart et al); (Becquemin) (Commentary). 2006;44:725-31
Effect of challenging neck anatomy on mid-term migration rates in AneurRx endografts (Fulton et al); (Makaroun) (Commentary). 2006;44:932-7
External validation of the Glasgow Aneurysm Score to predict outcome in elective open abdominal aortic aneurysm repair (Hirzalla et al); (Willems and Blankensteijn) (Commentary). 2006;44:712-17
Management of aneurysms involving branches of the celiac and superior mesenteric arteries: a comparison of surgical and endovascular therapy (Sachdev et al). 2006;44:718-24
Outcome after hypogastric artery bypass and embolization during endovascular aneurysm repair (Lee et al). 2006;44:1162-9
Outcomes of carotid endarterectomy for asymptomatic stenosis in Sweden are improving: results from a population-based registry (Kragpermsman et al). 2006;44:79-85
Predicting adverse outcome in outpatients with acute deep vein thrombosis. Findings from the RIETE Registry (Trujillo- Santos et al). 2006;44:789-93

Oxidative stress
Imbalance between nitric oxide generation and oxidative stress in patients with peripheral arterial disease: effect of an antioxidant treatment (Loffredo et al). 2006;44:525-30

Pancreatitis
Acute pancreatitis a complication associated with rheolytic mechanical thrombectomy of deep venous thrombosis (Piercy et al). 2006;44:1109-12 (Case rep.)

Patient discharge
Peripheral angioplasty with same-day discharge in patients with intermittent claudication (Akopian and Katz). 2006;44:115-18

Patient selection
Endovascular abdominal aortic aneurysm repair: long-term outcome measures in patients at high risk for open surgery (Sicard et al); (Buth) (Commentary). 2006;44:229-36
The EXercise versus Angioplasty in Claudication Trial (EX- ACT): reasons for recruitment failure and the implications for research into and treatment of intermittent claudication (Hobbs and Bradbury). 2006;44:432-3 (Letter
An intention-to-treat by endovascular repair policy may reduce overall mortality in ruptured abdominal aortic aneurysm (Ara et al). 2006;44:467-71
Patient selection for carotid stenting versus endarterectomy: a systematic review (Narins and Illig). 2006;44:661-72 (Review)

Pelvis
Agenesis of the inferior vena cava associated with lower extremities and pelvic venous thrombosis (Gil et al). 2006;44:1113-15 (Case rep.)

Peptides, cyclic

Percutaneous transluminal angioplasty; see Angioplasty, balloon
Peripheral arterial disease; see Peripheral vascular diseases

Peripheral vascular diseases
Cystic adventitial disease of the femoral vein presenting as deep vein thrombosis: a case report and review of the literature (Dix et al). 2006;44:871-4 (Case rep.)
The EXercise versus Angioplasty in Claudication Trial (EX- ACT): reasons for recruitment failure and the implications for research into and treatment of intermittent claudication (Hobbs and Bradbury). 2006;44:432-3 (Letter)
Imbalance between nitric oxide generation and oxidative stress...
in patients with peripheral arterial disease: effect of an antioxidant treatment (Loffredo et al). 2006;44:525-30
Lack of relationship between gait parameters and physical function in peripheral arterial disease (Scherer et al). 2006;44:782-8
Long-term effects of endovascular angioplasty on orthostatic vasocutaneous autoregulation in patients with peripheral atherosclerosis (Husmann et al). 2006;44:992-6
Metabolic syndrome in peripheral arterial disease: relationship with severity of peripheral circulatory insufficiency, inflammatory status, and cardiovascular comorbidity (Brevetti et al); (Davies) (Commentary). 2006;44:101-7
Obstructive lesions of the inferior vena cava: clinical features and endovenous treatment (Raju et al). 2006;44:820-7
One-year prospective quality-of-life outcomes in patients treated with angioplasty for symptomatic peripheral arterial disease (Kalbaugh et al). 2006;44:296-303
Peripheral arterial disease versus other localizations of vascular disease: the ATTEST study (Blacher et al). 2006;44:314-18
Prevalence of peripheral arterial disease and its association with smoking in a population-based study in Beijing, China (He et al). 2006;44:333-8
Short-term effects of cycle and treadmill training on exercise tolerance in peripheral arterial disease (Sanderson et al). 2006;44:119-27
Supporting a call to action for peripheral artery disease: insights from two prospective clinical registries (Hackam et al). 2006;44:776-81
Synergistic effect of toll-like receptor 4 and CD14 polymorphisms on the total atherosclerosis burden in patients with peripheral arterial disease (Vainas et al). 2006;44:326-32
Phlebectomy
Endovenous ablation of the great saphenous vein may avert phlebectomy for branch varicose veins (Welch). 2006;44:601-5
Physician’s practice patterns
Peripheral arterial disease versus other localizations of vascular disease: the ATTEST study (Blacher et al). 2006;44:314-18
Phytotherapy
Platelet adhesiveness
Platelet-derived growth factor
Platelet-derived endothelial cell growth factor gene therapy for limb ischemia (Yamada et al). 2006;44:1322-8
Polyarteritis nodosa
Isolated celiac artery aneurysm with splenic artery stenosis as a rare presentation of polyarteritis nodosum: a case report and review of the literature (Adajar et al). 2006;44:647-50 (Case rep.)
Polymer
Preliminary experience with tissue engineering of a venous vascular patch by using bone marrow-derived cells and a hybrid biodegradable polymer scaffold (Cho et al). 2006;44:1329-40
Polymethyl methacrylate
Polymorphism, genetic
Influence of gene polymorphisms in ulcer healing process after superficial venous surgery (Gemmati et al). 2006;44:554-62
Polymorphism, single nucleotide
Synergistic effect of toll-like receptor 4 and CD14 polymorphisms on the total atherosclerosis burden in patients with peripheral arterial disease (Vainas et al). 2006;44:326-32
Polytetrafluoroethylene
Meta-analysis of femoropopliteal bypass grafts for lower extremity arterial insufficiency (Pereira et al). 2006;44:510-17, 510.e1-e11
Popliteal artery
Adjuvant arteriovenous fistula as means of rescue for infrapopliteal venous bypass with poor runoff (Lauria et al); (Perler) (Commentary). 2006;44:984-91
Blunt femoropopliteal trauma in a child: is stenting a good option? (Angillette et al) (Case rep.); (Dalsing) (Commentary). 2006;44:201-5
Clinical presentation and vascular imaging in giant cell arteritis of the femoropopliteal and tibioperoneal arteries. Analysis of four cases (Tato` and Hoffmann). 2006;44:176-82 (Case rep.)
Duplex-guided endovascular treatment for occlusive and stenotic lesions of the femoral-popliteal arterial segment: a comparative study in the first 253 cases (Ascher et al); (Bandyk) (Commentary). 2006;44:1230-8
Giant popliteal aneurysm presenting with foot drop (Selvam et al). 2006;44:882-3 (Case rep.)
Intermediate results of percutaneous endovascular therapy of femoropopliteal occlusive disease: a contemporary series (Conrad et al). 2006;44:762-9, 762.e1-e9
Limb salvage and outcomes among patients with traumatic popliteal vascular injury: an analysis of a National Trauma Data Bank (Mullenix et al). 2006;44:94-100
Low-molecular-weight heparin for prevention of restenosis after femoropopliteal percutaneous transluminal angioplasty: a randomized controlled trial (Koppensteiner et al). 2006;44:1247-53
Peripheral atherectomy in TransAtlantic InterSociety Consensus type C femoropopliteal lesions for limb salvage (Yancey et al). 2006;44:503-9
Regarding “Popliteal arterial aneurysm associated with Klippel-Trenaunay syndrome: case report and literature review” (Komai) (Letter); (Akagi and Miyata) (Reply). 2006;44:1377-8
Popliteal vein
Clinical presentation and venous severity scoring of patients with extended deep axial venous reflux (Gillet et al). 2006;44:588-94
The nonsaphenous vein of the popliteal fossa: prevalence, patterns of reflux, hemodynamic quantification, and clinical significance (Delis et al). 2006;44:611-19
Popliteal venous aneurysm (Velu et al); (Carpenter and Woo) (Commentary). 2006;44:1360-2
Vascular reconstruction using deep vein for limb length discrepancy in a child (Broker and Claggett). 2006;44:398-400 (Case rep.)

**Positron-emission tomography**
Clinical presentation and vascular imaging in giant cell arteritis of the femoropopliteal and tibioperoneal arteries. Analysis of four cases (Tató and Hoffmann). 2006;44:176-82 (Case rep.)

**Postoperative complications**
Acute pancreatitis a complication associated with rheolytic mechanical thrombectomy of deep venous thrombosis (Percy et al). 2006;44:1109-12 (Case rep.)
Aortoenteric fistula as a late complication of thrombolysis and bare metal stenting for peroperative occlusion of aortofemoral bypass (Tshomba et al). 2006;44:408-11 (Case rep.)
Clinical outcome and complications of temporary inferior vena cava filter placement (Miyahara et al). 2006;44:620-4
Do device characteristics impact outcome in carotid artery stenting (Hart et al); (Beccuemin) (Commentary). 2006;44:725-31
Early and late complications of silicone patch saphenoplasty at the saphenofemoral junction (De Maeseneer et al). 2006;44:1285-90
Evaluation of the accuracy of a wireless pressure sensor in a canine model of retrograde-collateral (type II) endoleak and correlation with histologic analysis (Chaer et al). 2006;44:1306-13
Late type III endoleak from graft erosion of an Excluder stent graft: a case report (Lee et al). 2006;44:183-5 (Case rep.)
Low-molecular-weight heparin for prevention of restenosis after femoropopliteal percutaneous transluminal angioplasty: a randomized controlled trial (Koppensteiner et al). 2006;44:1247-53
Regarding “Diffuse phlegmonous phlebitis after endovenous laser treatment of the great saphenous vein” (Ravi and Dietrich) (Letter); (Dunst et al) (Reply). 2006;44:912-13
Regarding “Replanting the inferior mesenteric artery during infrarenal aortic aneurysm repair: influence on postoperative colon ischemia” (Koelemay) (Letter); (Assadian and Assadian) (Reply). 2006;44:912
Regarding “Stroke after varicos vein foam injection sclerotherapy” (Morrison et al) (Letter); (Forlee et al) (Reply). 2006;44:224-6
Salvage of failed prior endovascular abdominal aortic aneurysm repair with fenestrated endovascular stent grafts (Adam et al). 2006;44:1341-4 (Case rep.)
Tetraplegia after elective abdominal aortic aneurysm repair (Moore and Klimach). 2006;44:401-3 (Case rep.)
An 8-year experience with type II endoleaks: natural history suggests selective intervention is a safe approach (Silverberg et al); (Carpenter) (Commentary). 2006;44:453-9

**Posture**
Association of 24-hour activity levels with the clinical severity of chronic venous disease (Eifell et al); (Forbes) (Commentary). 2006;44:580-7, 580.e1-e8

**Potassium channels**
The potassium channel opener levocromakalim causes expansive remodelling of experimental vein grafts (Wales et al). 2006;44:159-65

**Pressure**
Critical parameter of burst pressure measurement in development of bypass grafts is highly dependent on methodology used (Sarkar et al). 2006;44:846-52

**Professional role**
Ethics and professionalism: do we need yet another surgeons’ charter? (Jones et al). 2006;44:903-6

**Prostheses and implants**
Access strategies for revision or explantation of the Charité lumbar artificial disc replacement (Wagner et al). 2006;44:1266-72

**Prosthesis design**
Critical parameter of burst pressure measurement in development of bypass grafts is highly dependent on methodology used (Sarkar et al). 2006;44:846-52
Dynamic magnetic resonance angiography of the aneurysm neck: conformational changes during the cardiac cycle with possible consequences for endograft sizing and future design (van Herwaarden et al). 2006;44:22-8
The evolving impact of microfabrication and nanofabrication technologies on stent design (Caves and Chaikof). 2006;44:1363-8

**Prosthesis failure**
Controlled release of small interfering RNA targeting midkine attenuates intimal hyperplasia in vein grafts (Banno et al). 2006;44:633-41
Late type III endoleak from graft erosion of an Excluder stent graft: a case report (Lee et al). 2006;44:183-5 (Case rep.)
Low-molecular-weight heparin for prevention of restenosis after femoropopliteal percutaneous transluminal angioplasty: a randomized controlled trial (Koppensteiner et al). 2006;44:1247-53
Regarding “Diffuse phlegmonous phlebitis after endovenous laser treatment of the great saphenous vein” (Ravi and Dietrich) (Letter); (Dunst et al) (Reply). 2006;44:912-13
Regarding “Replanting the inferior mesenteric artery during infrarenal aortic aneurysm repair: influence on postoperative colon ischemia” (Koelemay) (Letter); (Assadian and Assadian) (Reply). 2006;44:912
Regarding “Stroke after varicos vein foam injection sclerotherapy” (Morrison et al) (Letter); (Forlee et al) (Reply). 2006;44:224-6
Salvage of failed prior endovascular abdominal aortic aneurysm repair with fenestrated endovascular stent grafts (Adam et al). 2006;44:1341-4 (Case rep.)

**Prosthesis-related infections**
Bilateral obturator bypass for combined aortic and femorofemoral graft infection (Thompson et al). 2006;44:888
Endovascular repair of *Salmonella* infected abdominal aortic aneurysms: a word of caution (Forbes and Harding). 2006;44:198-200 (Case rep.)
InterGard silver bifurcated graft: features and results of a multicenter clinical study (Rico). 2006;44:339-46
Sustained-release vancomycin sheet may help to prevent prosthetic graft methicillin-resistant *Staphylococcus aureus* infection (Hirose et al). 2006;44:377-82
A systematic review and meta-analysis of treatments for aortic graft infection (O’Connor et al). 2006;44:38-45, 38.e1-e16
Use of antibiotic-loaded polymethylmethacrylate beads for the treatment of extravasatory prosthetic vascular graft infections (Stone et al). 2006;44:757-61

**Protein engineering**
An engineered vascular endothelial growth factor-activating transcription factor induces therapeutic angiogenesis in...
ApoE knockout mice with hindlimb ischemia (Xie et al.). 2006;44:166-75

Protein kinase C
Increased extracellular pressure upregulates nitric oxide synthase in cultured rat endothelial cells in a phosphorylated-extracellular regulated kinase–protein kinase C–dependent manner (Vouyouka et al.). 2006;44:1075-83

P-selectin
Treatment with an oral small molecule inhibitor of P-selectin (PSI-697) decreases vein wall injury in a rat stenosis model of venous thrombosis (Myers et al.). 2006;44:625-32

Pseudoaneurysm; see Aneurysm, false

Publications
Reciprocal publications of EJVES-JVS abstracts (Cronenwett et al.). 2006;44:687 (Editorial)

Pulmonary embolism
Experience with inferior vena cava filter placement in patients undergoing open gastric bypass procedures (Gargiulo et al.). 2006;44:1301-5
Predicting adverse outcome in outpatients with acute deep vein thrombosis. Findings from the RIETE Registry (Trujillo-Santos et al.). 2006;44:789-93

Pulsatile flow
Dynamic magnetic resonance angiography of the aneurysm neck: conformational changes during the cardiac cycle with possible consequences for endograft sizing and future design (van Herwaarden et al.). 2006;44:22-8

Purines
Functional and cytoarchitectural spinal cord protection by ATL-146e after ischemia/reperfusion is mediated by adenosine receptor agonism (Reece et al.). 2006;44:392-7

Quadriplegia
Tetraplegia after elective abdominal aortic aneurysm repair (Moore and Klimach). 2006;44:401-3 (Case rep.)

Quality assurance, health care
Pay for performance: the process and its evolution (Sidawy). 2006;44:892-902 (Presidential Address)

Quality of life
A comparison of the changes in generic quality of life after superficial venous surgery with those after laparoscopic cholecystectomy (Sam et al.). 2006;44:606-10
One-year prospective quality-of-life outcomes in patients treated with angioplasty for symptomatic peripheral arterial disease (Kalbaugh et al.). 2006;44:296-303
Prospective multicenter study of quality of life before and after lower extremity vein bypass in 1404 patients with critical limb ischemia (Nguyen et al); (Mills) (Commentary). 2006;44:977-83

Radionuclide imaging
New assessment of platelet deposition in small caliber vascular prostheses using technetium-99m apcitide scintigraphy in rabbit model (Hasegawa et al.). 2006;44:840-5

Raynaud disease
Incidence and natural history of Raynaud phenomenon: a long-term follow-up (14 years) of a random sample from the general population (Carpentier et al.). 2006;44:1022-7

Receptors, adenosine A2A
Functional and cytoarchitectural spinal cord protection by ATL-146e after ischemia/reperfusion is mediated by adenosine receptor agonism (Reece et al.). 2006;44:392-7

Regional blood flow
Long-term effects of endovascular angioplasty on orhostatic vasocutaneous autoregulation in patients with peripheral atherosclerosis (Husmann et al.). 2006;44:992-6
A modified calculation of ankle-brachial pressure index is far more sensitive in the detection of peripheral arterial disease (Schröder et al.). 2006;44:531-6
Regarding “Proximalization of the arterial inflow: a new technique to treat access-related ischemia” (Gradman) (Letter); (Fillingier) (Reply); (Zanow) (Reply). 2006;44:1133-5

Registries
Outcomes of carotid endarterectomy for asymptomatic stenosis in Sweden are improving: results from a population-based registry (Kragstelman et al.). 2006;44:79-85
Supporting a call to action for peripheral artery disease: insights from two prospective clinical registries (Hackam et al.). 2006;44:776-81

Religion and medicine
Painted into a corner: unexpected complications in treating a Jehovah’s Witness (Jones et al.). 2006;44:425-8

Renal artery
Large renal artery aneurysm in Takayasu arteritis (Matsubara et al.). 2006;44:1106-8 (Case rep.)
Robot-assisted laparoscopic renal artery aneurysm reconstruction (Luke et al.). 2006;44:651-3 (Case rep.)

Renal artery obstruction
Progression of atherosclerotic renovascular disease: a prospective population-based study (Pearce et al); (Lilly) (Commentary). 2006;44:955-63
Surgical revascularization of renal artery after complicated or failed percutaneous transluminal renal angioplasty (Lacombe and Ricco). 2006;44:537-44

Renal circulation
Iodinated contrast induced renal vasoconstriction is due in part to the downregulation of renal cortical and medullary nitric oxide synthesis (Myers et al.). 2006;44:383-91

Renal insufficiency, chronic
A comparison of renal function between open and endovascular aneurysm repair in patients with baseline chronic renal insufficiency (Parmer et al.). 2006;44:706-11
Regarding “Carotid endarterectomy in patients with chronic renal insufficiency: a recent series of 184 cases” (Ricca) (Letter); (Ascher) (Reply). 2006;44:1136-7

Renal veins
Endovascular treatment of oblitative hepatocavopathy with inferior vena cava occlusion and renal vein thrombosis (Thompson et al.). 2006;44:206-9 (Case rep.)

Renovascular hypertension; see Hypertension, renovascular
Reperfusion injury  
Functional and cytoarchitectural spinal cord protection by ATL-146e after ischemia/reperfusion is mediated by adenosine receptor agonism (Reece et al). 2006;44:392-7

Replantation  
Regarding “Replanting the inferior mesenteric artery during infrarenal aortic aneurysm repair: influence on postoperative colon ischemia” (Koelemay) (Letter); (Assadian and Assadian) (Reply). 2006;44:912

Retroperitoneal neoplasms  
Clinical results of surgery for retroperitoneal sarcoma with major blood vessel involvement (Schwarzbach et al). 2006; 44:46-55

Revascularization  
Outcome after hypogastric artery bypass and embolization during endovascular aneurysm repair (Lee et al). 2006;44:1162-9
Regarding “Proximalization of the arterial inflow: a new technique to treat access-related ischemia” (Gradman) (Letter); (Fillinger) (Reply); (Zanow) (Reply). 2006;44:1133-5

Rheology  
Acute pancreatitis a complication associated with rheolytic mechanical thrombectomy of deep venous thrombosis (Piercy et al). 2006;44:1109-12 (Case rep.)

Risk assessment  
To inform or not to inform: how should the surgeon proceed when the patient refuses to discuss the surgical risk? (Coffield). 2006;44:219-21

Risk factors  
Risk factors for leg length discrepancy in patients with congenital vascular malformation (Kim et al). 2006;44:545-53
Risk factors for restenosis after carotid artery angioplasty and stenting (Skelly et al). 2006;44:1009-14
Supporting a call to action for peripheral artery disease: insights from two prospective clinical registries (Hackam et al). 2006;44:776-81

RNA, ribosomal  

RNA, small interfering  
Controlled release of small interfering RNA targeting midkine attenuates intimal hyperplasia in vein grafts (Banno et al). 2006;44:633-41

Robotics  
Robot-assisted aortoiliac reconstruction: a review of 30 cases (Stadler et al). 2006;44:915-19
Robot-assisted laparoscopic renal artery aneurysm reconstruction (Lukic et al). 2006;44:651-3 (Case rep.)

Ruptured aortic aneurysm; see Aortic rupture

Salmonella infections  
Endovascular repair of Salmonella-infected abdominal aortic aneurysms: a word of caution (Forbes and Harding). 2006; 44:198-200 (Case rep.)

Saphenous vein  
Age-related variations of varicose veins anatomy (Caggiati et al). 2006;44:1291-5
Combined saphenous ablation and iliac stent placement for complex severe chronic venous disease (Neglen et al). 2006;44:828-33
Compromised bypass graft outcomes after minimal-incision vein harvest (Pullart et al). 2006;44:289-95
Congenital absence of the inferior vena cava: a rare risk factor for idiopathic deep-vein thrombosis (Simon et al); (Erdos) (Commentary). 2006;44:416-18
Early and late complications of silicone patch saphenoplasty at the saphenofemoral junction (De Maeseneer et al). 2006; 44:1285-90
Early biomechanical changes in lower extremity vein grafts—distinct temporal phases of remodeling and wall stiffness (Owens et al). 2006;44:740-6
Endoscopic versus open saphenous vein harvest for femoral to below the knee arterial bypass using saphenous vein graft (Gazoni et al). 2006;44:282-8
Endovenous ablation of the great saphenous vein may avert phlebectomy for branch varicose veins (Welch). 2006;44:601-5
Meta-analysis of femoropopliteal bypass grafts for lower extremity arterial insufficiency (Pereira et al). 2006;44:510-17, 510.e1-e11
Neovascularization: an “innocent bystander” in recurrent varicose veins (Egan et al). 2006;44:1279-84
The nonsaphenous vein of the popliteal fossa: prevalence, patterns of reflux, hemodynamic quantification, and clinical significance (Delis et al). 2006;44:611-19
Reduced recanalization rates of the great saphenous vein after endovenous laser treatment with increased energy dosing: definition of a threshold for the endovenous fluence equivalent (Probstle et al). 2006;44:834-9
Regarding “Diffuse phleghmonous phlebitis after endovenous laser treatment of the great saphenous vein” (Ravi and Diethrich) (Letter); (Dunst et al) (Reply). 2006;44:912-13
Residual varicose veins below the knee after varicose vein surgery are not related to incompetent perforating veins (van Neer et al). 2006;44:1050-3

Sarcoma  
Clinical results of surgery for retroperitoneal sarcoma with major blood vessel involvement (Schwarzbach et al). 2006; 44:46-55

Scintigraphy; see Radionuclide imaging

Scleroderma, systemic  
Incidence and natural history of Raynaud phenomenon: a long-term follow-up (14 years) of a random sample from the general population (Carpentier et al). 2006;44:1022-7

Sclerosis  
Incidence and natural history of Raynaud phenomenon: a long-term follow-up (14 years) of a random sample from the general population (Carpentier et al). 2006;44:1022-7

Sclerotherapy  
Regarding “Stroke after varicose vein foam injection sclerotherapy” (Morrison et al) (Letter); (Forlee et al) (Reply). 2006;44:224-6
Trichophyia and hypertrichosis: a side effect of foam sclerotherapy (Kalodiki et al). 2006;44:1377 (Letter)

Sequence analysis  

Severity of illness index  
Autologous bone-marrow mononuclear cell implantation for patients with Rutherford grade II-III thromboangiitis obliterans (Durdur et al). 2006;44:732-9
Clinical presentation and venous severity scoring of patients with extended deep axial venous reflux (Gillet et al). 2006; 44:588-94

Comparison of new continuous measurements of ambulatory venous pressure (AVP) with conventional tiptoe exercise ambulatory AVP in relation to the CEAP clinical classification of chronic venous disease (Eisell et al). 2006;44:794-802

Predicting adverse outcome in outpatients with acute deep vein thrombosis. Findings from the RIETE Registry (Trujillo-Santos et al). 2006;44:789-93

Smoking
Prevalence of peripheral arterial disease and its association with smoking in a population-based study in Beijing, China (He et al). 2006;44:333-8

Smooth muscle cells; see Myocytes, smooth muscle

Society for Vascular Surgery
United we stand: one voice, one powerful brand (Ascher). 2006;44:673-8 (Presidential Address)

Spinal cord
Aortic fenestration for chronic aortic dissection type B complicated by transient ischemic attacks of spinal cord (Altuwaijri et al). 2006;44:186-93 (Case rep.)

Spinal cord injuries
Aortoiliac hemodynamic and morphologic adaptation to chronic spinal cord injury (Yeung et al). 2006;44:1254-65, 1254.e1

Spinal cord ischemia
Functional and cytoarchitectural spinal cord protection by ATL-146e after ischemia/reperfusion is mediated by adenosine receptor agonism (Reece et al). 2006;44:392-7

Regarding “Current results of open surgical repair of descending thoracic aortic aneurysms” (Dalinais) (Letter); (Black and Cambria) (Reply). 2006;44:226-7

Spinal fusion
Successful endovascular management of an acute iliac venous injury during lumbar discectomy and anterior spinal fusion (Schneider et al). 2006;44:1353-6 (Case rep.)

Splenic artery
Giant splenic artery aneurysm associated with arteriovenous malformation (Agrawal et al). 2006;44:1345-9 (Case rep.)

Staphylococcal infections
Sustained-release vancomycin sheet may help to prevent prosthetic graft methicillin-resistant Staphylococcus aureus infection (Hirote et al). 2006;44:377-82

Statin: see Hydroxymethylglutaryl-CoA reductase inhibitors

Stenosis; see Constriction, pathologic

Stents
Aortic necks of ruptured abdominal aneurysms dilate more than asymptomatic aneurysms after endovascular repair (Badger et al). 2006;44:244-9

Aortoenteric fistula as a late complication of thrombolysis and bare metal stenting for periprosthetic occlusion of aortofemoral bypass (Tshomba et al). 2006;44:408-11 (Case rep.)

Appropriateness of learning curve for carotid artery stenting: an analysis of periprocedural complications (Verzini et al); (Bosiers) (Commentary). 2006;44:1205-12

Blunt femoropopliteal trauma in a child: is stenting a good option? (Angieltta et al) (Case rep.); (Dalsing) (Commentary). 2006;44:201-5

Changing pattern of surgical revascularization for critical limb ischemia over 12 years: endovascular vs open bypass surgery (Kudo et al). 2006;44:304-13

Clinical outcomes and cost comparison of carotid artery angioplasty with stenting versus carotid endarterectomy (Park et al). 2006;44:270-6

Combined open and endovascular treatment of a saccular aneurysm and redundant loop of the internal carotid artery (Trinidad-Hernández et al). 2006;44:642-6 (Case rep.)

Combined saphenous ablation and iliac stent placement for complex severe chronic venous disease (Neglén et al). 2006;44:828-33

Combined surgical and endovascular treatment of aortic arch aneurysms (Saleh and Inglese). 2006;44:460-6, 460.e1-e8

Comparison of embozilation protection device-specific technical difficulties during carotid artery stenting (Powell et al). 2006;44:56-61

Correction of symptomatic cerebral malperfusion due to acute type I aortic dissection by transcatheter stenting of the innominate and carotid arteries (Roseborough et al). 2006;44:1090-5 (Case rep.)

Do device characteristics impact outcome in carotid artery stenting (Hart et al); (Becquemin) (Commentary). 2006;44:725-31

Endovascular occlusion of right to left arteriovenous shunt associated with persistent left superior vena cava (Kougias et al). 2006;44:875-8 (Case rep.)

Endovascular stenting of ascending lumbar veins for refractory inferior vena cava occlusion (Healey et al). 2006;44:879-81 (Case rep.)

Endovascular treatment of obliterator hepatocavopathy with inferior vena cava occlusion and renal vein thrombosis (Thompson et al). 2006;44:206-9 (Case rep.)

Endovascular treatment of the descending thoracic aorta in a patient with a hydatid pseudoaneurysm (Volpe et al). 2006;44:1996-9 (Case rep.)

The evolving impact of microfabrication and nanofabrication technologies on stent design (Caves and Chaikof). 2006;44:1363-8

Stenting; see Constriction, pathologic

Stents
Aortic necks of ruptured abdominal aneurysms dilate more than asymptomatic aneurysms after endovascular repair (Badger et al). 2006;44:244-9

Aortoenteric fistula as a late complication of thrombolysis and bare metal stenting for periprosthetic occlusion of aortofemoral bypass (Tshomba et al). 2006;44:408-11 (Case rep.)

Appropriateness of learning curve for carotid artery stenting: an analysis of periprocedural complications (Verzini et al); (Bosiers) (Commentary). 2006;44:1205-12

Blunt femoropopliteal trauma in a child: is stenting a good option? (Angieltta et al) (Case rep.); (Dalsing) (Commentary). 2006;44:201-5

Changing pattern of surgical revascularization for critical limb ischemia over 12 years: endovascular vs open bypass surgery (Kudo et al). 2006;44:304-13

Clinical outcomes and cost comparison of carotid artery angioplasty with stenting versus carotid endarterectomy (Park et al). 2006;44:270-6

Combined open and endovascular treatment of a saccular aneurysm and redundant loop of the internal carotid artery (Trinidad-Hernández et al). 2006;44:642-6 (Case rep.)

Combined saphenous ablation and iliac stent placement for complex severe chronic venous disease (Neglén et al). 2006;44:828-33

Combined surgical and endovascular treatment of aortic arch aneurysms (Saleh and Inglese). 2006;44:460-6, 460.e1-e8

Comparison of embozilation protection device-specific technical difficulties during carotid artery stenting (Powell et al). 2006;44:56-61

Correction of symptomatic cerebral malperfusion due to acute type I aortic dissection by transcatheter stenting of the innominate and carotid arteries (Roseborough et al). 2006;44:1090-5 (Case rep.)

Do device characteristics impact outcome in carotid artery stenting (Hart et al); (Becquemin) (Commentary). 2006;44:725-31

Endovascular occlusion of right to left arteriovenous shunt associated with persistent left superior vena cava (Kougias et al). 2006;44:875-8 (Case rep.)

Endovascular stenting of ascending lumbar veins for refractory inferior vena cava occlusion (Healey et al). 2006;44:879-81 (Case rep.)

Endovascular treatment of obliterator hepatocavopathy with inferior vena cava occlusion and renal vein thrombosis (Thompson et al). 2006;44:206-9 (Case rep.)

Endovascular treatment of the descending thoracic aorta in a patient with a hydatid pseudoaneurysm (Volpe et al). 2006;44:1996-9 (Case rep.)

The evolving impact of microfabrication and nanofabrication technologies on stent design (Caves and Chaikof). 2006;44:1363-8

Stenting; see Constriction, pathologic

Stents
Aortic necks of ruptured abdominal aneurysms dilate more than asymptomatic aneurysms after endovascular repair (Badger et al). 2006;44:244-9

Aortoenteric fistula as a late complication of thrombolysis and bare metal stenting for periprosthetic occlusion of aortofemoral bypass (Tshomba et al). 2006;44:408-11 (Case rep.)

Appropriateness of learning curve for carotid artery stenting: an analysis of periprocedural complications (Verzini et al); (Bosiers) (Commentary). 2006;44:1205-12
cerebral artery (Sfyroeras et al); (Makaroun) (Commentary). 2006;44:1015-21
Late type III endoleak from graft erosion of an Excluder stent graft: a case report (Lee et al). 2006;44:183-5 (Case rep.)
Management of aneurysms involving branches of the celiac and superior mesenteric arteries: a comparison of surgical and endovascular therapy (Sachdev et al). 2006;44:718-24
Mid-term results of endovascular aneurysm repair with branched and fenestrated endografts (Muls et al). 2006;44:9-15
Noninvasive investigation of autonomic activity after carotid stenting or carotid endarterectomy (Yakhou et al). 2006;44:472-9
Obstructive lesions of the inferior vena cava: clinical features and endovenous treatment (Raju et al). 2006;44:820-7
One-year prospective quality-of-life outcomes in patients treated with angioplasty for symptomatic peripheral arterial disease (Kalbaugh et al). 2006;44:296-303
Outcomes of carotid endarterectomy for asymptomatic stenosis in Sweden are improving: results from a population-based registry (Kragstern et al). 2006;44:79-85
Patient selection for carotid stenting versus carotid endarterectomy: a systematic review (Narins and Illig). 2006;44:661-72 (Review)
Protected carotid stenting in high-surgical-risk patients: the ARChER results (Gray et al); (Mackey) (Commentary). 2006;44:258-69
Risk factors for restenosis after carotid artery angioplasty and stenting (Skelly et al). 2006;44:1009-14
The role of aortic neck dilation and elongation in the etiology of stent graft migration after endovascular abdominal aortic aneurysm repair with a passive fixation device (Litwinski et al). 2006;44:1176-81
Sac behavior after aneurysm treatment with the Gore Excluder low-permeability aortic endoprosthesis: 12-month comparison to the original Excluder device (Haider et al). 2006;44:694-700
Salvage of failed prior endovascular abdominal aortic aneurysm repair with fenestrated endovascular stent grafts (Adam et al). 2006;44:1341-4 (Case rep.)
Successful endovascular management of an acute iliac venous injury during lumbar discectomy and anterior spinal fusion (Schnieder et al). 2006;44:1353-6 (Case rep.)
Stroke; see Cerebrovascular accident
Superior mesenteric artery; see Mesenteric artery, superior
Surgical Ethics Challenges
Ethics and professionalism: do we need yet another surgeons’ charter? (Jones et al). 2006;44:903-6
My brother’s keeper: uncompensated care for illegal immigrants (Jones et al). 2006;44:679-82
Painted into a corner: unexpected complications in treating a Jehovah’s Witness (Jones et al). 2006;44:425-8
Relationship funding of professional foundations: just a new black sheep? (Jones and McCullough). 2006;44:1125-7
To inform or not to inform: how should the surgeon proceed when the patient refuses to discuss the surgical risk? (Corfield). 2006;44:219-21
Surgical flaps
Regarding “Preservation of infected and exposed vascular grafts using vacuum assisted closure (VAC) without muscle flap coverage” (Brehm). 2006;44:226. Correction 2006;44:1138
Regarding “Preservation of infected and exposed vascular grafts using vacuum assisted closure without muscle flap coverage” (Brehm (Letter); (Dosluoglu et al) (Reply). 2006;44:226
Surgical instruments
Complications associated with the Angioseal arterial puncture closing device: intra-arterial deployment and occlusion by dissected plaque (Dregelid et al). 2006;44:1357-9 (Case rep.)
Surgical procedures, elective
External validation of the Glasgow Aneurysm Score to predict outcome in elective open abdominal aortic aneurysm repair (Hirzalla et al); (Willems and Blankensteijn) (Commentary). 2006;44:712-17
The influence of aneurysm size on perioperative cardiac outcome in elective open infrarenal aortic aneurysm repair (Schouten et al). 2006;44:435-41
Tetraplegia after elective abdominal aortic aneurysm repair (Moore and Klimach). 2006;44:401-3 (Case rep.)
Surgical wound infection
Regarding “Preservation of infected and exposed vascular grafts using vacuum assisted closure without muscle flap coverage” (Brehm (Letter); (Dosluoglu et al) (Reply). 2006;44:226
Sustained-release; see Delayed-action preparation
T
Takayasu’s arteritis
Large renal artery aneurysm in Takayasu arteritis (Matsubara et al). 2006;44:1106-8 (Case rep.)
Technetium-99m apcitide; see Organotechnetium compounds; Peptides, cyclic
Technical Notes
Technical Notes. 2006;44:211-15, 889-91
Temporal arteritis
Clinical presentation and vascular imaging in giant cell arteritis of the femoropopliteal and tibioperoneal arteries. Analysis of four cases (Tato and Hoffmann). 2006;44:176-82 (Case rep.)
Regarding “Giant-cell temporal arteritis in a 17-year-old male” (Morovic-Vergles). 2006;44:1132 (Letter)
Tetraplegia; see Quadriplegia
Thoracic aortic aneurysm; see Aortic aneurysm, thoracic
Thrombectomy
Acute pancreatitis a complication associated with rheolytic mechanical thrombectomy of deep venous thrombosis (Piercy et al). 2006;44:1109-12 (Case rep.)
Thromboangiitis obliterans
Autologous bone-marrow mononuclear cell implantation for patients with Rutherford grade II-III thromboangiitis obliterans (Durdu et al). 2006;44:732-9
Thrombolytic therapy
Aortoenteric fistula as a late complication of thrombolysis and bare metal stenting for perioperative occlusion of aortoenteral bypass (Tshomba et al). 2006;44:408-11 (Case rep.)
Thromboprophylaxis
Regarding “Diffuse phlegmonous phlebitis after endovenous laser treatment of the great saphenous vein” (Ravi and Diethrich) (Letter); (Dunst et al) (Reply). 2006;44:912-13
Thrombosis
Evaluation of the accuracy of a wireless pressure sensor in a
canine model of retrograde-collateral (type II) endoleak and correlation with histologic analysis (Chaer et al). 2006; 44:1306-13
The evolving impact of microfabrication and nanofabrication technologies on stent design (Caves and Chaikof). 2006; 44:1363-8
Peripheral arterial disease versus other localizations of vascular disease: the ATTEST study (Blacher et al). 2006; 44:314-18
Thymidine phosphorylase
Platelet-derived endothelial cell growth factor gene therapy for limb ischemia (Yamada et al). 2006;44:1322-8
Tibial arteries
Clinical presentation and vascular imaging in giant cell arteritis of the femoropopliteal and tibiotibial arteries. Analysis of four cases (Tatò and Hofmann). 2006; 44:176-82 (Case rep.)
Endovascular management of acute critical ischemia secondary to blunt tibial artery injury (Alvarez-Tostado et al). 2006; 44:1100-2 (Case rep.)
Tissue adhesives
Prospective randomized study evaluating an absorbable cyanoacrylate for use in vascular reconstructions (Lumsden and Heyman); (Valentine) (Commentary). 2006;44:1001-8, 1001.e1-e10
Tissue engineering
Preliminary experience with tissue engineering of a venous vascular patch by using bone marrow–derived cells and a hybrid biodegradable polymer scaffold (Cho et al). 2006; 44:1329-40
Tissue harvesting
Compromised bypass graft outcomes after minimal-incision vein harvest (Pullatt et al). 2006;44:289-95
Congenital absence of the inferior vena cava: a rare risk factor for idiopathic deep-vein thrombosis (Simon et al); (Erdoes) (Commentary). 2006; 44:416-18
Endoscopic versus open saphenous vein harvest for femoral to below the knee arterial bypass using saphenous vein graft (Gazoni et al). 2006; 44:282-8
Tissue inhibitor of metalloproteinase-2
Effects of tissue inhibitor of metalloproteinase 2 deficiency on aneurysm formation (Xiong et al). 2006; 44:1060-5
Toe
Comparison of new continuous measurements of ambulatory venous pressure (AVP) with conventional tiptoe exercise ambulatory AVP in relation to the CEAP clinical classification of chronic venous disease (Eifell et al). 2006;44:794-802
Toll-like receptor 4
Synergistic effect of toll-like receptor 4 and CD14 polymorphisms on the total atherosclerosis burden in patients with peripheral arterial disease (Vainas et al). 2006;44:326-32
Tomography, x-ray computed
Computed tomographic angiography has added value in patients with vascular disease (McDougall et al). 2006; 44: 997-1000
Delayed evaluation of combat-related penetrating neck trauma (Fox et al). 2006;44:86-93
Tonometry; see Manometry
Transcription factor
An engineered vascular endothelial growth factor-activating transcription factor induces therapeutic angiogenesis in ApoE knockout mice with hindlimb ischemia (Xie et al). 2006;44:166-75
Transient ischemic attack; see Ischemic attack, transient
Transplantation, autologous
Percutaneous transplantation of genetically-modified autologous fibroblasts in the rabbit femoral artery: a novel approach for cardiovascular gene therapy (Mazighi et al). 2006;44:1066-74, 1066.e1-e11
Preliminary experience with tissue engineering of a venous vascular patch by using bone marrow–derived cells and a hybrid biodegradable polymer scaffold (Cho et al). 2006; 44:1329-40
Transplantation, homologous
A systematic review and meta-analysis of treatments for aortic graft infection (O’Connor et al). 2006;44:38-45, 38.e1-e16
Systematic review of preservation methods and clinical outcome of infrainguinal vascular allografts (Fahner et al). 2006;44:518-24
Trauma; see also Wounds and injuries
Travel
Prevention of air travel–related deep venous thrombosis with mechanical devices: active foot movements produce similar hemodynamic effects (Lurie et al). 2006;44:889-91 (Tech. Note)
Treatment outcome; see also Outcome assessment (health care)
Chronic venous leg ulcers benefit from surgery: long-term results from 173 legs (Obermayer et al). 2006;44:572-9
Duplex-guided endovascular treatment for occlusive and stenotic lesions of the femoral-popliteal arterial segment: a comparative study in the first 253 cases (Ascher et al); (Bandyk) (Commentary). 2006;44:1230-8
Early carotid endarterectomy in symptomatic patients is associated with poorer perioperative outcomes (Rockman et al); (Mackey) (Commentary). 2006;44:480-7
Endovascular aneurysm repair at 5 years: does aneurysm diameter predict outcome? (Zarins et al); (Fillinger) (Commentary). 2006;44:920-31
An implantable carotid sinus stimulator for drug-resistant hypertension: surgical technique and short-term outcome from the multicenter phase II Rheos feasibility trial (Illig et al). 2006;44:1213-18, 1213.e1-e7
Is emergency endovascular aneurysm repair associated with higher secondary intervention risk at mid-term follow-up? (Oranen et al). 2006;44:1156-61, 1156.e1-e30
Mid-term recurrence rate of incompetent perforating veins after combined superficial vein surgery and subfascial endoscopic perforating vein surgery (Roka et al). 2006; 44:359-63
Sac behavior after aneurysm treatment with the Gore Excluder low-permeability aortic endoprosthesis: 12-month comparison to the original Excluder device (Haider et al). 2006; 44:694-700
Trends in the in-hospital stroke rate following carotid endarterectomy in California and Maryland (Matsen et al). 2006;44:888-95

**Tuberculosis, cutaneous**
Tuberculous pseudoaneurysm of the femoral artery complicated by cutaneous tuberculosis of the foot: a case report (Lecce et al). 2006;44:654-7 (Case rep.)

**Tunica intima**
Controlled release of small interfering RNA targeting midkine attenuates intimal hyperplasia in vein grafts (Banno et al). 2006;44:633-41
Inhaled carbon monoxide inhibits intimal hyperplasia and provides added benefit with nitric oxide (Raman et al). 2006;44:151-8

**Vacuum**
Regarding “Preservation of infected and exposed vascular grafts using vacuum assisted closure without muscle flap coverage” (Brehm (Letter); (Doshiouglu et al) (Reply). 2006;44:226
State-of-the-art treatment of chronic leg ulcers: a randomized controlled trial comparing vacuum-assisted closure (V.A.C.) with modern wound dressings (Vuerstack et al); (Lindsay) (Commentary). 2006;44:1028-37

**Vancomycin**
Sustained-release vancomycin sheet may help to prevent prothetic graft methicillin-resistant Staphylococcus aureus infection (Hirose et al). 2006;44:377-82

**Varicose ulcer**
Chronic venous leg ulcers benefit from surgery: long-term results from 173 legs (Obernauer et al). 2006;44:572-9
Conservative versus surgical treatment of venous leg ulcers: a prospective, randomized, multicenter trial (van Gent et al); (Neglen) (Commentary). 2006;44:563-71

**Varicose veins**
Age-related variations of varicose veins anatomy (Caggiati et al). 2006;44:1291-5
Early and late complications of silicone patch saphenoplasty at the saphenofemoral junction (De Maeseneer et al). 2006;44:1285-90
Endovenous ablation of the great saphenous vein may avert phlebectomy for branch varicose veins (Welch). 2006;44:601-5
Neovascularization: an “innocent bystander” in recurrent varicose veins (Egan et al). 2006;44:1279-84
The nonsaphenous vein of the popliteal fossa: prevalence, patterns of reflux, hemodynamic quantification, and clinical significance (Delis et al). 2006;44:611-19
Regarding “Stroke after varicose vein foam injection sclerotherapy” (Morrison et al) (Letter); (Forlee et al) (Reply). 2006;44:224-6
Residual varicose veins below the knee after varicose vein surgery are not related to incompetent perforating veins (van Neer et al). 2006;44:1050-3

**Vascular diseases**
American Venous Forum: the future is now! (Wakefield). 2006;44:216-18 (Presidential address)
Combined saphenous ablation and iliac stent placement for complex severe chronic venous disease (Neglen et al). 2006;44:828-33
Comparison of new continuous measurements of ambulatory venous pressure (AVP) with conventional tiptoe exercise ambulatory AVP in relation to the CEAP clinical classification of chronic venous disease (Eifell et al). 2006;44:794-802
Computed tomographic angiography has added value in patients with vascular disease (McDougal et al). 2006;44:997-1000
Endovascular occlusion of right to left arteriovenous shunt associated with persistent left superior vena cava (Kougias et al). 2006;44:875-8 (Case rep.)
Endovascular stenting of ascending lumbar veins for refractory inferior vena cava occlusion (Healey et al). 2006;44:879-81 (Case rep.)
High prevalence of nonthrombotic iliac vein lesions in chronic venous disease: a permissive role in pathogenicity (Raju and Neglen); (Gagne) (Commentary). 2006;44:136-44
proach for cardiovascular gene therapy (Mazighi et al). 2006;44:1066-74, 1066.e1-e11

Vascular endothelial growth factor A
An engineered vascular endothelial growth factor-activating transcription factor induces therapeutic angiogenesis in ApoE knockout mice with hindlimb ischemia (Xie et al). 2006;44:166-75

Vascular images
AnEURysm of the celiac artery arising from a celiacomesenteric trunk (Matsuda et al). 2006;44:660
Bilateral obturator bypass for combined aortic and femoro-femoral graft infection (Thompson et al). 2006;44:888
Congenital absence of the inferior vena cava: a rare risk factor for idiopathic deep-vein thrombosis (Simon et al); (Erdoes) (Commentary). 2006;44:416-18
Infrarenal aortic coarctation in a 15-year-old with claudication (Fitzpatrick et al). 2006;44:1116, 1116.e1-e2
Popliteal venous aneurysm (Velu et al); (Carpenter and Woo) (Commentary). 2006;44:1360-2
Venous ulceration and basal cell carcinoma: coincident or synergistic (Patel et al). 2006;44:210

Vascular neoplasms
Clinical results of surgery for retroperitoneal sarcoma with major blood vessel involvement (Schwarzbach et al). 2006;44:46-55

Vascular patency
Compromised bypass graft outcomes after minimal-incision vein harvest (Pullatt et al). 2006;44:289-95
Critical parameter of burst pressure measurement in development of bypass grafts is highly dependent on methodology used (Sarkar et al). 2006;44:846-52
Duplex ultrasound criteria for femorofemoral bypass revision (Stone et al). 2006;44:496-502
Early biomechanical changes in lower extremity vein grafts—distinct temporal phases of remodeling and wall stiffness (Owens et al). 2006;44:740-6
InterGard silver bifurcated graft: features and results of a multicenter clinical study (Ricco). 2006;44:339-46
Meta-analysis of femoropopliteal bypass grafts for lower extremity arterial insufficiency (Peireira et al). 2006;44:510-17, 510.e1-e11
The potassium channel opener levcromakalim causes expansive remodelling of experimental vein grafts (Wales et al). 2006;44:159-65
Systematic review of preservation methods and clinical outcome of infraringuinal vascular allografts (Fahner et al). 2006;44:518-24

Vascular surgical procedures
Adjuvant arteriogenous fistula as means of rescue for infrapopliteal venous bypass with poor runoff (Laurila et al); (Perler) (Commentary). 2006;44:984-91
Aortic fenestration for chronic aortic dissection type B complicated by transient ischemic attacks of spinal cord (Altuwajri et al). 2006;44:186-93 (Case rep.)
Blunt femoropopliteal trauma in a child: is stenting a good option? (Angiletta et al) (Case rep.); (Dalsing) (Commentary). 2006;44:201-5
Chronic venous leg ulcers benefit from surgery: long-term results from 173 legs (Obernayer et al). 2006;44:572-9
Combined open and endovascular treatment of a saccular aneurysm and redundant loop of the internal carotid artery (Trinidad-Hernández et al). 2006;44:642-6 (Case rep.)
Combined surgical and endovascular treatment of aortic arch aneurysms (Saleh and Inglese). 2006;44:460-6, 460.e1-e8
A comparison of the changes in generic quality of life after superficial venous surgery with those after laparoscopic cholecystectomy (Sam et al). 2006;44:606-10
Conservative versus surgical treatment of venous leg ulcers: a prospective, randomized, multicenter trial (van Gent et al); (Neglen) (Commentary). 2006;44:563-71
Duplex ultrasound criteria for femorofemoral bypass revision (Stone et al). 2006;44:496-502
Early and late complications of silicone patch saphenoplasty at the saphenofemoral junction (De Maeseneer et al). 2006;44:1285-90
Effects of external valvuloplasty of the deep vein in the treatment of chronic venous insufficiency of the lower extremity (Wang et al). 2006;44:1296-300
The effects of the type of anesthesia on outcomes of lower extremity infraringuinal bypass (Singh et al). 2006;44:964-70
Endovascular abdominal aortic aneurysm repair: long-term outcome measures in patients at high risk for open surgery (Sicard et al); (Butk) (Commentary). 2006;44:229-36
Endovascular aneurysm repair at 5 years: does aneurysm diameter predict outcome? (Zarins et al); (Fillinger) (Commentary). 2006;44:920-31
Endovascular management of acute critical ischemia secondary to blunt tibial artery injury (Alvarez-Tostado et al). 2006;44:1100-2 (Case rep.)
Evolving strategies for the treatment of aortoenteric fistulas (Baril et al). 2006;44:250-7
The EXercise versus Angioplasty in Claudication Trial (EXACT): reasons for recruitment failure and the implications for research into and treatment of intermittent claudication (Hobbs and Bradbury). 2006;44:432-3 (Letter)
External validation of the Glasgow Aneurysm Score to predict outcome in elective open abdominal aortic aneurysm repair (Hirzalla et al); (Willems and Blankensteijn) (Commentary). 2006;44:712-17
The hybrid elephant trunk procedure: a single-stage repair of an ascending, arch, and descending thoracic aortic aneurysm (Azizzadeh et al). 2006;44:404-7 (Case rep.)
The influence of aneurysm size on perioperative cardiac outcome in elective open infrarenal aortic aneurysm repair (Schouten et al). 2006;44:435-41
An intention-to-treat by endovascular repair policy may reduce overall mortality in ruptured abdominal aortic aneurysm (Aria et al). 2006;44:467-71
Management of aneurysms involving branches of the celiac and superior mesenteric arteries: a comparison of surgical and endovascular therapy (Sachdev et al). 2006;44:718-24
Mid-term recurrence rate of incompetent perforating veins after combined superficial vein surgery and subfascial endo-
Neovascularization: an “innocent bystander” in recurrent varicose veins (Egan et al). 2006;44:1279-84

Outcome after hypogastric artery bypass and embolization during endovascular aneurysm repair (Lee et al). 2006;44:1162-9

Pay for performance: the process and its evolution (Sidawy). 2006;44:892-902 (Presidential Address)

Pediatric renovascular hypertension: 123 primary and 30 secondary operations in 97 children (Stanley et al). 2006;44:1219-29

Prospective multicenter study of quality of life before and after lower extremity vein bypass in 1404 patients with critical limb ischemia (Nguyen et al); (Mills) (Commentary). 2006;44:977-85

Prospective randomized study evaluating an absorbable cyanoacrylate for use in vascular reconstructions (Lumsden and Heyman); (Valentine) (Commentary). 2006;44:1001-8, 1001.e1-e10

Regarding “Current results of open surgical repair of descending thoracic aortic aneurysms” (Dalainas) (Letter); (Black and Cambria) (Reply). 2006;44:226-7

Regarding “Preservation of infected and exposed vascular grafts using vacuum assisted closure without muscle flap coverage” (Brehm) (Letter); (Dosluoglu et al) (Reply). 2006;44:226

Residual varicose veins below the knee after varicose vein surgery are not related to incompetent perforating veins (van Neer et al). 2006;44:1050-3

Robot-assisted aortoiliac reconstruction: a review of 30 cases (Śtadler et al). 2006;44:915-19

A single-center experience in open and endovascular treatment of hemodynamically unstable and stable patients with ruptured abdominal aortic aneurysms (Coppi et al). 2006;44:1140-7

Tetraplegia after elective abdominal aortic aneurysm repair (Moore and Klimach). 2006;44:401-3 (Case rep.)

United we stand: one voice, one powerful brand (Ascher). 2006;44:673-8 (Presidential Address)

Vascular reconstruction using deep vein for limb length discrepancy in a child (Broker and Clagett). 2006;44:398-400 (Case rep.)

Venous reconstruction in lower limbs associated with resection of malignancies (Nishinari et al). 2006;44:1045-9

Vasoconstriction

Iodinated contrast induced renal vasoconstriction is due in part to the downregulation of renal cortical and medullary nitric oxide synthesis (Myers et al). 2006;44:383-91

Vena cava, inferior

Agenesis of the inferior vena cava associated with lower extremities and pelvic venous thrombosis (Gil et al). 2006;44:1113-15 (Case rep.)

Clinical outcome and complications of temporary inferior vena cava filter placement (Miyahara et al). 2006;44:620-4

Congenital absence of the inferior vena cava: a rare risk factor for idiopathic deep-vein thrombosis (Simon et al); (Erdöcs) (Commentary). 2006;44:416-18

Endovascular stenting of ascending lumbar veins for refractory inferior vena cava occlusion (Healey et al). 2006;44:879-81 (Case rep.)

Endovascular treatment of obiterative hepatocavopathy with inferior vena cava occlusion and renal vein thrombosis (Thompson et al). 2006;44:206-9 (Case rep.)

Experience with inferior vena cava filter placement in patients undergoing open gastric bypass procedures (Gargiulo et al). 2006;44:1301-5

Obstructive lesions of the inferior vena cava: clinical features and endovenous treatment (Raju et al). 2006;44:820-7

The potassium channel opener levcomakalim causes expansive remodelling of experimental vein grafts (Wales et al). 2006;44:159-65

Treatment with an oral small molecule inhibitor of P selectin (PSI-697) decreases vein wall injury in a rat stenosis model of venous thrombosis (Myers et al). 2006;44:625-32

Vena cava, superior

Endovascular occlusion of right to left arteriovenous shunt associated with persistent left superior vena cava (Kougias et Heyman). 2006;44:875-8 (Case rep.)

Vena cava filters

Clinical outcome and complications of temporary inferior vena cava filter placement (Miyahara et al). 2006;44:620-4

Experience with inferior vena cava filter placement in patients undergoing open gastric bypass procedures (Gargiulo et al). 2006;44:1301-5

Protected carotid stenting in high-surgical-risk patients: the ARCHeR results (Gray et al); (Mackey) (Commentary). 2006;44:258-69

Venous insufficiency

Association of 24-hour activity levels with the clinical severity of chronic venous disease (Eifell et al); (Forbes) (Commentary). 2006;44:580-7, 580.e1-e8

Clinical presentation and venous severity scoring of patients with extended deep axial venous reflux (Gillet et al). 2006;44:588-94

Comparison of new continuous measurements of ambulatory venous pressure (AVP) with conventional tiptoe exercise ambulatory AVP in relation to the CEAP clinical classification of chronic venous disease (Eifell et al). 2006;44:794-802

Effects of external valvuloplasty of the deep vein in the treatment of chronic venous insufficiency of the lower extremity (Wang et al). 2006;44:1296-300

Endovascular management of acute critical ischemia secondary to blunt tibial artery injury (Alvarez-Tostado et al). 2006;44:1100-2 (Case rep.)

Meta-analysis of femoropopliteal bypass grafts for lower extremity arterial insufficiency (Pereira et al). 2006;44:510-17, 510.e1-e11

Metabolic syndrome in peripheral arterial disease: relationship with severity of peripheral circulatory insufficiency, inflammatory status, and cardiovascular comorbidity (Brevetti et al); (Davies) (Commentary). 2006;44:101-7

Mid-term recurrence rate of incompetent perforating veins
after combined superficial vein surgery and subfascial endoscopic perforating vein surgery (Roka et al). 2006;44:359-63

Natural history of limbs with arterial insufficiency and chronic ulceration treated without revascularization (Marston et al). 2006;44:108-14, 108.e1-e8

Reduced recanalization rates of the great saphenous vein after endovenous laser treatment with increased energy dosing: definition of a threshold for the endovenous fluence equivalent (Proebstle et al). 2006;44:834-9

Venous pressure

Comparison of new continuous measurements of ambulatory venous pressure (AVP) with conventional tiptoe exercise ambulatory AVP in relation to the CEAP clinical classification of chronic venous disease (Eifell et al). 2006;44:794-802

Forearm cephalic vein cross-sectional area changes at incremental congestion pressures: towards a standardized and reproducible vein mapping protocol (Planken et al). 2006;44:353-8

Venous thrombosis

Acute pancreatitis a complication associated with rheologic mechanical thrombectomy of deep venous thrombosis (Percy et al). 2006;44:1109-12 (Case rep.)

Adenosine urokinase-type plasminogen activator (uPA) gene transfer enhances venous thrombus resolution (Gossage et al). 2006;44:1084-9

Agenesis of the inferior vena cava associated with lower extremities and pelvic venous thrombosis (Gil et al). 2006:44:1113-15 (Case rep.)

Congenital absence of the inferior vena cava: a rare risk factor for idiopathic deep-vein thrombosis (Simon et al); (Erdoes) (Commentary). 2006;44:416-18

Cystic adventitial disease of the femoral vein presenting as deep vein thrombosis: a case report and review of the literature (Dix et al). 2006;44:871-4 (Case rep.)

Endovascular treatment of oblitative hepatocavopathy with inferior vena cava occlusion and renal vein thrombosis (Thompson et al). 2006;44:206-9 (Case rep.)

The influence of inflation rate on the hematologic and hemodynamic effects of intermittent pneumatic calf compression for deep vein thrombosis prophylaxis (Morris et al). 2006;44:1038-44

Predicting adverse outcome in outpatients with acute deep vein thrombosis. Findings from the RIETE Registry (Trujillo-Santos et al). 2006;44:783-93

Prevention of air travel–related deep venous thrombosis with mechanical devices: active foot movements produce similar hemodynamic effects (Lurie et al). 2006;44:889-91 (Tech. Note)

Treatment with an oral small molecule inhibitor of P selectin (PSI-697) decreases vein wall injury in a rat stenosis model of venous thrombosis (Myers et al). 2006;44:625-32

Walking

Lack of relationship between gait parameters and physical function in peripheral arterial disease (Scherer et al). 2006;44:782-8

War

Delayed evaluation of combat-related penetrating neck trauma (Fox et al). 2006;44:86-93

Wound healing

Influence of gene polymorphisms in ulcer healing process after superficial venous surgery (Gemmati et al). 2006;44:554-62

Natural history of limbs with arterial insufficiency and chronic ulceration treated without revascularization (Marston et al). 2006;44:108-14, 108.e1-e8

Reduced recanalization rates of the great saphenous vein after endovenous laser treatment with increased energy dosing: definition of a threshold for the endovenous fluence equivalent (Proebstle et al). 2006;44:834-9
